Advertising.
For a Square (1 inch) or less, one or three insertions $1, each following insertion 25 cents, one week $1.50, one month $3, three months $6, six months $8, one year $10. These are Daily rates—and no advertisements receive more than one insertion in the Weekly (Gazette) without special order and charge.
Funeral Notices, and Advertisements of articles Lost and Found, &c., 50 cents.
Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity and throughout the State. ☞ Liberal terms for yearly advertising.

Rates of Advertising,
IN THE DAILY CHRONICLE.
For 1 "SQUARE" of 300 ems nonpareil type, equal to 12 lines or 90 words (7½ words averaging a line) or one inch by measure,—one or three insertions $1; each subsequent insertion 25 cents; $3 for a month, $5 for three months, $8 for six months, $15 per year. For inside advertising, per month or year, one-half more.
For a Column, (18 Squares) per year, inside $330, outside $150.
Transient advertisements, for alternate insertions, charged one-half more per insertion. By the month or year, advertisements for every other day, charged one-third less than full rates.
Cuts charged double their measure, and inserted on fourth page only.
Advertisements in large, reading matter type charged double per Square, the smaller type.
"Special Notices" double the common rates.
Leaded notices in editorial columns, 10 cents per line, each insertion; and no advertisement of fact or opinion, will be adopted or endorsed as editorial, unless within the knowledge or belief of the editors.
Solid notices in reading matter type and columns, and having "credits" attached, 5 cents per line, each insertion. After first hundred lines, 3 cents per line.
Notices of Funerals, articles Lost and Found, &c., 50 cts. for one or three insertions. Records of Marriages, Births and Deaths should also be paid for; and a similar fee will be accepted when proffered.
☞ All papers more than one copy per week, sent to advertisers, will be charged for.
Probate Notices and other Legal advertising at regular rates.
Terms always Cash, and no advertisement inserted without advance payment, except where accounts are open.
Portsmouth, N. H., 1863.

Rates of Advertising,
IN THE NEW HAMPSHIRE GAZETTE.
(Weekly.)
For 1 "SQUARE" of 300 ems nonpareil type, equal to 12 lines or 90 words (7½ words averaging a line) or one inch by measure,—one or three insertions $1; each subsequent insertion 25 cents; $3 for six months, $5 per year.
For a Column, (18 Squares) per year, inside $100, outside $70.
☞ All papers more than one copy per month, sent to advertisers, will be charged for.
N. B.—"THE DAILY CHRONICLE" and "THE NEW HAMPSHIRE GAZETTE" are two distinct papers, having separate and entirely different circulations; and no joint arrangements will be made for advertising in both, other than on the above double terms. Contracts for advertising in the two papers, must be separately made.

S. R. Niles, American Newspaper Advertising Agent, No. 1 Scollay's Buildings, Court Street, Boston, is Agent for the Chronicle and The Gazette; and is authorized to receipt for subscriptions and advertisements at our best terms.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, APRIL 5, 1864.

THE REBELLION.

Gen. Grierson's cavalry are trying to intercept Forrest, and may be able to prevent the rebel force under McCullough from joining him. Forrest's force are said to be scattered in different parts of Kentucky.

There have been taken to New Orleans from Alexandria 122 bales of cotton and 300 rebel prisoners, including 25 officers, captured on the 21st ult., 28 miles back of Alexandria. The gunboats having commenced destroying property, the troops now follow the example, and the inhabitants destroy all private cotton to prevent its falling into our hands. Among the prisoners is Gen. Dick Taylor's chief of staff.

Our army was still pushing up Red river, Mar. 26th.

Gen. Steele and his forces, 15,000 strong, left Little Rock, Ark., Mar. 23d, and will unite with the troops from Fort Smith at some point in the Southeastern part of the State.

Gen. Brayman has issued orders to prevent the shipment of goods to the interior of Western Kentucky, and to prevent boats from landing at dangerous places, and also for the better protection of the public property by the expulsion of persons having no visible means of support from posts in the district, who may be traitors, spies, &c.

Thirty-four men were drowned by the swamping of boats during the evacuation of Indianola, Texas, by our troops, on the 13th ult.

The Louisville Journal expresses a fear that Forrest has gone to attack Fort Donelson, on the Cumberland River. Fort Donelson is an inviting point for attack at this particular time. The garrison is small, and the resistance against overpowering numbers would necessarily be feeble.

There is a doubtful rumor of the capture of Shreveport, La., Mar. 17, after 10 hours' fighting, by Gen. Steele.

Over 4000 bales of cotton have been captured by our gunboats on the Red river. The rebels burnt 3000 bales with the steamer Falls City.

Gov. Morton has ordered the entire Indiana Legion to be ready to take the field at any moment to repel invasion.

A dispatch from Knoxville, Tenn., states that Gen. Stoneman has advanced to Bull's Gap.

— The New York Seventh Regiment has contributed $10,000 to the Sanitary Fair.

— The military authorities at Louisville are said to have no apprehension of an extensive rebel raid into Kentucky at present.

— Lieut. S. C. Adams, of the U. S. Marine Corps, was drowned at Cairo, Ill., on Friday night.

— New York hotels have advanced their prices for board to five dollars per diem during the Fair, butter included.

— 700,000 persons, it is said, go into London every day on business, and leave it the same night.

— Vessels suitable for the coasting and fishing business are bringing high prices at present.

— Beauregard has been given an embroidered velvet smoking cap and slippers by Miss Mary Weldon, of Mobile, Ala., which he duly acknowledged as well done.

— The debris in the cellars of the burnt district, at Gloucester, Mass., was still smoking during the rain of Friday, forty-three days after the fire.

— Proprietors of buildings in Gloucester, Mass., which were blown up to prevent the spread of the recent great fire, have sued the town for damages over and above the amount of their insurance.

— A citizen of New York State, extensively engaged in the telegraph enterprise, received on the 1st of January as an annual dividend $470,000. Wonder if he growls at his income tax?

— Miss Mary C. Walker, M. D., has been ordered to report for duty at Gordon's Mills, Tenn., where she is to be attached to a brigade in Gen. Davis's division. It is to be hoped so extensive an attachment will be mutual.

— It is stated that a large quantity of green tea was bought from the Bohemian wreck at $1 a chest. The chests were water tight or nearly so. A New Yorker took the tea to his own city, sold it for $1 50 per lb. and made $7,500 in the operation.

— Major Gee, commanding the garrison at Fort Morgan, Mobile harbor, has libelled the steamer Denbigh for salvage to the amount of $300,000; she having fallen into distress under the guns of the fort while attempting to run the blockade on a foggy night.

— The steam frigate Niagara, which has just returned from a fifteen days' search after the Italian frigate, has disappointed every one as to her sea-going qualities, and has proved herself to be in her present condition not only an uncomfortable ship, but a positively unsafe vessel in any heavy weather. So says the N. Y. Herald.

NEW HAMPSHIRE ITEMS.

—— Exeter gives $200 bounty to its re-enlisted Veterans.

—— The Concord Police have presented to City Marshal Pickering of that city, a handsome silver badge.

—— The session of the Governor and State Council adjourned on Friday to April 19th.

—— Acting Assistant Surgeon Howard M. Randlett, U. S. N., of Stratham, has been detached from the Ohio at Charlestown, and ordered to the Unadilla.

—— In Newmarket, on the 1st inst., Wm. Burleigh, son of John Burleigh, was killed by the falling of the elevator from the upper room of the factory, a distance of more than forty feet. He had just placed a heavy load upon the elevator and stepped on to descend with it; the chain broke while near the upper floor, and he with the load was precipitated to the bottom, the end of the chain striking him on the head breaking his neck. He was instantly killed.

"SUNSHINE" is the title of a well printed pamphlet, written by Mrs. Caroline H. Dall, and published by Walker, Wise & Co. It is the substance of a popular lecture on health, and after succeeding in improving and pleasing audiences, it will now doubtless exert a beneficial effect among readers. Many intelligent persons will be surprised that they should have overlooked conditions of health which are obvious the moment they are stated, and which are here stated with clearness and pungency. The Sun, in addition to his other honors, deserves to have a medical diploma, as he shines without fee, and heals as he shines.—A dose of sunshine, taken directly from the sky, is both pleasant and more curative than any drug from the apothecary's shop. It is the only "universal panacea," and it cannot be patented like the panaceas of the quacks. Mrs. Dall's lecture gives the proper directions for its use.

☞ The following was the vote in the Senate on the amendment to strike out the word "white" in the clause defining the qualifications of voters and eligibility to office within the new territory of Montana:

Yeas—Messrs. Brown, Chandler, Clark, Collamer, Connes, Dixon, Fessenden, Foot, Foster, Grimes, Ball, Harlan, Harris, Howard, Howe, Pomeroy, Morgan, Morrill, Ramsay, Sumner, Wade, and Wilson—22.

Nays—Messrs. Buckalew, Cowan, Carlile, Davis, Harding, Henderson, Johnson, Lane (Ind.), Nesmith, Powell, Riddle, Saulsbury, Sherman, Ten Eyck, Trumbull, Van Winkle and Willey—17.

☞ Rev. John Pierpont, who will be 79 years of age on the 6th of April, and is yet in good health, finished a Digest of the Decisions and Instructions of the Treasury Department to Collectors of Customs, contained in fifty-four folio volumes, which he has reduced to one. This task he has performed with such skill and exactness that it has drawn from the Secretary of the Treasury a letter of approval, and an appointment to a third class clerkship, of $1600. The work noted was commenced in November, 1861, and finished in March, 1864. During the greater part of the time he was engaged in these labors his salary has been but twelve hundred dollars a year.

☞ The story in a Georgia paper concerning the passage of Mrs. J. Todd Whites a sister of Mrs. Lincoln, through our lines, with some articles of great value in rebeldom, was read by that lady prior to her leaving Washington. Major Mulford at Fortress Monroe says the statement does not contain one word of truth, in fact its falsehood was proved by the absurdity of its own statements.

☞ Capt. Mason of the ship Norway, at New York, reports that while at sea a negro made a desperate assault on a sailor and then attempted to blow up the ship by firing the powder magazine, but was shot dead while trying to accomplish the latter act, and thrown overboard. The wounded sailor was taken to the city hospital.

— Grace Greenwood has visited the Potomac army and given four lectures.

— The driver of a steam fire engine in Philadelphia has been fined for fast driving.

— A coffin-maker subscribed for a newspaper the other day, and wanted the editor to take his pay in trade.

— Oysters went up to $4 per gallon in Boston on Saturday, the storm having prevented any arrivals.

— Prof. Anderson, the Prestidigitateur, has recovered from the effects of his late accident.

— An exchange thinks that when a man says "Black as your hat," he means "Darkness that may be *felt*."

— Mrs. Lucy Durivage, a sister of Hon. Edward Everett, died in Jersey City on Friday.

— A French fleet is blockading the Mexican coast strictly from Vera Cruz to Tobasco.

— Mayor Gunther of New York City proclaimed Monday, 4th, a holiday, in honor of the opening of the Sanitary Fair.

— The title of Charles Dickens' new novel is announced to be "Our Mutual Friend."

THE LAST HOURS OF REV. T. STARR KING.—The San Francisco Bulletin gives an account of the sickness and death of Mr. King. He had been unwell for some days, and was taken down on Saturday with pneumonia. He rallied from the first attack, but shortly was attacked by the fatal disease a second time.

The second attack was not more violent than the first, but the patient's strength was so expended that there was little or nothing for medicine to build upon. When the second occurred, he said to the doctor—"What is this? Is this pneumonia, too?" The doctor replied that it was. Mr. King then asked—"Can I survive it?" The doctor told him no; he thought he could not. "How long can I live?" he asked "Not a half hour." "Are you sure I cannot live longer than that?" The doctor told him he feared he could not. Friends then asked if he had anything to say. He replied—"Yes, a great deal to say; I want first to make my will." Up to this time for two or three days, he had not been able to speak above a whisper; but responding to the power of his will, his voice now resumed its old power and tone, and he spoke nearly as loud as ever.

A friend sat by his bedside, and he dictated the will—it was read to him afterward, and he assented to its correctness by saying "all right" at the end of each paragraph, exclaiming at the close: "It is just as I want it." He then hesitated a moment and dictated an important correction. A pen was given him and he signed it in a handwriting as firm and bold as he ever wrote in his life, even punctuating the abbreviation of his name, and putting an accustomed flourish beneath the signature.—Then came the sad task of bidding his friends who were present good bye. One by one they came up to his bedside; in every instance he greeted them with a cheerful smile, as though he were only going on a journey of a day or two, grasping their hands and saying in that sweet, pleasant voice of his: "Good bye!"

Some one asking how he felt, he said: "Happy, resigned, trustful;" then repeating the twenty-third Psalm in a clear and well-modulated voice. At the verse: "Yea, though I walk through the valley of the shadow of death, I will fear no evil, for Thou art with me; thy rod and thy staff they comfort me," he raised his finger and his eyes as calmly as though in his pulpit, his voice as firm and strong as ever. After this exertion his strength seemed to fail him. Sinking back in bed, he said, "It is all right for me, but she will feel it,"—pointing to his wife. Friends again gathered around his bedside, and he bade and smiled them good bye. His little son being brought in, he said: "Dear little fellow—he's a beautiful boy!" kissing his hand to the child as the nurse carried it away in her arms.—This was the last act on earth. Calmly closing his eyes, he seemed to go to sleep.—A great, and good, and generous man was dead.

HON. GREEN CLAY SMITH.—This gentleman delivered an able and bold speech at Lexington, Ky., last Monday. He administered a most salutary castigation of the hypocrisy and malignity of the neutrals and so-called Union Conservatives, who appeal for help to the loyal States whenever the rebels invade Kentucky, and do all they can to bring the rebels back the moment the national troops have driven them out. He took up the subject of drafting negroes in Kentucky, and defended the policy in every point of view. In conclusion, he said he should go into the Baltimore Convention and stand by its nominee, who, he honestly believed, would carry the State of Kentucky. The close of the rebellion, he had no doubt, would be followed by sincere fraternization. For the masses of the Southern people, he would grant an amnesty; for the leaders none. He had no desire to live with them again.—When Grant, Meade, Sherman and Rosecrans have finished their work, then another famous Kentucky general will come in for a share of the work—General Hemp.—The punishment of these arch traitors must be so terrible that no leaders will ever dare to enter upon the work of rebellion again.

SINGULAR CHAIN OF COINCIDENCES. The Portland Press mentions a singular fact in connection with the losses of Ocean steamships belonging to the Montreal line. It seems that in every instance the vessel that has taken back to Liverpool the effects of a wrecked steamer of this line, has been the next in succession to become a victim. Thus: the first vessel of the line lost was the Canadian. The Indian took back her effects, and was the next to fall a prey to the wrath of the Sea King. The Hungarian took back the effects of the Indian, and in turn was the next victim, but she proved a total loss, leaving no memorial to be transmitted to the home port. The next vessel lost was the new Canadian, whose effects went back by the North Briton; the North Briton then went under, and her effects were carried home by the Anglo Saxon; the Anglo Saxon in regular succession became the next victim, and the Norwegian carried back her "remains;" next came the loss of the Norwegian, whose material effects were transported to Liverpool by the Bohemian, and the Bohemian, next in regular succession to go under, has recently made her final record on Alden's Rock. It is even said that some of the employees of the company, who had not overlooked this singular chain of facts, had a superstitious fear of the Bohemian, and sometime since predicted her fate, because *it was her turn to go next!*

WANTED.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
—AND—
UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Iodine, Sulphur, &c., and producing only a short, if yellow or flax color, it will, if properly applied, restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will certainly STOP the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all heat, inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate itching and nervous irritation, and, by imparting vigor to the hair, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator, and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The preparation induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and it is now almost dark. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphteria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fill our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, even at our two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so cool and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT

Principal and Interest payable in Coin

FIRST NATIONAL BANK
OF PORTSMOUTH,
Designated Depository of the United States

This Bank hereby announces that it is prepared to receive subscriptions on account of United States Bonds, authorized by the act of March 3d, 1864; bearing date March 1st, 1864, redeemable at the pleasure of the government, after ten years, and payable forty years from date, bearing interest at Five per cent a year, payable in coin annually on Bonds not over One Hundred Dollars, and semi-annually on all other Bonds.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. It is expected that Coupon Bonds will be ready for delivery about the 4th of April.

Subscribers will be required to pay, in addition to the amount of the principal of the Bonds in lawful money, the accrued interest in Coin (or in United States Notes or the Notes of National Banks, adding Fifty per cent. for Premium until further notice), from the first day of March until the day of subscription.

Subscriptions and remittances may be addressed to the

First National Bank,
Of Portsmouth.

FARM AT AUCTION.

By virtue of a license from the Judge of Probate for the County of Rockingham, will be sold at Public Auction, on the premises, in Portsmouth, N. H., on

SATURDAY, April 9, at 2 o'clock P. M.

The Farm of THOMAS CURRIER, late of Portsmouth, deceased, situate on the Lafayette Road, in Portsmouth, about three miles from the compact part of the city. Said Farm contains about 35 ACRES OF VALUABLE LAND, well divided, and adapted to Mowing, Tillage and Pasturing. The farm is fenced with substantial stone wall, and well watered with streams and springs; cuts from 12 to 15 tons of hay, and with proper cultivation can be made in a short time to produce double this quantity. There is a thrifty Orchard of choice grafted fruit on the premises, a full growth of Wood, and a good Barn, 62 by 42 feet. Terms at sale.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New bread, about which so much stir is being made.

This bread is the most economical and healthful article made, and in very palatable, when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

GENTLEMEN!

Please call at the subscribers' place of business and be measured for one of

Butterick's Perfect-Fitting Shirt PATTERNS.

Then you can have good fitting Shirts for a lifetime, at a trifling expense. Notice the benefits you will receive by procuring a Pattern cut by this celebrated rule:

1. You will always have good fitting Shirts
2. They will be cut from less cloth, thereby saving expense, and be perfectly easy to the wearer, as the proper quantity of cloth is put in the right place.
3. You will receive printed directions with each Pattern, setting forth how to prepare the cloth, cut and make the shirts, quantity of cloth and trimmings for each pair, and the proper width of cloth to purchase; thereby saving cloth and many stitches.

There is much time saved by using a Pattern cut by measure, with directions so plain that any intelligent person will understand them.

Every Pattern warranted to fit.

These Patterns are furnished by
ap2 J. E. HAM & CO., Agents.

Cancers Cured.

P. B. TRASK, M. D.,
Eclectic Physician.

Particular attention given to the treatment of Chronic Diseases, such as Humors, Neuralgia, Catarrh, and all Diseases of the Throat, Lungs, Heart, Liver and Kidneys.
OFFICE—At his residence, No. 29 Court street, Portsmouth, N. H. F25

Coughs and Colds.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies act a not speedily when taken in the early stage of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.
mh21—1mdaw

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit he afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.
Address JOSEPH T. INMAN,
Station D, Bible House,
mh15—1y3m* New York City.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING COUGH, all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

For sale by all Wholesale and Retail Dealers.
JOHN L. HUNNEWELL, Proprietor,
Practical Chemist, Boston, Mass.

They embrace 40 different shades, and include all the new and lasting fashable colors—and are perfectly fast. Samples can be sent you on your request, and the colors cured of THACHER. jm20

Local.

SECOND NATIONAL BANK IN PORTSMOUTH, N. H.—A second National Bank has been organized in this city, with a capital of $150,000. A meeting of the subscribers to the stock was held on Thursday evening last, and the following gentlemen were elected Directors, viz.: George L. Treadwell, John Sise, William H. Rollins, Charles Robinson, Jr., Ezra A. Stevens.

At a subsequent meeting of the Directors George L. Treadwell was chosen President, and James F. Shores, Esq., Cashier.

Th stock of this bank has been all subscribed for and taken up in about a week's time, and is held principally by our active business men; and the well known character of the gentlemen composing the Board of Directors, for efficiency and trust-worthiness, will doubtless be generally received as a guarantee of its ultimately becoming one of the leading banks in this city.

☞ There was on Saturday, Sunday and Monday a very heavy sea on along our coast, as might be expected after so long continued a storm. On Sunday the waves broke over Whale's Back Light House, and the spirt of the white crests was to those on shore one of great beauty. As usual, after a great storm there were countless rumors of disasters afloat in this city and vicinity, and as usual, none of them could be traced to any good foundation.

☞ On Sunday, a couple of men's boots (not mates) were washed ashore at High Beach, Rye, each containing a human foot. They had been a long time in the water, and perhaps were those of the crew of the schoonner lost at Whale's Back last year.—The feet were buried by Mr. Berry and the boots saved for identification possibly.

☞ By a mistake of ours, we announced the Portsmouth Cornet Band, instead of the Lyceum Orchestra, to perform at the Gymnastic Exhibition last evening. We were verbally requested to announce that "the Band" would appear, and supposed that of course the Cornet was meant. The Orchestra were on hand, and did what they could for the cause, as usual.

☞ The New Gymnastic Exhibition, at the Temple last evening, was a very agreeable entertainment, as of course it could not fail to be. The exercises were finely gone through with by Miss Haskell and her pupils; to the well timed music of piano, by Miss Emery. Dr. Lewis' remarks were full of good sense and sound advice, as usual.

☞ Mr. William G. Nowell, of this city, is to be ordained and installed as Pastor of the Unitarian Society in Rockford, Ill., on the 14th of April.

☞ Don't forget that Grandfather Pike's Old Folks' Concert Troupe are to give a Concert at the Temple this evening. See advertisement.

☞ Laws' Express now leaves Portsmouth at 6 and 11 A. M., and Boston at 12 A. M. and 4:30 P. M.

We are gratified to learn that Mr. A. H. Rowe, of this city, who has been connected with the P. S. & P. R. R. for the past seventeen years, part of the time as conductor, has received the appointment of Railroad Agent at Lawrence Mass.,—a very responsible position, as four or five important railroads converge at that point. Mr. Rowe is a most courteous as well as prompt, capable and faithful officer, and his many friends in Portland will be gratified to hear of his promotion. We have no doubt that he will fill his new and arduous position with entire acceptance to the public and to his employers.—*Portland Argus.*

— A service commemorative of the late Rev. Thomas Starr King was held at the Hollis street Church, Boston, on Sunday evening, when addresses were made by Edward Everett Hale, E. P. Whipple, Esq., and Rev. E. H. Chapin, of New York.

— Reflections in a looking-glass factory seem natural, but they were unfortunate recently in New York, resulting in the death of one partner by the hands of another, who used a large piece of plate glass in his anger at certain observations addressed to him. The firm is necessarily dissolved.

— The New York Herald says that the rebel government asked Gen. Butler to visit Richmond, to arrange the exchange of prisoners, with promise of ample protection, but the offer was declined, and hence the visit of Commissioner Ould to Gen. Butler at Fortress Monroe.

— Two men and three boys, who smuggled themselves on board a steamer at New York and went to Port Royal without a pass, were set to work shoveling and wheeling dirt. They say they went down to see the sights, and when their curiosity has been satisfied, they will be sent home.

— Peter Badeau, Esq., the oldest Sunday school teacher in New York, and it is believed in the world, died on the 16th of March, in the eighty-ninth year of his age. He had been a teacher from the first formation of the schools in New York, and continued so until his death. He was a member of the Methodist Episcopal Church in Seventh street.

Before we say how wicked that man is, let us examine ourselves, and see if we are not more wicked in some other way.

Wisdom allows nothing to be good which will not be so forever; no man to be happy but he that needs no other happiness than that which is within himself.

A country editor received a remittance, with a request to "send the paper as long as the money lasted." He indulged in a bit of a spree the next week, got broke, and respectfully announced to his subscriber that according to his own terms his subscription was out.

There's a right way, and there's a left way, and there is also, a middle way. The latter course is apparently the most followed, for meet a dozen people in a day, and the chances are that eleven out of the twelve will, if you ask them, "Well how are you getting on?", instantly reply, "Oh, middling, thank you."

TO ARMS! TO ARMS!—The citizen soldier will find a more deadly foe in the brackish, muddy water and damp night air than in the most determined enemy. Holloway's Pills so purify the blood and strengthen the stomach and bowels that the soldier can endure these hardships and still be strong and healthy. Only 30 cents per box 230

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

LIFE ASSURANCE.

"A POLICY OF LIFE ASSURANCE is always an EVIDENCE OF PRUDENT FORETHOUGHT; no man with a dependent family is FREE FROM REPROACH if not insured."—LORD LYNDHURST, late Lord Chancellor of England.

"A POLICY OF LIFE ASSURANCE is the CHEAPEST AND SAFEST mode of making a CERTAIN PROVISION FOR ONE'S FAMILY. Many a widow and orphan have had great reason to be grateful that the advantage of LIFE ASSURANCE was understood and embraced by the husband and father."—REV. FRANKLIN, 1769.

Send at once to J. P. BARTLETT, Agent for the MUTUAL LIFE IN. CO., for the Company's documents, which are furnished gratis. 3mf13

BIRTHS.

In Newington, April 2, to Mr. GEO PICKERING, a daughter.

MARRIAGES.

In this city, April 2, by Rev. A. J. Patterson, Mr. LEWIS L. DEROCHEMONT, of Newington, to Miss EMILY A. NUTTER, of this city.

In Rochester, March 23, ERASTUS MELLEN, 4th N H V, to Miss MARGARET SHOREY—EZRA B. GORDON, 4th N H V, to Miss ELIZA RIDDY.—BENJAMIN THOMPSON, of Newmarket, to Miss NELLY F. HOOPER, of Hanson, Me.

DEATHS.

In Concord, Apr. 4, Miss FRANCES M. MCCLINTOCK, daughter of the late John McClintock, of this city.

Funeral services will be held at the Unitarian Church in this city on Wednesday, April 8th, at half past 11 o'clock, A. M.

In Boston, March 28, Mrs. CLARA A. WHITE, aged 31 years, wife of Mr. Benj. J. White. The funeral was attended at Newcastle, on the 1st inst., from the residence of Capt Thomas E. Oliver, of whose family, from infancy, she had been an inmate, and by whom and a numerous circle of friends her sudden decease is greatly lamented.—COM.

In Dover, Mar 29 SHUBAEL VARNEY, Esq., 55.

DR. J. W. CHANNING,
—THE GREAT—
Cancer, Tumor and Humor Doctor,
Formerly of Boston, now of New Bedford,
Has Arrived in Portsmouth,

And taken Rooms at the CITY HOTEL, where he will remain till APRIL 10th, or longer, if patients under treatment require it.

Dr. C. gives particular attention to the cure of CANCERS, which he cures without pain and without the use of a knife. Do not say you cannot get any relief, until you have tried his medicines, which will remove all humors, such as Cancers, Scrofula, Abscesses, White Swelling, Affections, Erysipelas, Salt Rheum; Inflammatory, Chronic, Mercurial and Syphilitic Rheumatism; Fever Sores, old and stubborn Ulcers and Sores of all kinds; and all Impurities of the Blood which the flesh is heir to.

Dr. C. will give examinations and advice free on all diseases. Invalids of both sexes are respectfully invited to call and consult the Doctor. The poor liberally considered.

N. B.—Certificates of cures may be had of him, from all parts of the country. mh22

Morning Chronicle.

AN INSULT RESENTED.—A private letter to a gentleman in Worcester, relates the following incident:

The 30th regiment colored troops are engaged in guarding about ten thousand rebel prisoners at Point Lookout, which is of course very distasteful to the chivalry. A few days since a rebel captain, a son of Bailie Peyton of Virginia, began a quarrel with a sergeant of the regiment by calling him a coward, with other opprobrious names which will not look well on paper, and contemptuously dared him to resent it. The sergeant bore the abuse as long as possible, and, on Peyton's refusing to obey his order to be quiet, he raised his musket and shot him dead. He immediately reported to Gen. Marston, who is in charge of the post, and explained the affair, and the general commended him for the act and ordered him to return to his duty.

☞ The Boston Journal tells the following: the scene the well known book store of C. & N., is that city:

A gentleman—a man (?) looking at a set of Bacon's works, innocently inquires, if he is dead.—Two women in the late U. S. Sanitary Commission Fair were looking at the statue of Beethoven in the Music Hall, Boston. One says to the other, "How do like it?" The other says, "not much." "Nor I," said her friend; "but we must not say much about it, for it is the statue of Col. Chickering, and he has done a great deal for the Fair."

MACHINERY OF THE HUMAN FORM.—Not only are their hinges and joints in the bones, but there are also valves in the veins, a force-pump in the heart, and curiosities in other parts of the body equally striking. One of the muscles of the eye forms an actual puffy. The bones which support the body are made precisely in that form which has been calculated by mathematicians to be the strongest for pillars and supporting columns—that of hollow cylinders.

LEAKY ROOFS

MADE

Water Tight—with Elastic Cement.

—BY—

The Metal Roof Painting Company

They will also apply Mineral Paints to Tin, Copper, Zinc, Iron Doors, Fences and Steam Boilers, on reasonable terms.

For cheapness and durability for painting Tin and Copper Roofs, it is unrivaled by anything ever brought before the public. This paint has the elastic qualities so long needed to meet the expansion and contraction of the roofing.

Price, 17 cents per foot.

GEO. STEAD & CO., AGENTS,
No. 62 Union st., and 59 State st., Boston.

Lewis Rice, Esq., American House, Boston.
Superintendent B & M. Railroad.

☞ Orders left at the CHRONICLE OFFICE will be promptly attended to. mh6—1m

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to continue well the required work of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 30th day of February in leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment and those not in need of the Calendar will find the Calendar alone worth more than the price of the clock. They will be sent up in any part of the city, and regulated without extra charge.

T. F. BURITT, No. 1 Dalton Street,
aug3 Portsmouth, N. H.

Gray's Patent Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collar ever made.

The upper edge presents a perfect curve, free from the angles noticed in all other collars.

The daily increasing numbers on the inside of the turn-down collar—they are AS SMOOTH ON SIDE AS OUTSIDE—and therefore perfectly fit, and easy to the neck.

The Gazette Collar has a smooth and evenly finished edge on both sides.

These Collars are not simply flat pieces of paper cut in the form of a collar; but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, and every half inch from 13 to 17 inches, and in "Eureka" (Gazette) from 13 to 17 inches, and packed in "odd sizes" in neat box containing 100 each, also in regular case of a dozen, the latter a very beautiful package for Travelling Army and Navy Officers.

☞ EVERY COLLAR is stamped

"Gray's Patent Molded Collar."

Sold by all dealers in Men's Furnishing Goods. The Trade supplied by

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS.
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.,
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Director
New York State Volunteer Depots,
under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and intelligent. Drugs would have no parallel in the Materia Medica.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from pain fist and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—some

Injured by the Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as been seen as ever encountered by any Reformers.

Regularity of Fee.

Some say, "Your cures are too quick," public others doubt their permanence, and think that diseases so quickly cured will soon appear in other forms. Our reply is, that

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause there is one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the system.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from a IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paraia, Paraplegia, Paralysis Agitans.

It is universally admitted that Constitution Life Syrup is the only effective remedy in Paralysis in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strume, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in rheumatism and its kindred affections. The most intense pains are alleviated by a dose or two, muscles, sinews, ligaments and joints, chronic or inflammatory, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Nervous Fevers, Shattered Nerves, Wind Days.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove a blessing. Thousands are daily testifying they took a dose or a bottle which immediately their relief.

Mercurial Diseases.

Salivation, Feeble Constitutions, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the pain in the bones and curing the Weak Joints and Rheumatic Diseases, which the Mercurial Calomel is sure to produce. It hardens spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, not simply removes, the active Depositions of the poison.

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, thus making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores. Well thoughts of Scrofula, which is the curse of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which are very dangerous, and should be cured immediately. Constitution Life Syrup will cure these cases sooner by taking a few doses of the Life Syrup.

All persons who are suffering from Debility, Emaciation, Dyspepsia, Drowsy, Costiveness, Pain in the stomach, and in the female Dropsy of the ovarian and womb, generally accompanied with inflammation and ulceration of the womb, will be permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove it, and it is a remedy that should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed in a few days. Tumors of the Ovarian, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the Cutting operations of the Knife.

Epileptic Fits, Sympathetic or Organic Diseases of the heart, as palpitation, Disease of Valves, pressure of the heart on the diaphragm or stomach, the heart's side and all the diseases of this important organ, or persons suffering from dropsy, should take the Life Syrup, and will be greatly benefited by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Confusion of Thoughts, Dimness of Sight, Universal Lassitude, Pain in the Side and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Emaciation of the Muscles and Limbs, are all the results of the CONSTITUTION LIFE SYRUP.

For all forms of Venereal Diseases, either of the Throat, Nose, Tongue, Spine, Forehead or scalp, no remedy has ever been so successful.

MOTHER FAIRLIE upon the nature, use, and peculiarities of the Constitution of the Life, are very important to the Ladies, and should be read. A few bottles of Constitution Life Syrup will cover the secretion, and remove the deposit which is so annoying to the Ladies.

In Diseases of the Liver, giving rise to languor, dizziness, sluggishness, weak stomach, or signs of Liver Complaint, the Life Syrup that has never failed to cure the Jaundice, Dyspepsia, and complaints with "torpid liver" in all its symptoms, and may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Family Purifying Agent, the Life Syrup stands universal by any preparation in the world.*

Diseases of the Spine, so frequently developed in the young, Hip Disease, Neuralgia, and all Spinal Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pained countenance, strengthen their weak back and enable them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and at the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES!

It is the safest and most efficacious medicine ever discovered for purifying the system and relieving the suffering attendant upon Childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food of the child, which we think it more preferable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—But it, like it, and be cured—It is Universal, in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, and is a cure of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is the precious secret revealed to those cures in Chief Albin to Whites in Jim that where all the old nostrums multiply and fail.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; partly passing off by the urine, and partly through the blood, causing it to flow in all of its original purity and vigor; thus moving from the system all pernicious causes which have produced disease.

CHEROKEE INJECTION is intended as an aid or assistant to the CHEROKEE REMEDY, and should be used in conjunction with it, as medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effect are healing, soothing and stimulant; removing all scalding, heat, chordee and pain, and restoring the parts to a healthy and almost unheard-of state, that is experienced with nearly all the cheap quack Injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time and in proper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

To the Ladies! Ladies get our pamphlet from any druggists in the country, or write to us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle, or six bottles for $5.

Sent by express to any address on receipt of price. Sold by all druggists everywhere.

Dr. W. H. MERWIN & CO., Sole Proprietors,
No 59 Liberty street, New York.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND

LEAVES,

CHEROKEE

CURE.

An unfailing cure for Seminal Weakness, Spermatorrhœa, Impotency, and all diseases brought on by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Loss of Sleep, Trembling, Nervousness, Irritability, Fits, Pain in the Head, Nervousness, Insanity, Consumption, and all the diseases and complaints consequent on a departure from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with those most trusted and tried it has not failed to cure. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have suffered with their constitution, and who think themselves beyond the reach of medicine, we would say, *despair not!* Nature has yet well restored you to health and vigor, and after skillful doctors have failed!

For full part culars, get a circular from any druggist in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment on pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded to express to all parts of the world.

Sold by all respectable druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discovery in the Vegetable Kingdom, being an extract of a well known plant, which is the most effective of all the old and modern systems.

This medicine has been tested by the movements of Life's mysterious springs, and by them proclaimed to be one of the greatest medical discoveries of the age.

Two bottles will cure Gonorrhœa.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the most obstinate case of Impotency.

A few doses cure the low spirited.

Unequaled as a restorer of mental power.

Adapted to all ages, from the youth to the aged.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing victim of sensual pleasure.

The broken down and enervated youth, the over-tasked man or student, the victim of premature decay or disease, the enfeebled suffering from general debility, or from weakness of a single organ, will all find immediate and lasting benefit, relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and for Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the loins, Fever, Fatigue on slight exertion, Palpitation of the Heart, Lowness of spirits, Hysteria, Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it all the effects that spring from it.

Compounded of vegetable extracts, they contain nothing deleterious to the most sensitive constitution, rendering their function perfectly regular by their tonic effect, while properly used they never weaken.

They may be safely used at any age and at any period, *except during the last three months*, during which the tonic effect of their action would inevitably prove premature.

All letters seeking information or advice will be promptly answered, enclosing a dollar.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

Sent to any address, free on receipt of price.

Sold by all respectable druggists.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from occupying into the room. With the extension top there is a large copper Reservoir for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangement for filling the coal and cleaning the grate are far superior to those of any other Stove, now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every morning.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as numbers of families in this city and vicinity, who are using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following well wishing purchasers:

Also on hand an assortment of the different sizes

—OF THE—

MAGEE PARLOR STOVE

which are without rival, and are fast becoming well known to be the best.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the sole agent in this vicinity, and understanding the use of the Ventilating Furnace, would say that he is prepared to furnish and erecting furnaces, and to examine the same, free of charge.

The Ventilating Furnace is by the most approved heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this the complicated and expensive heating arrangements have been dispensed, some possessing but little improvement over former stoves, while others may have proved a total failure. The reason for this is obvious. The commonly used stoves require more than one pipe to carry the products of combustion without being considered a nuisance. No objection, so common in other furnaces, is to be found in this.

MAGEE'S FURNACE.

The flue or pipe in this Furnace being below the air-pipe, the gases, from their greater gravity, cannot descend, and are forced up by the enormous heat of coal air through the air-pipe, which, instead of being a loss of heat, is a benefit, thus saving all heat of fuel, of the properties of the best in the city.

Not heating air pipe with the smoke-pipe or flue on the top of the stove can be made to convey gases to the top, and to pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the ventilation of heat, which are so liable to be out of order, and of great, thus simplifying, while it increases the certainty of ventilation.

These Furnaces consume all the coal, make no clinkers, the ashes of coal are thoroughly consumed with, and they will save from 50 to 60 per cent of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces are unequaled, they can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without fire going out.

They are entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have been purchasers:

Samuel Greaves, Esq., Albert R. Hatch, Esq.,
Aaron Walton, Charles A. Meadum,
Henry F. Wendell, John Shea, and others.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. WEDNESDAY, APRIL 6, 1864. VOL. XXIV. No. 82.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every inn fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to like savage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

"THE CONSTITUTION AS IT IS"—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State Legislatures, and *all* executive and judicial *officers*, both of the United States and of the several States, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S.*

SOMETHING MORE ABOUT CATS.—The palmy days for cats were in the time of Egypt's power as a nation, some five hundred years B. C. They were held there as sacred as dogs or crocodiles, and death was the penalty for killing them. From their nocturnal habits and glossy fur, the Egyptians deemed them symbolical of the moon, and a golden cat was worshipped at Syene. Herodotus tells us some marvels about them. The "toms," it seems, in his time, had a peculiar liking for making away with kittens—a very fortunate thing, too, or the land would have overrun with cats. Crowning wonder of all, when a fire broke out, the sole care of the natives was to keep the cats from it, to do which they posted themselves around the burning house, and took no thought of putting out the flames. A divine impulse, however, says the chronicler, seized the cats; they darted under the men, or leaped over them, and flung themselves into the flames.

Then great mourning took possession of the land. If a cat were found dead in any one's house, the inmates had to shave off their eyebrows. The defunct animals were carried into the temples, where they were embalmed and solemnly deposited in the city Bubastis. Specimens may be seen in the British Museum. Very different is the fate at modern Rome. A recent traveler tells us they are there as highly esteemed for culinary purposes as puppy-dogs in China. If you have a roast hare for dinner you had better not make too many inquiries as to what kind of "Pussy" it was before it came into the chief's hands.

THEY KNOW THEIR FRIENDS.—We have taken frequent occasion to refer to the aid and comfort which copperheads extend to the rebels; and to the evident desire of the latter to see the former successful at the next Presidential election; and we have given numerous extracts from Southern papers, to show the depth of the sympathy between the two factions of traitors.

As the war goes on, and the cause of the rebels gets more hopeless, their anxiety on the subject increases. The Jackson Mississippian, now published at Atlanta, referring to the subject, says:

"Have our neighbors read the Chicago Times, New York Express, Metropolitan Record, Cincinnati Enquirer and various other papers of the North which are exponents of the opposition to Lincoln? Have they read the speeches of Bright, Voorhees, Merrick and various others? Have they ever found in any of these papers or speeches a syllable that did not breathe the most orthodox States' rights doctrine, and uncompromising opposition to coercion? These are the men we wish to encourage, and these are the men whose success will bring peace."

Soldiers, do you perceive the cordiality existing between copperheads and open rebels?—*Nashville Union.*

The Copperheads of that portion of Illinois known as Egypt have risen in armed rebellion against the Government. We were told, at the beginning of the war, that there would be "two military organizations" in the Free States, if "coercion" of the South was attempted, and the Illinois rebellion is probably an indication that "the other organization" is a reality as well as a threat. In truth, Copperheadism with arms in its hands is more respectable than Copperheadism with treason in its heart and perjury on its lips. Some people may be deceived by the orators of Copperheadism, but nobody can misunderstand the meaning of traitors who murder loyal troops of their own State.—*Boston Transcript.*

A GREAT COMET PREDICTED.—The following, says an English paper, is an extract of a letter just received from Melbourne: "Professor Newmager, on a three years' scientific visit from Bavaria, tells us that in 1865 a comet shall come so close as to endanger the our earth; and should it not attach itself to one globule of quicksilver to another), nor annihilate us, the sight will be most beautiful to behold.—During three nights we shall have nodarkness, but be bathed in the brilliant light of the blazing train."

Faith, in practical life, is having the heart to try again.

Marriage Certificates.

CHAS. W. CARTER,
mal3 *Practical Confectioner.*

IMPORTANT TO THE AFFLICTED.
DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath this head are all the horrors of venereal and impure blood, Impotency, Seminal Gonorrhœa, Ulcers, pain and distress in the regions of pregnancy, inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Painful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important!
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, suppression, and other menstrual derangements, are all treated on the most physiological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
A B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stand higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon would give him a call.
☞—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Three for $1 and a red stamp.
BOSTON, April 7, 1862. eodly.

THE IMMENSE POPULARITY OF THE
California Wines
Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage
American Industry.
The Surgeon General of the United States, after an analysis of our Wines, reports them to be PURE.
Dr Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says:—"The fluid ounce leaves fifty-four grains of solid matter, consisting WHOLLY of the fixed principles of grapes. (Did no adulterating ingredients and consider it suitable for medicinal and general use."
The Boston Traveller says:—"The California White or Hock Wine rivals in favor the best of Hock Wines, and costs much less."
The Saturday Evening Gazette says:—"The White Wine is equal to the Stein or light wines which we import, with a fine and rich flavor, and we believe in purity unquestionable."
Hon. John G Downey, late Governor of California, says:—"I most cheerfully recommend your Wines to all who desire a pure juice of the grape."
The New York Commercial Advertiser says:—"The Wines have a fine flavor, and need only to be tasted to be approved."
The Boston Transcript says:—"The White Wine is equal to the best Hock."
The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."
CALIFORNIA WINES,
BEARING THE LABEL OF
PERKINS, STERN & CO.,
WILL BE FOUND
FOR THE SICK CHAMBER,
COMMUNION PURPOSES,
OR FAMILY USE,
THE PUREST,
THE CHEAPEST,
THE BEST
WINE IN THE MARKET.
Let American Support American Industry.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the old World,) of obtaining the safest as well as the latest remedies for these diseases; offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargements of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will permit a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody:—Startling disclosures. Dr. TELLER's great work for the benefit of those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 9 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Advertising.
For a Square (1 inch) or less, one or three insertions $1, each following insertion 25 cents; one week $1.50, one month $3, three months $6, six months $8, one year $15. These are Daily rates—and no advertisements receive more than one insertion in the Weekly (Gazette) without special order and charge.
Funeral Notices, and Advertisements of articles Lost and Found, &c., 50 cents.
Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity and throughout the State. ☞ Liberal terms for yearly advertising.

Rates of Advertising,
IN THE DAILY CHRONICLE.
For 1 "SQUARE" of 800 ems nonpareil type, equal to 12 lines or 90 words (7½ words averaging a line) or one inch by measure,—one or three insertions $1; each subsequent insertion 25 cents; $3 for a month, $5 for three months, $8 for six months, $15 per year. For inside advertising, per month or year, one-half more.
For a Column, (18 Squares) per year, inside $200, outside $150.
Transient advertisements, for alternate insertions, charged one-half more per insertion. By the month or year, advertisements for every other day, charged one-third less than full rates.
Cuts charged double their measure, and inserted on fourth page only.
Advertisements in large, reading-matter type charged double per Square, the smaller type.
"Special Notices" charged double the common rate.
Leaded notices in editorial columns, 10 cents per line, each insertion; and no statements as to fact or opinion, will be accepted or inserted as editorial, unless within the knowledge or belief of the editors.
Solid notices in reading matter type and columns, and having "reading" attached, 5 cents per line, each insertion. After first hundred lines, 3 cents per line.
Notices of Funerals, articles Lost and Found, &c., 50 cts. for one or three insertions. Records of Marriages, Deaths and Births *should* also be paid for, and a similar fee will be accepted when proffered.
☞ All papers more than one copy per week, sent to advertisers, will be charged for.
Probate Notices and other Legal advertising at regular rates.
Terms always Cash, and no advertisement inserted without advance payment, except where accounts are open.
Portsmouth, N. H., 1863.

Rates of Advertising,
IN THE NEW HAMPSHIRE GAZETTE.
(*Weekly.*)
For 1 "SQUARE" of 800 ems nonpareil type, equal to 12 lines or 90 words (7½ words averaging a line) or one inch by measure,—one or three insertions $1; each subsequent insertion 25 cents; $3 for six months, $5 per year.
For a Column, (18 Squares) per year, inside $100, outside $75.
☞ All papers more than one copy per month, sent to advertisers, will be charged for.
N. B.—"THE DAILY CHRONICLE" and "THE NEW HAMPSHIRE GAZETTE" are two distinct papers, having separate and entirely different circulations; and no joint arrangements will be made for advertising both, either than on the above double terms. Contracts for advertising in the two papers, must be separately made.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, APRIL 6, 1864.

THE REBELLION.

The Boston Advertiser's dispatch says: Gen. Grant says Gen. Butler's ideas as to the prosecution of the war are entirely in harmony with his own. Gen. W. F. Smith is to have an independent command; he did not return from Fortress Monroe with Gen. Grant.

A Memphis dispatch reports Forrest at Jackson, Tenn., apparently arranging to proceed north.

Gen. McDowell, it is said, will go to California, and Gen. Sickles will soon have an important command.

A special dispatch states that while Gen. Grant was at Fortress Monroe the preliminaries for a satisfactory exchange of prisoners were concluded and approved by him.

It is denied that the sutlers have been ordered out of the Army of the Potomac.

☞ Connecticut has followed strictly the good example set her by New Hampshire, and at the State Election on Monday re-elected Gov. Buckingham, the Union candidate, by 5,000 or 6,000 majority. Almost every town yet heard from gives an increased Union majority over last year. It is thought the Union men will have 18 members of the Senate, the Democrats having but 3; and that the House will be three-fourths Union.

Returns from all but 18 towns give Buckingham 5653 majority. The Union party have six sevenths of the Senate, and three-fourths of the House.

☞ An order from the War Department to the Provost Marshal General of Ohio discharges from the U. S. service four private belonging to different regiments, because they are of insufficient age, being under eighteen. The order directs that the expenses of their enlistment be deducted from the pay of the officers concerned in the examination and muster, one-half to be deducted from the pay of the surgeon who examined, and one-half from the pay of the officer who mustered them into service.

— Garibaldi is going to England and will have a glorious reception.

— Rev. Dr. Bellows sailed for California on Monday.

— Moderation Village is the name of a settlement in Maine.

— A negro Minstrel Troupe is among the new permanent institutions of Portland.

—The pirate Alabama was at Cape Good Hope Feb. 19th, with 20 of the crew sick of yellow fever.

— It is said to be a penal offence to give an exhibition of ventriloquism or sleight-of-hand, in Vermont.

— The lady who at the celebrated ball in New York city led off the dance with the Prince of Wales, is dead.

— The New Orleans Picayune acknowledges the receipt from its Paris correspondent, of a letter that had been two years and six months on the road.

— The Volksfreund, the German Democratic organ at Cincinnati, which hoisted Fremont's name for the purpose of diverting the Unionists, now withdraws it.

— A fancy dress party was given in Bangor on Thursday evening, the net proceeds of which were $1100, and will be given to the Sanitary Commission.

— The great California quicksilver mining case has been decided by the Supreme Court in Washington, in favor of the Company. This makes them rich.

— In the U. S. Senate, Monday, April 4, Mr. Sumner reported a bill for the adjustment of claims for spoliations committed by the French prior to the 31st of July, 1801.

— A man was overtaken by the tide on a marsh at Dorchester, Mass., on Sunday morning, and was unable to reach the mainland. He was rescued by another, who went to him in a boat, finding him in water up to his chin, much chilled and greatly exhausted.

THE ROUND TABLE is the title of the new literary and critical weekly journal published in New York. The N. Y. Evening Post, in speaking of it, says:

The Round Table is now a valuable acquisition to the journalistic literature of America. Its tone is dignified, its critical articles evince sound judgment and ripe scholarship, while its discussions of public affairs are moderate, sensible, and for the most part just. Its columns show wit and industry; and the contents are so varied as to suit all cultivated tastes. Its records of art and literature, in this country as well as abroad, are remarkably full, and they give accounts of what is doing, not only in New York, but in all parts of the Union. We have reason to wish the Round Table, therefore, a prosperous future; it is, we hear, established on a sound financial basis, and has already attained a profitable circulation. The number of people to whom sound and intelligent criticism of literature, art and public affairs is welcome is so large in this country, that a weekly journal which has the merits of the Round Table should have, and no doubt will have, a pleasant and prosperous as well as useful career.

NEW HAMPSHIRE ITEMS.

—— Col. Donahoe, of the 10th regiment, is declared exempt from dismissal.

—— There have been about a dozen cases of small pox and varioloid in that corner of Farmington known as Downingville.

—— The sewing women of Concord have struck en masse for higher wages, and left their work. Business in this department is suspended throughout the city.

—— 276 men were enlisted in this State during the month of March,—not including the Veterans. Our deficiency under the last call for 200,000 men was 659.

—— At an alarm of fire in Manchester on Saturday evening, a woman brought down a pig from an upper room in her apron. The young porker ungratefully squealed even while being preserved from becoming roast pork.

—— The Cocheco Flannel Company, at East Rochester, have completed arrangements to put up a large new brick mill this season, to contain six sets of machinery for the manufacture of woolen flannels.—Their present mill is of wood, and contains four sets.

—— The Mirror states that the ordinance of baptism was administered, in the different forms, to an unusually large number of persons at the various churches in Manchester on Sunday, and the accession of members to the churches was larger than has taken place before for a long time. At Rev. Mr. Wallace's Congregational Church 30 were baptised, and 51 joined the church, one of these having been baptised by immersion the week previous. At the 1st Calvinist Baptist Church, 2 were baptised, and 28 admitted. At the 2nd Calvinist Baptist Church, 8 baptised and 11 admitted, 19 having been added to the church during the month previous. At St. Paul's M. E. Church, 14 were baptised and joined the church. 4 were baptised and joined the F. W. Baptist Church, and 26 the Universalist. 28 were admitted to the Franklin street Church (Congregational) at the beginning of March.

☞ General Butler and Commissioner Ould have settled all but one of the points of difference relative to the exchange of prisoners. Mr. Ould agrees to the exchange of man for man, but insists that the agreement shall not include the officers and men of the negro regiments. General Butler insists that as they serve under the same flag they are entitled to the same treatment as other United States soldiers. Here the conference meets an apparently insurmountable obstacle.

☞ The Funeral of Rev. T. S. King, as described in the San Francisco papers, was a most imposing and impressive occasion. The Secretary of War telegraphed to the national military officers in California to do appropriate honor to the memory of the deceased. The dispatch sent by Rev. Dr. Bellows is printed in the San Francisco papers, with the account of the funeral. Jessie Fremont sent this dispatch to a gentleman in San Francisco: "Put violets for me on our dear friend who rests."

☞ The ladies of Calais, Me., proposed to the City Council of that city, that they would contribute $2000 towards building a City Hall, if the Council would appropriate the requisite additional amount to build the Hall. But the wise City Fathers doubted whether they could legally appropriate money for that purpose, and after vacillating some time, the women determined to have nothing to do with them, withdrew their offer, and are now arranging with private parties to build a suitable public hall.

☞ From a letter of Attorney General Bates, and the legal papers and other documents accompanying, which have been communicated to the Senate, relative to the bequest of Com. Levy, of the homestead of Jefferson to the United States, it appears that the property includes Monticello, $200,000 in real estate in New York, and $100,000 in stocks. It is bequeathed in trust for an Agricultural School, and for the support and education of the children of warrant officers of the Navy. The case having been taken to the New York Court of Appeals, Mr. Bates suspends any recommendations at present, but is disposed to look with favor on the assumption of such trust for merely charitable objects.

☞ It appears by the Newburyport Herald, that Rev. Mr. Quinby, who was called to be pastor of the Universalist Church there, has declined, having purchased the Gospel Banner, a denominational paper at Augusta, in Maine, which he will remove to Portland, where it will hereafter be issued. It is a paper of much character and a large circulation.

— The Americans in Rome have made liberal contributions to the Metropolitan Fair for the Sanitary Commission, in New York, and the people and Cardinal Antonelli have joined in the contributions.

— The Maine Legislature, at its recent session, passed a bill providing for the complete registration of all births, marriages and deaths in the State. It ought to be imperative in every State.

FUNERAL OF REV. T. S. KING.—We copy from the Alta California of March 7, the following account of the funeral of Rev. T. S. King, in San Francisco, March 6. After describing the dense throngs of people in the vicinity of the church and the eager anxiety of thousands to gain admission, the Alta says:

At a quarter before 2 P. M., the members of the congregation, the members of Oriental Lodge F. M., the officers of the Grand Lodge of the State of California, the Governor of the State, Secretary of State, and others for whom seats had been provided, having taken their places, the doors were thrown open, and in a few minutes more not an available inch of unoccupied space was left on the floor of the building, or in the galleries above, while thousands who could not even get within hearing distance of the doorways remained standing outside, even to the end of the ceremonies.

The services were under the joint charge of the Trustees of the Church, and the Officers of Oriental Lodge, and the Grand Lodge of California. The Rev. Dr. Kittredge officiated as Chaplain, and the choir, which was one of the most powerfully effective to which we have ever listened, was composed of the regular choir of the Church, assisted by the respective choirs of Grace Cathedral and, Trinity Church, who kindly volunteered their services.

At 2 P. M., the last services commenced, the reverberating thunder of the minute guns by the California Guard on Union Square, and the deep booming of the heavier cannon of the batteries on Alcatraz Island, adding an increased solemnity to the mournfully interesting ceremonies.

The services directed by the Trustees of the Church, and taken from the ritual of the Masonic Order, were as follows: Voluntary on the Organ. Chanting by the choir of the 39th Psalm. Reading of the 23d Psalm: "The Lord is my Shepherd, I shall not want"—which was repeated by the deceased but a few moments before his death—by Rev. Dr. Kittredge.

The Masonic ritual services for the burial of the dead then took place. Dr. Kittredge officiating as Chaplain, and the lecture from the ritual being delivered by the Grand Master. At the conclusion of the impressive and imposing ceremonies, the Masonic fraternity filed past the tomb, dropping the acacia sprigs upon the coffin, which was enshrouded by an American flag.

Throughout the ceremonies the deepest silence pervaded the audience, while the faces of lovely women, bearded men and innocent children were alike bathed in tears. Even those who stood outside the portals of the church, beyond hearing of the speakers' voices, remained uncovered during the ceremonies, anxious to do honor to the memory of the dead, although debarred the privilege of listening to the solemn services.

When all was over, and the door of the vault was closed, the throng began slowly to disperse, casting many a long, sorrowful glance back toward the last resting place of one who was perhaps more deeply beloved by a vast majority of our people, than any other who has ever lived, and toiled, and died among us. As a finale to this account of the sad ceremonies of the day, the following poem, by the gifted poet Whittier, one of the especial friends of the deceased, is peculiarly appropriate.

Gone to thy Heavenly Father's rest—
The flowers of Eden round thee blowing!
And, on thy ear, the murmurs blest
Of Shiloah's waters softly flowing!
Beneath that Tree of Life which gives
To all the earth its healing leaves—
In the white robe of angelic state,
And wandering by that sacred river,
Whose streams of holiness make glad
The City of our God forever!

☞ The New Yorkers have had a good deal to say lately about the seeming extravagance of Mr. A. T. Stewart, the eminent merchant, in pulling down the famous brown stone "Townsend house," on Fifth Avenue, preparatory to the erection of a new residence. According to the Journal of Commerce, however, the decision to tear down and build anew was not arrived at till a thorough examination showed that to be the only wise course. In the first place the wood-work of the interior of Mr. Townsend's showy palace was found to have settled six or seven inches, in consequence of all the vast weight of the interior above the main floor resting on the beams of the parlor ceilings on one side and the library ceilings on the other. It was only a question of time when the whole interior would fall in.

Next, every room smoked, and this was discovered to proceed from the fact that there was a hollow wall, in which open space it was expected the smoke engendered in the fire-places would roam about, impart heat to the interior wall, and at last discover a cold flue in a chimney at the top of the building, unconnected with the fire-place by ordinary flues, or indeed in any manner. Lastly, the main walls of the house were found to be shamly built. Mr. Abbott, the last owner, had been compelled to remove a portion of the north wall, owing to its bulging out, caused by defective foundations. To render them secure would involve an expenditure almost equal to the erection of new walls, and masons and architects all advised thorough demolition and a new start. This advice Mr. Stewart for several months resisted, but at last yielded to it and a new dwelling is to be erected.

— The clothes line thieves have reached a very low state, for they steal not only the clothes, but the pins and lines, in Machias, Me.

— In the evidence in regard to a bridge case a few days since, an expert testified that a measured march of men was the severest test of a bridge, and that the trotting of a horse produced double the vibration of a 12 or 14 ton locomotive.

Principal and Interest payable in Coin
FIRST NATIONAL BANK
OF PORTSMOUTH,
Designated Depository of the United States
This Bank hereby announces that it is prepared to receive subscriptions on account of United States Bonds, authorized by the act of March 3d, 1864: bearing date March 1st, 1864, redeemable at the pleasure of the government, after ten years, and payable forty years from date, bearing interest at five per cent a year, payable in coin annually on Bonds not over One Hundred Dollars, and semi-annually on larger bonds.
Subscribers will receive either Registered or Coupon Bonds, as they may prefer. It is expected that Coupon Bonds will be ready for delivery about the 4th of April.
Subscribers will be required to pay, in addition to the amount of the principal of the Bonds, in lawful money, the accrued interest in coin for an United States Note or the Notes of National Banks, adding fifty per cent. for Premium until further notice, from the first day of March until the day of subscription.
Subscriptions and remittances may be addressed to the
First National Bank,
Of Portsmouth.

Administrator's Sale.
FARM AT AUCTION.
By virtue of a license from the Judge of Probate for the County of Rockingham, will be sold at Public Auction, on the premises, in Portsmouth, N. H., on
SATURDAY, April 9, at 2 o'clock P. M.,
The Farm of THOMAS CURRIER, late of Portsmouth, deceased, situate on the Lafayette Road, in Portsmouth, about three miles from the compact part of the city. Said farm contains about 85 ACRES OF VALUABLE LAND, well divided, and accepted to Mowing, Tillage and Pasturing. The farm is fenced with substantial stone wall, and well watered with streams and springs; cuts from 12 to 15 tons of hay, and with proper cultivation can be made in a short time to produce double this quantity. There is a thrifty Orchard of choice grafted fruit on the premises, a full growth of Wood, and a good Barn, 35 by 44 feet. Terms at sale
THOS. STACKPOLE, Administrator.

OF EVERY KIND
—OF—
KITCHEN FURNISHING GOODS
BOUGH MOSTLY BEFORE THE RISE IN PRICES.
French Roll Pans.
A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.
These pans are greatly in demand for baking the New bread, about which so much stir is being made.
This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.
The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread, or anything requiring a quick hot light bake.
Every housekeeper should have one.

White Granite Tea Sets,
With a complete assortment of all patterns of CROCKERY, GLASS AND CHINA WARE,
Just received and for sale at the lowest rates, by
ap1 JOHN SISE, 5 Market Square.

GENTLEMEN:
Please call at the subscribers' place of business and be measured for one of
Butterick's Perfe t-Fitting Shirt PATTERNS.
Then you can have good fitting Shirts for a lifetime, at a trifling expense. Notice the benefits you will receive by procuring a Pattern cut by this celebrated rule:
1. You will always have good fitting Shirts.
2 They will be cut from less cloth, thereby saving expense, and be perfectly easy to the wearer, as the proper quantity of cloth is put in the right place.
3. You will receive printed directions with each Pattern, telling forth how to prepare the cloth, cut and make the Shirts, quantity of cloth and trimmings for each pair, and the proper width of cloth to purchase; thereby saving cloth and many stitches.
There is much time saved by using a Pattern cut by measure, with directions so plain that any intelligent person will understand them.
Every Pattern warranted to fit.
These Patterns are furnished by
sp3 J. E. HAM & CO., Agents.

P. B. TRASK, M. D.,
Eclectic Physician.

Particular attention given to the treatment of Chronic Diseases, such as Humors, Neuralgia, Catarrh, and all Diseases of the Throat, Lungs, Heart, Liver and Kidneys.
OFFICE—At his residence, No. 29 Court street, Portsmouth, N. H. F25

Coughs and Colds.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies oft times act speedily when taken in the early stage of the disease, no care should at once be had to "*Brown's Bronch al Troches*," or Lozenges, for the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them editorial for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires. mh21—tudaw

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the receipt for preparing and using this medicine, in a sealed envelope, to any one who needs it, *free of charge*.
Address JOSEPH T. INMAN,
mh25—1y3m* Station D, Bible House, New York City.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a medicine from every component contributed to debilitate, and by ease to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING COUGH, all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

For sale by all Wholesale and Retail Dealers.
JOHN L. HUNNEWELL, Proprietor,
Practical Chemist, Boston, Mass.

N. B.—The greatest freedom of correspondence solicited. Dealers with good references supplied on commission.

THACHER and PRESTON, Agents in Portsmouth.

All sorts of Cards, Papers, and other stock, furnished for Printing.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, it is agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. jan9

Local.

POLICE COURT, Tuesday, April 5. Before Justice Odell.—Thomas Kiley was charged with making an assault on contraband soldiers on Sunday, March 20.—Like a wise man, he pleaded *guilty*; and was fined $10; costs $8.76: total $18.76, which he paid.

Kiley is a working Irishman, who, knowing his guilt, fled away after the assault, and has thus lost about two weeks' work, which, together with the fine and cost, make his unprovoked assault rather a dear whistle, as it should be. The plea of *guilty* in his case stamps the *lie* on those papers which tried to deceive their readers by representing the affair to be a sort of casual quarrel between negroes and Irish,—when they knew, or ought to have known, that it was an unprovoked attack on civil black men, by Donovan, who was proved guilty, and Kiley, who owns up, with others, all of whom are only tools of the *real* criminals, who foster prejudice in the ignorant to bring on such assaults, and then lie about them afterwards. Those rascally Yankees who stimulate such men to make such assaults, are worthy of a severe punishment, and they seem to be in a fair way of getting it now, when public opinion sets against them like a mighty tide. C. T.

THE ALLEGHANIANS.—This renowned troupe of Vocalists, and Swiss Bell Ringers, (under the management of Mr. D. G. Waldron, of this city) who a few years since circumnavigated the globe, have been concertising in the South West, nearly into rebelldom. From an exchange we learn that they had a narrow escape during Forrest's rebel raid on Paducah, Ky,—only losing a trunk full of music, containing many new union songs, which will undoubtedly find their way into the *heart* of Dixie. The company will turn their steps eastward the first of May, and we hope they will not forget to give Portsmouth a series of their charming entertainments.

☞ It will be seen that Prof. Anderson, who has been prevented by a severe accident from visiting Portsmouth before when announced,—is to appear before our citizens this (Wednesday) evening, at the Temple. His feats of magic have astonished and delighted crowds elsewhere, and no doubt will be equally successful here.

☞ The last of the Social Dances, given by the members of Piscataqua Engine Company No. 4, is to take place at Irving Hall this (Wednesday) evening. The friends of the members of this company, who have enjoyed the previous dances of the series, need not be urged to bear this fact in mind as a good time is guaranteed those who attend it.

☞ The Saco Democrat states that the schooner George and James, of Rockland, and bound for Portsmouth, laden with lime, went ashore on "Short Sands," Cape Neddick, on Wednesday, Mar. 30th, at 4 o'clock A. M. Crew all saved. The deck load was removed and she was stripped of her rigging the next day, but in the evening was reported on fire. The schooner was about 70 tons.

DEATH OF AN AMERICAN ABROAD.—The Journal de Rennes announces the death in that city, at the age of 71, of Mr. John James Appleton, of Massachusetts, and formerly Charge d'Affaires for the United States at Madrid and Stockholm, at which latter city he negotiated the treaty of commerce which still serves as the basis of the relations between North America and Sweden. The deceased was born and educated at Boston. A daughter of Mr. Appleton is married to M. Eugene Pinault, Deputy Mayor of Rennes.

— By the explosion and burning of the American gap and flask company at Waterbury, Conn., on Friday last, nearly all the machinery in the United States for making percussion caps was destroyed. Four girls employed in the factory were burned to death.

— A Paris physician has been sentenced to imprisonment for one year, fined 500 francs, and placed under the surveillance of the police for five years, for having divulged the nature of a patient's disease and thus injured his character. He was also condemned to pay 1000 francs damages to his patient.

— As an ox team with a load of logs was being eased down the precipitous sides of a mountain in Maine last Friday, the "snub warp" broke, and sled, logs, oxen and all were precipitated down, bringing up with a fearful crash among the trees and stumps below. Two of the oxen were killed.

— They are experimenting with a flying machine in Washington. It is designed for military purposes, and it is to be hoped will do all the flying necessary on our side of the line.

— All National Banks have been authorized by Secretary Chase to receive subscriptions for the 10 40 loan, and also depositors for all Government moneys received for internal revenue and for commutation under the draft.

— Information from Vienna states that the death of the King of Bavaria was owing to lock jaw, originating in a scratch on the breast from a pin attached to an order he was fastening on his coat. He was sick four days.

— The steward on the steamer Hibernian fell on Monday evening while going on board that vessel at Portland, and broke his leg. The Press says: "Several of our humane physicians were applied to for assistance, but refused to go!"

TO ARMS! TO ARMS!—The citizen soldier will find a more deadly foe in the brackish, muddy water and damp night air than in the most determined enemy. Holloway's Pills so purify the blood and strengthen the stomach and bowels that the soldier can endure these hardships and still be strong and healthy. Only 30 cents per box 230

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

LIFE ASSURANCE.

"A POLICY OF LIFE ASSURANCE is always an EVIDENCE OF PRUDENT FORETHOUGHT; no man with a dependent family is free from REPROACH if not insured."—LORD LYNDHURST, late Lord Chancellor of England.

"A POLICY OF LIFE ASSURANCE is the CHEAPEST AND SAFEST mode of making a CERTAIN PROVISION FOR ONE'S FAMILY. Many a widow and orphan have had great reason to be grateful that the advantage of LIFE ASSURANCE was understood and embraced by the husband and father."—BENJ. FRANKLIN, 1769.

Send at once to J. P. BARTLETT, Agent for the MUTUAL LIFE INS. CO., for the Company's documents, which are furnished gratis 3m13

MARRIAGES.

In Great Falls, Mr. EPHRAIM L. MORRELL, of North Berwick, Me., to Miss ELIZABETH SILLOWAY.

DEATHS.

In this city, on Tuesday morning, April 5, JOHN BETTERIDGE CHRISTIE, aged 20 years and 9 months, only son of John and Susan Christie.

☞ Funeral services at the Unitarian Church on Thursday afternoon at half past 4 o'clock.

In Wolfborough, April 2, Mrs. ELIZABETH SHERBURNE, aged 88 years, widow of John Sherburne, formerly of this city. Her remains were brought to this city for interment.

In Lowell, Mass, April 1, ALFRED WELLINGTON FULLOCK, aged 4 years and 8 months, twin son of Robert N. Fullock, Esq., formerly of this city

In Hampton, March 30, Mrs. LYDIA BROWN, aged 66 years and 10 months, wife of Simon Brown

☞ The Funeral services of Miss FRANCES M. MCCLINTOCK, will be held at the Unitarian Church in this city this day (Wednesday) at half past 11 o'clock, A. M.

DR. J. W. CHANNING,
—THE GREAT—
Cancer, Tumor and Humor Doctor,
Formerly of Boston, now of New Bedford,
Has Arrived in Portsmouth,

And taken Rooms at the CITY HOTEL, where he will remain till APRIL 10th, or longer, if patients under treatment require it.

Dr C. gives particular attention to the cure of CANCERS, which he cures without pain and without the use of a knife. Do not say you cannot get any relief, until you have tried his medicines, which will remove all humors, such as Cancers, Scrofula, Abscesses, White Swelling, Affections, Erysipelas, Salt Rheum; Inflammatory, Chronic, Mercurial and Syphilitic Rheumatism; Fever Sores, old and stubborn Ulcers and Sores of all kinds; and all Impurities of the Blood, which the flesh is heir to.

Dr. C. will give examinations and advice free on all diseases. Invalids of both sexes are respectfully invited to call and consult the Doctor. The poor liberally considered.

N. B.—Certificates of cures may be had of him, from all parts of the country. mh22

SPEER'S SAMBUCI WINE.

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT.

For Physicians' Use.

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by much of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Urinary and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the Juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians who have tried the Wine.

Gen. W. Scott, U. S. A. Dr. . . Newark.

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL
ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York Board of Volunteer Bounties, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered incurable, are daily being quickly cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored in those who have been bedridden for years, and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by the other physicians—are **Invited to use Constitution Life Syrup.**

During the past five years we have contended with obstacles and overcome opposition as none but our friends can appreciate by testimony.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanency, and think the diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a watch, is a delicate scale, in a state of equilibrium. But when from any cause the scale comes out of the balance, we have the sickness and pain. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and all DISEASES OF THE DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Wright at Stom'h, Dizziness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strama, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Lumbago, Sciatica, Gout, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings reduced, and in the worst cases of rheumatism, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day that they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Pulling of Mercury, Setting of Teeth, Bad Ulcerations in Mouth, Injured Constitution.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates root and branch, all Eruptive Diseases from the face, neck or the skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast and should be taken as soon as the swelling is detected, thus preventing their bursting and causing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from infancy to years of maturity. Young children are very subject to Discharges from the Ears, caused depends upon Scrofulous constitution. Such cases recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are yet remarkably adapted to Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Uterus, Tumors of the Breast, Tumors growing on other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation), Disease of Valves—producing a grating or filing sound, Dropsy of the Heart, Pain in the Side, Back and Limbs, important organs, or persons suffering from any acute pain in the region of the heart, will be greatly benefited by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indiscretion in Exercise, Pain in the Back, Loss of Memory, Forgetfulness, Horror of Disease, Fear of Death, Dimness of Vision, Dry Skin, Pale Hagged Countenance and Languidness of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Secretive Diseases,** either of the Nose Throat, Tongue, Spine, Forehead or neck, Constitution Life Syrup proves its equal.

MOTH PATCHES upon the temple, nose, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Life Syrup will effectually root the secretion, and remove the deposit which is directly underlies skin.

In Costiveness, giving rise to languor, dizziness, indigestion, weak stomach, or an accumulated or cancerous condition of that organ, necessitating the burning of the bowels, unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

Life Syrup of Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.

Life Syrup of Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Complaints and Ladies who are suffering from diseases for which they are at a loss to know what to take, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so close at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES

It is the safest and most efficacious medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and child, it prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It is highly esteemed both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves,

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhea; and is especially recommended in those cases of Female Albus or Whites in females where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have produced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with it, as medicine in all cases of Gonorrhea, Fluor Albus or Whites. Its effect are *healing, nothing and demulcent;* removing all scalding, heat, chordee and pain, burning of the parts, and almost unequalled able pain that is experienced with nearly all the *cheap quack injections.*

EF By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are speedily removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $1 per bottle, or three for $2.

Sent by express to any address on receipt of price. Sold by all druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

A startling cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all the sex cases, caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Nervous Irritability, Hysteria, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

EF This medicine is a simple vegetable extract and one on which all can rely, as it has been used in my family for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

EF To those who have suffered with their constitution, until they think then selves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

EF For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

EF Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

DR. WRIGHT'S

REJUVENATING ELIXIR.

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low Spirited.

One bottle restores the mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee seven-and-twenty.

The Indiscreet and Dissipated, the over-taxed man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

EF Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

EF For the Removal of Obstructions, and the Regularity in the Recurrence of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Greek Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, dizziness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain no thing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, except during the first three months, during which the nothing search of their action would inevitably prevent pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

EF Price $1 per box, or six boxes for $5.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached. In which any articles can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the same is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling or relighting.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer the following purchasers:

Portsmouth.

MAGEE COOK,

Also on hand an assortment of the different sizes
—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of the valuable Patent Ventilating Air Warming Furnace, is remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and no odor of the air is ever allowed to come in contact with the fire-pot in order to prevent the disagreeable and unhealthy odor so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, requiring a little attention and care, further than the usual, while many have proved a total failure. The reason for this is obvious. The concentrated heat being lighter than the air, passes off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in this

MAGEE FURNACE.

The flue or pipe in this furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the application of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases or throw out heat, as they pass off with a large amount of the best generated, carrying the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so difficult to fill up and gather soot or dust, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Menduim,
Henry F. Wendell,	John Sise, and others.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. THURSDAY, APRIL 7, VOL. XXIV. No. 83.

The Chronicle.

"Be not too hasty—to be not confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of party. Party spirit, if it is not to be encouraged,—is common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. It exercises its most pernicious influence in governments of a popular form. It is seen in its greatest rankness, and it is truly their worst enemy."—*Washington's Farewell Address.*

"THE CONSTITUTION AS IT IS"—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every state shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State legislatures, and all executive and judicial *officers*, both of the United States and of the several states, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S.*

THE TRAVELLERS.

BY MRS. E. B. EDSON.

Two travellers journeying through the land—
Each having the same goal in view—
Fell out and quarrelled by the way,
About the path they should pursue.
Each looked with softly kindling eye
Upon where in swelling beauty lay
The city with its domes delight—
Yet doubted each the other's way.

One walked in silence grim and stern,
With visage lengthened and severe,
And thought the only passports there
We're sorrow for sin and sorrow here.
The other wore a smiling face,
And grew in sweetness day by day,
Using the gifts which God had given,
To cheer and beautify his way.

One chose the hardest, dreariest way;
And close by shut his willed eyes
To all the beauty of the earth,
And all the glory of the skies;
The other walked through flowery meads,
The sunshine ever on his path;
He happy vision ever saw
The rainbow over the cloud of wrath.

One crucified with pious zeal
All love of nature and her laws;
And one his cross so all the world
Might see how joyfully he wears!
The other loved all creatures things—
The seasons' rise, the seasons' fall;
And bore his cross with heart so light,
He doubted he had one at all!

The idea of administering the oath of the Confederate States to a Yankee taken in arms is laughable. The man who is fool enough to fight in this crusade against the South will always prove knave enough to violate his oath.—*Richmond Whig.*

Rowland Hill said once to some people who had come into his chapel to avoid the rain: "Many people are to be blamed for making religion a cloak; but I do not think those who use it for an umbrella."

— A Detroit cavalry captain was astounded a few days since, when one of his new recruits walked up to him, and declared that soldiering was rather disagreeable, and that said recruit, being a female, would quit the business.

American and Foreign Patents.

E. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries, procures Reissues, Extensions, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Obtains opinions relative to Patents and Patent rights, to determine the validity or utility of patents or inventions—and legal or other advice relating to subjects connected therewith. Copies of the claims of any Patent furnished, by remitting one Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages in securing Patents, or ascertaining the patentability of inventions unsurpassed by any other agency, which can be offered them elsewhere. The testimonials below given from persons who have made SUCCESS AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES, the subscriber would say that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for services so reasonable or moderate, the unusual practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

Hence, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, reaches back, beyond question, to other superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in urging inventors that they cannot employ a person more *competent and trustworthy* and more capable of putting their applications in form to secure for them all early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. E. H. Eddy has made for me THIRTEEN applications, on which he has secured patents have been granted, and that is *now pending.* Such unmistakable proof of great talent and ability I can not resist my duty to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN HAGGARD.

During eight months, the subscriber, in course of his large practice, made on *average* rejected applications for other Attorneys, which were subsequently prosecuted to successful issue by me, and obtained patents.
E. H. EDDY.
Boston, Dec. 19, 1863.—1yrtuths

CHAS. W. CARTER,
mal3 *Practical Confectioner.*

IMPORTANT TO THE AFFLICTED.
Dr. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
NERVOUSNESS AND SEXUAL DEBILITY.
Besides his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the region of pubis, Inflammation of the bladder and kidneys, dyspepsia, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending these diseases are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive organs, symptoms of consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, sudden startlings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience and be once restored to health and happiness.
Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Lupotine, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important!
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all disease incident to the female system. Prolapsus Uteri, or falling of the womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of the Genital Organs, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted, daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unrivalled talents and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the thousands in Boston, none stand higher in the profession than the celebrated DR DOW, No. 7 Endicott street, Boston. Those who have the misfortune to be unsuccessfully treated by some ignorant or inexperienced physician and surgeon should give him a call.
☞—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.
BOSTON, April 7, 1863. eodly.

Dissolution of Partnership.
Notice is hereby given that the partnership heretofore existing between us, under the firm name of JONES & BOLLES, has this day been dissolved by mutual consent.
All persons owing said firm will make payment to TRUE W. JONES, and all persons having claims against said firm will present the same to him for payment.
Portsmouth, Feb. 3, 1864.
TRUE W. JONES,
OREN BOLLES.

Notice.
TRUE W. JONES
Gives notice that he shall continue the business heretofore carried on by JONES & BOLLES in the town building, and hopes to supply his customers with as good articles in the line as the market will supply, at reasonable rates, as usual.

FROM THE LONDON DOCKS.
Having been appointed by **John & Robert Dunlop,** the great wine Merchants of LONDON, as their agents for the **United States and British Provinces,** for the bottling and sale of their celebrated
LONDON DOCK GIN,
LONDON DOCK BRANDY,
LONDON DOCK PORT WINE,
LONDON DOCK SHERRY WINE,
The subscriber would now offer to
TOWN AGENTS, DRUGGISTS,
GROCERS and FAMILIES,
these justly celebrated SPIRITS and WINES.
☞ They are put up in cases of one dozen bottles each, and will be sold at very low prices, to enable all who are desirous of obtaining
Genuine Liquors and Wines
to purchase a good article at a reasonable price.
☞ They are sold here, as in London, in bottles only, with the Agent's name on each bottle, to prevent counterfeiting.
Sample Bottles will be sent by Express, so that parties may test the quality, if desired.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to the very peculiar branch of Physic, enables him to perform cures such as no other Physician can, and his facilities are such being in constant intercourse with the most eminent Physicians of the Old World, for obtaining the best as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and vigorous cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
TO YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are invited to call consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader will of course see that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. J. TELLER'S GREAT WORK.
A book for every body—Married or Single.
DR. TELLER's great work on the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid, 50,000 copies sold the past year. The single Married and the Married Happy. A treatise on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The cure of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine for Menstruation, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 7 to 9 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All fees warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Advertising.
For a Square (1 inch) or less, one or three insertions $1, each following insertion 25 cents, one week $1.50, one month $3, three months $6, six months $8, one year $15. These are Daily rates—and no advertisements receive more than one insertion in the Weekly (Gazette) without special order and charge.
Funeral Notices, and Advertisements of articles Lost and Found, &c., 50 cents.
Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity, and throughout the State. ☞ Liberal terms for yearly advertising.

Rates of Advertising,
IN THE DAILY CHRONICLE.
For 1 "SQUARE" of 300 ems nonpareil type, equal to 12 lines or 90 words (7½ words averaging a line) or one inch by measure,—one or three insertions $1, each subsequent insertion 25 cents; $3 for a month, $5 for three months, $8 for six months, $15 per year. For inside advertising, per month or year, one half more.
For a Column, (48 Square) per year, inside $300, outside $450.
Transient advertisements, for alternate insertions, charged one-half more per insertion. By the month or year, advertisements for every other day, charged one-third less than full rates.
Cuts charged double their measure, and inserted in fourth page only.
Advertisements in large, reading-matter type charged double per Square, the smaller type.
"Special Notices" double the common rates.
Local notices in editorial columns, 25 cents per line, for each insertion; and no statements as of fact or opinion, will be adopted or endorsed as editorial, unless within the knowledge or belief of the editors.
Solid notices in reading matter type and columns, and having "credits" attached, 5 cents per line, each insertion. After first hundred lines, 3 cents per line.
Notices of Funerals, articles Lost and Found, &c., 50 cents for three insertions. Records of Marriages, Deaths and Religious Notices, also be paid for, and a similar fee will be accepted when proffered.
☞ All papers more than one copy per week, sent to advertisers, will be charged for.
Probate Notices and other Legal advertising at regular rates.
Terms always Cash, and no advertisement inserted without advance payment, except where accounts are open.
Portsmouth, N. H., 1863.

Rates of Advertising,
IN THE NEW HAMPSHIRE GAZETTE.
(Weekly.)
For 1 "SQUARE" of 300 ems nonpareil type, equal to 12 lines or 90 words (7½ words averaging a line) or one inch by measure,—one or three insertions $1; each subsequent insertion 25 cents; $3 for six months, $5 per year.
For a Column, (48 Square) per year, inside $100, outside $150.
☞ All papers more than one copy per month, sent to advertisers, will be charged for.
N. B.—"THE DAILY CHRONICLE" and "THE NEW HAMPSHIRE GAZETTE" are two distinct papers, having separate and distinct bona fide circulations; and no joint arrangements will be made for advertising in both, other than on the above double terms. Advertising for advertising in the two papers, must be separately made.

S. R. Niles, American Newspaper Advertising Agent, No. 1 Scollay's Buildings, Court Street, Boston, is Agent for The Chronicle and The Gazette; and is authorized to receipt for subscriptions and advertisements at our best rates.

Morning Chronicle.

Portsmouth, N. H.

THE REBELLION.

Lieut. Gen. Grant left Washington for the Army of the Potomac on Wednesday, accompanied by Maj. Gen. Sheridan who has been ordered to the command of the cavalry of that Army.

Gen Franklin's command reached Alexandria, La., March 26th. The advance column of our forces, under Gen. A. J. Smith, left Alexandria on the 27th. The gunboats will probably follow. Shreveport had not yet been occupied by our forces.—Gen. Mower has captured 17 cannon since reaching Red river.

Gen. Pleasanton has reported to Gen. Rosecrans at St. Louis.

It is understood that Gen. Meade is to be nominated to the vacant Major Generalship in the regular army.

The recent rains have prevented any changes in the Army of the Potomac.

Rumors are brought in that Lee has been reinforced by Longstreet and part of Johnston's forces, but they lack confirmation.—Lee's new fortifications on the Rapidan, opposite Mitchell's Station, at Clark's Mountain, can be distinctly seen from our lines.

Several members of Dahlgren's command, captured near Richmond, have escaped and rejoined their regiments.

The N. Y. World's dispatch denies that Gen. McDowell has been assigned to the department of the Pacific and says that he is to have a command in the East.

The Herald's dispatch says Gen. Sickles left for Cincinnati on Tuesday charged with special orders from the President to make a complete tour of all the territory reclaimed from the rebels, and observe the temper and disposition of the people toward the government, and to investigate the practical working of the policy adopted in dealing with them; expounding to them the purposes of the Administration and endeavor to reconcile them to the Government.—He will make suggestions to the President for modification or change of policy, as may occur to him from his observations. He returns via the seacoast, calling at all points in Federal occupation.

NEW HAMPSHIRE ITEMS.

—— Ossipee pays volunteers $300.

—— Gov. Gilmore went to Washington last Friday.

—— The Supreme Judical Court, Judge Bartlett presiding, commenced its April term in Concord on Tuesdays.

—— Within less than six months there have been 17 deaths of children, mostly of diptheria and scarlet fever, in a single school district in Moultonborough.

—— Three small buildings belonging to the Union Powder Works, at New Durham, were blown up on Tuesday afternoon.—Four men were killed. Aside from the loss of life the damage was not great.

—— W. B. Davis, a worthy and respected business man, fell, while rolling logs at Ela's Mill, Warner, March 16th, fracturing his right arm and hip and otherwise injuring him. He died on the 31st.

—— The house of Mr. Pesalee B. Connor of Ossipee, was entirely destroyed by fire on the 21st inst. It caught from some defect in the stove funnel, which passed up through the chamber floor. Mr. Connor and wife are both aged and infirm, hence but few articles were saved from the devouring element. The loss falls heavily on this aged couple.

—— Capt. Henry B. Atherton, editor of the Nashua Telegraph for the last eighteen months, has dissolved his connection with the press and opened a law office in Nashua. Mr. Orren C. Moore, a practical printer, and recently of the firm of Gage, Moore & Co., late publishers of the Manchester American, assumes the editorial charge, and Alfred Beard (son of the original founder and editor) becomes proprietor of the Telegraph this week.

—— The Nashua Manufacturing Company has furnished "Uncle Sam" with two million pairs, including contracts partly filled, of cotton flannel army drawers. Over four thousand women and girls, who received one hundred and seventy thousand dollars for labor, were employed in making them up. The swiftest needle expert averaged twelve pairs a day (double the number put together by common sewers) by sunlight, which is at the rate of a pair in forty-five minutes. All the sewing is done by hand, machine-work being strictly tabooed.

—— A correspondent of the Wolfborough News says one Sunday morning recently a worthy deacon, residing in the vicinity of Centre Harbor, started his son with an ox team load of peg wood, for market, and himself went to the forest to prepare another. The son had proceeded two miles, when an acquaintance informed him of his mistake. He hurried home and took his father from the woods. The deacon was enabled to reach the church before the forenoon services were over. It is presumed that he sincerely regretted his morning error, as he was more than usually fervent in his devotions at the social meeting in the evening.

BOSTON CORRESPONDENCE.

[From our Regular Correspondent.]

BOSTON, April 4, 1864.

Editor Chronicle:—Last Saturday, during a temporary lull in the long storm of the week, the 26th Mass. regiment, 550 strong, marched through our streets. This regiment was raised principally in Lowell and vicinity,—the 6th regiment, of Baltimore fame, forming a nucleus; it formed part of the forces under Gen. Butler in his expedition to New Orleans, and has been in the Department of the Gulf ever since. It has been in but one battle, losing 3 killed and 11 wounded. 16 New Hampshire men were members of the regiment, 4 being from Rockingham county,—Henry A. Weeks, Exeter; Augustus Burrell, Chester; John Parker and Amos L. Poole, Derry.

The Annual Register of the Massachusetts Legislature shows how well New Hampshire men are appreciated in this Commonwealth. 3 members of the Senate, and 16 of the House are natives of New Hampshire—4 from Rockingham county.—3 of the 6 Lowell members are from New Hampshire. Hon. C. T. Stevens, recently elected from Ward 1, Boston, is a native of Dover. H. B. Wheelwright, of Portsmouth, is an overseer of Harvard College and General Agent of the Board of State Charities. F. B. Sanborn, of Hampton Falls, is Secretary. Maj. Rogers, of Orford, is Asst. Adj. General. Rev. A. A. Miner, Chaplain of the Senate, is from Lempster; and Mr. D. H. Rogers, of Alton, is 1st Clerk in the Treasurer's office. 6 of the 30 overseers of Harvard College are natives of New Hampshire.

The Legislative Committee on Temperance have reported that the Bill adopting a license system ought not to pass, and giving the petitioners for such a bill leave to withdraw; and the old prohibitory law, which is just about a dead letter in this city, will remain, I can hardly say in force, but on the statute books. A good sensible license law would promote the cause of temperance in this city, though in the country towns the present law may be best.

I see by your paper that Mr. William H. Laws, of your city, is about moving into a new and commodious office: his prosperity is well deserved, for no more courteous and obliging an expressman than Mr. Laws comes into this city.

Capt. Arthur S. Nesmith, of New Hampshire, A. Q. M. of Volunteers, was arrested by the patrol of Washington last February, and ordered to appear before a Military Commission, but failed to appear. He has since made satisfactory defence, and is exempt from dismissal.

Acting Master C. C. Ricker, of Portsmouth, has been ordered to the "Relief."—Sergt. James Mulligan, 1st Mass. Cavalry, has been promoted to 2d Lieutenant in the 4th Cavalry. Lieut. Mulligan had charge of a squad of the 1st cavalry that were attached to the 3d N. H. regiment on Edisto Island, in April, 1862. Lieut. John M. Head, 3d N. H. Vols., Acting Signal officer, Department of the South, has resigned, and been honorably discharged by the War Department. Lieut. Head went out as 2d Sergeant of Co. B, from Exeter, and won his promotion by good conduct and superior efficiency as a sergeant. His having been detached from the regiment has prevented his promotion to a higher grade.—The readers of the Exeter Ballot will miss his interesting letters from South Carolina.

I hear that the orders are now at the Adjutant General's office, Concord, for the veterans of the 3d and 4th N. H. regiments to report at Washington at the close of their furlough. The 24th Mass. and 52d and 67th Ohio regiments have been ordered there,—regiments that have been in the Department of the South. Evidently concentration is to be the future military policy: we have tried the "anaconda" system about long enough.

Sergt. Major George F. Lord, 3d N. H. Vols., formerly of Co. B, (Exeter company) will probably give up his warrant and remain at Concord as clerk at Headquarters. Mr. John Steele, clerk in Capt. Colby's office, Concord, has been appointed 2d Lieut. in the 1st Cavalry. Col. Fearing, 8th N. H., commands the Draft Rendezvous. Capt. Silvery, 1st U. S. Artillery, is expected at Concord as permanent commander.

Letters from Port Royal say the 3d (or the portion of the regiment remaining at P. R.) are doing well in their new position as mounted infantry: they had expected to go to Florida, but their last mail had changed the order of things. Lieut. Lamprey, of Exeter, had been ordered to Co. K.—Maj. Plimpton commands the regiment.—Capts. Ela, Allen, Maxwell, Ayer and Dow are the commanders of Squadrons. Capt. Ela commands companies E and G; Allen, C and I; Maxwell, D and K; Ayer, H, and A; Dow, B and F. All are in excellent health and spirits. MANNING.

☞ The Winthrop House, corner of Tremont and Boylston street, Boston, was burnt on Wednesday morning. The building was partly occupied as a hotel and partly as a Masonic hall, in which the valuable archives and regalia of several lodges were deposited. The building and contents were a total loss.

— The experiment of firing a charge of fifty pounds of powder in the 15-inch guns has proved successful.

— Some unknown persons damaged the machinery of a ferry boat at Portland on Monday night, so as to prevent her running for a day or two.

— Sewell Phelps of the well known firm of Phelps & Dalton, type founders, Boston, died on Monday morning, of diptheria. He was 66 years old.

— The City Council of Newburyport has refused to grant the petition of the spiritualists for the use of City Hall on the Lord's day, to hold public worship in.

— All the hack drivers in Fall River were April-fooled into calling at one number at the same hour, to pick up two passengers for the 3 o'clock train.

— On his late raid, passing through Fredericksburg, Gen. Kilpatrick's attention was drawn to a slave auction by the auctioneer's bell. The General stepped up and "took the lot," and five able bodied recruits were added to the forces of Uncle Sam without further ceremony.

— Major Thomas' majority for Mayor in St. Louis, is 2500. The new Council will stand 13 radicals to 7 conservatives. The aggregate vote is about 10,000, or about one-third less than at the election last spring, when the Democrats ran a candidate.

— Returns from all but three towns in Connecticut, gives Buckingham 38,445, Seymour 32,904. Buckingham's majority 5541 Union. The Senate is 18 Union and 3 anti, and the House 158 Union and 72 anti, thus giving the Union party over two-thirds of the Legislature, which secures an amendment to the Constitution allowing soldiers to vote. As in this State the victory has exceeded the expectations of the most sanguine friends of the Union cause.

FERTILIZERS,

Trees, Vines,

Shrubs,

Vegetable and Flower Seeds.

J. F. SHORES, Jr.,

No. 1 Congress Block,

WOULD CALL THE ATTENTION OF

FARMERS AND GARDENERS

TO THE

FERTILIZERS

WHICH HE HAS FOR SALE, VIZ:

LODI CO.'S

IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It may be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.50 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Thomas Wentworth & Co., Dover.
Jeremy Larkin, "
Colbath & Danford, "
John Martin, Great Falls.
D. F. Hobbs & Co., Ossipee.
Moses Merrill, East Ossipee.

C. W. Greenleaf & Co., North Berwick.
G. W. Snow & Co., "

Lloyd's Nitrogenized

Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (8 ca O P O 5)	17.2
Soluble " " (ca O P O 5)	11.5
Organic matter	31.
Sulphate of lime	38.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia. The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 3, 9, 16. In other words, Insoluble Phosphates are worth 4½ times and Ammonia 5 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The sample for analysis, I selected from the entire stock which was prepared for the market

N. T. HILL
BROWN UNIVERSITY, Jan. 24, 1864.

WILL LECTURE

AT THE TEMPLE,

FRIDAY EVENING, APRIL 8, 1864,

At 7½ o'clock.

SUBJECT—"The Black Man at the White House."

In behalf of the Sanitary Commission.

Admission.....25 cents.

COURTSHIP AND MARRIAGE.

AT THE TEMPLE.

MONDAY EVENING, APRIL 9, 1864

MISS MATTIE GREENWOOD,

whose efforts in her own and other countries have met with great success and the approbation of the literary and religious circles of society, will deliver her Lecture entitled

OUR DUTIES.

Or the relations of Young Ladies to

Home, Society, Courtship & Marriage.

Since her arrival in this country, Miss G. has devoted half the income of her profession to aid the

SANITARY COMMISSION

of the towns and cities in which she has lectured. Aside from the intrinsic merits of her lectures, Miss Greenwood's object in contributing for the relief of

SICK AND DISABLED SOLDIERS

commends itself to the humane and patriotic—while at the same time every patron of the lecture will receive a

PRESENT,

worth at retail value on average the price of the ticket. These presents are some of them costly, others of trifling value, but the lecture is worth the money.

Admission and a present 25 cents.
Reserved seat and a present 50 "
Reserved seat and no present 25 "

Buy your tickets to day, at

Administrator's Sale.

FARM AT AUCTION.

By virtue of a license from the Judge of Probate for the County of Rockingham, will be sold at Public Auction, on the premises, in Portsmouth, N. H., on

SATURDAY, April 9, at 2 o'clock P. M.,

The Farm of THOMAS CURRIER, late of Portsmouth, deceased, situate on the Lafayette road, in Portsmouth, about three miles from the compact part of the city. Said Farm contains about 85 ACRES OF VALUABLE LAND, well divided, and adapted to Mowing, Tillage and Pasturing. The farm is fenced with substantial stone wall, and well watered with streams and springs; cuts from 18 to 15 tons of hay, and with proper cultivation can be made in a short time to produce double this quantity. There is a thrifty Orchard of choice grafted fruit on the premises, a fair growth of Wood, and a good Barn, 32 by 42 feet. Terms at sale

With a complete assortment of all patterns of CROCKERY, GLASS AND CHINA WARE, Just received and for sale at the lowest rates, by
apl JOHN SISE, 5 Market Square.

GENTLEMEN:

Please call at the subscribers' place of business and be measured for one of

Butterick's Perfect-Fitting Shirt PATTERNS.

Then you can have good fitting Shirts for a lifetime, at a trifling expense. Notice the benefits you will receive, by procuring a Pattern cut by this celebrated rule:

1. You will always have good fitting Shirts.
2. They will be cut from less cloth, thereby saving expense, and be perfectly easy to the wearer, as the proper quantity of cloth is put in the right place.
3. You will receive printed directions with each Pattern, setting forth how to prepare the cloth, cut and make the Shirts, quantity of cloth and trimmings for each pair, and the proper width of cloth to purchase; thereby saving cloth and many stitches.

There is much time saved by using a Pattern cut by measure, with directions so plain that any intelligent person will understand them.

Every Pattern warranted to fit.

These Patterns are furnished by

Cancers Cured.

P. R. THANK, M. D., Eclectic Physician.

Particular attention given to the treatment of Chronic Diseases, such as Humors, Neuralgia, Catarrh, and all Diseases of the Throat, Lungs, Heart, Liver and Kidneys.

OFFICE—At his residence, No. 29 Court street, Portsmouth, N. H. F25

Coughs and Colds.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies oft times are speedily relieved in the early stage, of the disease, recourse should at once be had to "*Brown's Bronch al Troches*," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.
mh31—1uuaw

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.
Address JOSEPH T. INMAN,
Station D, Bible House,
mh25—1y3m* New York City.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only time (theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING COUGH, all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

For sale by all Wholesale and Retail Dealers.
JOHN L. HUNNEWELL, Proprietor,
Practical Chemist, Boston, Mass.

N. B.—The greatest freedom of correspondence solicited. Dealers with good references supplied on commission.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly fast. Samples to silk and wool can be seen and the colors procured of THACHER. a230

Local.

FAST DAY will be observed as usual by all devout christians, and many prayers go up for the divine blessing on our agricultural arts and arms, for the suppression of the rebellion, the restoration of peace and the establishment of liberty, order and justice.

Services will be attended in this city, we suppose, at all the churches.

Meeting in the forenoon at the North, Stone, Baptist, and other churches. The service at the Universalist Church will be in the evening at half past 7.

POLICE COURT, Wednesday.—Odell, J.—Dolly Emery, for resisting an officer while in the discharge of his duty in attempting to arrest Kate Emery, her daughter, was bound over in the sum of $50 for her appearance before the S. J. Court.

Kate Emery, who escaped recently from the House of Correction, was recommitted, having four months of her time yet to serve on the sentance she received when first arrested.

PROPOSED TELEGRAPH LINE.—If proper encouragement is given by citizens along the route, Col. J. W. Robinson, the enterprising Superintendent of the American Telegraph Co., proposes to construct a line between Manchester and Portsmouth, connecting with Concord. It will be completed by the first or middle of June, if the work is commenced soon.

☞ "Grandfather Pike's Old Folks' Concert Troupe," gave their concert at the Temple on Tuesday evening. While their singing, in itself considered, was pleasing, the following remarks in relation to a concert which they gave in Exeter last week, which we condense from the Ballot, seem to us but a fair presentation of the case:—

The troupe consisted of but six young people, three of each sex, and although they sang well, and gave the old tunes as acceptably as so small a choir could be expected to do, there was an air of humbuggery about the performance that destroyed the effect that the young people might have made had they appeared in their real characters. For "Grandfather Pike," we had a young man in a white wig and brown whiskers, and the grand choruses that we expect in an "Old Folks' Concert" were given by a half a dozen voices. Some of the songs on the programme were very well rendered. We rarely hear the duett "Gaffer Green and Robin Ruff" better done, and the solo performances generally were good; but the "Seaside Story," which was the prominent feature in the showbills, was a ridiculous burlesque upon comedy, and disgusted instead of amusing the audience. There is musical talent enough in the troupe to give good concerts, and they should discard humbugging pretensions.

☞ Fred. Douglass, the eloquent mulat to orator, a lineal descendant of the F. F. V's., will speak as only he can speak, on Friday evening, in the Temple,—and very appropriately too—he is to do it in aid of the Sanitary Commission! What an edifying spectacle!—to behold a man of African descent, with "no rights that any white man is bound to respect," contributing by his *eloquence* to nurse and heal the wounded soldier, or him who has sickened and is suffering, by standing as a wall between us and danger. A runaway slave become a citizen: a piece of merchandise holding an audience spell-bound by the chains of oratory—a freedman claiming liberty and manhood for all. U. T.

☞ Our readers, as ourselves, will be glad to welcome the interesting letter from "Manning," our Boston correspondent, which we publish this morning. By reason of his ill health we have been deprived of letters from him during the past two weeks.

☞ In accordance with our usual custom, not to work on Fast Day, we shall issue no Daily on Friday morning.

☞ Our advertisers must bear with us a little—the pressure of their favors upon our columns is so great.

☞ Don't forget the Concert by the Union Troupe at the Temple to-night.

☞ The Alms House will be open for visitors from 2 to 5 o'clock this afternoon.

☞ Cultivators of land should read Mr. Shores' advertisement this morning.

— A man was garrotted and robbed in Richmond street, Boston, on Monday night.

— During last month $300,000 was paid in prize money, for vessels captured by the Navy.

— The City Council of Bath, Me., has instructed the City Marshal to prosecute all dealers in that city who violate the provisions of the Liquor Law.

— The body of a new-born infant was found in the dock at Belfast on Saturday, wrapped in a man's jacket. A lamentably large number have been found down east during the past month or two.

— At the New York Fair they have an Eagle resting upon a dome, the base of which is ornamented with flowers, the whole being made of human hair;—the Eagle, 12 inches high, from the hair of President Lincoln, members of the Cabinet, and prominent Senators; the dome from the hair of the wives of representative men.

☞ Small pox has already sacrificed some of our best and bravest troops. Soldiers, listen to the voice of reason, supply yourselves with Holloway's Pills and Ointment. The pills purify the blood and strengthen the stomach, while the Ointment removes all pain and prevents pit marks. Only 30 cents per box or pot. 231

"A POME."

Reader, dear, I pray you have
By you some of Grace's Salve;
Keep the box your house within
For diseases of the skin.
It is pure, and never spoils,
And is excellent for boils.
And should you afflicted be
With that pesty Neuralgy,
Rub the Grace's Ointment in
To the pores, 'twill ease the skin.
Every other salve it knocks
Out of time. Go buy a box.

TRIAL AND FRIENDSHIP.—Herrick Allen's Gold Medal Saleratus has had a trial among three million families, and is pronounced the best Saleratus in the known world. Its use always brings a smile to the household; it keeps them in health; it helps make the weak strong, and saves hundreds from that dreadful disease, dyspepsia. As you value health, use it. Most of the Grocers sell it. Depot 112 Liberty Street, New York.

LIFE ASSURANCE.

"A POLICY OF LIFE ASSURANCE is always an EVIDENCE OF PRUDENT FOREthought; no man with a dependent family is FREE FROM REPROACH if not insured."—LORD LYNDHURST, late Lord Chancellor of England.

"A POLICY OF LIFE ASSURANCE is the CHEAPEST AND SAFEST mode of making a CERTAIN PROVISION FOR ONE'S FAMILY. Many a widow and orphan have had great reason to be grateful that the advantages of LIFE ASSURANCE was understood and embraced by the husband and father."—BENJ. FRANKLIN, 1769.

Send at once to J. F. BARTLETT, Agent for the MUTUAL LIFE IN. CO., for the Company's documents, which are furnished gratis. 3m13

DEATHS.

In Kittery, March 25, LUTHER L. LEWIS, aged 4 years and 8 months, son of Luther and Melissa Lewis.

In Boston, Me., on Friday, Apr 1, Mr. BENJAMIN FISHLEY, aged 75, a native of Portsmouth, and favorably known here as a christian citizen.

☞ The funeral services of JOHN B. CHRISTIE will take place at the Unitarian Church this (Thursday) afternoon at half past 4 o'clock.

DR. J. W. CHANNING,
—THE GREAT—
Cancer, Tumor and Humor Doctor,
Formerly of Boston, now of New Bedford,
Has Arrived in Portsmouth,

And takes Rooms at the CITY HOTEL, where he will remain till APRIL 10th, or longer, if patients under treatment require it.

Dr C. gives particular attention to the cure of CANCERS, which he cures without pain and without the use of a knife. Do not say you cannot get any relief, until you have tried his medicines, which will remove all humors, such as Cancers, Scrofula, Abscess, White Swelling, Affections, Erysipelas, Salt Rheum; Inflammatory, Chronic, Mercurial and Syphilitic Rheumatism; Fever Sores, old and stubborn Ulcers and Sores of all kinds; and all Impurities of the Blood which the flesh is heir to.

Dr. C. will give examinations and advice free on all diseases. Invalids of both sexes are respectfully invited to call and consult the Doctor. The poor liberally considered.

N. B.—Certificates of cures may be had of him, from all parts of the country. mh26

☞ Says an exchange:

Before we crush the rebellion, we have got to learn more self-denial, to worship something other than Mammon, or at least discover that money is worthless unless we have a country.

The people are not so bad as the writers of such cant seek to make them appear. If self-denial and liberality are to crush the rebellion, no great improvement in the habits of the people is necessary to effect it. Let us give the North the credit which is its due. Mammon is not exclusively worshipped.

DR. TERBETT'S'

PHYSIOLOGICAL

HAIR REGENERATOR

—AND—

UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small tubes, or sacks, which are the roots of the hair. It is from these glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these glands are healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become inflamed in the same degree, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and tender skin and healthy scalp, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing poisonous drugs, Lead, Litharge, Tannin, Sulphur, Sal-ammoniac, producing only water of yellow or fan color, it will, if properly applied, restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and by the application of it to the skin, it will

2. It will certainly STOPPE the hair from a gray to a beautiful Black, Brown, Auburn, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all dust, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair wherever the roots are extant, even if old age and where the glands have become disorganized.

5. It will cure the most intolerable itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony in our hands, which we shall publish for the Regenerator; and it is perfectly certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 7, 1863.

Mssrs. Tilton & Dodge:—Your Regenerator has induced me to try it on my bald, about six weeks ago, and had a wonderful effect. My hair was then almost white, and very thin. My little daughter has also tried it on her hair, which was falling off on account of a severe attack of the erysipelas, it stopped immediately on its application. My wife has also been trying it for baldness on top of her head, and it has a new growth of hair is rapidly starting. We have only used one bottle, and think, if we may fill it, our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 29, 1863.

GENT—Dubois I am very much satisfied your Hair Regenerator is destined, ere long, to work a complete revolution in the world of Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that I have yet purchased. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and has been gradually turning for more than ten years, when at out two months ago I began the use of your Regenerator, and it has completely established all my hairs to, so my lady brought back to its original color, and which is now a complete block. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It does keep the hair clean and free from dust, and it makes a very nice dressing. JACOB J. ABBOTT

Gray's Patent Molded Collars

Have now been before the public for several year. They are universally pronounced the neatest and best fitting collars extant.

The cuts show the gentleman's proper curve, free from the pain caused by all other collars.

The great complaint against the inside of the turn over collar, they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Gayette Collar has a smooth and finely finished edge on all sides.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND WARRANTED PERFECT.

They are made in the "Novelty" (or turn-down) style, in every half size, from 13 to 17 inches, and put up in boxes containing a dozen collars, and packed in "solid ones" to send by mail or express, including the only "Ladies" size of 12 inch, the latter a very handy package for Travellers, Army and Navy Officers.

☞ EVERY COLLAR is stamped

"Gray's Patent Molded Collar."

Sold by all dealers in Men's Furnishing Goods. The Trade supplied by

HATCH, JOHNSON & CO.,

Importers and Wholesale Dealers in Men's Furnishing Goods and Umbrellas, 81 Devonshire street, Boston. mhi7—3m2w

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the concentrated concentrated and extracted VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D.,

Graduate College Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospital, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we absolutely invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is so powerfully influential of disease is directly reached and the constitution restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with diseases of the most desperate character, and have encountered no opposition.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases must only be cured by the slow, recuperative process of Nature." This is our reply:

In health, the blood, the vital current and spirit, is in a state of equilibrium. Other diseases of a chronic character, are some part of the body, these effects become manifest in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and tender skin and healthy scalp, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing poisonous drugs, Lead, Litharge, Tannin, Sulphur, Sal-ammoniac producing only water of yellow or fan color, it will, if properly applied, restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and by the application of it to the skin,

2. It will certainly STOPPE the hair from a gray to a beautiful Black, Brown, Auburn, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all dust, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair wherever the roots are extant, even if old age and where the glands have become disorganized.

5. It will cure the most intolerable itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony in our hands, which we shall publish for the Regenerator; and it is perfectly certain that in a very short time it will have a world wide reputation.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Inflammation of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and a whole prolonged train of those many and painful diseases (Women in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, one dose being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor, thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with it at medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, and in all those distressing and disgusting cases known to mankind, as scalding, heat, shortness and pain, instead of the burning and almost unmanageable pain, so well experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the secretions are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or send to us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or six bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors, No 59 Liberty street, New York.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases induced by self-abuse, such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Deficient Vitality, Impotency, Consumption, and all the dreadful consequences caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with invariable success. It is entirely free from all mineral substances, its curative powers have been sufficient to gain victory over most stubborn cases.

☞ To those who have suffered with their constitution, until they think themselves beyond the reach of medical aid, we would say, Despair not! the Cherokee Cure will restore you to health and vigor, and enter all exact descriptions upon it.

☞ For full particulars, get a pamphlet from any drug store in the country, or write the proprietors, who will mail free, to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors, No. 59 Liberty street, New York.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern chemistry and the Vegetable kingdom; being an entirely new and electrical method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and the highest praise pronounced to be one of the greatest medical discoveries of the age.

The bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of impotency.

A few doses cure the low spirited.

Three bottles restore lost sexual power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and nobel health the poor victims of, worn-out and strengthening whole drain-out pleasure.

The bottle contains twenty doses, the over-tasked man or business, the victim of perverse dissipation, the industrial suffering from general debility, or from nervous weakness, a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, sent by express, on receipt of money, to any address.

Sold by all druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors, No. 59 Liberty street, New York.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, Irregularities and Regularity in the Recurrence of the Monthly Periods.

They carry an almost direct numbered diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Sore Throat and Spinal Affections, Pain in the Limbs and Back, Fever, Hot Flashes, Nervousness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c. &c. In a word, they remove all the irregularities, they remove the cause and with it ALL the effects that spring from it.

Composed of the purest vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used by any person at any period, except during the last three months, during which the unfailing nature of their action would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly, cheerfully and delicately answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

Sent by mail free, on receipt of price.

Sold by all respectable druggists.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNRIVALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and tea iron, heater combined, by which the odor of broiling meats are prevented from escaping to the room. With the extension top there is a large copper Reservoir for hot water; also a large set of boiling pots, so that no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

J. Woodman Moses, John R. Holbrook, George Holbrook, Frank Jones, George L. Treadwell, Henry L. Richards, John M. Tyler, John Warburton, Asel Quimby, Louis Green, Robert King, George H. French, John W. Wolfe, Philip Woods, James Shaw, Mrs. Mary Jones, James Pender, J. B. Upham, L. C. Dodge, Rittredge Sheldon, Albert J. Merrill, John Teague, William R. Marsh, William Carriage, Mrs. John Lake, Michael Walsh, B. F. Martin, James B. Giles, Samuel Hall, Tobias Ham, Ira Dixon, Thomas Hodges, William Laws, Charles A. Hoyt, John Moore, William Critchley, Charles H. Rollins, Samuel Gookin, Otis Bragdon, Nicholas Kidredge, Martin L. Twombly, Peter Page, Alfred S. Trafton, C. C. Jackson, Nathan Jones, Samuel W. Epping.

Hon. Jos. Kent, Capt. Ira Andrews.

Dublin, N. H.

Capt. Ira Andrews, *Dublin, Me.*

And the hosts of others who are using them.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK,

Also on hand an assortment of the different sizes of the

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable furnace, would call those about remodeling or erecting dwellings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air ever comes in contact with the fire, pots or pipes (as in other furnaces), it is rendered much purer than it is in other furnaces, as history correctly states.

The operation of it by the constructions of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, and generally put into use, some of which, over former methods, while many have proved a total failure. The reason for this is obvious. The communicating pipes carry the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in this.

MAGEE FURNACE.

The fire in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the application of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without ever going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Gill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. SATURDAY, APRIL 9, 1864. VOL. XXIV. No. 84.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

"THE CONSTITUTION AS IT IS"—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme LAW of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State to the contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U S*

"I like this doctrine of ministering angels of which the christian religion is, full. I like to refer to them. I believe in angel spirits. Christ believed in angels. I do not know what they are; neither do I know what God is,—but I do not like to think of him as a great, solitary spirit, unmoved by the tears or the smiles of his children. I believe God loves praise; I believe God delights in goodness, and is sorrowful for our transgressions,—therefore I believe he has ministering spirit whose voices are his heavenly choir. They are all around us: God sends them to tell us of his will; but he seeds them to each soul with the message and the lesson each soul needs.

"With silence only as their benediction
God's Angels come
Where, in the shadow of a great affliction,
The soul sits dumb."

Shall it be that from man down to the very worm there is one unbroken chain; but between us and God there is not a single link? Are we so near God as that?—And I believe the dead—the very ones for whom is all our sorrow—are spirits. I do not know how. I do not know where. I am willing to leave all that with God—But I do know they are spirits. I do know they still live. I do know they still speak to us. Do you not still hear their voices? Would it not be the deepest sorrow of all if you did not? Indeed, would not all sorrow turn into despair if it were not so?—Voices of the dead! were ever living voices more certain, more true, more affectionate, so pleading, so irresistible? *Highly Important!*

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & BEACON STREET, Boston, is consulted daily for all diseases peculiar to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the amiacted person rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which attracts patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stand higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

☞ Dr. Dow imparts and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 7, 1863. eodly.

THE IMMENSE POPULARITY OF THE

California Wines

Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage

American Industry.

The Surgeon General of the United States, after an analysis of our Wines, reports them to be pure.

Dr Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of Wine for sale by the Commissioner, reports fifty-four grains of solid matter, consisting WHOLLY of the fixed principles of grapes. Time no unfermenting ingredients, and consider it suitable for medicinal & general use."

The Boston Traveller says:—"The California Wine or Rock Wine, vinals in favor the best of Hock Wines, and costs much less."

The Saturday Evening Gazette says:—"The Water Wine is equal to the stem or light wines which we import, with a fine and rich flavor, and we believe is purity unquestionable."

Hon. John G. Downey, late Governor of California, says:—"I most cheerfully recommend your Wines to all who desire a pure juice of the grape."

The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."

The Boston Transcript says:—"The White Wine is equal to the best Hock."

The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

Parties, Families, Pleasure Parties, &c., furnished with everything pertaining to the business with neatness and punctuality. ☞ Your patronage is respectfully solicited.

CHAS. W. CARTER,
mal3 Practical Confectioner.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that never fail, and which, when introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Based his treatment, all the horrors of venereal and impure blood, Impotency, Scrotum, Gonorrhœa, Gleet, pain and distress in the regions of procreation, inflammation of the bladder and kidneys, hydrocele, Abscesses, tumors, inguinal Swellings, and the long train of horrible symptoms attending the class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The mental effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

THE IMMENSE POPULARITY OF THE

California Wines

Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage

American Industry.

THE UNITED STATES SERVICE MAGAZINE, for April, contains among other valuable articles the following: What the navy has done during the War; Gen. Colton; Practical Campaigning; Thomas D. Quincy; Modern War in its Childhood; Secession at the Naval School; Men called Great in History; Where Gen. Sherman went, and what he did. These with the literary intelligence, editor's table, and official intelligence of the Army and the Navy, render this number no less attractive and valuable than any one of the three which have preceded it—and that is high praise. Published by C. B. Richardson, New York City, at $5. per year.

THE AMERICAN LITERARY GAZETTE and Publishers' Circular, for April 1, is full of information regarding authors, and books, best lies containing in its advertising columns notifications from all the principal publishers in this country of the works they have in press or ready for delivery. A person who wishes to obtain an accurate knowledge of book making and book-publishing in this country, can do so from this little serial, and to such a person it is invaluable. Published every fortnight by George W. Childs, Philadelphia.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent physicians of the Old World,) of obtaining the safest and well tried latest remedies for these diseases, offer inducements to the unfortunate, that for cure and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, cutaneous Eruptions, Blue, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has treated thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Valentine's Indian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsurpassed, and not to be used in every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Advertising.

For a Square (1 inch) or less, one or three insertions $1, each following insertion 25 cents; one week $1.50, one month $3, three months $6, six months $9, one year $15. These are Daily rates—and no advertisements receive more than one insertion in the Weekly (Gazette) without special order and charge.

Funeral Notices, and Advertisements of articles Lost and Found, &c., 50 cents.

Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity and throughout the State. ☞ Liberal terms for yearly advertising.

Rates of Advertising,
IN THE DAILY CHRONICLE.

For 1 "SQUARE" of 300 ems nonpareil type, equal to 12 lines or 90 words (7½ words averaging a line) or one inch by measure,—one or three insertions $1; each subsequent insertion 25 cents; $3 for a month, $5 for three months, $8 for six months, $15 per year. For inside advertising, per month or year, one-half more.

For a Column, (48 Squares) per year, inside $200, outside $150.

Transient advertisements, for alternate insertions, charged one-half more per insertion. By the month or year, advertisements for every other day, charged one-third less than full rates.

Cuts charged double their measure, and inserted on fourth page only.

Advertisements in large, reading-matter type charged double per Square, the smaller type.

"Special Notices" double the common rates.

Leaded notices in editorial columns, 10 cents per line, each insertion; and no statements as to fact or opinion, will be adopted or endorsed as editorial, unless within the knowledge or belief of the editors.

Solid notices in reading matter type and columns, and having "credits" attached, 5 cents per line, each insertion. After first hundred lines, 3 cents per line.

Notices of Funerals, articles Lost and Found, &c., 50 cts. for one or three insertions. Records of Marriages, Deaths and Births *should* also be paid for; and a similar fee will be accepted when proffered.

☞ All papers more than one copy per week, sent to advertisers, will be charged for.

Transit Notices and other Legal advertising at regular rates.

Terms always Cash, and no advertisement inserted without advance payment, except where accounts are open.

Portsmouth, N. H., 1863.

Rates of Advertising,
IN THE NEW HAMPSHIRE GAZETTE,
(Weekly.)

For 1 "SQUARE" of 300 ems nonpareil type, equal to 12 lines or 90 words (7½ words averaging a line) or one inch by measure,—one or three insertions $1; each subsequent insertion 25 cents; $3 for six months, $5 per year.

For a Column, (48 Squares) per year, inside $100, outside $75.

☞ All papers more than one copy per month, sent to advertisers, will be charged for.

N. B.—"THE DAILY CHRONICLE" and "THE NEW HAMPSHIRE GAZETTE" are two distinct papers, having separate and entirely different circulations; and no joint arrangements will be made for advertising in both, other than on the above double terms. Contracts for advertising in the two papers, must be separately made.

S. R. Niles, American Newspaper Advertising Agent, No. 1 Scollay's Buildings, Court Street, Boston, is Agent for The Chronicle and The Gazette; and is authorized to receive subscriptions and advertisements at our best terms

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, APRIL 9, 1864.

THE REBELLION.

The 11th and 12th corps are consolidated and will be called the 1st Army Corps,—Gen. Hooker to command. Gen. Howard succeeds Gen. Granger. It is thought that Gen. Buell will be ordered to report to Gen. Sherman for duty. The Senate Committee have recommended the rejection of the nominations of Gen. Schofield and Gilmore as major generals.

A dispatch from Pine Bluff, Ark., states that an expedition to Mount Elba destroyed the bridge at Longview, burned a train of thirty-five wagons loaded with camp and garrison equipage, ammunition, Quartermaster's stores, &c., and captured 320 prisoners. On the morning of Mar. 30, the troops routed Gen. Docking's division of about 1200 men, from Monticello, and pursued him ten miles, with a loss on his side of over 1000 killed and wounded. We captured a large quantity of small arms, two stands of colors, many wagons, and over 300 horses and mules. Our loss will not exceed 15 killed, wounded and missing. Several wounded contrabands were brought in.

All was quiet at Alexandria, La., Mar. 27. The rebel force was reported to be 20,000 strong, and it was thought that they intended to fall back 50 miles and await an attack from us. Our gunboats bound for Shreveport had succeeded in getting over the shoals. A land force left Alexandria 27th, destined for Shreveport. The force was under command of Gen. Smith.

The report that the rebels were taking up the Fredericksburg and Richmond railroad is denied.

Gen. Steele's army has driven the rebels from Arkadelphia, Ark., and is now advancing on Price, in the direction of Camden and Washington.

Shells are occasionally sent into Charleston. The famous 30-pounder Parrott gun at Cummings Point had exploded after being fired 4615 times.

The rebel rams on the stocks at Charleston have been badly injured by our fire, which is directed against them whenever the weather is favorable for practice.

Quite a number of regular army officers who have been serving as Generals have been reduced to their regimental rank, making room for the promotion of Colonels acting as Brigadiers in the field.

Refugees report that the conscription is swelling Lee's forces, and that he will have eighty thousand men before the close of the present month.

THE UNITED STATES AND MEXICO.—In the U. S. House of Representatives, Monday April 4, Mr. Davis, of Wis., from the Committee on Foreign Affairs, reported the following joint resolution:

Resolved, That the Congress of the United States are unwilling by silence to leave the nations of the world under the impression that they are indifferent spectators of the deplorable events now transpiring in the Republic of Mexico. Therefore they think it fit to declare that it does not accord with the people of the United States to acknowledge a monarchical Government erected on the ruins of any Republican Government in America under the auspices of any European Power.

Mr. Brooks, of N. Y., had no objection to the resolution if it was not a mere *brutum fulmen*.

Mr. Davis replied—That would depend whether Congress would adopt the resolution and in so doing represent the opinion of the people of the United States.

Mr. Cox, of Ohio, would vote for the resolution, but would prefer stronger and more emphatic language against foreign interference in affairs on this continent.

Mr. Davis did not know how it could be more emphatic. They desired to say, without mistake, that a monarchical government on this continent will not be recognized under the auspices of Louis Napoleon. Let the consequences in the future take care of themselves.

The resolution was unanimously adopted—yeas 109, nays none.

☞ The New York Assembly has passed a bill defining the manner in which soldiers shall vote in elections. It is provided that soldiers may send their ballots, duly certified by affidavit, that they are legal voters, &c., to the inspectors of election, marking their letters, on the outside, "soldier's vote." This may be done at any time within sixty days before an election. The bill has yet to be considered by the Senate.

— Thursday, 7th, was Thanksgiving Day in New Mexico, for the close of the Indian War.

— The Germans of the fatherland are investing largely in Uncle Sammel's promises to pay, especially the 5-20's.

— Cornelius Vanderbilt began life by transporting garden sauce from Staten Island to New York city in a small sail boat. Now he is reputed to be worth about $20,000,000.

— The rush to the great Sanitary Fair in New York is tremendous. The receipts from all sources up to Wednesday evening amounted to four hundred thousand dollars.

NEW HAMPSHIRE ITEMS.

—— Samuel Gualt was arrested in Boston on Wednesday, on a charge of obtaining $150 from the City Bank, Manchester, by means of a forged check in the name of Edward Spicer.

—— Recruiting for the First New Hampshire Cavalry Regiment is making good progress. The third Majorship has been filled by the appointment of Lieut. Andrews, of Nashua.

—— The Governor and Council have appointed as Major of the 2d N. H. Cavalry, (late 8th Infantry,) Capt. John K. Stokes, of Concord. There were several competitors, and considerable interest was manifested in the matter.

—— Jeremiah Fullonton, Esq., of Raymond, died on Saturday, March 19, aged 54 years. Mr. Fullonton has written many articles for many newspapers. He was a practical farmer, and devoted considerable attention to the business. He was a good citizen, an honest and upright man.

—— E. S. Cutter, Esq., (formerly a lawyer of Peterborough,) Clerk of the Hillsborough County Court, has resigned, and vacates the first of June, when he will resume the practice of law at Manchester. George A. Ramsdell, Esq., of Peterborough, succeeds him.

—— It is rumored that the citizens of Manchester will make a strenuous effort next June to have the State capital removed from Concord to their city, land having been already donated and large sums of money raised for that purpose. The people of Concord and vicinity will give a "long pull and a strong pull" before they will see the seat of the State government taken from its present locality.

☞ The city of Washington is encircled by a cordon of forts and batteries, connected by rifle pits, some forty miles around its outer circumference. About nine hundred cannon are mounted, and military authorities estimate that with twenty-five thousand men an attack of one hundred thousand could be successfully resisted, while with fifty thousand men the works would be impregnable. When originally built the forts were named after Revolutionary heroes, States or cities, but since then they have nearly all been so re-christened as to perpetuate the memories of gallant officers of the present war.

THE NORTH AMERICAN REVIEW, for April, contains the following articles: Theodore Parker; Shakespearian Pronunciation; The Sanitary Commission; St. Louis and Joinville; The Navy of the United States; The Future supply of Cotton; Carl Ritter; Loyal work in Missouri; West Point; Gen. McClellan's Report; Critical Notices; Editorial note: Letter from the President. It is a valuable number, many of the articles being on subjects of great national and social interest at the present time. Published by Crosby & Nichols, Boston, at $5 per year.

☞ The Rhode Island State election took place on Wednesday. Joseph Y. Smith, Union, is re-elected Governor by a small majority. The Legislature will be strongly Union.

☞ A correspondent asserts that Artemus says: "Dont none ov you Kopperheads at the east go to Kalkerlatin that I'm goin to sociate with you, Kos I'v bin on a visit to the Kopper Skins out west, them is spectable foaks an aint no relashun to the Snaik tribe.

☞ The rebel ram Tennessee was struck by a squall on the 1st inst., while lying near Grant's Pass, causing her to keel over and sink. But two feet of her smoke-stack now remain visible. Her armament will prove a heavy loss to the rebels. It consisted of six 160-pounder rifled Parrotts and nearly as many small pieces.

☞ A Louisville dispatch of the 2d inst. says: "Gov. Bramlette has returned from Washington. His interview with the President and reception at Washington was of the most satisfactory character. The understanding arrived at between him and the authorities at Washington was that no negro troops are to be enlisted in the State provided the State would furnish 15,000 troops, which Gov. Bramlette pledged his word to do."

☞ Accounts from China state that a violent outrage had been perpetrated by a disaffected mob upon an assembly of native Christians who were attending service in the chapel of the American Methodist Episcopal mission at Fahchou. The American and English Consuls had taken up the matter, with the view of obtaining redress from the local authorities. At last advices, however, they had not succeeded in bringing the offenders to justice.

☞ Two ladies ran away from a "ghost" in one of the by-streets in Portland a few nights since. It appears that a woman had occasion to empty a bed of its feathers, and it being dark she took off her hoops, put a white robe-de-chamber over her dress, a huge white night-cap on her head, and went into the street to shake the tick. Clothed in white, with feathers flying all about her, she rather astonished the young ladies aforesaid.

— First-class joiners in Portland demand $2.50 per day.

— 5000 seaman have asked to be transferred from the army to the navy.

— The first night's receipts of the N. Y. Sanitary Fair were $9400.

— The rebel pirate Georgia arrived at Bordeaux March 25.

— 150 refugees arrived at New Orleans from Texas, Mar. 29.

— A sister of President Madison once observed that "we Southern wives are but mistresses of seraglios."

— The Frankfort bankers—the shrewdest in the world—are reported to be buying all the U. S. 5-20's they can find in Europe.

— The Rothschilds were buying up all the U. S. securities in the market at last accounts.

— True & Manley is the name of a law firm in Augusta, Me. We trust it is not a misnomer.

— In New York they are forming a new Insurance Company, to heal the wounds and bruises of bankrupt traders.

— There has been a general rise in the price of newspapers at Cincinnati, Chicago and St. Louis.

— Mrs. Caroline M. Kirkland, author of a "New Home, Who'll Follow," and other books, died in New York on the 3th inst.

— Most of the banks in Salem, Mass., are taking preliminary measures for organization as national banks.

— There is a proposition before the N. Y. Assembly to raise the salary of the Governor to $10,000.

— Gen. Hooker's friends in Washington propose to give him a public dinner on his return from the West.

— It is stated that the consolidation of the different corps in the Army of the Potomac creates much unpleasant feeling among the military.

— Two young soldiers from Augusta, Me., have purchased dwelling houses for their parents; one of them for his blind mother.

— It is stated by Senators that a national bank or currency bill will be passed by the Senate and sent to the House for its concurrence.

— Mrs. Lucietta Clay, wife of Henry Clay, died on Wednesday night at the residence of her son, John M. Clay, near Lexington, Ky., aged 83.

— Diplomatic relations have been broken off between Chili and Bolivia, and the minister of the latter has left Chili, because of the coolness shown him there.

— The National Bank Bill was defeated in the House of Representatives by a very large vote, surprising both its friends and its foes.

— The New Jersey Legislature has rejected, by a strictly party vote, the bill allowing the soldiers to vote. The Democrats opposed it.

— It is proposed to start a new daily paper in Washington, with George D. Prentice as editor. There are now seven dailies there.

— Justice Clifford dissented from the decision of the other Justices in the Quicksilver mining case, giving the verdict for the company. The amount involved was about $20,000,000.

— A man named Sabine, of English birth and about 22 years of age, disappeared from Portland on Friday last with between $1500 and $2000 belonging to Mr. Machin of that city, whose book-keeper he was.

— The Gloucester Insurance Company paid $1300 to the owners and crew of the schooner Miles Standish for towing in the schooner Ellen Frances, dismasted on Georges.

— An English Professor has at last discovered that whenever the English people take up any 'cause' they cannot find anything too bad to say of the people who happen to uphold the opposite view.

— A resolution was presented in the U. S. Senate on Wednesday to repeal the joint resolution authorizing the transfer of men from the military to the naval service. Referred to the Committee on Naval Affairs.

— It is reported that great coolness is arising between Russia and France, the former having acquired the conviction that France is plotting mischief in European Turkey.

— Several flowing oil wells in Venago county, Pa., which suddenly ceased their yield, and were supposed to have run out, have recently been subjected to the pumping process, and become richly productive.

— Maryland has voted by at least 15,000 majority for a Convention, and the Baltimore American estimates that there will be a majority in the Convention of at least 20 for immediate and unconditional emancipation.

— The Newburyport Herald states that three cargoes of dories are ready to be shipped at that port—all manufactured at Salisbury Point, the builders there supplying most of the dories used from Eastport to Cape Cod.

— When the President remarked, "It seems to me Massachusetts always sends her little men to Congress," Representative Alley replied: "Massachusetts has learned that a silver dime is worth more than a copper cent."

U. S. 10-40 LOAN.

Principal and Interest payable in Coin

FIRST NATIONAL BANK

OF PORTSMOUTH,

Designated Depository of the United States

This Bank hereby announces that it is prepared to receive subscriptions on account of United States Bonds, authorized by the act of March 3d, 1864; bearing date March 1st, 1864, redeemable at the pleasure of the government, after ten years, and payable forty years from date, bearing interest at five per cent. a year, payable in coin annually on Bonds not over One Hundred Dollars, and semi-annually on all other Bonds.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. It is expected that Coupon Bonds will be ready for delivery about the 4th of April.

Subscribers will be required to pay, in addition to the amount of the principal of the Bonds, in lawful money, the accrued interest in Coin (or in United States Notes or the Notes of National Banks, adding Fifty per cent. for Premium until further notice), from the first day of March until the day of subscription.

Subscriptions and remittances may be addressed to the

First National Bank,

Of Portsmouth.

THIS DAY.

Administrator's Sale.

FARM AT AUCTION.

By virtue of a license from the Judge of Probate for the County of Rockingham, will be sold at Public Auction, on the premises, in Portsmouth, N. H., on

SATURDAY, April 9, at 2 o'clock P. M.

The Farm of THOMAS CURRIER, late of Portsmouth, deceased, situate on the Lafayette Road, in Portsmouth, about three miles from the compact part of the city. Said Farm contains about 35 ACRES OF VALUABLE LAND, well divided, and adapted to Mowing, Tillage and Pasturing. The farm is fenced with substantial stone wall, and well watered with streams and springs; cuts from 12 to 15 tons of hay, and with proper cultivation can be made in a short time to produce double this quantity. There is a thrifty Orchard of choice grafted fruit on the premises, a fair growth of Wood, and a good Barn, 40 by 62 feet. Terms at sale.

THOS. STACKPOLE, Administrator.

KITCHEN FURNISHING GOODS

BOUGHT MOSTLY BEFORE THE RISE IN PRICES.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

White Granite Tea Sets,

With a complete assortment of all patterns of CROCKERY, GLASS AND CHINA WARE.

Just received and for sale at the lowest rates, by

ap1 JOHN SISE, 5 Market Square.

GENTLEMEN!

Please call at the subscribers' place of business, and be measured for one of

Butterick's Perfect-Fitting Shirt PATTERNS.

Then you can have a good fitting Shirt for a lifetime, at a trifling expense. Notice the benefits you will receive by procuring a Pattern cut by this celebrated rule:

1. You will always have good fitting Shirts.

2. They will be cut from less cloth, thereby saving expense, and be perfectly easy to the wearer as the proper quantity of cloth is put in the right place.

3. You will receive printed directions with each Pattern, setting forth how to prepare the cloth, cut and make the Shirts, quantity of cloth and trimmings for each pair, and the proper width of cloth to purchase; thereby saving cloth and many stitches.

There is much time saved by using a Pattern cut by measure, with directions so plain that any intelligent person will understand them.

Every Pattern warranted to fit.

These Patterns are furnished by

ap2 J. E. HAM & CO., Agents.

Coughs and Colds.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily when taken in the early stages of the disease, recourse is held at once be had to "Brown's Bronchial Troches," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires. mh21—1mdaw

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by lawful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*
Address JOSEPH T. INMAN,
Station *D*, Bible House,
mh25—1y3m* New York City.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a medicine from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which INSIGHT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cure, when local causes make almost all such complaints different in effect, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING COUGH, all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

For sale by all Wholesale and Retail Dealers.
JOHN L. HUNNEWELL, Proprietor,
Practical Chemist, Boston, Mass.

N. B.—The greatest freedom of correspondence solicited. Dealers with good references supplied on commission.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. jn20

Local.

FAST DAY SERVICES.—On the morning of Fast Day, Rev. Mr. Adams, at the North Church, delivered an eminently patriotic and christian sermon, which was at the same time thoroughly conservative in the highest and best sense of the word. It dealt with national sins most faithfully, without extravagance or invective, and is well worthy of repetition in that house and elsewhere, to a larger auditory.

Rev. Mr. Patterson's sermon at the Universalist Church in the evening was an earnest, outspoken warning against the sins of extravagance, apathy, disloyalty to the nation, and disloyalty to God.

Rev. Mr. Lane at the Baptist Church, and Rev. Mr. Bridge at the Unitarian, gave occasional discourses of decided national and loyal character.

The attendance at the churches generally, was, for Fast Day, better than usual; but not as large as it should be.

☞ Although the roads were somewhat muddy, the warmth and pleasantness allured many of our citizens from their homes, for walks or rides, on the afternoon of Fast Day; and a large number visited the City Farm and buildings, in response to the general invitation extended by Mr. Norton through our columns. With all the visitors there seemed to be but one feeling, in regard to the order and neatness manifested there in every department. Not only the main building, but the barns, cellars, storehouses, &c., are kept scrupulously neat; while there are everywhere unmistakable evidences that the utmost care is exercised to preserve the health and to conduce to the comfort of the inmates. The City is fortunate in retaining the services of so faithful, competent and active persons in charge of this important institution as Mr. Norton and his lady have abundantly proved themselves to be. Not a little of the improvement in the management which has been obvious during the past few years has been directly traceable to their continued watchfulness and unceasing efforts.

☞ A good economist says the way to lower the price of cloth is for the ladies to make two dresses out of one, and for men to wear round jackets; then there would be cloth in abundance. He also says that half the tea, coffee, sugar and butter used is all that is necessary for health, and sometimes it is best to dispense with one or two of them entirely. And in many communities about one-half of the expense of living might be avoided by the prudent use of common things. Not only so,—by the use of strong drinks, tobacco, &c., many persons afflict themselves with positive and dreadful evils, ruining their health and happiness.

☞ Without any exception, the most palatable bread we ever ate—and we have no doubt also the most healthful—are the wheaten biscuit baked in the French Roll Pans advertised by Mr. Stevens. They combine the best qualities of nice drop cakes with the virtues of groats; and so one feels an extra satisfaction in enjoying them. Dr. Treadwell would get more grits eaten in this way than in any other.

STRIKE.—The Irish coal-heavers on the Railroad wharves at the North end, struck for higher wages last week, demanding 40 cents per hour or 16 cents per ton for shovelling coal, and refused to work at any less rate. A gang of men was obtained at Manchester to finish discharging the cargoes of vessels then at the wharves. Some of the new comers were assaulted and punished by the strikers for daring to work at old prices. The pay of these men within the last two years has risen from 10 cents per hour to 32 cents, and they contend that they are advised now to ask forty cents.—*Cor. Ballot.*

FIRE.—The Piscataqua Bridge House, on Goat Island in Newington, formerly occupied as a Hotel, was entirely destroyed by fire about noon on Fast day—supposed to be set on fire by some persons who were seen on the Island during the day. It was a large house, and formerly a popular place of resort, but since the Piscataqua Bridge has been discontinued, it has been unoccupied, and going to decay. It was the property of Messrs. Frink, and was not insured.

POLICE COURT, April 8, before Justice Odell.—Porter Prisley was accused of assaulting John Cassidy. Pleaded guilty; was fined $7; costs $4.80. He paid, and gave bonds in $30 to keep the peace.

☞ Lieut. George Dewey of the U. S. sloop Agawam was brought before Justice Dennett of Kittery Foreside on Thursday, to answer to a charge of assault and battery on the person of George C. Garland, of Eliot. Found guilty, and fined $10 and costs.

☞ Col. Charles H. Long has been recently presented with a fine gold watch by the officers and men of the Heavy Artillery companies under his command at Fort Constitution—a well-merited tribute to the worth of an accomplished and gentlemanly officer.

☞ The big beef cattle for Mr. Stokell's provision market, are expected to arrive in town to-day, Saturday. Live weight 4700 lbs.

☞ See Auction column for sales to-day of desirable real estate.

"PROMPT WHEN DUTY CALLS."—Piscataqua Engine Company, who act under the above appropriate motto, met at their Hall on the morning of Fast Day to make the necessary arrangements for a social game at base ball; and chose Horace and Frank Ellison as leaders of the sides, and A. S. Waldron as umpire. The leaders then alternately selected one man each till all had been chosen, when they withdrew to the ground previously agreed upon, and drew lots for first in. It fell to F., whose side evinced their promptness by immediately scoring 1⅞, and then 'sold,'—H. then scoring a few innings. F. coming in scored a few, then sold to H., whose side scored 18, thus showing themselves equally skilful at the game, which had at this point become quite interesting, there being but slight difference in the scorings,—sometimes one and then the other being a few innings ahead. Thus the game varied, victory seeming to perch first upon one and then the other side, till they began to approach 200 innings, which had been agreed upon to decide the game. At length H.'s side sold out at 198; F.'s side coming in immediately scored up to 193 and then sold out, giving decidedly the better chance to H.'s side, which quickly made 2, thus making 200 innings. They were accordingly declared the victors by "Judge Waldron," who is entitled to much credit for the impartial manner in which he decided all points which arose during the game.

The game occupied 4 hours and 10 minutes, although unusual harmony prevailed throughout. The party ended this active part of the day's sport with cheers for the victors, and adjourned to "Freeman's," where oysters were provided in style and quantity to suit all. After passing a pleasant hour in discussing the bivalves and other fixings, and in the exchange of sentiments, the bills were promptly paid by the vanquished side, and the party broke up highly pleased with their day's sport.

AN OBSERVER.

☞ We are requested to state that the lecture by Fred. Douglass, announced for to-morrow (Sunday) evening, is postponed.

☞ Prime article, that new Maple Sugar, at Crrter's!

☞ We are indebted to Hon. Daniel Clark and Hon. Daniel Marcy for Patent Office Reports.

— At San Francisco, the workmen in the iron foundries demand, in gold, four dollars and a half a day. The stone cutters, after the first of May, will demand five dollars a day, in gold. Labor is scarce in the mining land of California.

— There are two swords at the New York Fair, to be presented to the two naval and military officers receiving the greatest number of votes. In the army, the contest is between Gens. Grant and McClellan: in the navy, Com. Rowan receives many more votes than Adm. Farragut.

— The steamer Chesapeake had as a part of her cargo, a church bell for a religious society in Maine, and the pirates presented it to a church in Nova Scotia. Restitution of the bell has been demanded, but the holy men of Lunenburg kirk still cling to it, and have it jingling up in the steeple of their sanctuary every Lord's Day, to call the sinners of the district to prayers and preaching.

It would be a bad thing for a child to get a wasp in his mouth, but he can't even say his alphabet without getting A B in it.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ Small pox has already sacrificed some of our best and bravest troops. Soldiers, listen to the voice of reason, supply yourselves with Holloway's Pills and Ointment. The pills purify the blood and strengthen the stomach, while the Ointment removes all pain and prevents pit marks. Only 30 cents per box or pot. 231

MARRIAGES.

SPEER'S SAMBUCI WINE.

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physicians' Use.

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and tonic Bacchal qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture of matured articles, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and a wonderful article for all weak and debilitated persons, and the aged and infirm. Improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy state and complexion.

WE ARE TO

e few well known gentlemen and physicians who have tried the Wine.

Gen. W. Scott, U. S. A. Dr. ... Newark.
Gov. Morgan, N. Y. State. Dr. Wilson, 11th St., N. Y.
Dr. Parker, N. Y. City. Dr. Dougherty, Newark.

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D.,

Graduate College Physicians and Surgeons, N. Y.; formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, in 1, 68 many disease hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have now passed at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have challenged with obstacles and overcome opposition to better than ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the slow or tedious process of Nature. This is our reply:

The health, the body's first, and paramount, gift, is in a state of equilibrium. But when from any cause down or on side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Wants of Appetite, Flatulence, Sick Headache.

Scrofula.

Sores, Glandular Swellings, Ulcerous, King's Evil, Dyspepsia, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medicines remediless incurable.

Rheumatism.

(Articular), Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a specific, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings reduced, and, in the most lingering cases, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Those who have suffered for years will bless the day on which they read these lines, particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Ulcers, Aches in Bones, Stiffness of Joints.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weakness and Horrible Pains which the use of Calomel is sure to produce. It restores Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, such as

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, making them a disagreeable object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast and should be taken to stop the swelling as it develops, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so much the young portion of the community. From six to twenty years of Young children are very subject to Discharges from the Ears, which depends upon a scrofulous constitution. These can soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, or the Liver or abdomen, and in the female Dropsy or the ovaries and womb, generally accompanied with irregularities and obstruction of the uterus, are permanently cured by Constitution Life Syrup. The disease known as Tumor or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed in a few weeks. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, sympathetic or Hysteric Diseases of the heart, palpitations, Diseases of Valves, produced by a long state of Liver Complaint, and the effect Cure and all the affections of this important organ, or persons suffering from any secret cause, whether from the heart, will be greatly relieved by Constitution Life syrup.

Broken Down and Delicate Constitutions, Suffering from Indiscretion in Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Disease, Dimness of Sight, Universal Lassitude, Cold Sins and Extremities, Hot of Nose, Restlessness, Pale Haggard Countenance and Languor of the Muscular System, Dull Eye, Pain in the Head. Is the CONSTITUTION LIFE SYRUP.

For all forms of **Secretive Diseases,** either of the Urinary Organs, Gonorrhœa, Gleet, Forehead or scalp, no remedy has ever proved so effective.

MOTH PATCHES upon the female face, depending upon a deranged action of the Liver, are very unpleasant, and should be avoided by persons. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is deemed so unsightly.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcer state of the stomach, or Dyspepsia, generally accompanied with burning or other unpleasant sensations, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *In a general Blood-Purifying Agent, the Life Syrup stands unrivaled by any preparation in the world.*

Diseases of the Spine, so usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases of a delicate character, they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. "It will restore their pallid countenance, strengthen their weak back and sides, give them new energy, new life and happiness."

THE RICH AND POOR are liable to the same diseases. Nature and science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the foundations are laid in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES It is the safest and most efficacious medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the lacteal—Those who have used it think it invaluable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Kidneys, Inflammation of the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is a certain remedy in those cases of Fluor Albus (Whites in fact) where all the old nostrums and quackeries have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cooling the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended exactly or nearly to suit the CHEROKEE REMEDY, and should be used in conjunction with it in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effect are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, burning of the bladder, and urinal incontinence, and in fact, performed with nearly all the long quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time, all the above mentioned diseases are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

No. 59 Liberty street, New York.

DR. WRIGHT'S

REJUVENATING ELIXIR

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable Kingdom, being an entirely new and distinct method of cure, irrespective of all the old and worn-out systems.

The medicine has been trying by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and fire of youth.
A few doses restore the appetite.
Three bottles cure the Worst case of Impotency.
A few doses cure the low spirited.
One bottle restores the nervous.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health, the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man or business, the delicate female, nervous depressed, or individual suffering from general debility, or from weakness of any kind, will all feel immediate and permanent relief by the use of this ELIXIR or ESSENCE OF LIFE.

Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

No. 59 Liberty street, New York.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it all the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute health for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, except during the first three months, during which the unfailing nature of their action would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet introduced, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick ovens for perfection in baking.

There is a new style and very superior broiler and tea kettle have been combined, by which the odor of broiling meats are prevented from escaping to the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, so as not to allow the ashes into the room, and the shaving up of the ashes is entirely dispensed with. The fire is regulated in the same manner as the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of replacing every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as numerous of families in the city and country who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

J. Woodman Rogers, John R. Holbrook, George Dennett, Frank Jones, George L. Tredwell, Henry L. Richards, John M. Leary, John Wentworth, Asa Quimby, Louis Green, Robert Laing, George R. French, John W. White, Philip Woods, James Sinnet, Mrs. Mary Jones, James Fender, J. D. Upham, M. C. Dodge, Barrage Sheldon, Albert F. Merrill, John Tongue, Wilson H. Martin, William Cartage, Mrs. John Lane, Michael Walsh, B. F. Martin, James Hayes, Samuel Martin, Thomas Shum, Ira Dixon, Thomas Jones, William Laws, Charles A. Hodgdon, Jonathan Moore, William Cutting, Charles H. Rollins, Samuel Goodwin, Oliver Lane, Marcellus Eldridge, Martin L. Toombly, Peter Page, Albert S. Trafton, C. C. Jackson, William Jones, Samuel W. French, Alt H. Chamberlain, John H. Wells, Oliver G. Fernald, Jeremiah Sanborn, Charles H. Seccombe, Aaron Akerman, William D. Jenkins, Moses Goodwin, George Sheldon, Charles Walker, Andrew Littlefield, Washington Freeman, Thomas H. Downs, William Alton, Mrs. Samuel Pray, John Sutter, Daniel H. Green, Robert H. Green, William V. Sherrill, Thomas S. Newell, Nathan Dame, William F. Walker, Michael Cunningham.

Kittery.

Charles Stinson, Henry Fernald, Benjamin G. Parker, William W. Cutts, Charles W. Parker, William H. Noyes.

York.

Capt. Solomon Brooks, Alonzo Lane.

Newcastle.

Howard Curtis, Thomas J. Mervin, Capt. James Davidson, Capt. T. B. Oliver, Thomas J. Tarlton.

Portland, Me.

T. B. Sawyer, Moses Morell.

Albert Grindell, *Greenland.*
J. D. Robinson, *Epping.*
Isaac Coe, *South Berwick.*
Capt. Ira Andrews, *Sandwich, Me.*

And the hosts of others who are using them.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes of the

MAGEE PARLOR STOVE

which are without rivals, and are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the above celebrated and unrivalled Furnace, would ask those about renovating or erecting buildings to examine the many valuable improvements.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable, and as free of dust as a moist room. Its success has been so great that we have 100 references, the testimony of which cannot be gainsaid or even complained with other furnaces, is entirely obviated.

The objections raised at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this has a complicated and expensive heating arrangement been contrived, constructed, some possessing but little improvement over former methods, while many have proved a total loss, and the resulting conclusions, the consumption goes being greater than that passes on into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in this.

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which lights them as they pass out into the coal, thus saving at least 40 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without some going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert E. Hatch, Esq.
Aaron B. Gill, Charles H. Menham,
Henry F. Wendell, John Shea, and others.

The Chronicle.

JANE RANSOM.

Jane Ransom sat in her quiet room,
When the fields were sheeted with clover-bloom,
And the sun's soft kiss of parting lay,
With a tender flush, on the brow of day.

And she thought, as the hum of the village street
Floated up through the twilight sweet,
Of the blossoming hopes and the drooping tears
That had drifted across her forty years:—

Hopes that were born of her girlish dreams,
Sunny and fair as her mountain streams;
Tears whose wasting and passionless flow
Had beaten the delicate blossoms low.

She was forty now, and her hair was gray
That once in such shining masses lay,
And the heart that thrilled with a proud unrest
Was silent and calm as the sunless west;

For the years had brought her a robe to wear,
That was not content, and was not despair;
And the touch that blunted the edge of pain
Dimmed Life's sparkle with ruthless stain.

But to-night, as she sat in the sunset glow,
Her spirit went to the "long ago,"
And the gleam of the dewy glades afar
Glittered soft as the evening star.

And the olden gladness within her stirred,
As a longing long-hushed, at a word,
Wafted down from the distant years,
Greeted her heart through its mist of tears.

Yet following quick on the shining track,
The aching, remorseless pang came back,
And she lifted her head with a stifled moan,
As her white lips whispered, "Alone, alone."

Beyond the hills in the waning light
The shadows of the churchyard met her sight,
And her sad plaint breathed in a quivering sigh,
"There are none to sorrow, if I should die."

When suddenly all the room grew bright,
As if from a viewless point of light,
A chaplet of music, sweet and clear,
Sweep softly down through the wondering air!

"The soul that endures," so the cadence rang,
"Brave and patient, the heaven-sent pang,
Shall find at last every sorrow set,
A pearl, in a fadeless coronet.

The eyes uplifted through blur of tears,
Trustfully still over doubts and fears,
Shall be filled with the vision bright of which waits
For the Lord's redeemed, within Heaven's own gates."

The feet that walk with a steady tread
Where the thorns are sharp and the roses dead,
Shall pause at length where the palm shall cease,
In rest, and joy, and eternal peace."

The solemn hush of the night came down
Upon shadowy wood and silent town,
And the mystic harmony seemed to die
Away, sweet throbbings, along the sky.

But the woman's soul grew strong to bear,
For still she heard, on the ambient air,
Like a song of triumph o'er pain's sarcasm,
"Rest, and joy, and eternal peace."

—*Dubuque Journal.*

MISCEGENATION.—The ridiculous doctrine of miscegenation is the last resource of a party which dared no longer oppose emancipation. It is a silly artifice. It is pretty well understood already that the miscegenation pamphlet was got out by the Copperheads, in order to afford a new point of attack of their opponents; while everybody knows that miscegenation cannot be made a party test, because there is not the least legal impediment to its fall exercise, in either the Constitution or the laws. Under this absolute absence of restriction, we have seen the laws of taste successfully prevent amalgation in the North for over fifty years, while practical miscegenation has set its shackles seal upon millions of faces in the South. The miscegenation scandal, therefore, will not work.—*Wilkes' Spirit.*

OVERTAKEN AND BROUGHT BACK.—Detective Hammond, of the Provost Marshal's force, returned to Richmond on Tuesday night having in custody four men, who were caught in attempting to leave the Confederate lines. Three of the men were Jews, and the fourth a man who contracted with them to put them across the lines for the trifling sum of ten thousand dollars in Confederate notes.—*Richmond Whig.*

The London Times has got entirely over its "craw head and bloody bones" of servile insurrections and massacre in this country, and now says that "the only result of this extraordinary war as yet visible, is the gradual subversion of that institution which, it was the remote cause of strife, was forgotten in the first hours of conflict," "and a gradual elevation of the black race in social and political position." It has quite a candid editorial on the subject. Thus the light spreads.

A REBEL FIGHT IN COMMITTEE.—Mr. Foote of Tennessee, and Judge Hanley, of Arkansas, members of the committee to investigate charges against the commissaries and quartermasters, came to blows in the committee room the other day. Mr. Foote, it seems, laughed at some of the evidence elicited. Judge Hanley replied that (Mr. Foote) need not laugh. Mr. Foote said his laugh was an honest laugh, at least. Judge Hanley said he doubted that. Some other belligerent words passed, and Mr. Foote arose and struck him. Both clenched, and blows were given and received by both parties. Mr. Foote laid violent claim to Judge Hanley's shirt bosom, jearing it out from his bosom. Mr. Commissary Northrop was knocked into one corner of the committee room like a man of rags; which is not; committee tables were overturned and the recorded evidence sent hither and thither. More ink than blood was shed. The witnesses present in the room observed their neutrality, but strove to allay hostilities by seizing both of the combatants by their coat-tails and attempting their separation—Judge Hanley's coat-tail gave way in the struggle, involving severe loss on the wearer.

Finally, both desisting, the business of the committee proceeded.—*Richmond Whig.*

A rich citizen of Springfield "transferred" several shares of stock to a non-resident in order to evade the tax thereon. After receiving several fat dividends, free from tax, he died, but now the heirs cannot find the bogus stockholder and the company refuses to annul the transfer. A bad joke for the heirs.

FERTILIZERS,

Trees, Vines, Shrubs, Vegetable and Flower Seeds.

J. F. SHORES, Jr.,

No. 1 Congress Block,

WOULD CALL THE ATTENTION OF

FARMERS AND GARDENERS

TO THE

FERTILIZERS

WHICH HE HAS FOR SALE, VIZ:

LODI CO.'S

IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an immediate start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate, it requires no previous preparation, and can be applied and paid for with the same expense attending the application only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grain and hay harvest—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.50 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Thomas Wentworth & Co., Dover.
Jeremy Perkins, " "
Colbath & Danford, " "
John Martin, Great Falls.
George L. Whitehouse, Farmington.
O. F. Hobbs & Co., Dover.
Moses Merrill, East Ossipee.
Joseph P. Gilman, Union.
John Tredick, " "
Zebediah Sargent, Rochester.
J. S. & E. Bennett, Newmarket.
Ladd & Walker, Dover.
J. L. Raudlett, Epping.
W. N. Dow, West Epping.
C. W. Greenleaf & Co., North Berwick.
G. W. Snow & Co., " "

Lloyd's Nitrogenized

Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O5)	17.2
Soluble " " (ca O P O5)	11.5
Organic matter	26.
Sulphate of lime	23.
Alkaline salts	3.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p.c. of Ammonia. The value of concentrated Lloyd's Fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.

A uniform standard of values for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, the Insoluble Phosphates are worth 4 times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other on the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The sample for analysis, I selected from the entire stock which was prepared for the market.

W. H. HILL,
N. P. HILL.

BROWN UNIVERSITY, Jan. 28, 1864.

This lime is sold in barrels containing about 275 lbs. Price Three Cents per lb., by the barrel, or Twenty-Five Pounds for One Dollar.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (depending in correspondence with the most eminent Physicians of the Old World,) of obtaining the rarest as well as the most remedies for those diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Pimples, abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been used in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a man who is a Physician, who has cured thousands, and in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and to make happy. The reader is of course aware that the delicacy of the subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures—Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller will remain the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

MONDAY, APRIL 11, 1864.

THE REBELLION.

A Knoxville dispatch of March 29 says: Positive information confirms reports formerly made by scouts, that Longstreet's army has evacuated Bell's Gap and fallen back. The bulk of his forces is now believed to be at Jonesboro'. A single brigade, or as some report, only one regiment of infantry, now occupies the works at Bell's Gap.

The Louisville Journal learns "from the highest military authority" that the rumors of a formidable invasion of Kentucky are entirely groundless. The rebels have no army in the Southwest to make an invasion, except Johnston's, and it is confronted by the combined armies now under command of Gen. Sherman. Johnston has not sufficient force to assume the offensive, and is therefore unable to invade any part of the Union.

On the 28th of March, Gen. Smith's forces, 5000 infantry and a brigade of cavalry, had a three hours fight on Cane river, 35 miles above Alexandria, with Dick Taylor's army, 12,000 strong, posted in an advantageous situation. The rebels were routed, and our troops pushed on in pursuit of them. Our loss is reported at 18 killed and 60 wounded. That of the rebels was much greater, some placing it at 200 killed and wounded. We captured 500 prisoners and others are still being brought in.

Rebel deserters report that Forrest, Mar. 26th, marched between Mayfield and Paducah, and temporarily disbanded the 5d, 7th and 8th Kentucky cavalry, permitting the members to go home.

The Tribune's dispatch states that Gen. Seymour has been ordered to Washington, and will probably be dismissed.

The sutlers have been ordered to leave the Army of the Potomac by Apr. 17, on pain of having their goods confiscated for the benefit of the hospitals. Civilians are also ordered to leave. The rebels are preparing for a stubborn resistance to our anticipated advance. They are still constructing defensive works on the south side of the Rapidan, and are repairing the railroad bridge across that river.

A Fortress Monroe letter states that two U. S. gunboats were sent up the Chickahominy, last week, with a small force of troops, to within 15 miles of Richmond, "for secret purposes which were faithfully performed."

INTEMPERANCE.—*A Drunken Surgeon!* Rev. J. W. Hanson, a truly reliable witness, writing from Hilton Head, says:

In this Department I find more intemperance than I have seen anywhere else, and more of the deplorable consequences of whiskey drinking. In the late battle of Olustee a fine officer was severely wounded, and was sent to a hospital. He lay suffering with his wound thirty hours, in the "officers' hospital," and then, though ordered not to leave it by the surgeon, drew his revolver and declaring that he would shoot whoever interfered with him, left the building, and entered a private hospital near by, and his wounds were dressed, and he is now doing well. The surgeon reported him as a deserter, for being absent without leave, though his absence just saved his arm from amputation. Why was he, and why were many others thus neglected? Because the surgeon in charge was drunk.—And I have had case after case detailed to me by those who knew, of malpractice, amputation in consequence of neglect, and even death, because wounds have not been properly attended to, where that synonyme of hell-fire—whiskey—had so muddled the brains of the surgeon that he was unfit for duties. There is positively no one thing that is so crushing our army to-day, and that has so cursed it from the beginning, as whiskey drinking. Private soldiers, fortunately, are prevented from drinking much, but officers of all grades are infamously and notoriously guilty. It has lost us many a battle, has been the cause of many a terrible blunder, and the patriot at home can hardly do the good cause a greater service than by urging total abstinence as a patriotic act.

☞ Advices from the Cape de Verdes verify the previous accounts of suffering from famine, caused by the recent drought in the islands. The population of the two islands of Brava and St. Thiago amounts to about 70,000, and for this population there were only sixty bags of rice. The effects of the drought had overwhelmed both man and beast, and those who were living were subsisting on the bark of the banana tree, and the flesh of animals which, in this country, are considered as vermin. Although rain had fallen, the seeds sown in the earth were too much parched to sprout, and although the pastures were becoming green there were no cattle to feed on them—all had died for want of food and water.

— Wm. W. Drinker, a New York lawyer, while acting professionally in a case a few days since, became very much excited by the course of the opposing counsel, and leaning forward, immediately expired.

— Many of the heavy artillery regiments which have been occupying the fortifications around Washington and Baltimore, the past year or two, have been sent to the differest corps for active service.

NEW HAMPSHIRE ITEMS.

—— The Contoocook Woolen Factory commenced operations week before last.

—— Another member elect of the next Legislature, Mr. Nathan Mason, of Sandwich, died on the 26th of March, of fever. He was a highly respected and useful citizen.

—— Hon. Jonathan Kittredge died in Concord very unexpectedly on Friday morning, after an illness of only a few days. His age was about 70.

—— The Nashua Telegraph states that Samuel M. Wilcox, Esq. of Exeter, formerly of Nashua, has been appointed to a clerkship at Washington.

—— The Statesman announces the death of Gen. Edward Wyman, of Newport, a man highly respected, and well known in political circles in this State.

—— Mr. Patterson, M. C. from the Third District, has nominated Frank W. Russell, of Plymouth, to a vacant cadetship at West Point.

—— The number of students at our academies is increasing this Spring. Hopkinton now has seventy students, Contoocook sixty-four, and Henniker over sixty; Union Academy, Meriden, 250.

—— On Wednesday, as Mr. Wm. Hayden was driving a six ox team, heavily loaded with lumber, at New Boston, he by some means was run over, and had one of his legs crushed badly.

—— The Laconia Democrat says that Thomas Weeks, Esq., of Gilford, has one of the best flocks of Merino sheep in the country. It numbers two hundred and sixty, and his last year's clip of wool was valued at over one thousand dollars.

—— Rev. A. J. Canfield, pastor of the Universalist Society in Concord, has declined an invitation to the pastorate of the Second Universalist Society of Lowell, Mass., by reason of the cordial unanimity and good feeling towards him exhibited by the members of his society.

—— Saunders Dow, of Webster, a farmer, having lost in several trades in live stock which he had recently made, drowned himself in Blackwater river, Mar. 31. He first tried to hang himself with his suspenders, but failed in the attempt. He was 40 years of age, and leaves a wife and children.

—— Mr. and Mrs. Uriel Cummings, of Cornish, recently celebrated the 50th anniversary of their marriage. Their five surviving children, and about 200 friends participated in the religious services and festivities of the occasion. Mr. and Mrs. Cummings were born on the same day and were married on their 21st birth-day.

—— Sylvester Berry, formerly of Dover, Mr. Roberts, son of Hanson Roberts, of Farmington, Mr. Marston, formerly of Concord, and a Mr. Evans were the four workmen killed by the explosion of the powder mills at New Durham on Tuesday. The buildings destroyed were the milling and kernelling mills and the drying house.

—— All the type-setting on the Rochester Courier is done by two young ladies who have learned the art since the paper was established—three months ago. The Manchester Mirror advertised for a lady compositor, and received above twenty letters from different parts of the State, from ladies wishing to learn the trade.

THE TRUE VALUE OF A GREENBACK DOLLAR.—The popular mind is abused, to a great extent, with a false idea of the true value in gold of a dollar of our present circulating medium. Many persons who have noticed gold quoted at, for instance, 60 per cent. premium, were of the opinion, that their dollar greenback was worth in gold just as many cents *less the dollar*. That this notion is erroneous is easily proven.—A dollar gold piece, when worth 60 per cent. more than a dollar Treasury note, is evidently worth 160-100ths of the latter, which is worth 100-160ths of the gold dollar, or 62 1-2 cents in gold. Consequently, with one dollar in Treasury paper, you can purchase 62 1-2 cents in gold. The proof of this is, that 62 1-2 cents plus 60 per cent. of itself, or 37 1-2 cents, is equal to one dollar. We think this explanation will considerably enrich, in their estimation, many persons who think that, when gold is at 60 per cent. premium, their dollar in Treasury currency is worth only 40 cents in the precious metal. The following table, showing the precise value of paper in gold, with the latter at various points of premium, may be of interest to many:

Gold at	Treasury Notes Worth
125	80 10-11c
129	83 1-3c
130	76 12-13c
135	74 3-7c
140	71 4-7c
150	66 2-3c
160	62 1-5c
170	58 14-17c
180	55 5-9c
190	52 12-19c
200	50c.

— The local elections in Illinois present an almost unbroken series of Union triumphs.

— Returns from every town in Connecticut make Gov. Buckingham's majority 5480.

— The Chicago papers pronounce the Irish National Fair in that city, under the auspices of the Fenian Brotherhood, "a brilliant success." The receipts of the first three days for tickets and goods are reported at $47,000.

TRAITOROUS PLOT IN KENTUCKY.—Kentucky has had a narrow escape from the grasp of traitors and a plunge into the rebel confederacy. The plot was laid, and conspirators stood ready to put it into execution, but at the critical moment the chief actor wavered before the pressure of loyal men, and the State was saved from ruin.—It now appears that the law subjecting slaves to draft was seized upon by the enemies of the government as a favorable instrument for revolutionizing Kentucky and carrying her out of the Union. To this scheme Gov. Bramlette gave his support so far as to prepare a proclamation denouncing the measure, but afterward listened to judicious counsel, and issued one advising the people to submit to the enlistment of their negroes. The authority for this statement is the venerable and noble Rev. Dr. Breckinridge, who, although a slaveholder, loves the Union better than slavery, and declares himself an emancipationist. He is reported by the Cincinnati Commercial as having said:—

He had been called to Frankfort to consult with Governor Bramlette about the course to be pursued in reference to the enrollment of slaves here, and after ascertaining that the proper officers were determined to obey, as they were bound to do, the laws passed and orders issued upon that subject, he had seen the proclamation which had done so much to quiet the public apprehension issued, and that, too, when the Governor had already prepared a different one. He was bound, as a gentleman, to support that proclamation, although it did not precisely suit him. It answered, however, a good purpose. It foiled one part of the scheme to bloodily baptize Kentucky into the Southern Confederacy. This scheme he understood to embrace an *emeute* of the Kentucky troops in consequence of Wolford's arrest, and a general rising in the State, strengthened by a contemporaneous invasion by a portion of the rebel army. So far as the defection of Kentucky soldiers and the uprising of the people were concerned, he could say the conspiracy had failed. The proof of the existence of such a conspiracy was overwhelmingly strong.

Forrest's raid and the copperhead outbreak in Illinois were unquestionably a part of this infamous plot. Such projects (says the Boston Journal) "are to be expected from the enemies of the republic, but we have the comforting satisfaction that they are daily growing less feasable of execution. The tide of patriotism is swelling hourly and will finally overwhelm alike home traitors, border State conspirators and Southern rebels."

Should any reader be disposed to ask why it is that Kentucky has been more disposed to engage in such treachery, than some other border States, the answer is plain, viz: slavery there was stronger, the slave aristocracy there greater, and the absurd "Kentucky Resolutions" were *adopted* there! She was the *only* State that adopted them in form; though their crudities are a part of the platform of the rebellion, and they are cherished by the traitors. U. T.

☞ An army correspondent of the Portland Courier writes as follows from Brandy Station, Va., April 2:

The long expected inspections by Gen. Grant have not as yet taken place. He is perfecting his plan of operations. He moves about so unostentatiously that a stranger would hardly know we had the commander-in-chief sojourning amongst us. Much speculation prevails here.

The consolidation of the army is fast becoming popular, and no three generals could have been selected in whom more confidence is felt than in Hancock, Warren, and Sedgwick. Always to be found at the post of danger and duty, they attend to the best interests of the service, leaving petty jealousies and rivalries to those less worthy than themselves.

The appearance of Gen. Hancock is enough to inspire his troops with enthusiasm. His bold, defiant, energetic look gives confidence to his soldiers, and bespeaks him a descendant of him who first signed the Declaration of Independence.

Maj. Gen. Warren is a young, dashing, intrepid soldier, full of military ardor, endowed by nature with that true military genius, and by education with the science of war that ever place men of his stamp in the front rank. He also is a descendant and bears the name of one of our revolutionary Generals, the hero of Bunker Hill.

Of Gen. Sedgwick little need be said. His exploits in this war are well known. The storming and capture of Mary's heights at the battle of Chancellorsville, and afterward withstanding the onset of the whole rebel army, cutting his way through it to join Gen. Hooker, are matters of history and are familiar to you all. He is every inch a soldier and is beloved by every man in the army. He has twice refused the supreme command.

Gen. Meade stands well with the army and I feel assured will guide its fortunes in the approaching campaign. He has entirely roused his revilers and jealous rivals in the investigations before the committee on the conduct of the war.

☞ A Washington correspondent says Hon. Reverdy Johnson's speech in the Senate, on Tuesday, in favor of the proposed amendment of the Constitution abolishing slavery, elicited the warmest commendation from Republican Senators. It was considered to have been the ablest speech of the session. It was delivered without notes. The speaker quoted from a speech of his own in 1847, recommending Calhoun to put a dignified end to slavery, to save it from a terrible death.

This bill passed the House on the same day when Baltimore and Maryland voted in favor of a Convention and of emancipation.

It must require more courage to drink the vile compounds now sold as intoxicating liquors than to face batteries of shell and grape shot.

DR. TEBBETTS' PHYSIOLOGICAL HAIR REGENERATOR

—AND—

UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or more commonly known as the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy; and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, it not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, for it is not the least injurious in its application.

2. It will certainly RESTORE the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in the extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost black. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphtheria, and it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when at out two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair *Dye*, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT

Please Look at This.

EYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and second bottle of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

BOUGHT MOSTLY BEFORE THE RISE IN PRICES.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn pone, for baking muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

For sale at the

House Furnishing Establishment,

46 Market street.

Coughs and Colds.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily when taken in the early stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, for the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires. mh21—1mdaw

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.
Address JOSEPH T. INMAN,
mh25—1ysm* Station D, Bible House, New York City.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a tincture from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING COUGH, all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

For sale by all Wholesale and Retail Dealers.
JOHN L. HUNNEWELL, Proprietor,
Practical Chemist, Boston, Mass.

N. B.—The greatest freedom of correspondence solicited. Dealers with good references supplied on commission.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER jn20

Local.

☞ The beautiful gold watch, recently presented to Capt. Charles H. Long by the officers and men of the 1st Company, Heavy Artillery, at Fort Constitution, can be seen at Mr. Bodge's Jewelry Store, Congress street, for a few days.

☞ As will be seen by his advertisement, Mr. William H. Laws to-day removes his Express office from Mr. Avery's store to No. 4 Congress Block,—recently occupied by Mr. D. R. Ambrose. Mr. Laws has fitted up this new office in a manner which must prove very convenient to him, and not without its advantages to his patrons. The fact that his business has so increased as to require these greater accommodations and facilities for its successful accomplishment is an evidence of the care and attention which he has exercised during the long time in which he has been engaged in running an express between this city and Boston.

☞ Eliphalet Nott, Esq., Treasurer of the P., S. & P. Railroad, has purchased the residence of the late Hon. John F. Scammon, in Saco, Me., and is about establishing his residence in that city.

A GOOD OBITUARY.—Died, in Farmington, March 27, of typhoid fever, Jeremy Wingate, Esq., aged 79. He was the seventh child of Hon. Aaron Wingate, who moved from the old Wingate place in Dover to that part of Rochester known as Chestnut Hills, now Farmington. Jeremy served his time as Clerk in the store of Jonas March, Esq., of Rochester, who had married his sister. Leaving Norway Plain, he opened a store at Farmington Dock, in which he spent the active years of his life, and by attention and economy, accumulated $30,000 or $40,000. He married when thirty years of age, Mary Titcomb, of Dover, who died four years after, leaving no children. He brought up his wife's nephew, George A. Titcomb, Esq., in whose family he has lived many years. He was postmaster 27 years in succession. He has for a long time given $50 a year to the Congregational Church, and served as Deacon thereof. By will he leaves Mr. Titcomb's family about $17,000; his church $2000; his present and former pastors, Revs. R. M. Sargent, D. D. Tappan, and B. G. Willey, $100 each. He was a patriot, christian, a kind, pleasant gentleman of the old school.

— A large amount of cotton, it is said, is being captured along the Red river.

— The ice left the Penobscot on Friday night.

— Artemas Ward (Charles F. Brown) arrived in Boston on Friday.

— Two and a half million three-cent postage stamps were sold at the Washington post office during the last quarter.

— Breadstuffs have declined in England and are reported very dull. Provisions generally had a downward tendency.

— The net receipts at the fancy dress parties in Bangor for the benefit of the Sanitary Commission amount to $2709.50.

— A colored oratress has made her debut at Syracuse, N. Y. "The heroism of colored men" is her theme.

— Jason Hamilton, of Saco, has received the appointment of Deputy Sheriff for York county, Me.

— Over a hundred men are wanted in the marine corps of the Charlestown Navy Yard.

— Packet ship Harry Warren, built at Newburyport last year, arrived at Boston on Wednesday, from Liverpool, having made the run in 18 days.

— The Book Trade Sale in New York closed on Wednesday. It had lasted eight days, and about 3,000,000 volumes were disposed of, bringing nearly $400,000.

— Rev. Horatio Stebbins, of Portland, who has been suffering from an attack of pleurisy, is now much better, and will leave for New York this week.

— A young soldier from Aroostook county says he was rejected from the U. S. service because blue was not becoming to him.

— It is proposed to establish a gallery of Indian busts. The movement should not be delayed, or the originals will have disappeared.

— A backwoodsman, while logging in Maine last week, had his leg broken, and was taken on an ox-sled 70 miles before it could be set.

— Some ill-natured individual expresses the opinion that a reservoir of water for the supply of a city is like a Dutchman—it never works without a pipe in its mouth.

— One of our most reliable exchanges says that a young man, named Simon Rodgers, recently blew out his brains, after bidding his wife good bye *with a shot gun!*

— Carlyle, after hearing a party discuss the character of Goethe, said: "Gentlemen, did you ever hear of the man who vilified the sun because it would not light his cigar?"

— Jefferson, said in his works, vol. 8, page 365, "The opinion that the colored race are inferior in the faculties of reason and imagination must be hazarded with great diffidence."

PARKER AND KING.—Rev. E. W. Reynolds, in a late essay, draws life-like pictures of Theodore Parker and Starr King, comparing them to Luther and Melanchthon, in which he sketches the following contrast:

If Mr. Parker had the characteristics of Luther, Mr. King possessed those of Melanchthon. While the temper of one was warlike, the temper of the other was conciliatory. While it was the nature of Mr. Parker to cast the keen light of his reason upon the error and superstition of the Church, and to dislodge them if he could, it was the nature of Mr. King to clothe them with the hues of the imagination, and to view them in a poetical aspect. While one saw in the Popular Theology, a bar to the world's progress, the other saw a Providential Agency. Both belonged to the extreme Liberal wing of the Church, but the one could not open his mouth on the subject of religion without offending the whole orthodox communion; while the other might have ministered for six months to a Presbyterian congregation, without betraying his heresy in his speech. The reason is that the one commonly discussed the questions at issue between the Old Theology and the New; while the other preferred those ethical and literary themes, in which Christians of all parties have a common interest.

In the winter of 1858, an invitation was given to six clergymen of Boston, representing as many denominations, to deliver each a discourse in the Pitts Street Chapel, in defence of his chosen creed. Mr. King completed the course by a supplementary lecture, in which he spoke—not in defence of any sectarian theology—but in behalf of that "Spiritual Christianity, which is independent of institutions and systems," and which forms the vitalizing spirit in all the sectarian bodies.

The relation of his Lecture to that Series, shows what his relation was to the Churches at large. It was his chosen function to advocate—not the dogmas that divide Christians—but that universal Religious Element in which they all accord.

Butter, in Montreal, is quoted at 18 to 23 cents—eggs per dozen, 14 cents, and lard 3 to 9 1-2 cents. There is no reason, within our knowledge, why as much butter will not be made this year as last.—*Portland Press.*

— The carriage business of New-Haven, (exclusive of Fair Haven and Westville,) employs a capital of $862,000—gives labor to fifteen hundred and ninety-six persons—its yearly pay-roll is $707,030—manufactures 13,726 vehicles—valued at $2,228,460.

— A short time since a master in a grammar school, censuring a pupil for dullness, said: "Is not the price of a penny bun always a penny?" when the boy innocently replied, "No, sir, they sell them two for three half pence when they are stale."

— The Maine Foreign Immigrant Society was organized at Portland on Monday last. The capital stock is $50,000, and the object is to procure from the North of Europe mechanics and laborers. A special agent is to be sent abroad for the purpose.

— Mrs. Lucy A. Rice, whose home in Richmond was, for nine days, the hiding place of Col. Streight and another Union officer who escaped from Libby prison, has escaped through the rebel lines, and has arrived in Baltimore in a destitute condition.

— How capricious are the freaks of the blind goddess, Fortune! There is the great Marchioness of Bath, who the other day was blessed with the birth of a girl.—Had it been a boy, the new comer would have been entitled to fifty thousand dollars a year, left by Mr. Botfield, M. P., with that little condition!

— A report from Cincinnati states that there is great excitement about the sudden disappearance of the firm of Bidwell & Co., commission merchants, who have consummated a mammoth scheme of swindling, by which a number of merchants in Cincinnati, Cleveland, Pittsburg and New York are sufferers. They are supposed to have fled to Canada.

The portrait of the woman that kept a secret is in the British Museum. It is said not to resemble any woman now living.

"Mamma," said a little girl, pointing to the telegraph wires, how do they send messages by those bits of wire without tearing them to pieces?" "They send them in a fluid state, my dear," was the mother's reply.

MARRIAGES.

In this city, April 2, by Rev. Geo. M. Adams, Mr. STEPHEN L. TWOMBLY to Mrs. GEORGIANNA H. YOUNG, youngest daughter of Mr. John H. Wells, all of this city.

In Exeter, April 4, Mr. ANSON E. HALL to Miss SOPHIA E. MORRILL, both of Fremont.

DEATHS.

In West Epping, April 8, MEAD FOLSOM, aged 78 years and 9 months.

In Roxbury, Mass., BENJAMIN KINGSBURY, aged 59, formerly of this city, whither his remains were brought for interment.

Morning Chronicle.

BUTTER.—Holders of choice grades of Butter (which in the course of speculation have become concentrated in very few hands) continue to advance their pretensions from week to week; while consumers, who have the means and disposition to follow them up, are paying rather dear for the simple privilege of lubricating their biscuit and toast. Indeed, butter has now got to be one of those costly luxuries not to be thought of by persons in moderate circumstances (even those who make it can't afford to eat it) and such as "down in Dixie" they charge $5 in Confederate currency for a look at or smell of. It is no wonder the ancient Egyptians worshipped the bull "Apis," or that the old woman we read of, kissed her cow. We begin all of us to "see the p'int." There is one consideration, however, extremely consoling to paterfamilias; not only is new Butter, attracted by these high prices, making its appearance earlier than usual, but the season is at hand when the old article will not keep, and must be sold out or become a drug in the market. A few days of warm April weather will soften the Butter market amazingly, if not the hearts of speculators. *Commercial Bulletin.*

New England stands forth in solid phalanx for the Union, and the fact ought to rejoice the heart of every lover of humanity. Connecticut has joined hands with New Hampshire, and the common voice of the people of the whole six is emphatic and earnest—declaring that the Union must and shall be preserved. The result in New Hampshire and Connecticut ought to remove the scales from the eyes of partizans who confidently predicted a different result. The element of the nation's strength is in the people, and the people are right, and we have only to place before them the great principles on which the government rests, and on which alone its permanency must ever depend, to keep them right. They have determined that the rebellion shall be crushed, and any party that does not make that their object, will be crushed with it.—*Newburyport Herald.*

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College of Physicians and Surgeons, N. Y.; formerly Assistant Physician, Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are treatable and curable in a few days or weeks, and we confidently claim the investigation of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised nostrums, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome difficulties never before met with, and have seen our cause down upon one side of the scale, we have the effects of disease. What is requisite is, to restore the balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Partial Palsies.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Jaundice, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Struma, Glandular Swellings, Ulceration, King's Evil, Engorgement.

This taint (hereditary or acquired) filling life with untold misery, is by all usual medical treatment incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a specific, it is in Rheumatism and its kindred affections. The most severe pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thought, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day they purchased these blessings. Particularly to weak, suffering women will this medicine prove an inestimable blessing—directing their footsteps to a Home which infinite more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Deep Pains, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Enervated Pains which the use of Calomel is sure to produce. It heals the Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases.

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast and should be taken upon the swellings detected, eradicating the poisonous taint, and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases can recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Rheumatism, Dyspepsia, Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with impoverishment and ulceration of the uterus; are permanently cured by CONSTITUTION LIFE SYRUP. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for months, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Scirrhous of the Breast, and swellings of other glands of the body will be completely eradicated without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a great deal of misery), Dropsy of the Chest, Cancer and all the affections of the important organs, or persons suffering from any cause, from Weakness, or the effects of Mercury, will be greatly relieved by CONSTITUTION LIFE SYRUP.

Broken Down and Delicate Constitutions, Suffering from Indiscretion in Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Disease, Nervous Irritability, Dreams of Venery, Dry Hot Skin and Extremities, Weak Nerves, Trembling, Pale Haggard Countenance and Lassitude of the Muscular System, is restored by the use of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Neck, Constitution Life Syrup is the remedy.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unsightly and difficult to remove, and troublesome. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is disagreeable to the sufferer.

In Diseases of the Liver, giving rise to Jaundice, Indigestion, weak stomach, or wasting of the or cancerous condition of that organ, accompanied with torpid Liver and other dyspeptic symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled, by any preparation yet introduced.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Spinal Irritation, Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we recommend CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and limbs, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Kings and princes have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so nearly at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most efficacious medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the lacteal secretion. We have used it, think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Gleet, Fluor Albus or Whites, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in these cases of Fluor Albus (Whites or Spermatorrhœa) where all the old nostrums and quacks have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, as it will give immediate relief in the most inveterate cases, removing all scalding, heat, shortness and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap brands of injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the secretory organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE
CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by the secret vice, such as Lost Manhood, Diminished Sensibility, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Nervous Irritability, Symptoms of the Face, Pale Countenance, Insanity, Consumption, and all the dreadful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* The CHEROKEE CURE will restore you to health and vigor, and restore you to your friends, when all other means have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing Injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

It is a sure cure for General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few bottles bring the roses to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing victim of sensual pleasure.

Ladies—Married or Single—Young or Old, man of business, fashionable votary of pleasure, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the Back and lower parts of the body; Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they will do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfolding nature of their action would infallibly procure pregnancy.

All letters seeking information or advice will be promptly, freely and delicately answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

Sent by mail, postage free, on receipt of price.

Sold by all respectable druggists.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as thousands of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

And the hosts of others who are using them.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and healthy—not dried as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache and other complaints so common in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the grate, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert H. Rich, Esq.,
Aaron H. Hill,	Charles H. Meudum,
Henry F. Wendell,	John Sise, and others.

The Chronicle.

GOOD MANAGEMENT.—Perhaps I can give you some information. When you want to manage men, do as bee-keepers do when they want to manage bees. Here are two men that have bees in a hive. One says, "I own these bees, and I am going to divide them, and move them." He prepares a place for them, and then goes to the hive, thrusts his hand rudely into the midst of them, and very soon he has his bees all over him, and he moves himself very rapidly! That is just as I have seen men attempt to manage men. Another man gets a bowl of sugar and water, and washes his hands all over, and goes with the utmost quietness and serenity, and opens the hive, and puts his hand in gently, the bees find everything sweet, and he can scoop them up as though they were so much flour, and put them in as many hives as he pleases, (if he only takes care to put a queen bee in each,) and they will not sting him or fly away. And people say, "Wonderful! that man has a real magnetic power with bees." So he has, when he has sugar and water on his hands. Now, when you want to manage men, wash your hands with sugar and water!

My friends, our kindness should begin at home. It should not stay there; but there it should begin, and there it should be nourished. And nowhere else should you be so considerate of politeness as in your own house, when there is nobody there but your wife and children; for what has a man that is worth more to him than his wife and children?—*H. W. Beecher.*

A correspondent writing from Carrolton, near New Orleans, thus relates a comical incident:—

There are droves of little French-African children here. They talk French English and English French. They wear a simple costume, consisting of a very short shirt.—"Sonny," said I to one of these coffee colored youngsters, "where are your pantaloons?" "I don't wear pantaloons,—I'm a girl," was the reply.

— Josh Billings re'wests ikthiologists to talk notis and govern themselfs akording, that hereafter, "the son ov the Prince ov Whales is tew be kalled Halibert."

Fear is a prodigious magnifier, especially where it has been excited by any unusual object. No traveller ever saw a small tiger, and no landsman ever experienced a gale at sea that was not a tornado.

A bachelor by the name of Somerset said that he must always remain a poor miserable bachelor, for how could he prevail upon any sensible young lady with the slightest notion of delicacy, to turn a Somerset!

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1857.)

76 State street, opposite Kilby street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the validity of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages not enjoying Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. For testimonials which prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber; and that INVENTORS in the AMERICAN WOOD OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for services so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of decisions and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person of more *competency and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

Boston, Dec. 19, 1863.—3mwly

Musical Notice.

MOULTON & BLAISDELL.

FERTILIZERS,
Trees, Vines, Shrubs,
Vegetable and Flower Seeds.
J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corp is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the hoe, harrowing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicine, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.80 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Thomas Wentworth & Co., Dover.
Jeremy Perkins, "
Colbath & Danford, "
John Martin, Great Falls.
George L. Whitehouse, Farmington.
O. F. Hobbs & Co., Ossipee.
Moses Merrill, East Ossipee.
Joseph P. Gilman, Union.
John Tredick, "
Zebediah Sargent, Rochester.
J. S. & E. Bunker, Newmarket.

J. L. Blundlett, Epping.
W. N. Low, West Epping.
C. W. Greenleaf & Co., North Berwick.
G. W. Snow & Co., "

Lloyd's Nitrogenized
Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " " (ca O P O 5)	11.5
Organic matter	31.
Sulphate of lime	26.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia. The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 4, and 15 to other words, Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphate Phosphates and the Ammonia may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The sample for analysis, I selected from the entire stock which was prepared for the market.
N. P. HILL.
BROWN UNIVERSITY, Jan. 28, 1864.

This lime is sold in barrels containing about 275 lbs. Price Three Cents per lb., by the barrel, or Twenty-Five Pounds for One Dollar.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can do. The facilities he has (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the best remedies for those diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cancerous Eruptions, Ulcers, Blotches, &c., &c., and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed their prospects of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend counselor and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the history of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A Lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Michel's Italian Female Monthly Pills. The sale of more than 20,000 boxes annually establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, APRIL 12, 1864.

THE REBELLION.

It is again reported that Shreveport, La., has been captured by Gen. Steele without firing a gun; also, that several of our gunboats had gone above the Shoals on the Red river to cooperate with our land forces, and that large numbers of cattle and prisoners were being captured by our scouting parties, as well as cotton.

1500 rebels on Friday, April 7, burned some extensive cotton works and fine buildings on a plantation on the Yazoo river, which had been leased by the Government. They were subsequently attacked by the 1st Mass. cavalry, colored, 600 strong, and after a fight from 2 till 8 A. M., were repulsed.

40 rebels blew up the lighthouse at Cape Lookout, on Sunday night, April 3d.

Grierson's cavalry is hanging around Forrest and occasionally cutting off and capturing small squads. He is not strong enough to attack him in force.

All the regiments belonging to the Ninth Army Corps, late from Knoxville, Tenn., are being sent forward from Cincinnati to Annapolis, Md., with the utmost dispatch.

Gen. Grant visited the extreme front on Friday, and made close observation of the regiments and brigades. He also made a careful reconnoissance of the enemy's defensive works on the Rapidan.

New Orleans correspondence throws some doubt on the authenticity of the accounts of the recent defeat of Dick Taylor by Gen. A. J. Smith,—another 1st of April story. The reported sinking of the rebel ram Tennessee near Grant's Pass is also doubted.

— Commodore W. D. Porter is very ill in New York city.

— Monday was the 19th successive day on which the wind has blown from the east.

—A Springfield man now wears the coat he was married in, 44 years ago. The papers don't say he has worn it ever since.

— Brig. Gen. T. W. Sherman is in command of Forts Jackson and St. Philip, below New Orleans.

— Maj. Halpine, the original "Miles O'. Reilly," has resigned his commission on account of weak eyes.

— The present U. S. House of Representatives has twenty-five members with bald heads, thirty with moustaches, and two with wigs.

— An Evening Exchange has been established in Boston, composed mainly of members of the "out side board," and holds its sessions at the Parker House.

— Army ballooning is found to be a failure, and Government will sell seven balloons with their equipments, at Washington on the 18th inst., to the highest bidder.

— The Gloucester Telegraph man says that the man who slaughters a heifer calf this spring, if heescapes the halter, ought to be imprisoned during the war.

— John C. Rives, publisher of the Congressional Globe, died in Washington on Sunday morning after a protected illness, at the age of 67 years. His disease was gout in the stomach.

— Mr. Henry Dexter, of Boston, the distinguished sculptor, learned the black smith's trade and worked at it several years. He is entirely self-taught, and it is said never saw another artist at work on marble.

— They have a locality in Portland which the local papers call variously the "bite" or the "bight." It seems to be distinguished for drunks, disorder, shakings-down and wantonness.

— Wm. Willis has been sentenced to be hanged for murder in Ulster county, New York. A young lady promised to marry him if he would drink no more. He broke his promise to abstain, she married another, he killed her.

☞ Wilkes's Spirit of the Times asserts, that Mayor Gunther's office in New York city, is the headquarters of official sympathy for the insurgents' rebel course, and that there are 20,000 or 30,000 rebel refugees and others in that city who would vote or act for Jeff. Davis and the rebels. It further calls on our government to give Gen. Butler the command there, in case he should be relieved from Fortress Monroe; and to give him power to raise a home guard, which might be needed, in case of any great reverse to our army, when these rebels and traitors might burn and pillage, as they did last year. The thought is timely;—and if Butler can't be spared, Fremont would be well employed in such a service.

A very odd case of petty malice in willmaking was that of a man who, not having a penny in the world, left a will in which he bequeathed to his friends and acquaintances large estates in various parts of England, money in the funds, rings, jewels and plate. His inducement was the prospect of the delight of his friends at first learning about the rich possessions which were to be theirs, and then the bitter disappointment at finding how they had been boaxed.

NEW HAMPSHIRE ITEMS.

—— Asst. Surgeon C. C. Buckley, 8th N. H. regiment, has resigned.

—— It was reported in Concord on Friday that Gov. Gilmore was again lying seriously ill at New York, on his return from Washington.

—— The teachers and scholars of the Unitarian Sunday School, Exeter, have contributed $46, for the Union sufferers in East Tennessee.

—— Fire was set in a small baggage room near the depot in Exeter on Saturday morning about 3 o'clock, but the night freight train came along just in season, and the fire was extinguished by those employed on that train.

—— Mr. George Thurston, of Exeter, a recruit for the 1st N. H. Cavalry, in jumping on the train at New Market Junction on Friday last, had his leg badly cut and jammed by the cars, as we learn from the News Letter.

—— On the afternoon of April 4th, while a number of lads were playing about the railroad track in Fisherville, a train of gravel cars was started and ran over a son of G. W. Wadleigh, Esq., literally cutting his body in two.

—— The Second N. H. Regiment, on Wednesday morning, the 6th inst., left Point Lookout, Md., where it has been stationed for some time guarding rebel prisoners. The order for its departure was unexpected and its destination unknown, but it was expected it would report to Suffolk or Norfolk, Va.

—— A Washington dispatch to the Boston Advertiser states that one of the wagons manufactured by Brown of Kingston, and refused for worthlessness by the Government quartermaster, but for which the Senate has nevertheless just voted to pay $20,000, will soon be on exhibition in front of the Capitol. Oakes Ames bought and transported it at his own expense, that the House might examine it before voting.

Treason in Congress.—In the U. S. House of Representatives, on Friday, Mr. Long, a Democratic member from Ohio, made a speech in Committee of the whole, in the course of which he declared that "there were now only two questions,—first, the recognition of the Confederacy; and second, the continuation of the war for the subjugation of the South. Of the two he preferred the former." On Saturday, Mar. Colfax offered a resolution for the expulsion of Mr. Long for uttering such sentiments. A discussion ensued, in which several of the Democratic members defended Mr. Long, and Union members condemned him, till at length Mr. Harris, of Indiana, arose and stated that he endorsed every sentiment uttered by Mr. Long. He would stand by him for weal or woe. If there was any honesty in the Democratic party they would rise like a hurricane and sweep away those who are preying upon the very vitals of the Republic. He (Harris) was not in favor of recognizing the Southern Confederacy, but of acquiescing to secession. A scene of great excitement ensued and Mr. Harris was compelled to take his seat. Mr. Fernando Wood said Mr. Long had declared in his written speech that he would prefer recognition rather than that the people of the South should be subjugated and exterminated, and he (Wood) endorsed this, and they could expel him for it. Mr. Colfax, in order to see in printed form what Mr. Long really uttered on Friday, moved that further consideration of the subject be postponed until Monday, which was agreed to unanimously.

Mr. Washburn, of Ill., offered a resolution to expel Mr. Harris, of Ind., for the utterance of treasonable sentences, and moved the previous question, which was seconded by the House. The resolution was not adopted—yeas 81, nays 58—a two-thirds vote being necessary. Mr. Schenck, of Ohio, then offered a resolution, declaring Mr. Harris to be an unworthy member of the House, and that he is hereby censured, which was passed—93 against 18.

— Gold closed at 171 1 4 in New York on Monday.

— The prize steamer Pet was sold at auction in Boston on Saturday for $35,500.

— The N. Y. Times denies that the hotels in that city charge their guests $5. per day during the Fair.

— Green, the Malden murderer, who is to be arraigned in a few days, it is said will plead guilty, throwing himself on the mercy of the Court.

— Two steamers left Fortress Monroe, Thursday, to bring away from Richmond all the Union officers and soldiers confined there as prisoners. They are said to number about 1,000.

— William D. Ticknor, Esq., of the firm of Ticknor & Fields, Boston, died suddenly at the Continental Hotel in Philadelphia on Sunday morning. He was about 60 years of age.

— A writer in the Knickerbocker Magazine, trying to be severe upon Boston, is funny when he says the city is called the "hub" because a *fellow gets tired* going about it.

NATIONAL SOVEREIGNTY.

Some papers which we read, calling themselves democratic, are pouring out a flood of folly about State Sovereignty and State Rights, and we see it asserted by some republican prints that one copperhead editor has gone so far as to say that "the Government of the United States has no attribute of sovereignty." If any one really said this, he must be as great a blockhead as he is a copperhead.

Every man who can read may see that the U. S. Constitution is the supreme law of the land, and that the Constitution and the laws of Congress must be obeyed in every State, anything in State laws or Constitution to the *contrary notwithstanding!*

Surely this is sovereignty. But this is not all. That constitution has a remarkable provision that says, "No person held to labor or service in one State, escaping into another, shall, in consequence of any law or regulation *therein*, be discharged—but shall be delivered up," &c.

No person shall be discharged! Why not? Is not each *State* a Sovereign? Can't it make such laws as it pleases? Answer: Its sovereignty is limited, circumscribed by the General Government: and although a State Legislature may put anything it pleases on the statute book, the laws of Congress are the supreme law; and this provision of the Constitution is and has been a very strong attribute of *Sovereignty* in the General Government, and a token of *subordination* in the several States.

Within certain *limits* the State of New Hampshire is a Sovereign,—and these limits are very plainly defined in our State Constitution, Bill of Rights, Art. 7.

The people of this State have the sole and exclusive right of governing themselves as a free, sovereign and independent State, and do, and forever hereafter shall exercise and enjoy every power, jrrisdiction and right pertaining thereto, which is not or may not hereafter be by them expressly delegated to the United States of America in Congress assembled.

This Constitution was established in 1792, and the people of this State had *expressly delegated* the sovereignty of supreme law to the United States five years before.

Fipally, if it were true that each State retains the same sovereignty now as it had before the Federal Constitution was ratified, then no one could tell us *why* they did not keep the Confederation as it was.

But it is *not* true. The people found they could not get along as a nation with that rope of sand for the government of the whole,—and *therefore* they formed a "more perfect Union" government, in which, as Gen. Washington said:—

It is obviously impracticable, in the *Federal Government* of these States, to secure all rights of independent *sovereignty* to *each*, and provide for the interest and safety of all. Individuals entering into society *must* give up a share of liberty, to preserve the rest.

Gen. Washington was the President of the Convention that framed the Constitution, and these words are part of his official letter on the occasion of sending it out to the People.

Surely his views are entitled to more respect than those of all the blockheads who now scribble for the copperhead papers.

U. T.

Naval Engineers.—The engineers of the navy are actively engaged in endeavoring to obtain the establishment of a separate grade, similar to that of ordnance and of engineers in the army, or of the marine corps in the navy. They urge that in the European services, the position of a naval engineer as "an officer and a gentleman" is distinctly recognized, while in our service his sphere of action is bounded by his engine-room, and he is forced to associate only with his subordinates. A chief engineer who has seen fifteen years' service receives $2600 per annum, which is the top of the ladder, while the head of the marine corps receives $3186, and a Rear Admiral receives $5000. Yet it is asserted that the duty of an engineer is not less responsible or arduous than that of an admiral or of a colonel commandant, and the corps demand a recognition of their usefulness by the establishment of a corps, with Ericsson at its head.

☞ One of the New York papers says it has reason to believe that nightly meetings of conspirators holding commissions from Jeff. Davis are held in that city, and there is great cause to fear that a serious reverse to General Grant would be followed by a sudden insurrection. Wilkes' Spirit thinks General Butler ought to be sent there with authority to organize a Home Guard at once.

☞ A gang of outlaws are operating in Portland. Three of them knocked down a gentleman in the street on Thursday evening with a club, and attempted to rob him, but he escaped. He had $3000 in his pocket at the time. A few days previous, a soldier, while passing through Temple street at 7 o'clock in the evening, had a blanket thrown over his head by ruffians and his pockets rifled of about $400.

— Bath, Me., has elected Andrew Jackson sealer of weights and measures. A good name and a significant office. People who have, during the war, "Oh'd for an Andrew Jackson," are referred to him.

A SOCIAL ASSEMBLY

WILL BE HELD AT

IRVING HALL,

—ON—

Wednesday Evening, April 13, 1864.

JOSEPH T. GOSS, Hooksett.

Portsmouth, April 12, 1864.

Zollickoffer's Anti-Rheumatic Cordial.

A fresh supply of this excellent medicine just received by J. F. SHORES, Jr.,

ap12 No. 1 Congress Block.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will find furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotiles, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and private diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864.—eodly.

The subscribers to the Stock of the Second National Bank, in this city, are hereby notified that their subscriptions are payable on TUESDAY, the nineteenth day of April instant, at the Store of GEORGE L. TREADWELL, No. 16 Market street, where receipts will be given, to be afterwards exchanged for certificates.

By order of the Directors.

GEO. L. TREADWELL, President.

Portsmouth, April 9, 1864.

Mrs. S. C. JEWELL,

Clairvoyant Physician,

Would inform her friends and the citizens of Portsmouth and vicinity, that she may be consulted for one week, commencing MONDAY, the 11th inst., at J. W. MOULTON'S, No. 3, Court street. ap9—1w*

Removal.

The subscriber has removed his EXPRESS OFFICE from S. A. Avery's store to **No. 4 Congress Block**, where he will be pleased to receive orders for the transmission of packages or the transaction of business in Boston or elsewhere. Thanking his friends and patrons for the liberal patronage he has received in the past, he respectfully solicits a continuance.

WILLIAM H. LAWS.

Portsmouth, April 11, 1864.

E. A. STEVENS,

NO. 46 MARKET STREET.

AN UNUSUALLY LARGE STOCK

OF EVERY KIND

—OF—

KITCHEN FURNISHING GOODS.

CHILDREN'S CARRIAGES.

The subscriber has purchased for cash, of the largest manufacturers in the country,

200 CHILDREN'S CHAISES,

WAGONS, CABS, GIGS,

TOY GIGS AND WAGONS,

of about 20 different styles—prices from $2 to $21 each.

Some of the above are very elegant silver-plated and silk-lined Chaises. The assortment is the largest and best ever offered in this city. A part of the above are already in store and ready for sale—the balance is expected daily.

Call and examine the stock, whether intending to purchase or not.

E. A. STEVENS,

46 Market street.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of supporting it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

HALEY, MORSE & BOYDEN'S

SELF-ADJUSTING

CLOTHES WRINGER.

THE BEST IN THE WORLD.

Over 40,000 have been sold by the manufacturer in a little more than two years—nearly 400 of them in Portsmouth and vicinity!

Buy one and try it—if not perfectly satisfactory the money will be refunded.

For sale at

E. A. STEVENS'S

House Furnishing Establishment,

NO. 46 MARKET STREET.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

For sale at the

House Furnishing Establishment,

46 Market street.

E. A. STEVENS.

Special Notice.

The subscriber respectfully gives notice to his patrons that all accounts, however small, will be presented for payment on the first of July next; and interest will be charged on all demands remaining unpaid after that time.

Terms Cash, hereafter, unless special agreement be made to the contrary.

This course is rendered necessary by the enormous rise in prices, and the general abandonment of the credit system by manufacturers of goods in his line.

A VERY LARGE STOCK OF

HOUSE FURNISHING GOODS,

Bought wholly for cash, is offered to the public at a slight advance above present wholesale prices.

E. A. STEVENS,

46 Market Street.

Portsmouth, April 12, 1864.

U. S. 10-40 LOAN.

Principal and Interest payable in Coin

FIRST NATIONAL BANK

OF PORTSMOUTH,

Designated Depository of the United States

This Bank hereby announces that it is prepared to receive subscriptions on account of United States Bonds, authorized by the act of March 3d, 1864; bearing date March 1st, 1864, redeemable at the pleasure of the government, after ten years, and payable forty years from date, bearing interest at Five per cent. a year, payable in coin annually on Bonds not over One Hundred Dollars, and semi-annually on all other Bonds.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. It is expected that Coupon Bonds will be ready for delivery about the 4th of April.

Subscribers will be required to pay, in addition to the amount of the principal of the Bonds, in lawful money, the accrued interest in Coin (or in United States Notes or the Notes of National Banks, adding Fifty per cent. for Premium until further notice), from the first day of March until the day of subscription.

Subscriptions and remittances may be addressed to the

First National Bank,

Of Portsmouth.

A SPLENDID ASSORTMENT OF
ROOM PAPERS,
of new styles, which will be sold at as low prices as the times will allow.

Coughs and Colds.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily when taken in the early stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them especial for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires. mh24—1mdaw

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.
Address JOSEPH T. INMAN,
Station D, Bible House,
mh26—1y3m* New York City.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING COUGH, all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

For sale by all Wholesale and Retail Dealers.
JOHN L. HUNNEWELL, Proprietor,
Practical Chemist, Boston, Mass.

N. B.—The greatest freedom of correspondence solicited. Dealers with good references supplied on commission.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *send* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER jn30

Local.

KEEP MOVING.—The place where loafers "most do congregate" just now, seems to be on the Post Office steps, which are lined day and evening by individuals, who do not seem to notice that they are in the way of every one who has legitimate business in the building. Their presence is especially annoying to the ladies, who are compelled to listen to low jibes, and perchance must elbow some coarse fellow out of the way before they can find ingress.—Such are the remarks of the Gloucester Telegraph in relation to the post office in that town; but it would not be surprising if here and there a reader of our paper this morning should think that the statements were made in relation to the post office in our own city.

☞ Samuel M. Wilcox, Esq., of Exeter, has been appointed to a second class clerkship in the Bureau of Internal Revenue at Washington. The Exeter legal gentlemen, with a wonderful unanimity, seem to find the service of the country more agreeable duty than their professional labors. The profession has furnished since the commencement of this administration, a Brigadier General, Lieut. Colonel, Naval officer at Boston and Deputy officer, two clerkships at Washington, and the Pension Agent at Portsmouth. The three practicing lawyers that are left on the Union side at Exeter, are serving the State to some purpose, one being Judge of Probate, another County Solicitor and State Senator, and the third representing the neighboring town of Hampton in the House of Representatives. But despite their pressure of public cares, it is now stated, that they are ready to move up and make room for one of their number to be chosen United States Senator. Verily, Exeter is a good place to get office from.

PROGRESSIVE.—The Exeter News Letter informs its readers that "the Court of Common Pleas will commence a session" in that town on Tuesday.

The Court of Common Pleas was abolished in 1859. A trial term of the Supreme Judicial Court commences at Exeter to day. Judge Doe is to preside.

"ORGANS."—Under this head the Boston Commercial Bulletin (the best paper of its kind, and one of the best of *any* kind, in the country, by the way—and as independent and outspoken as it is talented) closes an item with these words:—

If there is anything we have a horror of, it is being considered "an organ" of anybody or anything. We always intend to "face the music," but it shall be to tunes of our own grinding. The Bulletin is independent in everything and neutral in nothing.

Good, so. We of this Chronicle appreciate that—for, like the Bulletin, our little sheet sings only the tunes for which its editors give the key—asking no favors and fearing no frowns from any party or any body.

Read the "*Facts for the People*," presented by Mr. E. A. Stevens, and you will make a saving in fuel.—*Ports. Jour., 9th.*

We *have* "read the facts presented," as above—but don't see that we make any "saving in fuel" by it. In truth, we had to send down to Capt. Tucker's, next day, to have our coal bin replenished. Stevens' liberal and judicious advertising (see his new column this morning) is undoubtedly conducive of much good to himself and the public, as well as the printers; but it can hardly be expected to work miracles.

THE NEW HOTEL AT RYE BEACH.—The Ocean House, now building at Rye Beach, by Job Jenness & Son, in place of the one destroyed by fire, is to be a magnificent edifice, containing all the latest improvements, with spacious and elegant rooms, and will accommodate two hundred and fifty guests. It is rapidly approaching completion, and will be ready for the public before the opening of the warm season. Mr Sargent, of Newburyport, is the architect and superintendent of construction, and will turn out a good safe building, as well as a handsome structure.

☞ The Gloucester Telegraph states that the schooner John P. Hale, of Portsmouth, 60 85-95ths tons, built at Gloucester in 1852, has been sold to Mr. John Storer, Jr., of Rockport, and others, for $2500.

☞ At the N. H. Conference of the M. E. Church, now in session at Lebanon, Rev. Sullivan Holman, who has officiated at the church in this city during the past year, has been appointed to this station for the ensuing year.

☞ The report that W. Burleigh, (or any other person,) was killed at the Newmarket factory *April 1st*, was a stupid lie gotten up by some "fool" on that day. So we are assured by good authority at the mill.

☞ Capt. Wm. Frost, of the burnt ship Express, denies the statement of having a (duplicate) rebel register or manifest, or flag, on board. He says he never broke his oath to the U. S.

A lady pianist has lately appeared in Holland, who enjoys the singular advantage, to one in her profession, of having six fingers on each hand—the supplementary finger adjoining the little finger and resembling the thumb of another hand. She is of excellent family, and this peculiarity is hereditary, one of her ancestors, whose portrait was painted by Rubens, exhibiting the same digital formation. She plays the piano with great brilliancy, making much use of the supplementary finger. Her six fingered gloves are manufactured expressly for the lady by a paris *gantier*; and she seems rather proud than otherwise of her peculiar superfluity. All the members of the family who thus have six fingers are equally favored as to toes.

Fifty years ago there was a family in Portsmouth, named Sprague, in which two or more of the children had five fingers on each hand, beside a thumb, and six toes on each foot.

☞ The Portsmouth Journal comes out for the re-election of President Lincoln and Senator Hale.

☞ The official Navy Register for 1864 has just been issued from the Government press. It reports the number of vessels—including those still building—to be 617: among them 72 iron-clads and 2 rams—the Avenger and Vindicator. From Dec. 31, 1862, to Mch. 6, 1864, the Navy has lost 89 vessels by capture, destruction, snagging, wreck, &c., including 6 iron-clads and 3 rams.

— The editor of the Bath Times shudders over the imminence of "Spring cleaning," but things "the women must have their pleasures." It may be natural for a man to complain of "washtubs and scouring rags" when he lives all the time in a Bath.

— Charles Henry Foster, of North Carolina, who at an early period of the war figured as an applicant for a seat in Congress, and more recently as a Lieut. Col. of a loyal regiment in that State, has been summarily dismissed from the service by Gen. Butler.

— A critic noticing the phrase 'mutual friends,' says that it is bad English, for 'mutual' ought never to be used unless reciprocity exists. The mutual love of husband and wife is correct enough; but a mutual friend of both husband and wife is sheer nonsense. A common friend is meant—a friend that is common to both.

The world deals good naturedly with good natured people; you never knew a sulky misanthropist who quarreled with it, but it was he, and not it, that was in the wrong.

☞ See you fair maiden in another column, picking Samburi Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ Small pox has already sacrificed some of our best and bravest troops. Soldiers, listen to the voice of reason, supply yourselves with Holloway's Pills and Ointment. The pills purify the blood and strengthen the stomach, while the Ointment removes all pain and prevents pit marks. Only 30 cents per box or pot. 231

TRIAL AND FRIENDSHIP.—Herrick Allen's Gold Medal Saleratus has had a trial among three million families, and is pronounced the best Saleratus in the known world. It always brings a smile to the household; it keeps them in health; it helps make the weak strong, and saves hundreds from the fearful disease, dyspepsia. As you value health, use it. Most of the Grocers sell it. Depot 112 Liberty Street, New York.

DEATHS.

In this city, Monday morning, April 10, Mrs. HARRIET ROBERTSON, aged 68 years.

☞ Funeral this (Tuesday) afternoon, at 3 o'clock, from the house of Wm. H. Dennett, No. 1 Prospect street.

In Greenland, Feb. 29, Mrs. DOROTHY JOHNSON, 79, widow of Ebenezer Johnson.

In Stratham, April 2, Wm. Wrinn, 81.

In North Hampton, April 5, Widow MARY MARSTON, 88.

In Exeter, April 3, GEO. A. CUTLER, 25—member of 43d Penn. Colored Regt.

In Newbury, Mass., March 31, Mrs. MARY PEARSON, 97, widow of Silas Pearson. She was a daughter of Dr. Stephen Little, and the oldest woman in town. The house in which Mrs. Pearson died has been famous for its aged occupants. Mrs. Pearson's husband, who died about fifteen years ago, was 90. His step-mother and sister died at an earlier day, between 80 and 90; there is a relict in the same house a gentleman about 75, and a lady ten years older.

SPEER'S SAMBUCI WINE.

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physicians' Use.

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in Europe and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

LADIES' WINE, because it will not intoxicate as other wines; but it contains the virtues of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians who have tried the Wine.

Gen. W. Scott, U. S. A. Dr. ——, Newark.
Dr. Cooper, Long Island. Dr. Wilson, 11th St., N. Y.
Dr. Parker, N. Y. City. Dr. Dougherty, Newark
Dr. J. R. Cutler, ——. Dr. Parish, Phila.
Drs. Darcy and Nicholl, Newark, N. J.

☞ Each genuine bottle has the signature of "ALFRED SPEER, Passaic, N. J." in over the cork of each bottle.

GOLDEN SHEAF WHISKEY.

THE DISTINCTIVE FEATURES

—OF—

GOLDEN SHEAF WHISKEY

—ARE—

Pure Ingredients,
Careful Distillation,
Delicate Flavor,
Uniform Character,

IT CONTAINS IN A CONCENTRATED FORM

THE DISTILLED JUICES

—OF—

WHEAT, RYE AND CORN,

free from all deleterious ingredients.

Possessing these qualities, it has become a standard article, and is highly recommended by Chemists, Connoisseurs and Consumers.

Golden Sheaf Whiskey

the refined distillation of the most carefully selected Wheat, Rye and Corn, and combines NUTRITIVE,

MEDICINAL AND RECUPERATIVE

properties which render it deservedly popular as

A Strictly Pure Stimulant.

This celebrated Whiskey is put up by the subscriber in quart bottles, and in cases of two dozen each, and offered to the Trade, by his Travelling Agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of Wheat, Rye and Corn WHISKEY at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," and will be satisfied with no other, for any quantity required to the General Order.

Boston, Dec. 9, 1863.—3mNEW

Gray's Patent Molded Collars

Have now been before the public for nearly a year, and they are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles exhibited in all other collars.

The curved canon so peculiar to the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly fit and easy to the neck.

The Cravette Collar has a smooth and evenly finished edge on both sides.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOULDED AND SHAPED TO FIT THE NECK.

They are made in "jaunty" or turn-down style, in every half size, from 12 to 17 inches, and in "Eureka" (Cravette), from 13 to 17 inches; and packed in "solid class" in neat blue cartons, containing 100 each; also in small packets of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

☞ EVERY COLLAR is stamped

"Gray's Patent Molded Collar."

Sold by all dealers in Men's Furnishing Goods. The Trade supplied by

HATCH, JOHNSON & CO.

Importers and Wholesale Dealers in Men's Furnishing Goods and Umbrellas, **81 Devonshire street, Boston.** m1tf—1tawlm

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS.

Prepared by WM. H. GREGG, M. D.,

Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospital, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully provide the inquiring public of the liberal minded and scientific to cure which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obnoxious diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heretofore, and overcome opposition as heretofore, and we are now encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others, doubt their permanence, and think that diseases can not be cured by the "slow recuperative process of Nature." This is not so, and we can prove it.

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause, disease, on one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight on Stomach, Sleeplessness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Sores, Glandular Swellings, Ulcerates, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—the swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Sleeplessness, Irritability, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Purchasing the remedy, a woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the poisonous effects of mercury, removing the Bad Breath, and curing the Pains of Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates root and branch, all Impure Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other affections of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome and lingering Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few bottles of this Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. This disease is the most difficult of Scrofula to cure, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is sluggish and generally stubborn, and will not be removed without extra efforts. Tumors of the Ovaries, Tumors of the Breast, and swelling of other parts of the body, will be completely removed without resorting to the inconvenience and operations of any kind.

Epileptic, Hysteric, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of the Heart producing a grating or filing sound), Dropsy of the Heart, Pain and all the affections of this important organ, are speedily relieved by Constitution Life Syrup, and all require the aid of the CONSTITUTION LIFE SYRUP.

For all Scrofulous and Cutaneous Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTHERS, if your children have a pale face, depending upon a diseased action of the Liver, are very impatient to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, loss of appetite, costiveness, or an inflamed or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, these will be speedily cured by the use of CONSTITUTION LIFE SYRUP.

☞ *In a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, are speedily cured by the use of this remedy.

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, are speedily cured by the use of this remedy.

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, are speedily cured by the use of this remedy.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not wait until the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the most valuable medicinal medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and induces comfortable nights. Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Difficulties of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fever Affection (Water in Females) where all the old nauseous nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in connection with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and destroying to germs on the mucous membrane, and pain, instead of the burning and almost unbearable pain that is experienced with nearly all the cheap quack injections.

☞ Strict use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors,

No. 59 Liberty street, New York.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract of the Cedar, to which all can rely, as it has been used in our practice for many years, and in all instances it has never failed in a single instance. Its cures have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatise on this pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Dr. W. R. MEEWIN & CO., Sole Proprietors,

No. 59 Liberty street, New York.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses will cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses make the low spirited.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the premature debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked mind, the nervous, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of the Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

No. 59 Liberty street, New York.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Hysterics, Fainting or slight Sensations, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects flowing from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their operation being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

Sent by mail, postage free, on receipt of price.

Sold by all respectable druggists.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine the truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason is that the fire-pots in combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed, this objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which diffuses them so that every particle of the coal, thus using at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the Furnace can be made to consume the gases of the coal, as they pass off with large amount of the heat generated, making the dinner very cold, if not the part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

ESTABLISHED 1852. PORTSMOUTH, N. H. WEDNESDAY, APRIL 13, 1864. VOL. XXIV. No. 87.

The Chronicle.

ONE OF THE LAWYERS.—A gentleman dying left all his estate to a monastery, on condition that on the return of his only son, who was then abroad, the worthy fathers should give him "whatever they should choose." When the son came home he went to the monastery, and received but a small share, the monks choosing to keep the greater part for themselves. A barrister to whom he appeared to mention the case, advised him to sue the monastery, and promised to gain his cause. The gentleman followed his advice. "The testator," said the ingenious barrister, "has left his son that share of the estate which the monks shou'l choose; these are the express words of his will. Now it is plain what part they have chosen, by what they keep for themselves. My client then stands upon the words of the will. 'Let me have,' says he, 'that part they have chosen, and I am satisfied,'" and he gained the suit.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
AND
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small glands, or, more correctly speaking, bulbs of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become inactive in the same diseased state and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, it not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a healthy and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lead, Sulphur, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is the best hair dressing in the market.
2. It will certainly RESTORE the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.
3. It will effectually prevent the hair from falling off, remove all heat, inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

HILLSBORO, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost black. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphtheria, it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when at just two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT.

FERTILIZERS,
Trees, Vines, Shrubs,
Vegetable and Flower Seeds.

J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:

LODI CO.'S
IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grain and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and pushed, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.50 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Thomas Wentworth & Co., Dover.
Jeremy Perkins, "
Colbath & Danford, "
John Martin, Great Falls.
George L. Whitehouse, Farmington.
O. F. Hobbs & Co., Ossipee.
Moses Merrill, East Ossipee.

J. L. Blake, Epping.
W. N. Dow, West Epping.
C. W. Greenleaf & Co., North Berwick.
G. W. Snow & Co., " "

Lloyd's Nitrogenized
Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 CaO PO5)	17.3
Soluble " (CaO PO5)	11.5
Organic matter	31.
Sulphate of lime	28.
Alkaline of salts	2.
Insoluble matter	3.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia. The value of concentrated fertilizers depends principally upon the Soluble Phosphates, the Soluble Phosphates and the Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. in other words, Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The sample for analysis, I selected from the entire stock which was prepared for the market.

N. P. HILL.

BROWN UNIVERSITY, Jan. 28, 1864.

This lime is sold in barrels containing about 275 lbs. Price Three Cents per lb., by the barrel, or Twenty-Five Pounds for One Dollar.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at the old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for the speediest and most inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubos, Blotches, Ulcers, Throat Sores, Pains in the Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to bad habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down wrecks, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. Teller still remains the only Agency in America, for the sale of Dr. Nichols's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, APRIL 13, 1864.

THE REBELLION.

A Chattanooga journal says information received at that place induces the belief that about six thousand Georgia State troops had arrived at Dalton during the preceding two weeks. They were turned over to the rebels by Gov. Brown.

The Navy Department has taken measures to send two or three fast steamers in search of the rebel privateer Rappahannock.

The sailing sloops-of-war St. Louis and Constellation are to be relieved, and steamers sent in their places in the Eastern hemisphere.

An army correspondent writes from the Rappahannock that whatever may result from the uncertainty in regard to the immediate command of the Army of the Potomac, Gen. Grant is said to have declared his intention to move with it himself.

The rebels, on Saturday morning, attempted to destroy the frigate Minnesota. As apparently floating spar approached her, and, getting near, was ascertained to be a boat with three men in it. The lookout warned them off, but they pushed boldly for the frigate. In a few moments an explosion occurred similar to that of twenty cannon. The injury to the vessel was serious. The perpetrators disappeared in one of the creeks abounding in James river, the Admiral's dispatch tug, lying alongside, not having steam up. Its captain has been arrested.

The rebel steamer Clifton, formerly a U. S. gunboat, while attempting to run the blockade off Sabine Pass on the night of Mar. 21st, with over 700 bales of cotton, got aground on the bar. The rebels had to burn her to prevent her falling into our hands.

A large side-wheel steamer, with 4000 arms, among other things, for the rebel government, recently run into the port of Velasco, after being driven off from Galveston by our fleet. Deserters report that she has been loaded with 1100 bales of cotton, and is now waiting an opportunity to run out. Our vessels are on the watch.

The departments of the Susquehanna and Monongahela have been consolidated. Gen. Brooks, late commander in the latter department, has been ordered to Gen. Butler's department.

— The trial of Green, the Malden murderer, is appointed for May 17.

— Boston first-class hotels will advance their terms to $3.50 per day, April 15

— In Baltimore they call the negro soldiers "Smoked Yankees."

— Gold reached 174 1-2 on Tuesday,—the highest yet during the war. U. S. 6's, 114 1-2; 7 3-10's, 113; 5-20's, 113 3-4.

— It is stated that Mr. Chase relies more upon his national bank system to keep up the finances than any other measure.

— The Prussians have been repulsed in an attempt to storm Duppel, after 5 hours' engagement.

— The profits at one oyster (?) saloon in Augusta, Me., it is said, were $2800 in twenty-eight days.

— Owing to the inclemency of the weather, the first appearance of the trailing arbutus is unavoidably postponed.

— The first number of Dickens' new serial novel, "Our Mutual Friend," is to be published April 30.

— Fifteen buildings in Harrodsburg, Ky., were destroyed on Friday night by an incendiary fire. Loss, $50,000.

— The proprietors of the Broadway, New York, omnibuses have raised their fare from six to ten cents.

— Capt. J. Miles Lewis, for 23 years connected with the Sound steamers, died in New Haven on Sunday of typhoid fever.

— A boy eight or ten years old, in Rockland, Me., recently had one of his legs broken in attempting to ride a hog.

— A dove has made her nest in the sleeve of the Goddess of Liberty on the dome of the National Capitol.

— Dr. Bowring has presented to the British Museum his very fine collection of insects, 85,000 specimens, obtained during his long residence in the East.

— A very heavy freshet occurred on the Orange and Alexandria Railroad on Saturday night, damaging the road and bridges greatly.

— The Union party triumphed in the city election in Hartford, Conn., on Monday. The Democrats have had control for the past eight years.

— There is a little girl in Illinois, eleven years old, who persists in eating flies whenever she can catch them. Remonstrances have no effect.

— Five former residents of West Bath, Me., have sent $105 from San Francisco for the benefit of the sick and wounded soldiers in that town.

— The steamship City of New York, from New York, struck on a rock at the entrance of Queenstown harbor, Mar. 30, and is a total loss. Her passengers, mails and specie were saved.

NEW HAMPSHIRE ITEMS.

—— The 3d N. H. regiment left Nashua on Monday afternoon, to return to the seat of war.

—— The trial of Thomas Wiers, for the murder of Caleb M. Dyer, a leading Shaker at Enfield, in July last, was to be commenced at Haverhill on Monday.

—— Over $800 was collected for the Christian Commission in the Pearl Street Church, Nashua, on Fast Day, after an address by Rev. W. H. Eaton.

—— Rev. Charles J. Hill, pastor of the First Congregational Church, Nashua, for seven years, has asked for a dismissal on account of poor health, which nothing but protracted rest can improve.

—— The veteran volunteers were treated to a public dinner at Nashua by the ladies, on Fast Day. It was a very happy occasion, although it may not have tended to induce the veterans strictly to regard the Day.

—— The sum of $133 has been raised by a complimentary ball at Nashua for Sergeant James M. Laton of the 8th N. H. Regiment, whose left leg has been twice amputated in consequence of a wound received at Port Hudson.

—— A crowd attempted to rescue a soldier who had been arrested in Manchester on Sunday evening, and the police were compelled to use their revolvers, when the would-be rescuers fell back and dispersed. Nobody was hurt. So says the Union.

—— A large two-story farm house (brick front, L and shed of wood) owned and occupied by Joseph Holt, in Wilton, was burnt on Friday night, 8th inst. Mr. Holt also lost two wagons, a hog, and part of his household furniture. The fire commenced in the kitchen, and probably originated from a defective chimney.

—— A gentleman in Manchester advertises that he has "12 or 15 vacant Houses and Tenements in various parts of the city which as they have been a long time vacant, and as there is but little demand for houses at present, he will let to responsible tenants for two per cent. nett interest upon their cost."—— Move them down here, sir, and you'll do better than that.

—— The following promotions have been made in the 3d N. H. regiment: Lieut Col. John Bedel (a prisoner of war to the rebels in Richland Jail, Columbia, S. C. where he has been for nearly ten months) Colonel, vice J. H. Jackson, resigned; Maj. J. I. Plimpton, Lieutenant Colonel; Capt. James F. Randlett, Major; First Lieut. David Wadsworth, Captain of Co. F, vice Randlett.

—— The N. Y. Tribune, in speaking of newspaper advertising, says that "the advertiser is the only person who is really interested in the form of his advertisement, and he alone is responsible for its good or bad taste." Some of the Manchester traders are responsible for rather peculiar methods: for example, we find that one dealer offers dry goods to his "Democratic friends at ten per cent. less than they can buy at any Black Republican store in the State of New Hampshire." A druggist in the same city advertises his store as "the self-constituted city liquor agency, for medicinal purposes," which may have a squint at a neighboring city.

THE NATIONAL BANKING ACT.—The National Banking System is an important, if not a necessary element of national strength, and will cause no greater inflation than the exigencies of the times require, and probably not so great as State Bank issues and Legal Tender issues combined, would otherwise have effected. Instead of causing a financial revolution, it is, to the extent of its adoption, a security against revolution, and is already correcting the evil effects of State Bank failures at the West. It is a change only to a limited extent, and is being adopted gradually by the State Banks, but it does not alter their system of redemption for the new banks, but is designed to extend over the whole country, the plan so long and so successfully practised in New England, the principle of which is, that a bank note shall pay a debt at the metropolis of a district or country where payments centre. Coin is not needed, nor is it desirable, for effecting all exchanges and payments, nor did our banks actually pay specie before the suspension, coin being required only for balances.

Paper money, of a national character, in time of war, is a necessity, and the wholesome provisions and abundant safeguards of the Act, the vigilant care that watches every emergency that experience brings to light, will bring this new system of banking, to adopt the exaggerated style of some writers, the great success of the age. Let every friend of his country lend the government, in all its departments, a willing hand, and trust in the skill of our far-sighted Secretary of the Treasury, who has thus far proved himself "the pilot that weathered the storm."—*Newburyport Herald.*

— A French writer gets excited about Longfellow. Hear him: "At the name of Longfellow I see arise the imaginative statue of literary honor, dawning in the twilight of my sixteenth year,"—whatever that may mean.

— Of the four largest libraries in the United States, three are in Boston and vicinity, viz: that at Harvard College (the largest,) that at the Boston Athenæum, and the Boston Public Library. In the amount of annual expenditure the last outranks all others.

PARKER PILLSBURY'S Lecture in this city, last week, on "The Mystery of the War," was a production thoroughly characteristic of its author—able, quaint, and original; bristling with sharp and shining points; critical, denunciatory, and terrific; yet constantly breaking out into genial good humor, tenderness, and pathos; and reaching in many passages to the height of impressive eloquence. The unusually mild demeanor of his delivery—a tempering, we are told, of former days—lent a strange sharpness to the two-edged sword of criticism with which he hewed right and left, like Cœur de Lion cleaving down infidels. His style—"wild above rule or art"—is full of novelties and irresistibly enchains attention. Sweet and bitter sayings followed each other in rapid succession—here a sentence juicy and delicious like a vergalieu pear, and there another that puckered like alum or a persimmon! To Mr. Pillsbury's vision, public affairs wore a more shadowy aspect than to our own; and some, though not all, of his criticisms upon the government were unmerciful and unjust. But his picturings were not a tint too dark when he delineated the great crime of American slavery—for what pencil can overpaint the shadow of death? Well-aimed, too, were his arrows, drawn against those men who, high in Church and State, have for years hindered the political and religious growth of the nation—crippling freedom, and holding back the progress of the age. He grandly held up public men and measures to that high standard of moral integrity by which an enlightened people should always severely try their rulers and themselves. The pervading moral tone of the lecture was refreshing and ennobling, like a bracing north-west air. The eloquent utterance of so many inspiring truths dignified the speaker in the eyes of his audience, and the noble burst of applause which followed his conclusion was equally a tribute to the speech and the man.—*N. Y. Independent.*

THE COPPERHEAD INSURRECTION IN SOUTHERN ILLINOIS.—The Chicago Post (a war Democratic organ) says meetings were held in that city by the leading Copperheads, some time in March, and as the result of these the revolt at Charleston occurred. The malcontents took measures to involve the masses of the Democratic party in the insurrection, but the attempt failed. The murderous intent of those engaged in the bloody project, is shown by a statement in the Post that the evidence already elicited has revealed a scheme to "murder all the soldiers in Charleston." Eight deaths have occurred, five of which were soldiers, and another will die. "The latter were unarmed, while the rioters came armed, with extra guns in wagons." The correspondent of the paper from which we quote, says the feeling at Mattoon "is one of deep and terrible indignation against the peace demagogues, who are not only believed but known to be at the bottom of the late outbreaks."

☞ The Portland Courier states that Mrs. Gerrish, daughter-in-law of William H. Gerrish of Portland, started for California overland. The stage was attacked on the plains by Indians who shot the driver. Mrs. Gerrish and her infant child were the only passengers. On seeing what was going on, she jumped out of the coach, when the Indians shot one of the horses. She immediately cut the animal loose and leaped upon the box, took the reins and drove her horses at a run into a place of safety.—That woman will do beside Joan of Arc or any style of heroine. But will the Courier tell us what became of the baby?

☞ The Richmond Examiner has an editorial berating Jeff. Davis and the cabinet for the alleged intention of receiving Butler under a flag of truce, to treat with him with regard to the exchange of prisoners. The Examiner treats of the enactment withdrawing one thousand millions of Confederate paper from circulation, and thinks if this "astonishing achievement in finances" is feasible, enabling the South to continue the war indefinitely, the North will pattern by the Southern policy "in this as it has done in other particulars, and become able to protract its aggression indefinitely." The Examiner, however, comforts itself with the belief that the Northern people will not stand the adoption of any such financial measure.

☞ A few days ago a lady alighted from the New Haven train at Guilford, Conn., asked for the residence of a well-to-do gentleman living near the centre of the town, and proceeded thither. She was admitted, had a five minutes' interview with said gentleman, when both went to the minister and were married. The next day she left and has not been seen in Guilford since. In reply to the questions of the curious, the gentleman says: "She is my wife, and she has gone away." This is all the satisfaction he gives, and the gossips are wild with excitement.

☞ The Richmond Examiner of the 28th of March charges that the Rebel Government has treated John Morgan with jealousy and injustice. The Examiner says that two of Morgan's regiments, every man of which was recruited by himself in Kentucky, and for special service under himself, have been transferred to the command of Gen. Grigsby, special pet of Jeff. Davis. Morgan is therefore left with a command of only about 500 men.

— "Hear me gnaw, ma," as the juvenile rat said to his maternal.

AN UNUSUALLY LARGE STOCK

OF EVERY KIND

—OF—

KITCHEN FURNISHING GOODS.

CHILDREN'S CARRIAGES.

The subscriber has purchased for cash, of the largest manufacturers in the country,

200 CHILDREN'S CHAISES,

WAGONS, CABS, GIGS,

TOY GIGS AND WAGONS,

of about 20 different styles—prices from $8 to $21 each.

Some of the above are very elegant silver-plated and silk-lined Chaises. The assortment is the largest and best ever offered in this city. A part of the above are already in store and ready for sale—the balance is expected daily.

Call and examine the stock, whether intending to purchase or not.

E. A. STEVENS,
46 Market street.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

HALEY, MORSE & BOYDEN'S

SELF-ADJUSTING

CLOTHES WRINGER.

THE BEST IN THE WORLD.

Over 40,000 have been sold by the manufacturer in a little more than two years—nearly 400 of them in Portsmouth and vicinity!

Buy one and try it—if not perfectly satisfactory the money will be refunded.

For sale at

E. A. STEVENS'S

House Furnishing Establishment,

NO. 46 MARKET STREET.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

For sale at the
House Furnishing Establishment,
46 Market street.
E. A. STEVENS.

Special Notice.

The subscriber respectfully gives notice to his patrons that all accounts, however small, will be presented for payment on the first of July next; and interest will be charged on all demands remaining unpaid after that time.

Terms Cash, hereafter, unless special agreement be made to the contrary.

This course is rendered necessary by the enormous rise in prices, and the general abandonment of the credit system by manufacturers of goods in his line.

A VERY LARGE STOCK OF

HOUSE FURNISHING GOODS,

Bought wholly for cash, is offered to the public at a slight advance above present wholesale prices.

E. A. STEVENS,
46 Market Street.

Portsmouth, April 12, 1864.

U. S. 10-40 LOAN.

Principal and Interest payable in Coin

FIRST NATIONAL BANK

OF PORTSMOUTH,

Designated Depository of the United States.

This Bank hereby announces that it is prepared to receive subscriptions on account of United States Bonds, authorized by the act of March 3d, 1864; bearing date March 1st, 1864, redeemable at the pleasure of the government, after ten years, and payable forty years from date, bearing interest at Five per cent. a year, payable in coin annually on Bonds not over One Hundred Dollars, and semi-annually on larger Bonds.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. It is expected that Coupon Bonds will be ready for delivery about the 4th of April.

Subscribers will be required to pay, in addition to the amount of the principal of the Bonds, in lawful money, the accrued interest in Coin (or in United States Notes or the Notes of National Banks, adding Fifty per cent. for Premium until further notice) from the first day of March until the day of subscription.

Subscriptions and remittances may be addressed to the

First National Bank,
Of Portsmouth.

Coughs and Colds.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily when taken in the *early* stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, for the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires. mh21—1mdaw

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it. *Free of Charge.*
Address JOSEPH T. INMAN,
Station D, Bible House,
mh25—1y3m* New York City.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence which will be secured, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING COUGH, all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

For sale by all Wholesale and Retail Dealers.
JOHN L. HUNNEWELL, Proprietor,
Practical Chemist, Boston, Mass.

N. B.—The greatest freedom of correspondence solicited. Dealers with good references supplied on commission.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER jul30

Local.

☞ A good move is that of Mr. Stevens, in joining the already considerable number of Portsmouth business men, who settle all bills twice a year. Quarterly would be better yet—and "cash" absolutely better than all. Long-winded accounts are of no benefit to anybody; and we found out long ago that customers who will pay at *any* time you ask them are the only ones worth having. N. B. We are ready and desirous to settle all our accounts, pro and con, for the first quarter of 1864.

☞ Among the new advertisements this morning, will be seen a notice that Mr. Hahn has engaged the services of Mr. Wm. J. Laighton, one of our experienced and trustworthy business men, as salesman at his fancy goods and trimming store.

Also a large assortment of new goods offered by Chas. H. Mendum & Co., Mr. Hahn, and others.

☞ Acting Master J. P. Randall has been ordered to the Vandalia. Acting Ensign Andrew A. Ward has been detached from the Vandalia and ordered to the Philippi.

☞ Mr. J. Fletcher Paul has been elected Secretary of the "Boston Evening Exchange," organized on Monday evening last.

☞ We are indebted to the publisher of the Lebanon Free Press for an extra announcing the appointments by the New Hampshire M. E. Conference, in session at that place. We publish such as are of interest in this vicinity.

☞ The Portland Press publishes the quotas of the several towns in the 1st District of Maine under the call for 500,000 men, Feb. 1st, 1864, and under the call of the President for 200,000 men, made March 14th, 1864. The quotas of the towns in this vicinity are as follows:

	Feb. 1.	March 14.	Total.
Berwick	41	18	59
Eliot	44	15	59
Kennebunk	61	18	79
Kennebunkport	69	21	90
Kittery	69	24	93
North Berwick	38	13	51
South Berwick	58	20	78
Wells	66	24	90
York	50	18	68

PORTLAND AND BOSTON.—The railroad between Portland and Boston, via Portsmouth, affords excellent accommodations for the travelling public. The track is in good order for the season of the year, and a large portion of it is in good condition for any season. Many of the cars are of the most comfortable and even sumptuous character, well ventilated, well upholstered, and in all respects what the comfort of the traveller demands and what the large business of the road encourages the managers to provide. The officials seem to understand their business, and the conductors are gentlemanly and accommodating. If a depot at this end of the route equal in convenience and comfort to that in Boston, could be provided, in place of the tumble-down concern now in use, the public would be satisfied.—*Portland Press.*

THE LOCAL PRESS must merit support and then it will receive it. It is as much a public educator as the school, and as great a conservator of morals as the church. There is not a paper in New Hampshire but has a larger weekly congregation than the most popular preacher in the State. Under such circumstances the obscurest village paper becomes a powerful agency for good or evil.—*Nashua Telegraph.*

THE NATIONAL BANK bill in Congress has been effectually killed. The enabling National Bank bill, in the New York Legislature, has been placed on the General Order list, notwithstanding the committee reported against it, which "concluded that in the end it would result disastrously to the best interests of the country, and if allowed to swallow up our State institutions, financial ruin stares us in the face." The conversion of regular banks into national ones goes on with rapid strides, irrespective of the clause that mulcts stockholders in *double* the amount of their shares in case of pressure. In the event of a resumption of specie payments, it would not be very easy to pay up in gold *twice* the amount of capital of any one of these banks. The 4th Nat. Bank in N. Y., seems to have got into hot water already.—*Com. Bulletin.*

THE WILL OF T. STARR KING.—The following is a copy of the will of the late Thomas Starr King, made by him upon his death-bed. It is understood that Mr. King, although most generous and open-handed, was able to leave a very comfortable provision for his family:

Feeling that the time has come for me to be summoned into the presence of the Most High God, and believing in the salvation of my soul, I hereby make this my last will and testament: I hereby will and bequeath to my dear wife Julia, all my real and personal estate of which I am possessed, and all property of every description which belongs to me after my just debts are paid, with the exception of the proceeds of the policies of insurance upon my life, which I wish shall be equally divided between my mother and the mother of my dear wife, to revert to my wife after the death of either, unless it should be the will of my wife that it should revert directly for the benefit of either or both of her children. The proceeds of this policy of insurance I wish to be invested by my executors for the benefit of the above heirs thereto. And I hereby name as my executors to this my last will and testament, Charles L. Low, William Norris and Robert B. Swain. My desire is that they shall give no bonds for the performance of their duty.

— There is a whiskey shop in Richmond called the "Bragg Saloon," which the Enquirer thinks ought to be an excellent 'retreat."

— A persevering young poet in Orleans County, Vt., finding no publisher to print his verses, recently learned to set type, and printed and bound his poems himself.

— A man in Liverpool has bequeathed $50,000 to a San Francisco police officer who saved him from drowning in 1858 and refused any reward.

— The 31st and 32d Maine Regiments, recently enlisted, in camp at Augusta, have been ordered to leave for the seat of war the latter part of this week.

— Havana advices state that a Cuban official had captured 200 negroes from slave traders on the coast and sold them, and left for New York.

— A barber down in Bangor employs women as assistants, and it is reported that they prove very dexterous and efficient. If the innovation should spread it will head off the beard movement.

— A woman has been carrying on a curious confidence game in Milwaukee and Green Bay, Wis. She dressed in male attire, married young ladies, and run away with their money.

— The Hartford Post gives complete returns of the Connecticut election, which make Buckingham's majority 5,488, while in the House of Representatives, the Union party has exactly two thirds—158 to 79.

— The British and California Banking Company, with a capital stock of two million pounds sterling, advertises its intention of establishing a bank at San Francisco.—It is thought that it will exercise an important influence over the exchange market.

☞ Small pox has already sacrificed some of our best and bravest troops. Soldiers, listen to the voice of reason, supply yourselves with Holloway's Pills and Ointment. The pills purify the blood and strengthen the stomach, while the Ointment removes all pain and prevents pit marks. Only 30 cents per box or pot. 231

THE IMMENSE POPULARITY OF THE

California Wines

Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage

American Industry.

The Surgeon General of the United States, after an analysis of our Wines, reports them to be PURE.

Dr Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says:—"The fluid ounce leaves fifty-four grains of solid matter, consisting wholly of the fixed principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."

The Boston Traveller says:—"The California White or Hock Wine rivals in flavor the best of Hock Wines, and contains much less."

The Saturday Evening Gazette says:—"The White Wine is equal to the finest of Hock; and the Red is equal to the best Port."

The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

CALIFORNIA WINES,

BEARING THE LABEL OF

PERKINS, STERN & CO.,

WILL BE FOUND

FOR THE SICK CHAMBER,
COMMUNION PURPOSES,
or FAMILY USE,
THE PUREST, THE CHEAPEST, THE BEST
WINE IN THE MARKET.

Let Americans Support American Industry.

For sale at THACHER'S. mh30—W3m

Gray's Patent Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles bonded in all other collars.

The crowd causes no pucker on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE, and therefore perfectly free and easy to the neck.

The Garotte Collar has a smooth and evenly finished edge on both sides.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Garotte) from 13 to 17 inches, and packed in "solid cases" in neat boxes, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

☞ EVERY COLLAR is stamped

"Gray's Patent Molded Collar."

Sold by all dealers in Men's Furnishing Goods. The Trade supplied by

HATCH, JOHNSON & CO.,

Importers and Wholesale Dealers in Men's Furnishing Goods and Umbrellas, **81 Devonshire street, Boston.** mh12—6tw3m

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D.,

Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospital, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgin.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition such as has never encountered by any Reformer.

Rapidly it Cures.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases should be "cured by the slow, imperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium, but when from any cause there is an excess of one side, it will have the effect of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not dwell on this, it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrotula.

Sterum, Glandular Swellings, Ulceration, Scaly Eruptions, Tumors.

Rheumatism.

(Arthritic), Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and the allied affections, in which the joints are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thought, Lethargy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Parties broken down by premature, or the most incisive prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Diseases from the kart, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, of the limbs or abdomen, and the female Diseases of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are generally cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be used in the worst form of Scrofula, or exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Organs, Tumors on the Breast, and swellings of other glands of the body will be completely reduced without recurring to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart, Ague and Fever, Jaundice, Gravel, important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by taking the Life Syrup.

Broken-Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Wakefulness, Horror of Company, Fear of Disease, Dimness of Sight, Dry Hot Skin, Pale Bloodless Countenance, Pain in the Side, Pale Haggard Countenance and Languidness of the Muscular System, all require the use of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases,** either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no medicine has ever proved the equal.

MOLE PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few doses of the Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with Jaundice, Costiveness, Constant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Fits, Convulsions, Spasms, Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, are cured by the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. (It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It is highly useful before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is equally recommended in those cases of Fluor Albus (or Whites in females) where all the old numerous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and invigorating the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or auxiliary to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, its effects are healing, healing and demulcent; removing all scalding, heat, chordee and gain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack Injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by express to any address on receipt of price. Sold by all druggists everywhere.

DR. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Impotence, Premature Decay, Diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Nervous Debility, Hypochondriacy, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the fearful complaints caused by departing from the path of Nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the Cherokee Cure will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of impotency.

A few doses cure the low spirited.

One bottle removes the mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and languishing victims of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of the sexual organs, will find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

No. 59 Liberty street, New York.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute health for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months,* during which the unfailing nature of their action would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

Sent by mail, postage free, on receipt of price.

Sold by all respectable druggists.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the cast-iron bottom heater, and the water heater than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The air is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air in it ever come in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This difficulty, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on a level with the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your building.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

Those Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert H. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. THURSDAY, APRIL 14, 1864. VOL. XXIV. No. 88.

The Chronicle.

FINANCIAL.—We observe that varied indications are given in some of the daily papers of uneasiness and complication in financial and commercial affairs, and a N. Y. correspondent of a journal in Boston says: "New York is uneasy to-day in all her departments of trade. The state of things is very peculiar. A short time since our banks had fifty millions in gold; they have now but twenty. The state of feeling is feverish. Buyers are shy. Our heaviest merchants say that no goods can be sold unless they are offered less than cost. Stewart; Claflin & Co., and men of this class, are selling goods at a loss. Cottons and woolens cannot be sold else, and buyers are few at that. In Wall street several failures have taken place. The financial condition of things is not satisfactory to monied men."

Now although the crash is surely impending, and we have steadily warned our readers against it ever since the first paper dollar was paid out, and every reflecting man knows must come, it appears as though there were to be many days of sunshine yet. Speculators will buzz round in the genial but delusive rays, like moths about the candle that lures them to destruction. Although the crisis is liable to be precipitated at any time, as in 1857, by some Ohio Life and Trust Co., which will startle the community into a realization of the charnel house over which it is sporting, the summer months may see a continuance of the mad spirit of speculation, which for so long has ruled the community—but the ides of March have warned us against the shades of September. Remember that.—*Com. Bulletin.*

—It is not expected that the present session of Congress will close before the first of July. Although the appropriation bills have all been attended to, the most important measures of the session have yet to be acted upon. Among these are the Internal Revenue, Tariff, and Bank bills.

They awarded the highest prize, at a recent baby show in Cincinnati, to a "pickaninny"—a colored infant.—*Boston Post.*

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 **ENDICOTT STREET**, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies this have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Pimples on the Forehead, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, nervous irritability, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contracting matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases.—Dr. Dow has also for sale the French Contraceptive, or Female Complaint Cure. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, Falling Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new and rational principles, and special guarantee in a few days to so invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted feel some sensible relief in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases, and Female Complaints, acknowledged no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864.—eodly.

Musical Notice.

"WARREN K. DAVY, of Dover, Teacher of Piano Forte, Organ, Thorough Bass and Singing.

MOULTON & BLAISDELL.

FERTILIZERS,

Trees, Vines, Shrubs, Vegetable and Flower Seeds.

J. F. SHORES, Jr.,

No. 1 Congress Block,

WOULD CALL THE ATTENTION OF

FARMERS AND GARDENERS

TO THE

FERTILIZERS

WHICH HE HAS FOR SALE, VIZ:

LODI CO.'S

IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack nostrums, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.50 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Thomas Wentworth & Co., Dover.

W. N. Howard, East Epping.
C. W. Greenleaf & Co., North Berwick.
G. W. Snow & Co., " "

Lloyd's Nitrogenized

Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	11.5
Soluble " " (CaO P O 5)	11.5
Organic matter	31.
Sulphate of lime	26.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.2

The organic matter yields 3.5 p. c. of Ammonia. The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The sample for analysis, I selected from the entire stock which was prepared for the market.

W. R. HILL.

BROWN UNIVERSITY, Jan. 23, 1864.

This lime is sold in barrels containing about 275 lbs. Price Three Cents per lb., by the barrel, or Twenty-Five Pounds for One Dollar.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at the Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can send his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for the diseases he offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubos, Buboes, Ulcerated Sore Throat, Sore Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly safe and speedy in the cure of his Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down hearts, now rejuice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of the subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the benefit of those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid, 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany the package, for the guidance of patients. Sent on receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letter to

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, APRIL 14, 1864.

THE REBELLION.

New Orleans advices report that Federal cavalry, 4000 strong, occupied Eagle Pass, after a slight resistance from the rebels. Eagle Pass is 400 miles above Brownsville, and has been a great rebel highway for running cotton and other articles into Mexico. It was determined our troops should permanently occupy the place. Our forces have re-occupied Corpus Christi, taking 800 prisoners. 800 California cavalry have arrived overland and joined our forces.

Cairo advices report that soon after our troops left Alexandria a large rebel force, under Dick Snyder, attacked our fortifications, but were vigorously opposed by our troops, who fought bravely several hours with considerable loss. The rebel loss was also considerable.

Forrest with a large force was reported marching on Paducah again on Monday. Reinforcements have been sent from Cairo to meet him.

The Philadelphia Enquirer has a dispatch, dated Nashville, Tenn., April 11, which says it is certain at last that East Tennessee has been abandoned by the rebel troops, and that they have destroyed all the bridges in their hasty retreat. Seven of Longstreet's Generals have been court martialed in consequence of the failure which has attended the rebel campaign in East Tennessee. Johnston's army is receiving heavy reinforcements. Part of Beauregard's army and new troops have arrived at Dalton. Polk's army is on the way to Dalton. The bulk of Johnston's army is at Tunnel Hill.

An officer just arrived at St. Louis from Chattanooga says an advance was ordered to take place on the 8th.

The Louisville Journal regards the disbanding of three Kentucky regiments in that State by the rebel Gen. Forrest as part of a scheme to obtain possession of the State.

The steamer Maple Leaf, while returning to Jacksonville from Palatka, Fla., on the 1st, struck a torpedo, which exploded, tearing off the steamer's entire bows, the vessel sinking in ten minutes. Two firemen and two deck hands were drowned. The passengers, sixty in number, were safely landed. The baggage was all lost, including that of two or three regiments. A reconnoissance on the Jacksonville road on the 2d, resulted in finding the rebel pickets five miles from Jacksonville. A skirmish ensued when the rebels retreated. Gen. J. P. Hatch has been temporarily appointed to the chief command in Florida, in place of Gen. Seymour. The rebel army now in Florida is estimated at from 15,000 to 20,000 men.

It is reported that Lee ordered all his officers to send their baggage to Richmond before the 9th inst. After that date the road was to be used in bringing up reinforcements. Stringent orders have been issued in regard to citizens allowed to remain with the Army of the Potomac.

— The Virginia Convention for amending the State Constitution adjourned on Tuesday, having adopted the resolutions abolishing slavery in the State.

— Gold was reported at 178 7-8 in New York on Wednesday, at quarter past two P. M. At the close of the Board it was 175 1-8; U. S. Sixes, 116.

— The citizens of Lowell have made arrangements for the celebration of the three hundredth anniversary of Shakespeare's birthday.

— As agent for the Russian Government has been in Connecticut engaging men to work in Russian manufacturing establishments.

— Messrs. Hale and Sumner have opposed the extension of the Charlestown Navy Yard, and Messrs. Fessenden and Conness have advocated it. The question is now pending.

— The number of small birds destroyed by the cold weather of the winter in France is estimated at several millions, and years must elapse before the places of these useful friends of agriculture can be supplied.

— The bills of mortality in the cities have been largely increased during the prevalence of the easterly storm. Lung complaints and consumption have swelled the mortality.

— Rats set some matches on fire under a counter in a store in Portland on Monday evening, and the store was saved from destruction only by the timely discovery of the fire.

— At last accounts the French were marching on Matamoras, and Cortinas had by proclamation ordered all the troops to concentrate on the Rio Grande, below that place, to resist them. Three French frigates were off the bar, preparing to cross.

— The owners of the steamer City of New York, wrecked in Queenstown harbor, lose £25,000 sterling, and the underwriters £70,000. Value of cargo, not ascertained. It was mainly cotton and bacon. Part of it may be saved, but badly damaged.

BOSTON CORRESPONDENCE.

[From our Regular Correspondent.]

BOSTON, April 11, 1864.

Editors Chronicle:—The high price of butter is a prominent topic of conversation in this vicinity at the present time. Many people are trying how little of the article they can get along with, and many overzealous gentlemen agree not to eat butter until it falls below 30 cents per pound. In all probability these same gentlemen indulge in their favorite cigars and "bitters", much more to the depletion of their purses than the high price of butter occasions—which, after all, is no higher in proportion to old prices than most other articles of food. If we are to economize on anything, it should be on imported articles, if possible, and not on domestic manufactures.

William D. Ticknor, Esq., of the publishing house of Ticknor & Fields, died suddenly last Saturday, in Philadelphia. He was a native of Lebanon, N. H. Mr. Jas. T. Fields, junior partner, is a Portsmouth boy, to whom your High School is indebted for the gift of a library. The commercial standing of this firm was unsurpassed, and by their integrity, skill and merits, they have added to the good name of representatives from the Granite State.

Lt. Col. Chas. G. Halpine, late of Gen. Dix's staff, has resigned on account of weak eyes. Col. Halpine was at one time one of the editors of the "Carpet Bag" newspaper, published in this city, B. P. Shillaber (Mrs. Partington) being principal editor. Some of your readers will recollect the heading—the eccentric old lady kitting, with "like" paying his attention to the sugar bowl.—Col. H. was Asst. Adjt. General to Maj. Gen. Hunter, when the latter was in command of the Department of the South,—where his courteous and officer-like conduct won him many friends.

The 9th, 18, 22d, and 32d Mass. regiments have been united, forming the 2d Brigade, 1st Division, 8th Corps, of the Army of the Potomac. There are N. H. men in each regiment.

The Grand Division S. of T. of Mass., have their quarterly meeting at Union Hall in this city on Wednesday April 20.

The destruction by fire of Free Masons' Hall last Tuesday night was a great loss to the fraternity. Their loss cannot be estimated, as many valuable portraits and relics were destroyed, that can never be replaced. The estate was purchased about four years by the Grand Lodge of Masons for $106,000, and $50,000 were expended in repairs. Since the fire they have been offered $18 per foot for the estate, which contains over 10,000 square feet, but the offer was declined, and a new building will be at once commenced, which it will take about two years to finish for occupation.

MANNING.

PRESTO CHANGE!—Only a few years ago, many papers and politicians loudly asserted that there could be no *higher law* than the U. S. Constitution, and poured out invective without measure on Senator Seward's head, for daring to say there was! But now, *presto change*—many of the same papers and same men assert as loudly that the law or constitution of every separate State is *very much higher* than that of the Union.

They could *not* be right both times. We think they were wrong both times;—and that their reasoning on both sides was very shallow.

The laws of the Nation surround and circumscribe those of the States: and the law of eternal right, of Nature and Nature's God, is absolutely Supreme, above the charters and statutes of all the nations.

U. T.

☞ The New York papers have much to say on Mr. Long's speech and the resolution for his expulsion from the House. The World terms Mr. Colfax's resolution an "electioneering trick." "As Democrats," it says, "we repudiate Mr. Long's sentiments and deplore his political folly," but as a friend of free debate it deprecates the attempt to expel him. The Herald says that Long, Harris and Wood "want to be martyrs, and to be dreadfully injured in some cause or another—no matter what—and then to go about the world exposing their sores and exciting sympathy. No importance whatever should be attached to these speeches. They are the mere morbid expressions of a mania, and the severest thing that Congress can do against them is to leave them alone." The Times thinks that Mr. Colfax's resolution is neither just nor expedient. It regards Mr. Long's bold utterance as "a thousand times more serviceable to the Union cause than it is to the rebel cause. It is just the sort of frankness in the leaders of the so-called Democratic party that is most needed, and it deserves encouragement, not punishment."

— Letters from officers of the Naval school, advocating its removal back to Annapolis, have been read in the Senate.

— Gen. Hinks, who has succeeded Gen. Marston as commandant at the depot for prisoners at Point Lookout, Md., is perfecting the organization of a regiment of "reconstructed" rebels.

NEW HAMPSHIRE ITEMS.

— The N. H. Methodist Conference is to be held at Dover next year.

— The Union states that there was a foot of snow on the ground in Manchester on Tuesday.

— The strike of sewing-women of Concord, last week was speedily arrested and a compromise effected between themselves and their employers. They are now all at work at increased wages.

— At one "sap yard," in Wolfborough 40 barrels of sap were caught on the first four days of last week. So says the News, which adds that the sugar business promises well in that vicinity.

— Wolfborough, at a town meeting on Monday of last week, voted to exempt from taxation the capital stock of the Wolfborough Mills Company to an amount not exceeding $75,000.

— Alonzo T. Sanborn of Meredith, a lad of fifteen years, in the spring of 1861, purchased a sheep, and its lamb of the former year, for four dollars. He has now a flock of eighteen sheep, worth at least $200, and $84 in cash as the results of that purchase, and some subsequent traffic, on the capital invested and its profits. He has deducted the value of his own time, paid his travelling expenses, and allowed $4 a year for keeping each sheep, and has realized a net gain of $280 in three years on an investment of $4. The gross income of one he now owns was $19 last season.

— The Manchester Union states that William Stark, Esq., of that city, has recently purchased what is called the Bartlett place, adjoining his farm in Piscataquog. This, in addition to a part of the Harvill farm, which he has also recently purchased, makes Mr. Stark's farm one of the most valuable in the State. Mr. Stark is constantly receiving additions to his splendid collection of fancy stock, which is probably the largest and most select in America. He has just imported a beautiful trio of very large and splendid black swans. This is the second importation of these rare fowls which has ever been made into this country.

— The following is the official statement of the votes for Merrimac county, as officially declared by the court on Monday:

For Register of Deeds.—Mitchel Gilmore, had 1 vote; Joseph H. Mace, (Dem.,) had 4640; William A. Clough, (Rep.,) had 4709, and is elected by 68 majority.

For County Treasurer.—Moses P. Thompson, (Dem.,) had 4654 votes; Edward D. Sanderson, (Rep.,) had 4702, and is elected by 48 majority.

For County Commissioner.—John Smith, had 1 vote; Richard F. Morgan, had 14; Isaac Story, (Dem.,) had 4647; James Fellows, (Rep.,) had 4669, and is elected by 7 majority.

— A Concord correspondent of the Boston Journal states that on Thursday last, a party of about two hundred women marched in procession to the establishment of a Mr. Bond in Franklin, (opened a few week since as a restaurant but soon degenerating into a house of bad repute,) and informed him that he must shut up shop and leave the town. He was considerably nonplussed and stammered out some lame apologies, promising to obey hereafter the laws of the State. The ladies afterward gave him considerable sound advice, promised him a few "days of grace" in which to settle up his affairs, and then returned to their homes. The "patrol guard" consisted of the most respectable ladies of Franklin.

— Bishop Janes, of New York, presided at the New Hampshire Annual Conference of the Methodist Church, which has been held at Lebanon, commencing on Wednesday, the 6th inst. The Conference was very fully attended, and the meetings were harmonious. The amount raised for the relief of destitute superannuated preachers and widows and orphans was unusually large—$1213 being raised for this purpose. Rev. Justin Spaulding, well known in this vicinity, continues in a feeble and debonited state. The sum of $325 was appropriated for his relief. A report on the Christian Communion was presented, upon which Bishop Janes made some very interesting remarks, showing what was being done for the moral improvement of the soldiers in the army.

SIX MILES A MINUTE.—By a new method of locomotion, a speed of six miles a minute is obtained, and capitalists are besieging the British Government to allow them to construct lines for passengers and traffic through all parts of London. The London Examiner exclaims on this: "Happy, although unconscious posterity! We envy you—we must crawl through life at the snail's pace of only a mile in two minutes, oftentimes less, while for you awaits the extatic bliss of being shot through space at the rate of 360 miles per hour."

STEAMERS CAPTURED.—Information has been received at the Navy Department from Commander S. C. Rowan, commanding the South Atlantic Blockading Squadron, of the capture by the steamer Columbine of the steamer Sumter, and the capture of the steamer Hattie Brook by the steamer Sumter, armed and manned by a detachment of officers and men from the Pawnee, under the command of Acting Master J. C. Champion of the Pawnee, up the St. Johns River, Florida. The Hattie Brook is a valuable prize. She is fitted up as a fine passenger boat, has a fine saloon and has been engaged in transporting stores down the St. Johns River.

— The New Haven Register thinks that Rhode Island elections are about as difficult to understand as the Schleswig-Holstein matter.

Nitrous Oxyd, or Laughing Gas.

To the Editor of the Boston Journal:—

SIR:—This excellent anæsthetic, which, during the past year has relieved so many thousands of the pain caused in the usual manner of extracting teeth, has of late suffered somewhat in its reputation from the fact that there have been reports of fatal results having followed its use, and as these reports are depriving the public, to a great extent, of the benefit to be derived from it, I wish to show, through your columns, that there are no grounds for fear, and prove that Nitrous Oxyd in the hands of a competent person is *perfectly harmless*.

There have been three cases of death reported from the gas. I will give them as they occurred. The first was that of Mr. Seers, of New York,—He was a confirmed consumptive, one lung being entirely consumed, and the other nearly so, making it highly improper to administer the gas, or any other anæsthetic. The Medical and Surgical Reporter says of him:—

"From the pathological condition of the lungs of the patient, we have little doubt that the same result would have followed the extraction of a tooth, if no anæsthetic had been taken.—When a person has so slight a hold on life as this man had, so insignificant a circumstance as the extraction of a tooth will often so derange the nervous and circulatory systems as to occasion the congestion which caused the death."

The second case was a Miss Bell, of Swanton, Vermont, "who took only a small dose of the gas for sport on Friday afternoon; *was not put into an anæsthetic state*; recovered entirely from its effects, as well as any one ever does; attended a party that evening, full of life and frolic as ever (having been quite gay all winter); was not taken sick until the next day, and did not die until the following Wednesday. The people of Swanton do not generally think the gas was the cause of her death."

I am indebted to Dr. Colton for the above facts, also the following in reference to the third case, which was a lady in Allentown, Pa., said to have died from the effects of the "gas":—

ALLENTOWN, Feb. 27, 1864.

DR. COLTON:—

Dear Sir:—Your letter desiring information is received. As answer is most cheerfully given—Chloroform was the agent that produced death in this case, which happened some time back in the office of one of our most respectable dentists. It was administered, I believe, carefully, by two physicians of good standing in this place, and the quantity given not large, and the patient apparently healthy, which goes far to show that it is an agent that kills at times, and quite unforeseen and unexpected. Of late I have entirely refused to give it in the extraction of teeth.

Yours respectfully, C. L. MARTIN."

These reports would very naturally cause those who do not know the properties of Nitrous Oxyd to condemn it at once, but to one who knows its composition and its effects they would not have the least weight. I have used it since last September, and from what I have seen of its operation I was perfectly satisfied that these reports would prove false, or that if the "gas" was the cause of these deaths, it was either impure, or the person who administered it was either inexperienced or did not use sufficient judgment or caution to find out the state of the patient's health.

If the gas was impure, the fault was not in the gas, but in the experience of the man who made it, or his want of suitable apparatus to make it pure.

Scores of dentists have adopted its use without properly informing themselves in regard to the proper method of manufacturing and administering it, and this alone, in connection with the fact that no injury has been caused by it, when used by hands, is satisfactory evidence that it is a perfectly safe article in the hands of one who has taken the proper course to get thoroughly instructed in its use. And no one ought ever to attempt to use an anæsthetic of any kind without a thorough knowledge of it.

Many a man has given the Nitrous Oxyd who did not know whether his patient was in the anæsthetic state, or whether, having allowed the gas to escape, he had produced Asphyxia.

The properties of Nitrous Oxyd, when pure, are the same as the atmosphere we breathe, except that it contains about 1½ per cent. *more* Oxygen. It is the Oxygen of the atmosphere that supports life. A man can live four or five times longer in a given quantity of Oxygen than in the same amount of atmospheric air. Remove the Oxygen from the atmosphere and nothing remains but Nitrogen and the impurities of the air, which will not sustain life a moment, and just in the proportion that the proper proportion of Oxygen is removed from the atmosphere, just in the same proportion will those inhaling it find themselves suffering from general debility and disease.

People go into the country to find good, bracing air, to regain their health. Would people country air more bracing than that of the city? Simply this—it contains more of the life-giving principle, Oxygen.

Now, then, if these facts are true, (which all must admit,) it must be acknowledged by all that Nitrous Oxyd in pure state, properly administered, is, to say the least, perfectly harmless, if not as I believe in many cases very beneficial.

I have given ether for years and never knew of any beneficial effect produced by it, but I have known several cases of decidedly beneficial results to the system from the effects of the Nitrous Oxyd.

I consider it by far the safest anæsthetic in use and am satisfied that it must supersede ether and chloroform, if not in minor operations, in major surgical operations, and all who are thoroughly acquainted with its operation, with whom I have conversed (and they are not few) are of the same opinion.

After reading the above, if any have a lingering doubt I will be happy to refer such to some of our first dentists who are continually using it, or they can witness its effects at my office, and satisfy themselves that all is true that has been said in its favor. J. A. SALMON,

29 Boylston street.

The above facts I can confidently endorse; and my experience with the Gas has been so satisfactory that I have not been obliged to resort to ether more than twice during the past five months, in which time I have extracted between four and five thousand teeth.

American and Foreign Patents.

H. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1857.)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that more SUCCESSFUL business, at THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. H. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. H. H. EDDY.

Coughs and Colds.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily when taken in the *early* stages of the disease, recourse should at once be had to *"Brown's Bronchial Troches,"* or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 80 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER (p20)

Local.

☞ We learn that Mr. Sherburne Somerby, the veteran livery stable keeper, will return to his old premises about July 1st, on the expiration of his lease of the same. And that Messrs. Ferguson & Burley have purchased the stable of Mr. Andrew H. Jones, on Vaughan street, and will remove thither at that time.

☞ Mr. Thomas B. Reed, of California, formerly of Portland, Me., has been appointed Acting Assistant Paymaster, U. S. N., and ordered to report at the Portsmouth Navy Yard for examination.

☞ Brig. Gen. Gilman Marston, recently in command at Point Lookout, was in town Tuesday and Wednesday.

NITROUS OXYD GAS IN DENTISTRY.—The administering of Nitrous Oxyd Gas in the extraction of teeth is practiced successfully by Dr. E. B. Goodall, at 60 Congress street. Attention is directed to a notice concerning it in another column.

NEW ENGLAND VOTES.—Perley, in a late Waif from Washington, states that Messrs. Sweat, of Maine, and Marcy, of New Hampshire, voted in the negative on the resolution to *expel* Harris for treasonable talk. And that on the resolution of *censure*, neither of them voted at all.

THE NATIONAL ALMANAC FOR 1864.—No book in the shape of a manual is of such value and interest to the American public as the National Almanac. It is a programme of our resources as a people, a record of our cotemporary history, an epitome of our economical condition, a catalogue raisonnee of our official agents from, the President of the Republic to the Clerks of Departments and the Chairmen of Congressional Committees. It reports, by figures and facts, the affairs of the nation and the States; it is a history of 1863 and a prophecy of 1865; those who have fought, emigrated, donated, organized, represented, and died, in any manner for or through public spheres, are here recorded; finance, agriculture, education, war politics, literature, science—all the essential interests of society are here "set in a note book." The publisher, Geo. W. Childs of Philadelphia, has spared no expense, time or labor to make the work complete from its astronomical data to its official list. It is indispensable as a reference, invaluable as a record. Received by Mr. Shores and Mr. Foster.

— A Fremont paper, called the New Era, has been started in Washington.

— A valuable lead mine has been discovered and opened near Gaspe, N. S.

— Commodore Ringgold has been ordered to special duty at New York.

— "Man wants but little here below, nor wants that little Long of Ohio,"—remarks the Boston Advertiser.

— Jacob Little, the veteran stock broker, was taken suddenly ill at New York stock board on Monday. He is failing, evidently.

— The first shad taken in the Connecticut was caught on Friday at Weathersfield, and sold for $2.

— Eleven tons of cotton raised in Utah have been received in San Francisco, and more is to follow.

— It is a great maple sugar season in Vermont. Five to eight tons are shipped every week from Brattleboro'.

— They now make artificial limbs of vulcanized india rubber—hollow, with all the machinery inside out of harm's way.

— A very large fleet of coasting and fishing vessels have put into New London harbor to ride out the storm. The fishermen along the coast have met with reverses owing to the late heavy weather.

— Every journalist in London has now to acquire a license to write in public journals before he can carry on his vocation. Writers for the American press are not troubled by any lack of license.

— An able physiologist has written that one-fifth of the human body is composed of phosphorus. Punch remarks that this most likely accounts for the number of *matches made.*

— Some little girls have formed an association in Portland, under the name of "The Little Acorns," for the purpose of getting up a children's fair on the 4th of July next.

— The Providence Bulletin says that the present long continued easterly storm has changed the configuration of the Charlestown and South Kingstown shores to a greater extent than has been before known since the great September gale of 1815.

— Gen. Burnside was a passenger on the mail train from New York to New Haven Saturday night. While enjoying his Havana in the baggage car, the conductor introduced the General to a brakeman named William Hickey, a former member of the 27th Connecticut, and the man of rank and the private sat and smoked, fought the battle of Fredericksburg over again, and appeared to enjoy their acquaintance excellently well.

He who thinks he can do without others is greatly mistaken; and he who thinks others cannot do without him is still more grievously in error.

—A "Brown Society," which was established nearly 100 years ago, exists in Glasgow. Only persons or relatives bearing the name of Brown are admitted. Each member contributes a certain sum for the purpose of raising a fund to be applied to the relief of indigent persons of the name of Brown and others connected with persons of that name.

THE SOLDIER'S TRUE FRIEND.—For over forty years, Doctor Holloway has been supplying all the armies of Europe with his Pills and Ointment, they having proved themselves the only medicines able to cure the worst cases of dysentery, scurvy, wounds, sores and bruises. Every knapsack should contain them. Only 30 cents per box or pot.

TAKE CARE OF YOUR SKIN—For it is as important an organ as your lungs. Keep the pores open by occasionally anointing with Grace's Celebrated Salve, which by gently stimulating the sub-cutaneous glands prevents all foul humor from accumulating and choking up the minute passages. The Salve removes tan and freckles and produces a clear complexion. It also cures flesh wounds, burns, scalds, boils, scaldhead, ringworms, and reduces swelling of the glands of the neck. It is THE home remedy available for all.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

IMPORTANT.—The fact cannot be too often stated, or too strongly urged upon the public, that the majority of the Saleratus in market is not only very unhealthy, but actually a clear poison, causing teeth to decay, and bringing on disease generally. Thanks to science, skill, perseverance and energy, that the man still lives who invented Herrick Allen's Medal Saleratus, which has and is still doing such great wonders in the culinary department. We say that one trial will convince the most skeptical that there is none other to be compared with it. Most of our merchants have it for sale. Chief depot at 112 Liberty Street, New York.

MARRIAGES.

In Salisbury, April 4, Mr. THOS. FLANDERS to Mrs. BETSEY J. FOWLER, of Seabrook.

In Farmington, April 2, JOS. B. RICHARDS, of 4th R H V, to Miss MARY E. HANSON, of Somersworth.

Morning Chronicle.

Please Look at This.

RYE, N.H., Feb. 26, 1866. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—so it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some two or three bottles of Dr. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and, without an many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with the stress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of those complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHENEY, *Lee, May 21, 1861*

DR. SWEET: Permit me to testify to the benefit you have rendered me by your medicines. I was afflicted with scrofulous humor, and that previous to your visiting our home in the spring of 1858, she had been confined for a number of weeks, and had her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and enjoy her strength. I consider your medicines one of the best that can be found for the disease above named." DEARL CHENEY

☞ Any one returning the remainder of a bottle or box of Dr. Sweet's medicines shall have the price of the same refunded, agreeable to our bargain with the agent, according to directions of DR. S. SWEET, No. 2 High street, Portsmouth, N. H., promptly attended to. may27

SPEER'S SAMBUCI WINE

PURE, AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physicians' Use.

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL.

Every family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial virtues as a generic, Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the bladder and kidneys, and Urinary Organs, very needful in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is made from the Juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as a medicinal property, and presented to the public in Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no admixture of spirits, but is a generic, Stimulant, Tonic, its rich peculiar flavor and nutritive properties imparting a healthy tone to the digestive organs, and a blooming, soft and healthy complexion.

WE REFER TO

a few well known gentlemen and physicians who have tried Wine.

Gen. W. Scott, U. S. A. Dr. ... Newark, Gov. Morgan, N. Y. State Dr. Wilson, 11th St., N. Y. Dr. Parkes, N.Y. City Dr. Dougherty, Newark Dr. J. R. Chilton, ... Dr. Parvin, Phila. Drs. Darcy and Nicholl, Newark, N. J.

☞ None genuine unless the signature of "A. SPEER, Passaic, N. J." is on over the cork of each bottle.

Make One Trial or this Wine.

For Sale by W. H. HARRISON, Portsmouth.

GOLDEN SHEAF WHISKEY.

THE DISTINCTIVE FEATURES

—OF—

GOLDEN SHEAF WHISKEY

—ARE—

Pure Ingredients.

Careful Distillation.

Delicate Flavor,

Uniform Character.

IT CONTAINS IN A LOW DISTILLED FORM THE DISTILLED JUICES

—OF—

WHEAT, RYE AND CORN,

free from all deleterious substances.

Possessing these qualities, it has become a standard article, and is highly recommended by Chemists, Physicians and Consumers.

Golden Sheaf Whiskey

is the refined distillation of the most carefully selected WHEAT, RYE and CORN, and combines NUTRITIVE, MEDICINAL AND RESUSCITATIVE properties which render it deservedly popular as **A Strictly Pure Stimulant.**

This celebrated Whiskey is put up by the subscriber in cases, containing six bottles each, and is offered to the Trade by his Travelling Agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or send their orders for any quantity required to the Subscriber, Depot for Sale,

91 Washington street, Boston.

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D.,

Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospital, and Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in the space of a week, and we cheerfully indicate the Medical Profession of the world generally, and scientific cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached and the equilibrium is restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from all printed medicines, those who cannot be cured by other physicians are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heretofore as ever succeeding generations.

Rapidity of Cure.

Some say "Your cures are too rapid," while others doubt their permanency, with those the diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down comes the balance, and then follows the effects of disease. What is required, is to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from a VITIATED STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis,

Hemiplegia, Paralysis, Paraplegia, Partially Applied.

It is so universally admitted that Constitution Life Syrup is the most reliable means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Heartburn, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired) filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, The Dolorous Crisis.

If there is any disease in which the Constitution Life syrup is a specific, it is Rheumatism and its kindred affections. The most intense pains are almost instantly allayed—excruciating swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thought, Epilepsy, Loss of Memory, Sleeplessness, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women who have spent their pounds in vain, we say—spring—directing their footsteps to a Hope which fails more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Foul Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the effects of Mercury, removing the foul breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and strengthens the Teeth.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much annoy the sensitive nervous and both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either at the Face, Neck or Female Breast and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome ulcers, which leave behind them so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Diseases of the Glands, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All sexual diseases, suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and uterus, Leucorrhœa, Menstrual Suppression, Inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The most aggravated cases of Female Weakness, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly obstinate, and nothing but time will succeed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and ovarian or other glands of the Female, Constitution Life Syrup will succeed in removing to the kind of operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Palpitation, Disease of Valves—producing a grating or filing sounds, Dropsy of the Heart (one and all the affections of this important organ) Constitution Life Syrup, or acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Decrepit Constitutions, Suffering from Indigestion in Infancy, Pain in the Side and Breast, Loss of Appetite, Want of Sleep, Unhealthy, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance, Cold Feet, Cold Hands, Cold Sweats, all require the use of the CONSTITUTION LIFE SYRUP.

For all forms of **Secretive Diseases,** either of the Kidneys, Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MILK PATCHES upon the Tongue, depending upon the sympathetic action of the Liver, are very unpleasant to the young mother and nurse. A few bottles of Constitution Life Syrup will correct the cause and prevent the deposit which is directly under the skin.

In Disease of the Liver, it has proved to be unequaled, Hemorrhoids, Indigestion, Costiveness, Acute and or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, which are all relieved by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivaled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from disease for which they are not a judge to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenances, straighten their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women, and if the constitution is neglected in youth, disease and early death are the results. Do not delay the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most efficacious medicine ever discovered, purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, preventing pain and disease, and leaving a good color in the food—Those who have used it think it indispensable. It is highly useful both before and after childbirth, as it prevents diseases attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Gonorrhœa, Gleet, Whites, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is rapidly recommended by those cured of Stone in the Urinary Passages, and in cases where all the old nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its channels, the use only of medicine moving from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an aid to the use of the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. It effects a speedy healing, healing our diseases; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write to us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by Express to all address on receipt of price. Sold by all druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors, No. 59 Liberty street, New York.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all secret cases of Sexual Debility, Loss of Memory, Universal and Insuitable, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Nervous Affects, Suppression of the Face, Pale Countenance, Insanity, Consumption, and all the direful symptoms caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ Don't be trifled with by their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. W. R. MERWIN & CO., Sole Proprietors, No. 59 Liberty street, New York.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable Kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent physicians, and has proved to be so much announced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses restore the pale cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses restore the pale cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The young of either sex, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors, No. 59 Liberty street, New York.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, Irregularities, Pain and Sickness, Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Hemorrhoids, Palpitation, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it all the effects that spring from it.

Composed of simple vegetable extracts, they contain no deleterious ingredients to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly restored, they leave to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly freely and delicately answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5. Sent by mail, postage free, on receipt of price. Sold by all respectable druggists.

G. C. GOODWIN & CO., 38 Hanover st., Boston, Wholesale Agents. F15—lydaw

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and thicker than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper tinware for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of the kindling wood every morning.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK,

Also on hand an assortment of the different sizes —of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING FURNACES.

The subscriber, being the sole Agent in this vicinity for the manufacturers of the above valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air ever comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to convert the escaped heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive machines have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which imparts them as they pass off upon the dome, thus saving at least 75 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be pronounced economical, some of the gases, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and pipe holes for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Masons,
Henry F. Wendell,	John Shaw, and others.

Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity and throughout the State. ☞ Liberal terms for yearly advertising.

The Chronicle.

The records of commercial life show many instances of sharp practice, but nothing which better deserved to stand at the head of the list than the following transaction which took place in our city last week. One of our merchants received a telegram from his Boston correspondent stating that sugar had gone up two cents, whereupon, without saying a word to his clerks or any one else, he hurried up to the North-end, to a store which had a large lot on hand, and purchased the whole stock at twenty-one cents. He then returned to his own place in great glee, treated his clerks all round, and informed them of his shrewd speculation. What was his consternation to learn that during his absence one of his neighbors, as sharp as himself, had called in and taken all his own stock at twenty cents. A careful estimate showed him that *somebody* had cleared about fifty dollars by the operation.—*Newburyport Herald.*

There is a wonderful Hindoo chess player at present in London. He plays three games blind-folded and wins. At the same time he plays a game of cards, and wins. During the game a bell is touched every one or two seconds, and he gives the number of times it has been touched. A man stands behind and throws little pebbles one by one against his back; these, too, he counts; and after the games are told he recites a poem in perfect rhyme which he was composed during the sitting. He was born on the 1st of April.

If in Sparta a young man purchased an estate upon advantageous terms, or made what is termed "a good bargain," he was rendered accountable to the State, and fined for being unjust, and buying a thing under its value. Our practice is the reverse—the young man who can make the best bargain is the smartest.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
—AND—
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies are healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—insomuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market containing Silver, Lime, Lead, Litharge, Lunar, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied, restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single hair. It contains no colouring matter whatever, and is not the least injurious in its application.
2. It will certainly RESTORE the hair from a gray to a beautiful Brown, Auburn, or whatever might have been its original color.
3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate itching and eruption of the scalp, and being highly perfumed, affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively no humbug that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.
Messrs. Tebbetts, Boyden & Co.—Gents: The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was as almost white and now it is nearly black. My daughter has also tried it on her hair, which was at falling off on account of a severe attack of diphtheria; it has stopped the falling and by application. My wife has also been trying it for sickness on top of her head, and finds that a new growth of hair is already starting. We have only used one bottle, and I think one more will fix my heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.
Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but is the most beautiful dressing that can be procured. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when about two months ago I bought a bottle of your Regenerator, and I feel exceedingly astonished all my friends to see my hair bought back to its natural color, which is almost complete black. It is the only thing, unless it is a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT.

Shrubs,
Vegetable and Flower Seeds.
—AT—
J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
—
LODI CO.'S
IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is putin and poudretted, the rapid growth and consequently the early opportunity of working weeks earlier—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.50 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " " (ca O P O 5)	11.5
Organic matter	8.
Sulphate of lime	26.
Alkaline salts	3.
Insoluble matters	9.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia.

The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, the Insoluble Phosphates are worth 4 times and Ammonia 8 times as much as Soluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The analysis for analysis, I selected from the entire stock which was prepared for the market.

N. P. HILL.
BROWN UNIVERSITY, Jan. 28, 1864.

This lime is sold in barrels containing about 275 lbs. Price Three Cents per lb., by the barrel, or Twenty-Five Pounds for One Dollar.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to offer forthwith cures such as other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the World,) of obtaining the safest as well as the latest remedies for the afflicted, and offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Blotches, Pimples, Sore Throat, Sore Nose, Nodes, Bones, Cutaneous Eruptions, Boils, Ulcers, Abscesses, and all other impurities of the system, he prefers himself under the control of Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of life, are hereby notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, low spirits in all that makes life desirable and manhappy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.
N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, APRIL 15, 1864.

THE REBELLION.

The rebel Gen. Buford on Wednesday demanded the surrender of Fort Halleck, at Columbus Ky., giving five hours for the removal of the women and children. In the meantime, two steamers arrived from below with 3000 veterans en route for home on a furlough, and a battery, which were landed, and which would doubtless materially change the calculations of the rebels. Fort Pillow has also been attacked, and at last accounts the garrison were making a vigorous defence.

Reinforcements have been sent to Paducah and Columbus, Ky., and the probabilities of an attack are greatly lessened.

It is pretty well ascertained that the French government is quietly conniving at the efforts of the rebel agents to have ironclad war vessels built in France for the rebel service. Two of these vessels are now ready for delivery.

☞ The Boston Advertiser's Washington dispatch states that the report of the Commissary-General of Prisoners, accompanying the Secretary of War's report, which has just been published, shows that the number of rebel officers and men captured by us since the beginning of the war is one lieutenant-general, five major-generals, twenty-five brigadier-generals, 186 colonels, 146 lieutenant colonels, 244 majors, 2497 captains, 5811 lieutenants, 16,363 non-commissioned officers, 121,156 privates, and 5800 citizens. Of these we had on hand at the date of the report 29,229 officers and men, among whom were one major-general and seven brigadiers.

There have been 121,937 rebels exchanged, against 110,866 Union men returned. The exchanges of officers on both sides are computed at their exchangeable value in privates. Since the date of the above report there have been less than one thousand exchanges and very few captures on either side. The figures are consequently approximately correct. No statement has been furnished to our government of the number of prisoners held by the rebels.

☞ The ship Elvira, of Boston, owned by Messrs. Wm. F. Weld & Co., from Calcutta with a valuable cargo, was sunk in a hurricane in the Bay of Bengal, Jan. 20, and of her crew of 29 men, all told, only the second and third mates and one seaman were saved. These were picked up by a French barque, while floating on the top of a deck house which had been detached from the vessel when she went down.

☞ There was great excitement in the gold market in New York on Thursday.—It opened at 181, but soon rapidly advanced, and at 11 o'clock it was quoted at 189 It is reported that 187 was bid for $100,000. It subsequently declined, and at 2:30 it was quoted at 175.

DOMESTIC MANUFACTURES have been in great demand, especially woolen fabrics. It is not perhaps generally known that as good cloth is now made in America as in Europe. It has been supposed that the colors of foreign woolen goods were more permanent than those dyed in America, and many merchants and others entertain such opinions. They should be abandoned at once; because such notions are erroneous and injurious. The same substances and processes that are employed in Europe are employed in America by skilful European dyers. Some persons also imagine that the water and the air of Europe are more favorable for dyeing good colors; this is also an erroneous notion, as there is no difference in the character of the water and air in the two sections of the globe.—*Scientific America.*

CURRANTS.—Dried currants of commerce, as they are miscalled, are in reality a grape, and free from stones or pits; they come from the Isthmus of Corinth and several places in the Indian Archipelago. A small Spanish currant is sometimes sold in their stead. It is the island of Zante which furnishes the largest amount of these currants, and their cultivation is materially lessening, as the jealousy of the Ottomans does not allow large vessels to enter the gulf for their purchase. These currants grow on vines, like grapes; the leaves are somewhat the same figure, and the grapes similar; they are gathered in August, and dried on the ground; when kegged, they are trodden down closely with the feet. Zante island produces enough to load five or six large vessels; Cephalonia, three or four; and other islands, one.

WHO IS OLD?—A wise man will never rust out. As long as he can move and breathe he will do something for himself, his neighbor, or for posterity. Almost to the last hour of his life, Wellington was at work. So were Newton, Bacon, Milton, and Franklin. The vigor of their lives never decayed. No rust marred their spirits. It is a foolish idea to suppose that we must lie down and die because we are old. Who is old? Not the man of energy; not the day laborer in Science, Art or Benevolence; but he only who suffers his energies to waste away and the springs of life to become motionless; on whose hands the hours drag heavily; to whom all things wear the garb of gloom.

A countryman being a witness in a court of justice, was asked by the council if he was born in wedlock. "No sir," answerd the man; "I was born in Lincolnshire.

NEW HAMPSHIRE ITEMS.

—— The cavalry regiment has 600 men.

—— Manchester pays $150 bounty to its re-enlisted Veterans.

—— The 4th regiment of re-enlisted veterans, Col. Bell, left Concord for Annapolis, Md., on Thursday forenoon.

—— Gov. Gilmore has returned from Washington. The Executive Council convened on Thursday morning.

—— The Concord Independent learns that Brig. Gen. Marston has been selected by Gen. Grant for a division commander, and will soon enter upon his new command at Yorktown.

—— Rev. Jazaniah Crosby, D. D., of Charlestown, has been settled over the church in that place for fifty-three years. He is probably the oldest settled minister in this State.

—— Moses A. Young, of Upper Gilmanton, made, during the last week in March, 330 pounds of maple sugar, which he sold for 18 cents per pound. This was a good week's work. He will probably make half a ton during the season.

—— The Manchester Mirror, in speaking of the recent storm, says that on Tuesday morning the snow stood in the fields eleven inches deep, and on the Uncanoonuck mountains, sixteen inches. Remarkable for the middle of April.

—— The 2d and 12th regiments, which have been at Point Lookout, have been relieved by colored troops. It is supposed that the 5th will soon be relieved. The 12th embarked for Yorktown on Saturday, 9th,—the 2d left two or three days before for the same destination. Maj. Langley is in command of the 12th, Col. Potter being on detached service, as Acting Assistant Provost Marshal of Ohio.

—— Miss Ellen Crandall, a young girl, at work at the Stark Corporation, Manchester, on Tuesday evening, was caught between the elevator platform (which with its load weighed 1500 pounds,) and the railing around the opening, over which she was leaning. She was rescued as soon as possible, and was found to have been badly bruised, and was delirious for a time, but is thought she will recover. Her escape from death is remarkable.

THE REBEL FUNDING BILL.—The Richmond Examiner discourses upon the enactment withdrawing one thousand millions of Confederate paper from circulation, and thinks if this "astonishing achievement in finance is feasible," enabling the South to continue the war indefinitely, the North will pattern by the Southern policy "in this, as it has done in other particulars, and become able to protract its aggression indefinitely." It however comforts itself with the belief that the Northern people will not stand the adoption of any such financial measure.

General Neal Dow says that the rebel managers of the Treasury Department have no idea of the amount of Confederate paper in circulation. While in Mobile he was informed as to the manner of paying off the soldiers of their army. Nominally they are allowed $15 per month, but at five cents upon a dollar this would be totally insufficient to support their families. But the mode of paying them gives an opportunity to supply the deficiency. The paymaster, with a wagon load of Confederate notes, rides along the lines, and the soldiers help themselves, obtaining just as much of the paper as they desire. So plenty is the trash through the Confederacy that the Richmond papers speak of it as they would of hay, quoting it by the bale. Eight hundred millions of this worthless issue has been practically repudiated by the laying of a tax of 100 per cent. upon a large part of it, and 33 per cent. upon the remainder, to be followed hereafter by a tax swallowing the whole. The minority of a Committee of the rebel Congress recently reported to that body that the Confederate currency had depreciated *two thousand per cent.*

☞ Down in Virginia, recently, a Maine regiment of volunteers, having in its ranks many lumbermen, was engaged in striving hard to push the rebs from a desirable stronghold. After repeated attempts, the rebels were disloged, when the log-drivers exclaimed, "the jam's broke, now give it to them, boys!" The boys knew well the significance of that remark, and the down easters whipped that day.

☞ Among the improvements inaugurated at Brownsville, Texas, is a street-sprinkler of mammoth size. The New Orleans Picayune says: "The dust of Brownsville is deep, very deep, and as lively as it is deep. If the sprinkler can lay the dust there, it will surprise us. It is currently reported that if you take up a bucket full of dust from the streets, one half of it will hop out."

— Artemas Ward was advertised to speak a piece in Salem on Thursday evening.

— The House Committee on Territories have decided to adopt a bill establishing the Territory of Montana, with the Senate amendment that all the inhabitants, black or white, can vote.

— There is an old man in North Adams, Mass., named Burdick, who was drafted at Berlin, N. Y., and served in Vermont in the war of 1812, who was never discharged from service and is now entitled from Government to fifty years' pay, which, including ratious, would amount to $5000.

☞ The Boston Post, in speaking of the excitement in Congress, about Harris and Long, who sympathise with rebellion and talk treason, uses the following mild language:—

The vote of censure upon Mr. Harris may have been due; but the motion to expel Mr. Long does not appear to us justified by his speech. His opinions may be wrong, but if they be erroneous they are capable of being refuted upon the floor of the House, and their refutation there by facts and arguments would be far more effectual and beneficial than a resort to the power of expulsion.

They not only *may* be wrong, but are so, and have been refuted.

The Post then goes on to say, what its own views are; and they are worthy of attention:

We entertain now the opinion we have always expressed, namely: that it is the *first duty* of the Administration to *prosecute the war* with all the energy in its power to the end of restoring the authority of the Constitution over every State and uniting the whole country in obedience to its legitimate Government; that it is equally the duty of the people to furnish men and money for this purpose, while the solemn obligation rests upon the Administration to honestly meet the wishes of its patriotic constituents by instituting such measures only as it believes will tend to terminate the war speedily and successfully. The doctrine of secession is a heresy which leads only to political *destruction*—the permanent separation of the States is the *annihilation* of national power and would result in *national paralysis*—the extermination of the white population of the South is an impossibility—the idea is as barbarous and abhorrent as the fact is unattainable—hence, the alternative of permanent separation or extermination *does* not *arise*. Therefore, it seems to us our plain *duty* to advocate the employment of military force until milder influences can find opportunity for sway—to hold men in power to a faithful discharge of their obligations—to denounce treachery to public trust, applaud fidelity, sustain ability, remove incompetency, and punish the wicked ambition which would sacrifice a great nation's welfare to gratify selfish purposes, by hurling from authority those who forfeit public confidence by recreancy to principles they have sworn to defend.

☞ In the U. S. House of Representatives, April 9:—

Mr. Davis, (Un. Md.) said the question was not whether the speech delivered by the gentleman from Ohio [Long] was treasonable within the law, but whether he was worthy to be a Representative of the people of the United States. He did not envy those gentlemen who had refused to expel the gentleman from Maryland [Harris] from the House, and afterward voted that he was unworthy to hold a seat here. He argued that the House had the right and had exercised it, to expel a member, not capriciously, but for something wrong which he had done. The gentleman had proclaimed himself the friend of the enemies of the United States. In violation of his solemn oath to sustain the Constitution, he said rather than sustain it to the extent of extermination of its enemies, he preferred its destruction. It was not the freedom of speech he complained of. He was brave and honorable, and he thanked them for it. It revealed an enemy unlike the gentleman from New-York (Mr. Wood) who, with similar sentiments, concealed them.—[Laughter.] He did not wish to punish him for his speeches, but for entertaining such sentiments. This was one of the cases where, with or without law, his *expulsion* was necessary. It was one of those questions where there was no right to be on more than one side. President Buchanan scandalized the American name when he said that the war was unconstitutional, and that there was no power to coerce sovereign States. Those who had taken up and echoed this sentiment, and acted upon it gave aid and comfort to the enemy. When McClellan and Fitz John Porter shall again bring the Rebels within sight of Washington; when Vallandigham shall role in Ohio, Bright in Indiana, Seymour in Connecticut, Woodward in Pennsylvania; and when the "friends" of Seymour in New-York shall make the streets run with blood, and when division shall prevail throughout the States; then those who have thus given aid and comfort to the enemy, will acknowledge their masters at the South. At every hazard of his life would he meet such antagonism.

A COURT IN MAINE.—In Sagadahoc Co., Me., April 11, the following work was done in the S. J. Court:

Phinley Sampson of Bowdoin. Indicted for being a common seller of intoxicating liquors. Pleaded guilty. Fined $100 and costs, in all $124.22.

William Lyle of Bowdoin, common seller. Pleaded guilty. Fined $100 and costs, in all $124.22.

Rufus Jaquis, of Bowdoin, common seller Pleaded guilty, and was fined $100 and costs, in all $131.

James H. Covil, of Richmond, common seller, two indictments; pleaded guilty.—One indictment laid over; on the other, fined $100 and costs.

James M. Foster, of Richmond, common seller, two indictments; pleaded guilty.—One indictment laid over; on the other, fined $100 and costs.

Seven men, all of Phipsburg, being arraigned for disturbing the peace and obstructing the regular course of the election on the day of the Annual State election in September last, pleaded *nolo contendere.*—The Court considering the circumstances of the case, and believing that justice would be done by imposing a fine, though the statute would justify a fine and imprisonment, imposed a fine of $15 on each, and each one's proportionate share of the costs.

Qailp who is disloyal sometimes, thinks a bust of Mr. Chase should be done in (shin) plaster.—*Post.*

BRIGHTON CATTLE MARKET.

WEDNESDAY, April 13.

At market 854 beef cattle, —— Stores, 5781 Sheep and lambs, and 1300 swine.

PRICES.—Beef Cattle.—Extra, $12 00 a 12 50; first quality, $11 00 a 11 50; second quality, 10 00 a 10 50; 3d quality, $9 25 a 9 75.

WORKING OXEN—$145 a 195.

MILCH COWS—$40 a 100.

HIDES—10½c. per lb.

Nitrous Oxyd, or Laughing Gas.

To the Editor of the Boston Journal:—

SIR:—This excellent anæsthetic, which, during the past year has relieved so many thousands of the pain caused in the usual manner of extracting teeth, has of late suffered somewhat in its reputation from the fact that there have been reports of fatal results having followed its use, and as these reports are depriving the public of a great extent, of the benefit to be derived from it, I wish to show, through your columns, that there are no grounds for fear, and prove that Nitrous Oxyd in the hands of a competent person is *perfectly harmless.*

There have been three cases of death reported from the gas. I will give them as they occurred. The first was that of Mr. Segre, of New York:—He was a confirmed consumptive, one lung being entirely consumed, and the other nearly so, making it highly improper to administer the gas, or any other anæsthetic. The Medical and Surgical Reporter says of him:—

"From the pathological condition of the lungs of the patient, we have little doubt that the same result would have followed the extraction of a tooth, if no anæsthetic had been taken.—When a person has so slight a hold on life as this man had, so insignificant a circumstance as the extraction of a tooth will often so derange the nervous and circulatory systems as to occasion the congestion which caused the death."

The second case was a Miss Bell, of Swanton, Vermont, "who took only a small dose of the gas for sport on Friday afternoon; *was not put into an anæsthetic state;* recovered entirely from its effects, as well as any one ever does; attended a party that evening, full of life and frolic as ever; (having been quite gay all winter;) was not taken sick until the next day, and did not die until the following Wednesday. The people of Swanton do not generally think the gas was the cause of her death."

The third case was Mr. Wm. Smith, of Swanton, Vermont, "who took only a small dose of the gas for sport on Friday afternoon; *was not put into an anæsthetic state;* recovered entirely from its effects, as well as any one ever does; attended a party that evening, full of life and frolic as ever (having been quite gay all winter;) was not taken sick until the next day, and did not die until the following Wednesday. The people of Swanton do not generally think the gas was the cause of her death."

I am indebted to Dr. Colton for the above facts, also the following in reference to the third case, which was a lady in Allentown, Pa., said to have died from the effects of the "gas":—

ALLENTOWN, Feb. 27, 1864.

DR. COLTON:—

Dear Sir—Your letter desiring information is received. An answer is most cheerfully given.—Chloroform was the agent that produced death in this case, which happened some time ago in the office of one of our most respectable dentists. It was administered, I believe, carefully, by two physicians of good standing in this place, and the quantity given not large, and the patient apparently healthy, which goes far to show that it is an agent that kills at times, and quite unforeseen and unexpected. (I late I have entirely refused to give it in the extraction of teeth.

Yours respectfully, C. L. MARTIN."

These reports would very naturally cause those who do not know the properties of Nitrous Oxyd to condemn it at once, but to one who knows its composition and its effects they would not have the least weight. I have used it since last September, and from what I have seen of its operation I was perfectly satisfied that these reports would prove false, or that if the "gas" was the cause of death, it was either because it was impure, or the person who administered it was either inexperienced or did not use sufficient judgment or caution to find out the state of the patient's health.

If the gas was impure, the fault was not in the gas, but in the carelessness of the man who made it, or his want of suitable apparatus to make it pure.

Scores of dentists have adopted its use without properly informing themselves in regard to the proper method of manufacturing and administering it, and this alone, in connection with the fact that *no death has ever been caused by it,* even in such hands, is satisfactory evidence that it is a perfectly safe article in the hands of one who has taken the proper course to get thoroughly instructed in its use. And no one ought ever to attempt to use an anæsthetic of any kind without a thorough knowledge of it.

Many a man has given the Nitrous Oxyd who did not know whether his patient was in the anæsthetic state, or whether, having allowed the gas to escape, he had produced Asphyxia.

The properties of Nitrous Oxyd, when pure, are the same as the atmosphere we breathe, except that it contains about 15 per cent. *more* Oxygen. It is the Oxygen of the atmosphere that supports life. A man can live four or five times longer in a given quantity of Oxygen than in the same amount of atmospheric air. Remove the Oxygen from the atmosphere and nothing remains but Nitrogen and the impurities of the air, which will not sustain life a moment, and just in the proportion that the proper proportion of Oxygen is removed from the atmosphere, just in the same proportion will those inhaling it find themselves suffering from general debility and disease.

People go into the country to find good, bracing air, to regain their health. What makes the country air more bracing than that of the city? Simply this—it contains more of the life-giving principle, Oxygen.

Now, then, if these facts are true, (which all must admit,) it must be acknowledged by all that Nitrous Oxyd in its *pure state,* properly administered, is, to my the least, perfectly harmless, if not as I believe in many cases very beneficial.

I have given ether for years and never knew of any beneficial effect, being produced by it, but I have known several cases of decidedly beneficial results to the system from the effects of the Nitrous Oxyd.

I consider it by far the safest anæsthetic in use and am satisfied that it must supersede ether and chloroform in dentistry, if not in many minor surgical operations, and all who are thoroughly acquainted with its operation, with whom I have conversed (and they are not few) are of the same opinion.

After reading the above, if any have a lingering doubt I will be happy to refer such to some of our first dentists who are continually using it, or they can witness its effects at my office, and satisfy themselves that all is true that has been said in its favor. J. A. SALMON,

29 Boylston street.

The above facts I can confidently endorse; and my experience with the Gas has been so satisfactory that I have not been obliged to resort to ether more than twice during the five past months, in which time I have extracted between four and five thousand teeth.

Is the Best in the World!

The only Harmless, True and Reliable Dye Known!

This splendid Hair Dye is Perfect—changes Red, Rusty, or Grey Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY ST., N. Y. **Batchelor's New Toilet Cream** for Dressing the Hair. mu22eplydaw

THE CONFESSIONS AND EXPERIENCE OF AN INVALID.

Published for the benefit, and as a warning and A CAUTION TO YOUNG MEN who suffer from Nervous Debility, Premature Decay of Manhood, etc., supplying at the same time THE MEANS OF SELF CURE. By one who has cured himself after being put to great expense and injury through medical humbug and quackery.

By enclosing a post paid addressed envelope, single copies may be had of the author.
NATHANIEL MAYFAIR, Esq.,
lawly may30 Bedford Kings County, N.Y.

THE NEW-HAMPSHIRE GAZETTE and Rockingham Weekly Chronicle, containing a summary of the news of the week, printed Thursday, and for sale at the Chronicle Counting Room. Price 6 cents. $1.50 per year, in advance.

DAILY CHRONICLE 36 per year, or $3 in advance; 40 cts. per month, 12 cts. per week, 3 cts. per copy.

CARDS AND BILL HEADINGS are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

Wedding, plain, initial, or Business ENVELOPES, on hand, furnished, or Printed to order—in any style.

All sorts of Cards, Papers, and other stock, furnished for Printing.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. 1y20

Local.

☞ The High School Committee never did a better thing than to encourage the introduction of the New Gymnastics into those schools, or rather among the scholars. The expense of the instruction is paid by voluntary assessment on each scholar who joins the exercises; and the effect cannot but be in the highest degree beneficial, especially among youth like these.

The granting the use of the Hall, out of school hours, for the use of Miss Haskell's other classes, is also a commendable instance of public spirit and good sense, not always displayed by such bodies.

We now live in hopes of having singing taught more generally in our public schools, some day or other. Each of the High Schools have good musical instruments; and all the schools sing more or less.

☞ Acting Master Charles E. Hawkins, of this city, has been ordered to the Portsmouth Navy Yard.

Acting Master Charles C. Ricker, of this city, has been ordered to report to Adm. Dahlgren, of the South Atlantic Blockading Squadron, for duty.

NOT INDICTED.—Lieut. Frank Wentworth, of Co. A, Heavy Artillery, at Fort Constitution, and Surgeon Odell, U. S. A., of Greenland, who were arrested by Deputy Sheriff Bragdon on a warrant issued by J. D. Murphy, justice of the peace, for alleged illegal voting in Greenland at the last election, and bound over to appear at this term of the Supreme Judicial Court at Exeter, have not been indicted by the Grand Jury. They are thus exonerated from all charges made against them by malicious and evil-minded men.

☞ Prof. Norwood, the Fakir of Wonders, will appear at the Temple to-night.—He is represented to have a rare gift in performing tricks of legerdemain,—scarcely less attractive, perhaps, than the 150 free gifts to be bestowed upon his audience.

A NEW OMNIBUS commenced running between this city and Newcastle, on Fast Day. The coach is a handsome one, of Concord build, and run by Mr. George Tarlton, who does a successful business in this line.

☞ All interested in the New Gymnastics will be glad to see that Miss Haskell announces a new term, to commence next Monday evening, at the clean and spacious High School Hall.

☞ Members of the M. L. Association are referred to an advertisement in another column.

The project of removing the capital from Concord to Manchester, is finding favor in this section of the State. Portsmouth, Exeter, Newmarket, Dover and Somersworth, and all the towns in this section would be greatly accomodated by the change. As the Concord people now run the Portsmouth Railroad, a person can leave Portsmouth and reach the capital of Maine in the same time that he can go to Concord, or he can leave Portsmouth and visit the capital of Massachusetts and reach home, in the time it takes to go to the capital of his own State. It consumes five hours of hard travel to go from Portsmouth or Dover to Concord in the morning, or to return at night. The train is attached to a heavy freight train, and although the Portsmouth Road runs between Portsmouth and Manchester, with two cars well filled with passengers, yet they must all wait the slow motion of a freight train, and be kept three-quarters of an hour at Manchester. If the capital was at Manchester, people from the Eastern portion of the State would be able to reach the capital in the morning, before the usual hour of the session, and leave at a later hour in the afternoon than now.

The Concord people manage the railroad now in such a way that Manchester is growing in favor and Concord is likely to be snuffed out. It is reported that some of the Concord people wish the transfer to be made to Manchester. This is a tough story to believe about the Concord folk.—*Cor. Ballot.*

S. J. COURT, Exeter,—The April Term commenced on the 12th inst., Judge Doe presiding. Prayer was offered by Rev. Mr. Newhall.

No. 11, Jeremiah Fellows v. Jonathan H. Philbrick & als., was commenced on Tuesday afternoon. On Wednesday morning the case was taken from the jury, and will be transferred to the full bench upon question of law.

No. 180, Edward P. Prescott & al., v. Jeremiah Fellows, commenced on Wednesday, and is still on trial. Writ of entry to recover possession of a tract of land in Candia; tried at Oct. Term, 1863, when the jury failed to agree.

Mr. Richard Cody, of Dover, having declined to pay for a license as a retail dealer in liquors, was waited upon on Friday last, by Deputy U. S. Marshal Adams, with a precept for his arrest, issued by U. S. Commissioner Hackett. Richard thought he had held out long enough, and paid the license and the cost of proceedings, by which he gained an experience relative to "the enforcement of the laws" that may be of service to him in the future.—*Cor. Ballot.*

— The wind has changed!

— The Home Guards of Calais, Me., have received notice from headquarters to hold themselves in readiness to march wherever their services may be required, at a moment's notice.

A Boston paper says that P. T. Barnum of New York, lecturing for Charles A. Shaw of Biddeford, Me., is the best exemplification of "diamond cut diamond" which has lately come under its notice.—*Portland Argus.*

Fact—and Barnum himself thought so, too. He told us, with a laugh, that the man who shows up a showman must be greater than the showman himself. And if anybody can get ahead of said Shaw, (he of Shaw & Clark,) he must indeed be a diamond of the first water. Shaw, how is Artemas?

SONG OF THE ARMY HORSE.

The army horse was woefully thin;
The ends of his bones stuck through his skin;
He was weak in the knees, and almost dead,
Because he had been so shabbily fed.

Yet, sick and distressed, he thought that he
Might sing a song in a minor key;
So he opened his mouth, and unloosed his tongue,
And this was the style of the song he sung:—

"Spare and lean! Spare and lean!
An army horse not fit to be seen!
Lean and sick! Lean and sick!
Because of the hay-contractor's trick.

"I'm sick at heart, and I faint away,
Whenever I think of these bales of hay;
The outside's fair—but a scandalous sin
Is the villainous stuff they put within.

"Alas, alas! how came it to pass?
Where did they grow this kind of grass?
I look at the stuff, and groan out, 'neigh!'
I never can eat this sort of hay.'

"At the corner of each of the rascally bales
They fasten substantially timber rails;
The trash and the rails they together weigh,
And call it so many pounds of hay.

"Where is the man that inspects the hay?
Under the haystack asleep all day?
Or else, this suffering horse would say,
Perhaps he is paid for staying away.

"But the swindling hay-contractor! he
Is the person this horse would like to see;
He is the man I would like to slay,
For cheating us beasts with his worthless hay.

"You may say, if you please, I'm a bloodthirsty horse,
But I'd finish this deed without remorse;
For the scoundrel who furnishes hay to me,
Is a traitor as bad as Jefferson D——."

— Yesterday was Fast Day in Maine.

— In Calais, Me., hay for which $30 a ton has been demanded all winter, is now abundant at from fifteen to twenty-four dollars a ton.

THE FOUNDATION OF A HOME.—No home is possible without love. All business marriages and marriages of convenience, all mere culinary marriages and marriages of mere animal passion, make the creation of a true home impossible in the outset. Love is the jewelled foundation of this New Jerusalem descending from God out of heaven, and takes as many bright forms as the amethyst, topaz and sapphire of that mysterious vision. In this range of creative art, all things are possible to him that loveth, but without love nothing is possible.

The first pleadings in Court were instituted A. D. 788.

The poet who compared the sea to a lion justified it on account of the waving main.

THE SOLDIER'S TRUE FRIEND.—For over forty years, Doctor Holloway has been supplying all the armies of Europe with his Pills and Ointment, they having proved themselves the only medicines able to cure the worst cases of dysentery, scurvy, wounds, sores and bruises. Every knapsack should contain them. Only 30 cents per box or pot.

MARRIAGES.

In this city, April 13, by Elder J. W. White, Mr. HENRY G. THOMPSON, of this city, to Miss EMMA STEVENS, daughter of Rld. Charles Stevens, of Exeter.

In Dover, Mch. 29, TIMOTHY M. BREWSTER to Miss MARY ANN LIBBY.—April 2, SOLOMON B. G. PARSONS to Miss EUGENIA F. BROWN, both of Somersworth.

DEATHS.

In this city, on Wednesday, April 13, Mr. WALTER B. LASKEY, aged 33 years.

In Epping, April 8, ALONZO R. TOWLE, aged 4 years and 2 months, son of J. Warren and Abby H. Towle.

In Rollinsford, April 3, EUGENE MESSICK, 25—a native of South Carolina.

In Barrington, March 15, Mrs. LYDIA BUZZELL, 60.

OF EVERY KIND
OF
KITCHEN FURNISHING GOODS.

CHILDREN'S CARRIAGES.

The subscriber has purchased for cash, of the largest manufacturers in the country,
200 CHILDREN'S CHAISES,
WAGONS, CABS, GIGS,
TOY GIGS AND WAGONS,
of about 20 different styles—prices from $8 to $21 each.
Some of the above are very elegant silver-plated and silk-lined Chaises. The assortment is the largest and best ever offered in this city. A part of the above are already in store and ready for sale—the balance is expected daily.
Call and examine the stock, whether intending to purchase or not.
E. A. STEVENS,
46 Market street.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

HALEY, MORSE & BOYDEN'S
SELF-ADJUSTING
CLOTHES WRINGER.
THE BEST IN THE WORLD.

Over 40,000 have been sold by the manufacturer in a little more than two years—nearly 400 of them in Portsmouth and vicinity!

Buy one and try it—if not perfectly satisfactory the money will be refunded.

For sale at
E. A. STEVENS'S
House Furnishing Establishment,
NO. 46 MARKET STREET.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

For sale at the
House Furnishing Establishment,
46 Market street.
E. A. STEVENS.

Special Notice.

The subscriber respectfully gives notice to his patrons that all accounts, however small, will be presented for payment on the first of July next; and interest will be charged on all demands remaining unpaid after that time.

Terms Cash, hereafter, unless special agreement be made to the contrary.

This course is rendered necessary by the enormous rise in prices, and the general abandonment of the credit system by manufacturers of goods in his line.

A VERY LARGE STOCK OF
HOUSE FURNISHING GOODS,
Bought wholly for cash, is offered to the public at a slight advance above present wholesale prices.
E. A. STEVENS,
46 Market Street.
Portsmouth, April 12, 1864.

Gray's Patent Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.
The upper edge presents a perfect curve, free from the angles noticed in all other collars.
The curved cambric is perfectly even on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.
The Gazette Collar has a smooth and evenly finished edge on BOTH SIDES.
They are made in "Cycle" (or turn-down) style, in every half size, from 12 to 17 inches, and in "Eureka" (Gazette), from 13 to 17 inches; and packed in "solid size" in neat blue cartons, containing 100 each; also in smaller cases of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.
☞ EVERY COLLAR is stamped
"Gray's Patent Molded Collar."
Sold by all dealers in Men's Furnishing Goods. The Trade supplied by
HATCH, JOHNSON & CO.,
Importers and Wholesale Dealers in Men's Furnishing Goods and Umbrellas, **81 Devonshire street, Boston.**

61 Islington street.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospital, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, is, that many diseases hitherto considered hopeless and incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded profession to cures which have no parallel at the present day.
Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians are
Invited to use Constitution Life Syrup.
During the past five years we have contended with obstacles and overcome opposition as fatal to us as ever encountered by any Reformers.
Rapidity of Cure.
Some say, "Your cures are too quick," while others doubt their permanency and think that disease can only be cured by the slow progress of time, from which we beg leave to report:
In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. To let it remain is, to restore the normal balance of the scale.
CONSTITUTION LIFE SYRUP,
A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all hereditary DISEASES transmitted from PARENT TO CHILD.
Paralysis.
Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effectual remedy, a mention in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Remedy.
Dyspepsia.
Indigestion, Liver Complaint, Constipation, Weight at Stomach, Dizziness, Want of appetite, Flatulence, Sick Headache.
Scrofula.
Struma, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.
This taint (hereditary or acquired) filling the whole system, so to all usual medical remedies incurable.
Rheumatism.
Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic-Doloureux.
If there is any disease in which the Constitution Life syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are immediately alleviated and the swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.
Nervousness.
Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Memory, Sleeplessness, Fits, Fainting.
Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will the medicine prove a blessing, enabling them to throw their sufferings to a Hope which fulfils more than it promises.
Mercurial Diseases.
Salivation, Fishing of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, Ulcerous Sore Mouth, Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth firmly as ever.
Constitution Life Syrup
Eradicates, root and branch, all Impure Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES.
And all other affections of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.
CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the young portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which result upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.
All sensitive females suffering from Debility, Emaciation, Dyspepsia; Dropsy of the limbs or abdomen, and in the female Dropsy of the ovaries and wombs, generally accompanied with inflammation and ulceration of the uterus, are permanently cured by Constitution Life Syrup. The disease lingered in centre or S-shaped Neck, the Life Syrup will remove entirely. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely removed without resorting to the Knife operations of any kind.
Epileptic Fits, Sympathetic or Organic Diseases of the Heart, Palpitation, Hysteria, Hysteric Convulsions, Spasms, Hysteric Cough, Hysteric Fainting, *Fear of Disease, Disease in Anticipation, Cold Skin and Extremities, Want of Sleep, Restlessness, Pain Haggard Countenance and Estimate of the Muscular Strength* are all in the gift of the CONSTITUTION LIFE SYRUP.
For all forms of **Ulcerative Diseases**, either of the Lungs, Throat, Stomach, Bowels, Liver, or Scrofula, no remedy has ever proved its equal.
MOTH PATCHES upon the female face, depending on a derangement of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the disorder, and remove the deposit which is directly under the skin.
In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an elevated or jaundiced complexion of blood, and accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *It is a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in its world.*
Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid complexion, strengthen their weak back and side, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.
TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon
PREGNANCY. It strengthens both the mother and the child, prevents pain and disease, and renders easy and enriches the food—Those who have used it think it a valuable possession. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.
Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.
CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Pain Albus (or Whites in females) where all the old nauseous medicines have failed.
☞ It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.
It is directly and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus restoring the system all pernicious causes which have induced disease.
CHEROKEE INJECTION is intended as an Ally or assistant to the CHEROKEE REMEDY, and should be used in connection with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*, removing all scalding, heat, chordee and pain, instead of burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*
☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.
For full particulars get our pamphlet from any store in the country, or write us and we will mail free, to any address, a full treatise.
Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.
Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.
Sent by Express to any address on receipt of price. Sold by all druggists everywhere.
Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.
CHEROKEE CURE.
An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pain in the Head, Dyspepsia, Insanity, Consumption, and all the direful consequents caused by departing from the path of nature.
☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain mastery over the most virulent cases.
☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medicine, we would say, try one bottle of the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!
☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.
☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.
Sold by all respectable druggists everywhere.
DR. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

DR. WRIGHT'S
REJUVENATING ELIXIR.
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.
The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.
This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.
One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses restore a low spirited.
One bottle restores mental vigor.
A few doses bring the rose to the cheek.
This medicine restores to manly vigor and broken down and worn-down and desponding devotee of sensual pleasure.
The listless enervated youth, the over-tasked man of business, the victim of nervous depression and suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.
☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.
Sold by all druggists everywhere.

No. 59 Liberty street, New York.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.
☞ *For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.*
They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.
They cure Suppressed, Excessive and Painful Menstruation.
They cure Green Sickness (Chlorosis).
They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.
Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.
They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly *procure* pregnancy.
All females seeking information or advice will be promptly, freely and discreetly answered.
Full directions accompany each box.
☞ Price $1 per box, or six boxes for $5.
Sent by mail, postage free, on receipt of price.
Sold by all respectable druggists.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and tea-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove. Hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

Portsmouth.

And the hosts of others who are using them.
We invite all those in want of the very best Stove in the market to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.
"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscriber, being the Sole Agent in the vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this very valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the most part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert E. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. SATURDAY, APRIL 16, 1864. VOL. XXIV. No. 90.

The Chronicle.

LAZINESS.—Laziness is a bad disease, and, like many other kinds, is often self-imposed. In the case of many individuals it is an inherited malady, and consequently hard to cast from the system. But it is oftener the case that this disgusting distemper is brought on persons by their own deliberate selfishness—by a vastly discreditable disposition to shirk the inevitable burdens incident to living a decent life. Laziness of this kind is one of the cardinal sins, and should subject the obnoxious offender to the discipline of a tread-mill. More particularly is laziness offensive in the young and healthy. To learn to work, and work cheerfully, is the central lesson of life. Begin to learn it early—eschew laziness as the most disgusting of all faults, and one that will surely end in hopeless misery—for, depend upon it none can be so insensible through laziness as to be, in the end, incapable of suffering. Nature is, in the event of nonpayment of her demands, a stern and merciless creditor. Therefore, boys and girls, keep square your account with her.

THE NEW-ZEALAND MOA.—We have several times referred to the gigantic bird of New Zealand, which certainly existed in those islands at no very remote period, and which there is reason to think is not yet quite extinct. The latest piece of information we had about it was, that two men, prospecting for gold in a remote part of the country, saw a gigantic bird looking at their camp in the moonlight from a neighboring hill. As this followed the observation of some land-surveyors, who discovered the fresh footprints of an enormous bird in a secluded valley, it was generally believed. Incontestable evidence is now produced that, if extinct now, the Moa lived in the woods and grassy valleys of New Zealand but a few years ago. A skeleton of a large one has just been found in ground of recent alluvial origin, and it is clear that the bird lived recently, from the fact that portions of its thick hide, with long silvery hairs attached, adhered to the bones. It would be highly interesting if one of the birds, which were twelve or fourteen feet high, could be discovered alive.

Poverty is the only load which is the heavier the more loved ones there are to assist in supporting it.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of protection, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms consequent on these diseases, made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dimness of the head, Dizziness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, irresolution of purpose, with aversion to business of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotine, warranted the most preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.
DR. DOW, Physician and Surgeon, No. 7 & 9 Endicott street, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppressions, and other menstrual derangements, and all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in this class of diseases than any other physician, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to this one practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
CERTAIN CURE
In all cases, or No Charges Made.
DR. DOW is consulted daily from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation, which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stand higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imparts and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1864.—eodly.

Musical Notice.

TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.
The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.
On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.
For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.
We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases, to be used with discretion, and a reasonable quantity will produce a reasonable effect.
Price $1.50 per Barrel.
Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

G. W. Snow & Co., " "

Lloyd's Nitrogenized
Superphosphate of Lime.
The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " " " (ca O P O 5)	11.5
Organic matter	31.
Sulphate of lime	28.
Alkaline of salts	2.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia.
The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.
A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.
It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 10. In other words, Soluble Phosphates are worth 4 times and Ammonia 5 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.
Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.
The sample for analysis is selected from the entire stock which was prepared for the market.
N. P. HILL.
BROWN UNIVERSITY, Jan. 28, 1864.
This lime is sold in barrels containing about 275 lbs. Price Three Cents per lb., by the barrel, or Twenty-five Pounds for One Dollar.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be consulted and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in co-operation with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, under influences to the unfortunate, of a quick and rapid cure, to be obtained at no other office in America.
In syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other Impurities of the Blood, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their manhood, thus depriving them of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America for the sale of Dr. Vichoit's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 9 A. M. to 6 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, APRIL 16, 1864.

THE REBELLION.

A North Carolina rebel paper states that John Morgan is about to undertake one of the boldest expeditions he has ever made.

The rebel ram Tennessee, near Mobile, has not sank, but is reported to have been getting ready, Mar. 28, to pay our blockading fleet a visit.

A Natchez paper of the 1st has a report that the rebels have blown up the ram Shreveport and Missouri to prevent them falling into our hands, and that they have evacuated Shreveport.

The rebels under Imboden were defeated in a cavalry fight near Winchester, Va., on Friday, 8th, the loss being from 50 to 100 in killed and wounded on both sides.

Another rebel demand has been made for the surrender of Paducah, and refused.

A New Orleans dispatch states that "a brilliant fight recently took place at Pensacola between the 30th and 14th cavalry and the 57th Alabama cavalry, in which the rebels were almost annihilated in a hand to hand encounter with sabres." A later arrival brings the following version of this fight, which affords a good illustration of paragraph-making under difficulties. The errors were very easily made, as will be seen by comparison, but they are fearful to a sensitive man:

Pensacola advices report a fight between Capt. Schmidt and 30 men of the 14th cavalry and 50 rebels under Maj Randolph, of the 6th Alabama cavalry, near that place. After ten minutes' hand to hand fight the rebels fled. Their loss was 15 killed and wounded and 11 prisoners. Our loss was 3 slightly wounded, including Lieut. Van Longeveche.

Alexandria, La., dates of the 5th report that Gen. Banks and staff had proceeded up the river to Ecore. All is quiet at Alexandria, and ample precaution is taken against surprise—the streets being barricaded to prevent raids. The heavy iron-clads had dropped down to Fort DeRussey.—There was still sufficient water for the gunboats and transports to cross the falls. The steamer Luminary, reported to have been destroyed, was above the falls uninjured.

Gen. Dana has been relieved of the command of the troops at Pass Cavalo, Texas at his own request, and has arrived at New Orleans. He has been succeeded by Gen. Warren. There is no prospect of any immediate movement either on the coast or from Brownsville.

The rebels are concentrating at Pollard, Ala., to operate on the line of railroad from Pensacola to Montgomery. The most terrible persecutions are inflicted on the people who try to evade the rebel conscription.

Gen. Steele's expediton in Arkansas, on the 7th, had reached a point five miles south of Elkin Ferry on the Little Missisippi river, and twenty-five miles from Camden, where he expected the force from Fort Smith to join him the next day. On the 2d inst. the rebel General Shelby attacked General Steele's rear guard under General Rice with 1200 cavalry and two pieces of artillery, and was repulsed. On the 4th, Marmaduke attacked Gen. Steele, with 3000 or 4000 cavalry and 5 pieces of artillery, and after 5 hours' fighting was repulsed.

The schooner Petrel, at Nassau from Charleston, reports the loss of the blockade-running steamer Juno, from Wilmington for Nassau. She broke in two, and nearly all hands were drowned. The steamers Syren and Coquette had arrived from Wilmington, and the Greyhound, Will O'Wisp and Syren had sailed to run the blockade.

The attack on Fort Pillow on Tuesday morning was made by Forrest, and the fight was kept up until 3 o'clock, when Maj. Booth, the commander, was killed, and Maj. Bradford took command. The rebels then made such a furious attack that our men were compelled to surrender. Up to that time comparatively few of our men had been killed, but instantly on taking possession of the fort the fiends commenced an indiscriminate butchery of the whites and blacks, including those of both colors who had been previously wounded. The sickening details of the barbarous deeds of these "civilized" ruffians are almost two terrible for belief. Nearly 400 were murdered on the spot, and "the dead and wounded negroes were piled in heaps and burned." If the report is confirmed, those are deeds not to be forgotten during the continuance of the war. The rebels moved away with their plunder, which includes 6 guns and a large amount of stores; and it was thought they would attack Memphis.

Gen. Grant has returned to the army.

60 pieces of artillery, 12-pounders and smooth-bore howitzers, were sent from New York to Washington on Thursday night, under imperative orders.

— The iron clad frigate Ironsides has fired, since she has been in the service, 4361 rounds; has been hit 241 times: has only had one man killed; has not been seriously injured, and is probably the best iron clad vessel in the world.

NEW HAMPSHIRE ITEMS.

—— The explosion of the Powder Mill at New Durham was heard at a distance of 25 miles.

—— Henry Holt, Owen McDonough and James Scott, of the Second New Hampshire, have been taken near Yorktown, while attempting to desert. They were in a skiff.

—— The Keene Republican says more snow fell during the first three days of this week, than during the whole of the winter. In Connecticut river valley it melted nearly as fast as it fell, but on the surrounding hill towns it lay two feet deep. This prolongs the sugar season.

—— A pretty male child, three or four weeks old, neatly attired and warmly wrapped in a nice blanket and shawl, was left on Wednesday night, upon the door steps of No. 3, Amoskeag Corporation, in Manchester. Charles Howry alias Charles Young has been arrested as the parent of the child, on a charge of deserting it, and has provided for its support.

—— The Laconia Democrat says:

Some evil minded person or persons have been amusing themselves by putting obstructions upon the track of the Montreal Railroad near the Weirs. The thing was repeated several times by placing sleepers, billets of wood &c., upon the track until at last the boy was caught in the act by one of the section men who was on the lookout for him. No harm resulted, but it is wonderful that some train was not thrown off.

—— Lieut. Samuel C. Adams, U. S. Marine Corps, a son of Mr. John Adams, of Bedford, formerly of Manchester, was drowned at Cairo, Ill., on Friday night, the 1st inst., by falling unobserved from the naval wharf boat, while returning from Mound City, where he had been with a detachment of men. The Mirror states that Lieut. Adams, who was twenty-three years of age, left Manchester a number of years since, was in business for a relative at Detroit, afterwards entered the navy, and about nine weeks since returned from the Gulf Department from a cruise on the "Colorado," and made a brief visit to his home. His body arrived in Manchester, on Monday, and the funeral services were held on Thursday afternoon.

☞ The Biddeford Journal states that on Friday night last, at about 11 o'clock, William T. Horrobin, an Englishman, overseer in one of the mills in that city, was carried home and put into the kitchen of his house. His wife not hearing any noise below, sent the servant girl to look after him, and she found him dead. Probably the deceased had not seen a sober day for many years, but whether he died in a groggery, whether foul play was used, or whether he was alive when put into the house, was not known. No inquest was held.

☞ The N. Y. Times' Paris letter says that one of the vessels built at Bordeaux for the Confederates has been launched. An English vessel is lying there with her equipment. The builder has been compelled by the French Government to give his bond that none of the vessels that he is constructing shall pass into Confederate hands. The two iron-clads will not be ready for launching for three months, but the other three wooden ones will soon follow their consort into water. The French Government has enclosed the Rappahannock in a dock at Cahais and placed a man-of-war in front of it.

Some time since, John Trickey, Esq., of Dover, known as the "Lumber King," was introduced to President Lincoln by one of our Senators as the man who had furnished more timber for the navy, since the commencement of the rebellion, than any other person. Old Abe remarked, "then you must have a big timber lot, Mr. Trickey."—*Exeter Ballot.*

Mr. Trickey's "lot" includes pretty much the whole State of New Hampshire, and a good part of some of the adjoining States. Any timber, anywhere, that he has not either cut or got his eye on, you may be pretty sure is not worth having.—*Dover Enquirer.*

— A short time since Col. D. C. McCallum was ordered to procure from every available source three hundred locomotives and a corresponding number of cars for Government service. Up to the present time but one hundred and ten locomotives have been secured.

— The London Times gives partial credit to the report of an extensive attempt at revolt among the Hungarian troops in Denmark. The Austrian army broke up from before Fredericia in an unaccountable manner, and disaffection among the troops may be the cause.

— A St. Louis firm has offered premiums of silver-plated ware, valued at $300, for the best shirt contributed to the Mississippi Valley Sanitary Fair, and of a set of cutlery valued at $150, for the second best. The competition is open to women of all the States.

— A negro servant, in New Orleans, charged by Paymaster H. K. Lawrence with robbing him of $30,000, was unmercifully flogged, and afterwards sentenced to hard labor at the Dry Tortugas for life. Lawrence has now been arrested by the War Department for the theft, and $20,000 recovered.

— The election held in New Jersey on Monday shows large Union gains.

— A New York dispatch says the draft is postponed, probably until the 1st of June.

— The seamen's floating bethel ship at Baltimore was sunk on Saturday.

— Teams were employed in Augusta, Me., on Tuesday, April 12th, in breaking through the snow drifts.

— They have started an establishment for remodeling hoop skirts in Vassalboro,' Me.

— The cows in the State have every inducement to do their best now in the way of yielding milk, when butter is so high.

— In Nevada artesian wells are bored horizontally into the mountain sides, instead of perpendicularly into the ground.

— The general principle of the new tax bill is to increase the taxes in the proportion of from three to five per cent.

— Linens are now being manufactured in Ireland, which are not only relatively but positively cheaper than cottons.

— Rev. Mr. Stockton has become pastor of the Freewill Baptist Church at the Branch, Wells, Me.

— The Madrid papers represent that the suppression of the St. Domingo insurrection is going on effectively.

— The Biddeford Journal states that the town of Kennebunk, Me., will lose at least $1500 by the Spring freshet.

— Accounts from Japan have a decidedly pacific aspect. The American Minister had procured several important tariff reductions.

— Rev. I. M. Thompson has removed from Alfred to take the pastoral charge of the First Baptist Church in South Berwick, Me.

— The barn connected with the Baptist parsonage in Shapleigh, Me., was burned recently at mid day, with a cow, sleigh and other articles. Cause unknown.

— A kind hearted house-keeper in Augusta, Me., has given away so much old clothing to the contrabands, that she can't find mop rags.

— The citizens of Bangor have organized a Historical Society, the principal object of which is to collect and preserve the history of the Penobscot Valley.

— One of the wonders of the age is the transformation of partially worn garments into point lace collars, and other attractive and costly articles of the lace family.

— A recent number of Harper's Weekly contained a sketch of the "wreck of the Bohemian as seen the morning after she sunk."

— Some assistant provost marshals in Pennsylvania, noted for unexampled slowness in making returns, are to be reported for dismissal.

— The Prussians, on the night of Mar. 26th, succeeded in opening the first parallel before Duppel, without molestation from the Danes.

— The House of Representatives on Thursday passed a resolution, by a vote of 80 against 70, censuring Mr. Long for the sentiments contained in his recent speech.

— The Washington correspondent of the Chicago Tribune states that the Fremont men are bound to run him as a presidential candidate in any event.

— Block Island, R. I., has been heard from, after three weeks' interruption of communication, and its vote makes James Y. Smith's majority for Governor 151. He was the Union candidate.

— Gov. Buckingham, of Connecticut, has given to Yale College the handsome amount of twenty-five thousand dollars. Yale has received, or been promised, near half a million of dollars within a short time.

— The Augusta Journal says: "Many of the new recruits, after getting their bounty money remind one of a printing-office in distress—because they go into *pie.*" Does not the pie go into them?

— A Maine paper thinks that the industry with which some few young men catch fish in the Kennebec river on Sundays, is hardly of that kind which promotes the prosperity of the country.

— The Alta California, of San Francisco, of March 6th, contains advertisements of three hundred and seventy gold and silver mining companies. Only one of the number gives notice of a dividend.

— The pickpockets are made a part of the attraction at the New York Fair. When captured, they are kept on exhibition, and paraded through the building occasionally by the police.

— The charter of the Maine Bank, Brunswick, Me., having expired, notice is given that the liability of the Bank to redeem its bills will expire on the 15th day of January, 1866.

— Bacon is selling in Raleigh N. C. at $5 per pound, butter $6, corn $27.50 per bushel, eggs $3 per dozen, flour $250 per barrel, molasses $30 per gallon, potatoes $15 per bushel, salt $1 per pound, and sugar $12 per pound.

— The Paris correspondent of the London Globe says the rebel cruiser Georgia was refitting in the Garonne, not being allowed to anchor in front of Bordeaux, because the port regulations exclude ships with powder on board.

THE ATTACK OF CHARLESTON.—In response to a resolution of the House of Representatives, the Sec. of the Navy has made a report relative to operations for the capture of Charleston. In May, 1862, Adm. DuPont was advised by the Navy Department that it was determined to capture Charleston, and that the War Department had sent instructions to Gen. Hunter, who was assigned to the command of ten thousand men. The Admiral was informed that the capture rested solely on the service of the Navy. DuPont replied that he would endeavor to execute the wishes of the department, but wanted more vessels. During the same month the Secretary advised the Admiral to abandon the attack on Charleston, if he deemed the number of iron-clads insufficient to render the capture certain.

After the unsuccessful attack had been made, the Secretary of the Navy, referring to previous confidential correspondence, repeated his regret that the Admiral's views were not understood by the Department before the event took place, for had they been known matters would undoubtedly have been ordered differently. Rear Admiral Dahlgren had solicited the opportunity of making the attack on Charleston, but the secretary says he was compelled to refuse him, because he supposed what he sought as a privilege, Rear-Admiral Du-Pont claimed as a right. Had the latter's distrust of the monitors been known the enterprise would have been committed to another.

The Secretary says that an order of the President, dated April 13, 1863, directing Adm. DuPont to remain in the bay at Charleston, and prevent the enemy from erecting batteries on Morris Island, was duly acknowledged, but was not obeyed. A telegraphic order of the President, dated 14th April, directing Adm. DuPont and Gen. Hunter to take the batteries on Morris Island and Sullivan Island, was never, so far as the Department is advised, obeyed, or attempted to be obeyed, by Adm. Du-Pont. The order of the Secretary of the Navy directing Adm. DuPont to co-operate with Gen. Gilmore was not obeyed.

Gen. Hunter, in a letter to the President, referring to the attack by the iron-clads upon Charleston, an attack in which, from the nature of the plans of Admiral DuPont, the army had no active part, says that on the morning after the attack the army was ready to proceed to take possession of Morris Island, and "Fort Sumter would have been rendered untenable in two days' fire." Gen. Hunter adds:—

On the afternoon after the iron-clad attack on Fort Sumter, the troops on Folly Island were not only ready to cross Lighthouse Inlet, but were almost in the act, a final reconnoissance having been made, boats ready, and the men under arms for crossing, when they were recalled, as I hoped merely temporarily, by the announcement of Adm. DuPont that he had resolved to retire, and that consequently, we could expect no assistance from the navy. Immediately the Admiral was waited upon by an officer of my staff, who represented the forwardness of our preparations for crossing, the evidently unprepared condition of the enemy to receive us, while any delay, now that our intentions were understood, would give the enemy time to erect upon the southern end of Morris Island, commanding Lighthouse Inlet, those works which we had heretofore neglected. To these considerations, earnestly and elaborately urged, the Admiral's answer was that "he would not give another shot."

The Department has no information as to who devised the plan of attack on Fort Sumter by Rear Adm. DuPont on April 7, 1863, but has never doubted that it was originated by and belonged exclusively to that officer.

All men who do anything must endure a depreciation of their efforts. It is the dust which their chariot wheels throw up.

The New Gymnastics.

A NEW TERM (the last for the season.) of Miss Haskell's Second Class for Ladies and Gentlemen, will commence at the HALL OF THE HIGH SCHOOL, Daniel street, on MONDAY EVENING next, April 18, at half past 7, o'clock precisely. Coughs and Colds.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily when taken in the early stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires. m221—1udaw

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a sale and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

Address JOSEPH T. INMAN,
mh25—1y3m* Station D, Bible House, New York City.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING COUGH, all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

For sale by all Wholesale and Retail Dealers.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER jn30

Local.

☞ To all who have ever seen an exhibition of the New Gymnastics—or, better yet, who have actually participated in the exercise—we have nothing to say, further than to invite attention to the notice of Miss Haskell's new class for next Monday evening. But for the benefit of any who ought to be interested, but yet may not have any acquaintance with the movement in question,—we will remark that besides the incontestable thoroughness and beneficial effects of the exercise, there is much more of entertainment and enjoyment in the gymnastics than in dancing. And besides the much greater variety and more diversified grace of motion in the gymnastics—the most absurd features of all which the objectors to dancing can reasonably offer, do not as yet seem to obtain in relation to the new amusement—we mean the continuation of the pastime far into the hours of sleep, and dancing three times as long as the benefit or health of the participants will warrant.

Much as we enjoy a good dance,—and little real objection as we think can be urged against this social amusement—yet to our appreciation there is far more of benefit and pleasure, especially for the young, in the new gymnastics.

☞ Rev. Mr. Hartwell, who was a few years since pastor of the Methodist Church and Society in this city, has for the past two years been settled in Claremont. He has now been, as we have already stated, transferred to the California Conference. The Claremont Eagle of this week says:—

We regard Mr. H. as an earnest, live man, faithfully devoted to the interest of the community where he resides, and especially to the social, financial and religious prosperity of his society and charge. We wish and predict for him great prosperity in his new field of labor.

At the session of the New Hampshire Conference, the following resolution was passed:—

"*Resolved*, That as the Rev. H. H Hartwell is about to leave our Conference for the Pacific shores, we tender to him the assurance of our confidence and esteem as a Christian minister and fellow laborer with us for many years, and our prayers for his continued usefulness and prosperity in his new field of labor."

☞ The Salem Gazette states that the Carter Zouave Troupe, which performed at Mechanic Hall, in that city, on Tuesday and Wednesday evenings, is one of the best show companies that have visited Salem this season. On Wednesday night the hall was filled. The Zouave drill was very fine, and so were Sig. Girard's imitations. It will appear in this city next week.

It is stated that we are to have a line of telegraph over the C. & P. R. R. to Manchester. A telegraph station would have been established at Newmarket Junction years ago, had it not been for the old fogie notions of the management of the B. & M. Road, whose ideas, however, have recently been overcome, and the station is now open for business.—*Cor. Ballot.*

☞ In the list of Patents issued for the week ending April 12, is one to Jacob J. Storer, of Portsmouth, N. H., for improvement in the preparation of vegetable fibre.

PARKER PILLSBURY'S Lecture in this city, last week, on "The Mystery of the War," was a production thoroughly characteristic of its author—able, quaint, and original; bristling with sharp and shining points; critical, denunciatory, and terrific; and constantly breaking out into genial good humor, tenderness, and pathos; and reaching in many passages to the height of impressive eloquence. The unusually mild demeanor of his delivery—a tempering, we are told, of former days—lent a strange sharpness to the two edged sword of criticism with which he hewed right and left, like Cœur de Lion cleaving down infidels. His style—"wild above rule or art"—is full of novelties and irresistibly enchains attention. Sweet and bitter sayings follow each other in rapid succession—here a sentence juicy and delicious like a vergalieu pear, and there another that puckered like alum or a persimmon! To Mr. Pillsbury's vision, public affairs wore a more shadowy aspect than to our own; and some, though not all, of his criticisms upon the government were unmerciful and unjust. But his picturings were not a tint too dark when he delineated the great crime of American slavery—for what pencil can overpaint the shadow of death? Well-aimed, too, were his arrows, drawn against those men who, high in Church and State, have for years hindered the political and religious growth of the nation—crippling freedom, and holding back the progress of the age. He grandly held up public men and measures to that high standard of moral integrity by which an enlightened people should always severely try their rulers and themselves. The pervading moral tone of the lecture was refreshing and ennobling, like a bracing north-west air. The eloquent utterance of so many inspiring truths dignified the speaker in the eyes of his audience, and the noble burst of applause which followed his conclusion was equally a tribute to the speech and the man.—*N. Y. Independent.*

— The latest advices from the steamship City of New York are more encouraging. Divers report that with the exception of one hole underneath her near the forward bunker, she appears to have sustained slight injury. She continues firm and upright on a rock, and it is hoped, if the weather continues favorable, she will again be got afloat. Preparations to lift her are almost complete. The weather was highly favorable. More cargo had been got out.

The following stanzas would at any time attract attention for their poetic beauty. Now they will be read as among the choicest tributes paid to him whose release from out-post toil here on earth they so suggestively picture.—*Boston Transcript.*

[*From the San Francisco Bulletin.*]

RELIEVING GUARD—MARCH 4, 1864.

BY FRANK BRET HARTE.

Came the Relief. "What, Sentry, ho!
How passed the night through the long waking?"
"Cold, cheerless, dark—as may befit
The hour before the dawn is breaking."

"No sight? no sound?" "No: nothing, save
The plover from the marshes calling;
And in yon Western sky, about
An hour ago, a Star was falling."

"A star! There's nothing strange in that,"
"No, nothing; but, above the thicket,
Somehow it seemed to me that God
Somewhere had just relieved a picket!"

The Boston Advertiser calls attention to the act of the Maine Legislature, ostensibly "to promote safety on railroads," but really to prevent a third rail from being laid on the Eastern Railroad to extend the broad guage to Boston. This narrow and illiberal law materially detracts from the advantages which would result to this State from the building of the European and North American railway, and ought to be repealed before Massachusetts makes the proposed grant in favor of this road.—*Boston Journal.*

— Gold closed at 173 3-4 in New York on Friday.

— A fire in the Herald office, Boston, on Friday afternoon, did much damage to presses, type, &c.,—estimated loss $15,000 to $20,000.

— The Richmond Sentinel reports that $196,883,000 of the rebel debt had been funded and taken by the different States, while a large portion of the confederacy remains to be heard from.

MARRIAGES.

In this city, April 7, by Rev. Geo. M. Adams, AUGUSTUS FOX, of 4th Maine Battery, to Miss LAURETTA M. HANSON, of Portland, Me.

Mercantile Library Notice.

An adjourned meeting of the Mercantile Library Association will be held THIS (SATURDAY) EVENING, April 16, for the choice of officers for the ensuing year.

It is important that every member should be present. C. C. MELCHER, Sec.

THE SOLDIER'S TRUE FRIEND.—For over forty years, Doctor Holloway has been supplying all the armies of Europe with his Pills and Ointment, they having proved themselves the only medicines able to cure the worst cases of dysentery, scurvy, wounds, sores and bruises. Every knapsack should contain them. Only 30 cents per box or pot.

☞ See you fair maiden in another column, picking Sambucci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

THE IMMENSE POPULARITY OF THE

California Wines

Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage

American Industry.

The Surgeon General of the United States, after an analysis of our Wines, reports them to be PURE.

Dr Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says:—"The third ounce leaves fifty-four grains of solid matter, consisting WHOLLY of the fixed principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."

The Boston Traveller says:—"The California White or Hock Wine rivals in favor the best of Hock Wines, and costs much less."

The Saturday Evening Gazette says:—"The White Wine is equal to the stem or light wines which we import, with a fine and rich flavor, and we believe its purity unquestionable."

Hon. John G. Downey, late Governor of California, says:—"I most cheerfully recommend your Wines to all who desire a pure juice of the grape."

The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."

The Boston Transcript says:—"The White Wine is equal to the best Hock."

The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

CALIFORNIA WINES,
BEARING THE LABEL OF
PERKINS, STERN & CO.,
WILL BE FOUND
FOR THE SICK CHAMBER,
COMMUNION PURPOSES,
OR FAMILY USE,
THE PUREST, THE CHEAPEST, THE BEST
WINE IN THE MARKET.

Morning Chronicle.

THE AMERICAN WATCH AS A TIME-KEEPER.—Some time during the early part of this year we visited Waltham, Mass.; in a subsequent number of the Scientific American we gave an account of the American Watch Factory at that place, and the operations therein carried on. We also expressed the opinion that for beauty of workmanship, exactness as time-keepers, and general reliability, the watches there made were not surpassed, or even equalled, by any imported. Wholly from a desire to see the American watch in the pockets of the American people, and Yankee time recorded by the products of Yankee skill, we reassert the opinions then expressed; they are fully sustained by our experience, and we are satisfied that no one need desire a more accurate or beautiful watch than those made at Waltham; all the encomiums we pronounced on the occasion referred to are fully warranted. There is an American watch in this office, of the very finest quality, which has not lost 30 seconds in 8 months; there may be some even better records than this; but although we pride ourselves in our punctuality, it is near enough for our purposes, and if we lose no more than one minute and a half from our engagements in half a year, we are well content to set down as profit and loss. These remarks are unsolicited from any source, but are only an act of simple justice to the American Watch Company.—*Scientific American.*

SPEER'S SAMBUCI WINE,

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT.

For Physicians' Use.

FEEBLES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE OF PORTUGAL.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and tonic special qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, Highly recommended by the physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich popular flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians—who have tried the Wine.

Gen. W. Scott, U. S. A. Dr. Newark.
Gov. Morgan, N Y. State Dr. Wilson, 11th St. N. Y
Dr. Parker, N. Y. City Dr. Dougherty, Newark
Dr. J. R. Chilton, " " Dr. Wells, "
Drs. Darey and Nichell, Newark, N. J.

☞ None genuine unless the signature of "FRED. SPEER, Passaic, N. J." is over the cork of each bottle.

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospital, late Medical Inspector New York State Volunteer Regiment, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases supposed to be incurable, are completely cured frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cases which have no parallel in the annals of medicine.

Our medicine is peculiar, by it the seat of disease indirectly reaches, and the equilibrium restored. Hundreds have been rescued from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome competition as never had as our encountered by any medicine.

Rapidity of Cure.

Some say, "Your cures are too quick," while other doubt, and others cavil and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

Its Effects on the body, like a well-balanced scale, is to create an equilibrium, but when from any cause there goes into one of the scale, we have pain, instead of the balance, we endeavor to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, or the accumulation of DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the vast number of Paralytic cases, that we need not reiterate that it is emphatically the Great Life-giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom's, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Sirens, Glandular Swellings, Ulcerous, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling like with nature misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritic, Neuralgia, Gout, Lumbago, Sciatica, The Dyspepsia.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or rheumatic of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years without the slightest benefit, find these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fadeless more than it promises.

Mercurial Diseases.

Salivation, Pushing of Mercury, Rotting of Bones, Blood Impurities, Boils, Blotches, Ulcers, Swellings.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as a vise.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, such as

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, and render life a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken at the commencement of defects, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from infancy, years of age. Young children are very subject to Discharges from the Ear, which depends upon a Scrofulous constitution. These cases can recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy of the Chest or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the Kidneys, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove, and is the only remedy about to be taken for some time, as the disease, exceedingly chronic and stubborn, and will not be removed without extra efforts. Tumors of the Ovaries, tumors of the Bowels, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, sympathetic or Organic Diseases of the Heart (as a palpitation, Disease of Liver—prophetic of Dropsy), Spasms, Stomach Cramp, the itself Cure and all the affections of this important organ, or persons suffering from any acute pain in the region of the Heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions,

Suffering from Indiscretion or Excess, Pain in the Back, Loss of Memory, Forgetfulness, Horror of Disease, Fear of Consumption, Dimness of Sight, Skin of Emaciation, Want of Nerve, Restlessness, Pale Haggard Countenance and Languor of the Muscular System, is recommended to the use of the CONSTITUTION LIFE SYRUP.

For all forms of Ulcerative Diseases, either of the Nose Throat, Tongue, Spine, Forehead or neck, and Ulcerous Sores on any organ.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very annoying to the fair sex, and are troublesome. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of the liver organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, as Disease of the Dorsalgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would refer the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and limbs, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and disease are cured by the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, consequences follow, and if not the results do not delay when the means are so near at hand, and within the reach of all.

TO MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for purifying the system and toilet. Its soothing attention upon the Mother, it invigorates both the mother and the child, prevents pain and disease, and increases and enriches the food, thus there have been no cases of ill results. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, like it, and be cured—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in those cases of Flour Albus (or Whites in females) where all the old nauseous nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all putrescent causes which have induced disease.

CHEROKEE INJECTION is intended as an aly or assistant to the CHEROKEE REMEDY, and in severe affections—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full pamphlet.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND

LEAVES.

CHEROKEE

CURE.

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain every case, if used according to directions.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a treatise in pamphlet form.

☞ *Price*, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

No. 59 Liberty street, New York.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems. Its medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of this age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

A few bottles cure Nervous Debility.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and fire of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and health, the nervous debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the overtasked man or business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir of Vegetable Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Hysteria, Fatigue on slight exertion, Palpitation of the Heart, Hot Flashes, Lowness of spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it all the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to restore the strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly prevent pregnancy.

☞ Price $1 per box, or six boxes for $5.

Sent by mail, postage free, on receipt of price.

Sold by all respectable druggists.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable furnace, would ask those about

remodeling, or building houses,

to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, agreeable and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache, from the fumes contained in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the flue or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of air through the fire-pot, which passes with them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of heat generated, making the most expensive and the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. MONDAY, APRIL 18, 1864. VOL. XXIV. No. 91.

The Chronicle.

— The fall on the Snake fork of the Columbia is said to surpass that of Niagara. The fall over which pours the entire volume of the river is a sheer precipice one hundred and ninety-eight feet high, being forty eight feet higher than the precipice of Niagara. Smoke river is said to be fully as large as the Niagara, and it takes the tremendous fall at one solid leap. A scouting detachment of United States troops are credited with the discovery.

AN OPTICAL ILLUSION.—A singular illusion is observed on the Park, where the New York Fair is held, similar to that of the celebrated ghost of our theatres. A powerful Drummond light has been placed over the Park entrance, which reflects the figures passing before it in the streams of the fountain, so that a person standing on the south side of the fountain can see men, women and children climbing up through the spray and jets of the fountain, forming a curious and pleasing illusion.

— The Chicago Board of Trade have resolved that on and after the 15th of May next all their transactions shall be based on Treasury notes or their equivalent. It is understood that the leading banks and bankers in the city will second this movement, the effect of which will be to throw out the greater part of the notes of the State banks now in circulation.

Sydney Smith observed a child stroking and tickling the horny back of a small pet tortoise. "What are you doing that for, my boy?" "Oh! the tortoise likes it—it gives him pleasure." "Gives him pleasure! why you might as well tickle the dome of St. Paul's, to please the dean and chapter."

— The present naval force is divided into nine squadrons, as follows:—The North Atlantic, the South Atlantic, the East Gulf, the West Gulf, the Mississippi, the Special West India, the Pacific, the East India and Mediterranean, and the Potomac Flotilla. Seven vessels of the Navy are detached and assigned to special service.

— Not without reason are nations always symbolized as women, for there is something truly feminine in the devotion with which they are willing to give all for and to their ideal man, and the zeal with which they drape some improvised Agamemnon with all the outward shows of royalty from the property-room of imagination.—*N. A. Review.*

— Carlyle calls modern novels, "Tales of adventures which did not occur in God's creation, but only in the waste chambers to be let unfurnished) of certain human heads, and which are part and parcel only of the sum of nothings; which, nevertheless, obtain some temporary remembrance, and lodge extensively, at this epoch of the world, in similar still more unfurnished chambers."

— Joy is one of the greatest panaceas of life. No joy is more healthful or better calculated to prolong life than that which is to be found in domestic happiness, in the company of good and cheerful men, and in contemplating with delight the beauties of Nature.

— The indications now are that Richmond is to be approached by divisions of our army by three different routes. It is probable that Gen. "Baldy" Smith will have command of two army corps, to be organized at Fortress Monroe and pushed up the Peninsula, while the Potomac army keeps Lee occupied in front, and Gen. Burnside attempts the route via Goldsboro, North Carolina.

— A hasty man never wants woe.

LEMUEL B. TOWLE, Epsom, or to
JOSEPH T. GOSS, Hooksett.
Portsmouth, April 12, 1864.

Removal.
The subscriber has removed his EXPRESS OFFICE from S. A. Avery's store to **No. 4 Congress Block**, where he will be pleased to receive orders for the transmission of packages or the transaction of business in Boston or elsewhere. Thanking his friends and patrons for the liberal patronage he has received in the past, he respectfully solicits a continuance.
WILLIAM H. LAWS.
Portsmouth, April 11, 1864.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
—AND—
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.
Immediately beneath the scalp there are very small glands, or, more commonly Roots of the Hair. It is from these glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural color and luxuriance. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair fractured by every passing brush, comes sooner or later the hair begins to fall off, and in many cases, it not arrested, will produce a complete baldness of the scalp.
To restore healthy pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.
In the thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or dark color, it will find properly applied restore the hair to its former appearance and beauty.
The Physiological Hair Regenerator is warranted in all cases to produce the following results:
1. It is not a Dye and will not stain a single particle of the skin or clothing under whatever, and is not the least injurious in its application.
2. It will certainly RESTORE the hair from a gray to a lasting Brown, Auburn, or whatever might have been its original color.
3. It will effectually prevent the hair from falling off; remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.
We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.
HOME TESTIMONY.
BOWDOIN, N. H., Dec. 17, 1863.
Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost *black*. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphtheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.
MANCHESTER, Dec. 20, 1863.
Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT

Boston, Dec. 10, 1863.—1yTuThS

Please Look at This.
EPPING, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor for ever year—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of Dr. Swett's medicines."
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, with a loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CHESLEY, *Lee, May* 31, 1841
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow worse and worse, until she tried using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicines one of the best that can be found for the disease above named." ISRAEL CHESLEY.
☞ Any one returning the remainder of a bottle or book of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Acts of 1836.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, prepared on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patentee inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST INDEX OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me FIFTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**
Boston, Dec. 19, 1863.—3mwly

Portsmouth, N. H.

MONDAY, APRIL 18, 1864.

THE REBELLION.

Gen. Hinks recently made a successful raid into Virginia with a portion of his garrison at Point Lookout, and not only secured a large amount of Richmond tobacco in the hands of blockade runners, but also papers showing how the mail has been carried between Baltimore and the rebel capital.

The rebel conscription is suspended in the 1st Congressional district of North Carolina, and amnesty is offered to all North Carolinians who are or have been in the Federal service.

The rebels in East Kentucky are reported to be retreating. The force that made the attack on Painsville was about 1000 strong. Col. True is pushing forward from Mount Sterling in the direction of Pound Gap, to intercept them.

The Louisville Journal says it has authentic information that the rebels are making preparations for an invasion of that State on a gigantic scale.

Gen. Sherman confirms the surrender of Fort Pillow and the brutal conduct of the rebels. Our loss was 53 white troops killed and 100 wounded, and 300 blacks murdered in cold blood. At Columbus the rebels were promptly repulsed, with no loss on our side.

— A very extensive revival of religion is now in progress at Saco and Biddeford.

— Three young men are on trial in Troy, N. Y., charged with stealing geese.

— The Chicago papers report an active movement of troops, there and thereabouts, but their destination is not divulged.

— A large fleet of vessels sailed from Newburyport on Friday, some of which had been wind-bound for a month.

— The Boston Penny Savings Bank, a South End institution, will go into operation to-day—Monday.

— Three vessels filled with oysters arrived at Boston on Friday, and the lovers of the bivalves were accordingly jubilant.

— Stealing a barrel of whiskey from a store they call a "practical joke," in New Jersey. It may be spirited but probably the owner didn't see the point.

— The Fort Pillow captured is not the Fort of that name at Columbus, Ky., but in Tennessee, 70 miles from Memphis. So says the telegraph.

— A fire in the wool room of the Pacific Mills, Lawrence, Friday morning, caused damage to the reported amount of $20,000 or $30,000.

— The New York Canal Board has resolved, by a tie vote, not to recommend the enlargement of the State canals to gunboat capacity.

— Sir James Brown, who recently died in Liverpool, left some slight consolation to his heirs in the shape of a fortune computed at $35,000,000.

— A dispatch states that the recent great storm of sleet and wind completely flattened out the telegraph line between St John, N. B., and Cape Race: not a half mile of it was left standing.

— It is reported that about 30 members of the detective police force of France, some of them recently from England, and some direct from Paris, have arrived in the United States within ten days.

— The Portland Argus of Saturday says: "The wind is blowing east with a vengeance, it having come from there and thereabouts for the past consecutive twenty-five days."

— A disastrous fire occurred in New Orleans on the night of the 8th inst. The stores of E. A. York, Parsley and Williams, and A. F. Cochrane were burned.—Loss several hundred thousand dollars.

— The Louisiana Free State Convention has completed its organization. It voted—96 to 11—that members shall take the "iron-clad oath," i. e., the oath prescribed by the President's amnesty proclamation.

— The New Orleans Bee of the 7th states that the French occupied Matamoros without a blow, that two regiments had been landed, and all communication with the interior was for the time being interrupted.

— "Saint" Kimball told a traveller that when this war is over, the handful of men left would flee to Utah, and all the women of the nation would go with them, the peculiar institution of Mormonism being thus greatly promoted.

— An Episcopal clergyman near Durham, England, has been handed by the police out of a Methodist New Connexion chapel, having forcibly entered and loudly denounced the worship, it not being under his charge, as sinful.

— Ten vessels this year have been lost from the Gloucester fishing fleet, valued at $46,000. Seventy-eight men perished with them, leaving thirty-one widows and fifty-eight fatherless children. Most of the men were poor, and many of them had other persons than the above-named dependent on them.

NEW HAMPSHIRE ITEMS.

—— Although Belknap County gave a small democratic majority, ten of its seventeen Representatives are Republicans.

—— The Congregationalist, a Boston paper, says that the new President of Dartmouth College has received a gift of $3,700 from his friends in New-York city.

—— Mr. H. W. Hutchins, a travelling agent for a Boston firm, was badly injured in Concord, on Friday afternoon, by leaping from a railroad train when it was in motion.

—— A post-office was opened last week in the Scythe Factory Village, New London, and Frank F. Seamans appointed postmaster. All mail matter should be directed "Scytheville, N. H."

IMPUDENT SWINDLE.—A swindle of a somewhat impudent nature was perpetrated on a resident of Meadville, Pa., at Cincinnati, one day last week. He was standing before the door of one of the Cincinnati banks, just after it had closed for the day, when two genteel looking individuals went to the door and finding it locked, were loud in expressions of disappointment in not being able to get their check for a thousand dollars cashed—in fact, they were ruined unless they could get the money, and only two minutes too late. Our country friend pitied their condition, purchased their check for $940, and learned next morning, on presenting it at the bank, that it was good for "six." Rather a bad sell, this.

ROBBERY.—The Portland Press states that the store of Mr. Luther Fitch in Sebago, Me., was entered last Wednesday night, or early Thursday morning, by means of false keys. They unlocked the safe, and took all the money in it, amounting to about $1150. The money consisted of bills of various banks; one fifty dollar Treasury note and two twenty dollar gold pieces. After re-locking the doors of the safe and the store, the scoundrels decamped with their large plunder.

☞ Mr. Mayo, of the Ohio Legislature, said, a few days since, in debate:—

"I would rather see this Government destroyed than that one single press should be deprived of the liberty of publishing what its editors pleased." Mr. Free, Union member, said that Mr. Mayo's language was an abuse of the liberty of the press, and none but traitors spoke or indorsed such sentiments, when Mayo replied with some insulting epithets, and Mr. Free immediately collared and choked the Copperhead, who was taken out of the House by his friends. Mayo had previously said that "all persons and papers had a right to speak treason, write treason, and act treason."

A handsome octoroon girl on a Mississippi plantation was married eight years ago to a mulatto on the same plantation, and was afterward sold to another planter owing to her master's pecuniary difficulties.—The couple were plainly told that she was intended as the new owner's mistress.—Entreaties only resulted in her husband being savagely beaten, and her being taken away. The wretched girl attempted suicide without success, and had no chance of escape, being ultimately forced to submit to her fate. She had one child by her owner. George, the husband, afterward escaped, and succeeded in getting to Europe on board an English ship. He traveled much there as a servant to families, and a short time since returned to Cleveland.—Meanwhile, on the capture of New Orleans, the woman's owner had fled, and she escaped to Philadelphia, where she has since resided in a family as servant. Having gone to Cleveland a short time since on a visit, she met her long lost husband in the street, and both manifested the most intense joy. Thus after so long and cruel a separation they are happily reunited.

— The editor of the Brunswick Telegraph asserts that the bell on the Pepperell Mill in Biddeford, which is rung at 4 1-2 o'clock on every morning but Sunday, never fails to awaken him! How many miles can that bell be heard under ordinary circumstances, friend Tenney?

—The Springfield Republican has been attached by United States Deputy Marshal Child, with its stock and materials, &c., by Charles R. Train, for himself and R. H. Dana, jr., at the instance of Messrs. Gwin, Haupt, and others, for libel, the damages being laid at $50,000.

— In 1856 Theodore Parker wrote to John P. Hale concerning the Presidential campaign of that year, and in the course of the letter says: "If Buchanan is President, I think the Union does not hold out his four years. It must end in civil war."—How true those words!

— Mr. Zacharia C. Pearson, thrice Mayor and once Sheriff of Hull, who has failed to the amount of £293,902, chiefly in consequence of blockade-running speculations, commenced life as a sailor boy. An English gunmaker named Yeomans has been smashed up by blockade speculations in guns.

— A gentleman in Portland, on Tuesday night, had the bad luck to lose his pocket book containing about $400. He arose early the next morning, followed the streets down from his residence up town, to which he had ridden the evening previous, and had the rare good luck to find the treasure lying undisturbed in the middle of Free Street.

MARRIAGE ON SHORT ACQUAINTANCE. A remarkable Leap Year courtship and marriage came off in the quiet village of Palmyra, N. Y., last week, resulting disastrously to all the parties concerned. It seems that a Miss C. M., a highly respected young lady of 20 years, had been holding a correspondence with a young officer in a military camp in New Jersey—who had sent her an introductory letter vouching for his respectability. Said letter was written by an acquaintance of her's, who also was an officer. Several letters passed, he sending his photograph, and a request for her photograph: all this was very pleasant and honorable. On Monday of last week a young and rather prepossessing young man of about twenty-five years, dressed in military clothing, arrived there, called on the lady and announced himself as her dear correspondent; he was cordially received as such by Miss M. C., notwithstanding the parties failed to discover any similarity of likeness between him and the photograph, but this he explained to her satisfaction by saying it was taken before he went into the service, three years ago. Monday and Tuesday things went on lovingly, and he visited the morning prayer-meetings, sang and spoke, and all were greatly edified thereby. The account he gave of himself was that he had resigned about four months previous, was now a Deputy Provost Marshal, was at Vicksburg when taken prisoner, an inmate of Libby eight months, and was in the Gettysburg fight. On Tuesday night, much against the will of parents and friends, they were married. The next day he began to look after some workmen to paint and paper his new father-in-law's house. His bargain with the painters was fair, showing plenty of greenbacks, and offering to pay down on fulfilment of the contract. He looked at a number of fine residences, but failed to strike a bargain.—In conversation with the clergyman who married them, he stated that he had lost on Main street five hundred dollars, but being a stranger, and having already gained some notoriety, he would not advertise it, "he did not care for the money." He claimed to be the owner of a farm of 200 acres near Elmira. Friday afternoon, Mr. Officer, who had already assumed two or three names, procured a carriage and horses of Mr. Sweeney, of the Eagle, and rode out, but did not, it seems, return as per agreement. In the morning a letter arrived for the bride, which was opened by the parents, and found to be from her true correspondent, the owner of the photograph. This document resulted in sending officers Clark and Howe in pursuit of the team and the deluded bride. At Canandaigua he was arrested and placed in durance vile. The eyes of the late Miss C. M. being opened, she upbraided him for his deceit, and declared she would return home, which she did. The young scamp had to be knocked down before he would yield. To officer Clark he declared he was a deserter from the army, and wished him to call the Provost Marshal, preferring to fall into his hands. Officer Clark deeming it proper to notify the Provost Marshal, did so. During the few minutes' absence, the prisoner had wrenched off his irons and burnt such papers in his possession as he thought proper. He is certainly a most accomplished villain. The affair has caused much excitement. It is due the parents of the misguided young lady to say that they were opposed to the hasty marriage.

NAVAL WARFARE.—The use of fifty pounds of powder as a service charge in the fifteen-inch guns with which the Monitors are equipped, says the U. S. Army and Navy Gazette, has inaugurated a new era in naval warfare. All experiments with guns against iron targets have clearly shown that all attempts to produce a gun to be really effective on iron-clad vessels, except by making them capable of being fired with enormous charges of powder, have been and will be futile. Patent projectiles and ingenious methods of rifling will not crush in the sides of the iron-clad; that wonderful agent, gunpowder, and plenty of it, too, alone can accomplish this.—The engineer may as well attempt to propel a large steamer at high speed without consuming coal in proportion to the result obtained, as for the artillerist to produce the effect he is striving for on the sides of the iron-clad without using enormous charges of powder.

The effect of the four hundred and thirty pound spherical ball fired from the fifteen-inch gun within the impregnable turret of the Weehawken, with a charge of thirty-five pounds, on the sides of the iron-clad Atlanta, is well known. It was the smashing effect of the enormous projectile that carried the day.

When Ericsson designed the Monitor he stated that it was part of his system that guns of large calibre, using enormous charges of powder, should be installed within his impregnable turrets. Now this desirable end has been achieved.

It may be a matter of congratulation to the country, that not only do we possess a whole park of four hundred and thirty pounders, which can be safely fired in service with over fifty pounds of cannon powder, but we also possess impregnable floating gun-carriages on which to mount them.

We observe that although the English have not yet produced a successful heavy gun, they are turning their attention to the construction of mechanism, with which to handle them when brought to such a degree of perfection that their path will not be from the trial ground to the scrap heap; but they are destined in this, as they have been in the other great epochs in Naval warfare, viz: the introduction of horizontal shell firing, and the application of the steam engine to war vessels, to follow, not to lead. They have already copied our cylindrical turrets, and by the time their artillerists have constructed an efficient gun, we can afford to let them copy the mechanism with which we successfully manipulate, in actual warfare, our twenty-ton gun.

— A correspondent of the Hartford Press writes from Arizona that the repeated depredations by Indians upon the stock of the settlers have so aroused the animosity of the latter, that a war of extermination has already begun.

☞ Three negro camp followers have been sentenced to be hung, by the Provost Court of New Orleans, for a brutal double murder committed by them near Port Hudson in January last. The victims were an old man and his son, the former being *beaten to death with a musket!* The young man was shot, and carried away in a helpless state by the black fiends, but a portion of his remains were found in the woods, denuded of flesh by the buzzards, a month later. These murders were in the presence of the old man's wife and daughter, who were robbed of all their money, but whose lives were saved by the arrival of other parties.

☞ A new order, the I. O. K., Coarch Lodge, No. 1, has been established in Portland. Its objects are mutual protection, charity and brotherly love; its principles, temperance, morality and loyalty to the constitution and the laws. It is a plant of Russian extraction, the present Czar being at the head of the order. The Portland Courier says the order is planted in a genial soil, is in a prosperous condition, and will prove a power for good in the land.

☞ Rev. Mr. Harfield, in his description of soldier life, says he saw a camp occupied by a Maine regiment, not far from the headquarters of Gen. Birney, that was really beautiful. The cabins were built of slabs, split from the trees, and hewed so smoothly that they had the appearance of having been planed. The streets were regularly laid out, graded and numbered, and kept in a state of neatness that would shame some of the New York and Brooklyn thoroughfares.

☞ The Portland Advertiser states that Revenue Cutter Dobbin, being on the look out, and seeing a boat grappling for Bohemian goods in Broad Cove, at about 9 o'clock, Friday evening, fired at her, the shot striking a short distance astern. The boat proved to contain four men, one of whom, James Rush, of Bath, was supposed to be so frightened that he commenced bleeding at the lungs, and died in about 20 minutes. He was 55 years of age.

Were we as eloquent as angels, we should please some men, some women, and some children, much more by listening than by talking.

Have Room Papers Advanced in Price, like other things!

J. F. SHORES, Jr.,

No. 1 Congress Block,

Is often asked this question; and would answer that he still sells

ROOM PAPERS at eight cents per roll,
ROOM PAPERS at nine cents per roll,
ROOM PAPERS at ten cents per roll,
ROOM PAPERS at twelve and a half cts. p. roll.

These are not of so good quality as were formerly sold at those prices—still they are very fair.

Twelve and a half Cent Papers have advanced to Seventeen Cents.
Twenty-Five Cent Papers to Thirty Cents.
Thirty-Three Cent Papers to Thirty-Eight Cents.
Fifty Cent Papers to Sixty-Two Cents.
One Dollar Papers to One Dollar and Twelve Cents.
One Dollar and Twenty-Five Cent Papers to One Dollar and Forty-Two Cents.

Common, Velvet, and Velvet and Gold

BORDERS,

HAVE NOT ADVANCED!

GREEN CURTAIN PAPER

Is still sold at the old price.

Thus, FRIENDS and CUSTOMERS, you have an answer to the query above—

Room Papers Have not advanced as other goods have.

☞ Remember, this is the answer of

J. F. SHORES, Jr.,

No. 1 CONGRESS BLOCK,

who has just received from New York a further supply of

ROOM PAPERS AND BORDERS.

400 gallons Maple Syrup, just the article for Buckwheat cakes. For sale by quart or gallon.

Special Notices.

Dissolution of Copartnership.

Notice is hereby given that the copartnership heretofore existing between H. W. BACHMAN and J. WEISKOPF, under the name and style of Portsmouth Vinegar Manufacturing Co., was dissolved March 12, 1864, by giving said Weiskopf due notice.

H. W. BACHMAN.

Portsmouth, April 18, 1864.

THE SOLDIER'S TRUE FRIEND.—For over forty years, Doctor Holloway has been supplying all the armies of Europe with his Pills and Ointment, they having proved themselves the only medicines able to cure the worst cases of dysentery, scurvy, wounds, sores and bruises. Every knapsack should contain them. Only 30 cents per box or pot.

LIFE ASSURANCE.

"A POLICY OF LIFE ASSURANCE is always an EVIDENCE OF PRUDENT FORETHOUGHT; no man with a dependent family is FREE FROM REPROACH if not insured."—LORD LYNDHURST, late Lord Chancellor of England.

"A POLICY OF LIFE ASSURANCE is the CHEAPEST AND SAFEST mode of making a CERTAIN PROVISION FOR ONE'S FAMILY. Many a widow and orphan have had great reason to be grateful that the advantage of LIFE ASSURANCE was understood and embraced by the husband and father."—REV. T. FLARKEIN, 1769.

Send at once to J. P. BARTLETT, Agent for, the MUTUAL LIFE INS. CO., for the Company's documents, which are furnished gratis 5m18

Prize Money.

Officers and Seamen of the Navy, who are entitled to prize money, can have their claims allowed promptly on application to

WILLIAM H. HACKETT,
d14 Market Square.

Coughs and Colds.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily when taken in the early stages of the disease, no course should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them efficiual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires. mh21—1mdaw

---

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

Address JOSEPH T. INMAN,
Station D, Bible House,
mh25—1y8m* New York City.

A Physiological View of Marriage,

Containing nearly 300 pages and 130 fine plates and Engravings of the Anatomy of the Sexual Organs, in a state of Health and Disease; with a Treatise on Self-Abuse, its Deplorable Consequences upon the Mind and Body, with the Author's Plan of Treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful adviser to the married, and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of 25 cents, in stamps or postal currency, by addressing Dr. LA CROIX, No. 31 Maiden Lane, Albany, N. Y. F22—spn8mD&W

E. A. STEVENS'S

House Furnishing Establishment,

NO. 46 MARKET STREET.

Local.

THE BOARD OF ALDERMEN have appointed a special committee, consisting of the Mayor and Ald. Broughton and Rider, to consider the expediency of remodelling Jefferson Hall, (to make rooms in the same, for the city offices, etc.,) and to report the estimated cost, with plans.

The School Committee of District No. 3 have requested that a room be furnished for a school near Sagamore Creek. Referred. John W. Fernald, of Ward 1, and George S. Leach, of Ward 3, have been appointed by the Board to enroll the militia and to collect statistics of the births and the deaths in those wards for the year ending Mar. 31, 1864.

The committee on plans for a Ward Building, &c., in Ward 3, have presented a side elevation and floor plan for the proposed building, which has been adopted, and the committee have been authorized to procure complete plans.

☞ Our City Police on Sunday appeared in their new and attractive uniform, of navy blue cloth,—coat, vest and pants.—The buttons of the coat and vest are of brass, with the initials "P. P." upon them. The coat has twelve buttons in front, six behind, and four on each cuff. The uniforms were manufactured in the best manner by Mr. William P. Walker and Messrs. J. E. Ham & Co., of this city,—and the Police are worthy of much commendation for the public spirit they have manifested.

The City Marshal's office, in the rear of Jefferson Hall, has just been fitted up in a most neat and tasty manner. The room has been newly papered, painted and grained, and a new floor laid. Another room, in the rear of that which has until now been used as the Marshal's office, has been connected with it, and also fitted up. This is designed for the Marshal's especial use, the outer room being intended for the use of all the officers.

TO OFFICERS AND SOLDIERS.—Special instructions from the War Department have been issued for the guidance and warning of soldiers on furlough. All soldiers who overstay their passes even for a short time subject themselves to the charge of being either stragglers or deserters; and all deputy Provost Marshals and Government Agents are especially instructed to arrest such parties, and perform a prompt and faithful discharge of their duties in this respect. The following is an extract from the orders:—

But any officer or private whose health permits him to visit watering places, or places of amusement, or making social visits, *or to walk about the town, city or neighborhood in which he may be*, will be considered *fit for military duty*, and as *evading duty* by absence from his command or ranks."

In such cases the soldier is liable to arrest as a deserter,—and no certificates of a Physician will avail to remove the charge. While a physician giving manifestly improper certificates renders himself liable to charges for *aiding desertion*, and to prosecution for *false swearing*. The duties of the officers in such cases may be unpleasant, but from our knowledge of the Deputy Provosts and Government Agents in this district, we believe they will attempt a faithful performance of the same; hence we have devoted this much space to the subject, for the benefit of those concerned.

☞ In the Book Department of the Mississippi Valley Sanitary Fair there is now being made a collection of American books, containing the autographs of the authors. The committee are desirous that this collection should be as complete as possible, and they have accordingly appealed by letter to many of the writers and editors of books in the East for contributions of their works. Mr. J. H. Head, of this city, received such a request, and has accordingly forwarded one copy of "Home Pastimes," and one copy of "Jewels from the Quarry of the Mind." The books, we presume, will be sold at the Fair for the benefit of the Sanitary Commission.

☞ The trial of the engines of the new gunboat Pontoosuc at Portland has been concluded, and it is said that they were found entirely satisfactory. The steamer will come to the Portsmouth Navy Yard, probably within a fortnight, for her armament.

☞ Prof. Norwood, the Fakir of Wonders, gives his concluding entertainment at the Temple to-night. He is skilful in the performance of his tricks, and the distribution of his 150 gifts makes no end of fun.

☞ All interested will remember that Miss Haskell's new Class in the New Gymnastics commences at the High School hall this evening, precisely at half-past seven o'clock.

After the military funeral on Friday, the battalion marched through the streets of the city to the armory of the Cadets, where a repast was prepared. Their appearance was highly soldierly, and the music by the Portsmouth Cornet Band, by common consent, was of the first order.—*Newburyport Herald.*

☞ Mr. J. H. Foster has Harper's Magazine for May,—promptly issued and as good as it is prompt.

☞ Calcutta advices of Feb. 22 state that at 2 o'clock A. M., 21st, a fire broke out on board the ship North Atlantic, owned by Wm. F. Parrott, Esq., of Boston, lying at the Police Ghat moorings (as before reported). She was laden with jute and saltpetre. How the fire originated has not been discovered; but it appears a fire broke out in the galley the previous day; and a supposition is entertained that it was not extinguished, and worked its way into the hold.

With such a highly inflammable cargo, the difficulty of saving the ship with every available means would of course have been great, but in the absence of any means whatever the thing impossible. The officers and crew soon abandoned the ship to her fate, and within a short time after the discovery of the fire she was in flames from stem to stern. To prevent the ship blowing up by the ignition of the salpetre on board, a battery of Royal Artillery was brought on the wharf, and several shots were fired into her hull in order to scuttle her, which was finally successful. It is expected, however, that the ship is for the most part destroyed.

"THE COURSE OF TRUE LOVE," &c.—The Chicago correspondent of the Philadelphia Inquirer says:

A rather singular amputation was recently performed at Eureka, in this State, by a Chicago Surgeon, singular rather, from its cause. A young lady and a young gentleman became mutually enamored.—The parents of the former were adverse to the match, and forbid the young man the house. As is usual, this opposition only added fuel to the flame, and an elopement was agreed upon. The young lady was to fix upon the time, and inform her lover through a note. She arranged for a night in the first week of March, which turned out intensely cold. She sent her note in due time, and was at the appointed place in proper season. The night was bitterly cold—no lover came. The note had failed to reach him. She remained waiting and watching until five o'clock in the morning. When she returned, both hands were frozen as hard as sticks nearly to the wrist.—They were not properly attended to in season, and the unromantic result has been that amputation of both became necessary at the first joint above the roots of the fingers. But this serious and distressing mishap has not cooled the passions of either. They are now more determined upon marriage than ever, and the parents have given in. They could not hold out against this exhibition of pluck.

MARRIAGES.

In Great Falls, April 11, by John C. Hill, Esq., Mr. PRINEHAR D. HOYT, of this city, to Mrs. MARY A WHITEHOUSE, of Great Falls.

DEATHS.

In Grafton, March 28, Mr. ELEAZER SMITH, aged 92, last survivor of six brothers, whose respective ages were as follows: Shubael 92, Ballok 85, Simon 85, Henry 84, and Simeon 83. The ages of their parents were: Eleazer 97, and his wife, Rebekah 91.

Morning Chronicle.

AN OFFERING FROM SWITZERLAND.—Among the many gifts received for the great Sanitary Fair in New York, the Tribune mentions the following:

"Of all the gifts received for the Fair, perhaps the most touching offering is that given by an Alpine peasant woman in Zurich, Switzerland—a tiny book of pressed Alpine flowers, together with a simple wooden wine cup that formerly belonged to her son, now a soldier in the Union army. On presenting the cup and the little book of flowers, the good old woman took a bottle of red Switzer wine from her pocket, and, filling the cup, handed it to the Consul, and then drank herself, saying, 'Here's a health and a greeting to America; God bless my boy's new fatherland.' 'God bless it,' replied the Consul, 'and Switzerland too.' The old woman thanked him with tears in her eyes, and went away, leaving her boy's cup and the Alpine blossoms behind her."

☞ Judge Niles, of Belleville, Ill., an old Democrat and formerly a Colonel of one of the Illinois regiments, announces himself as a candidate for Congress in the 12th Illinois District. He defines his position thus:—

"I am in favor of unremitting, unflagging and vigorous prosecution of the war for the attainment of peace and permanent Union, and to this end to establish justice. I go for the abolition of slavery and for a grant of absolute freedom beforehand to every human being in the United States, so as to make slavery impossible in the reconstructed Union."

If husband and wife are fast, there is danger in their case as in that of a fast team, that the *coupling* will break.

Single blessedness, like a man's fist, becomes stronger by being doubled.

Gray's Patent Molded Collars

Have now been before the public for nearly a year, and are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticed in all other collars.

There is cannot be puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the wearer.

The Garotte Collar has a smooth and evenly finished edge on BOTH SIDES.

These Collars market simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in the fashionable (or turn-down) style, in every half size from 12 to 18 inches, and in "Eureka" (Garotte) from 13 to 17 inches; and packed in "solid cases" in neat blue cartons, containing 100 each; also in smaller cases of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

☞ EVERY COLLAR is stamped

"Gray's Patent Molded Collar."

Sold by all dealers in Men's Furnishing Goods. The Trade supplied by

HATCH, JOHNSON & CO.,
Importers and Wholesale Dealers in Men's Furnishing Goods and Umbrellas, 81 Devonshire street, Boston. mh11—2awlm

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and to cheerfully invite the investigation of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to the Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition so potent as even to have encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow and tedious process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and (or all hereditary) DISEASES transmitted from PARENTS TO CHILD.

Paralysis,

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life syrup is the only effective means of restoration in the various forms of Paralysis, that we need only refer to it as emphatically the Great Life-Giving Power.

Dyspepsia,

Indigestion, Liver Complaint, Constipation, Heartburn, Sour Stomach, Want of Appetite, Nausea, Bad Breath.

Scrofula,

Sores, Blackened Swellings, Ulcerations, Kings Evil, Rickets, Consumption.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism,

Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its affinities. In a few days the most acute pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of over 20 years standing, have been cured by us.

Nervousness,

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, nervous, debilitated, we will bestow the priceless boon of a Restoration—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases,

Salivation, Feeling of Weariness, Nothing of Resn, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely of the evil effects of Mercury, thus removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It will also (strengthening) Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and opening troublesome, discharging Sores, which dangers so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Ulceration, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The glands in the neck as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly obstinate and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be decidedly reduced without resorting to the knife or operations of any kind.

Rheumatism, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart, Pleurisy, Inflammation of the Lungs, portal organs, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life syrup.

Broken Down and Delicate Constitutions, Suffering from Premature Decay, Pain in the Back, Loss of Memory, Forebodings, Horror of Company, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Pale Wan Emaciated Face, Pale Disagreeable Countenance and Languids of the Nervous System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of Ulcerative Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, extremely has ever proved its equal.

MOTHERS! Ulcerations of the Liver, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, *giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ,* accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, so usually developed in the young, like Disease, Neuralgia, and all Nervous Diseases, and Lateral Curvature, arising from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pale countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay, the remedy is within your reach, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens, when the weakness of the parent, prevents pain and disease, and increases and enriches the blood—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured—It is Universal in its effects.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhoea, and is especially recommended in those cases of Flour Albus or Whites in females where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cooling the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhoea, Gleet, Flour Albus or Whites. Its effects are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain so long experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

☞ Express at our address on receipt of price. Sold by all druggists everywhere.

DR. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

THE GREAT INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Impotency, Seminal Emissions, and all diseases resulting from self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Nervous Irritability, Dyspepsia, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with those on three bottles for $5.

Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the Cherokee Cure will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

DR. WRIGHT'S REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores a broken down power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing dwellers of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression; the individual suffering from general debility, or from weakness in a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

No. 59 Liberty street, New York.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of the best Vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, never fail to do.

They may be safely used at any age and at any period, *except during the last month of pregnancy*, during which the unfailing nature of their action would infallibly procure pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

Sent by mail, postage free, on receipt of price.

Sold by all respectable druggists.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, "producing a current of warm air, moistened and rendered pleasant as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former models, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This difficulty, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cover can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert S. Hatch, Esq.,
Aaron H. Hill,	Charles H. Moulton,
Henry F. Wendell,	John Sise, and others.

REVERDY JOHNSON.—It may be uncivil to talk of ages, yet Mr. Johnson is no longer young. We believe he has been longer familiar with public affairs than any but two or three others in Congress. He never lived in any but a Slave State. He was never a 'fanatic' nor a (technical) 'Abolitionist.' He has belonged to various parties, but never to the Republican of our day. He last supported Douglas for President, and never publicly opposed nor reprobated any of the bold strokes for mastery of the Slave Power. He is a U. S. Senator with several years to serve, and can hardly be suspected of ambitious longings. He is at home in Maryland, naturally one of the most conservative of States. He has never been suspected of humanitarian sentiments or philanthropic zeal beyond knowledge. He is an able lawyer and veteran politician—cool, clear-headed, deliberate, and bent on conserving everything that will bear it.

This man rises in the Senate and calmly announces that Slavery is dead for all purposes but those of mischief and peril, and proposes that the putrefying remains be decently, decisively buried by constitutional amendment, so as to be beyond the hope or fear of resurrection. His reasons are cogent, of course, but the naked fact is most significant. Can it be worth while, in the face of it, to run a Pro-Slavery ticket in the approaching Presidential contest? Is there not some limit to the riding of a dead horse? —*Tribune.*

THE TWO B'S.

Says the Battery to the Bayonet,
With derisive irony,
Slimness of all the blades I've met,
Do you think you are strong?—
Says the Bayonet to the Battery,
"Square up with your elbow joint,
And you'll find that however slim I be
I always carry my Point!"

☞ The following letter, says the *Independance Belge*, was lately handed the pastor of Size-Leraing, who had assembled eight Protestant families for worship in a house at Flome-Grande, in Belgium:

"My Dear Sir—I am forced to call you, setting aside the Gospel, a thief and a scoundrel. You will, no doubt, read this to your congregation. I have nothing for the moment better to say for the welfare of their souls. Receive, my dear Sir, my affections as a brother in Christ. Hanquet, Vicar of Flemale-Grande." This missive was followed by a crowd outside, zealously breaking the windows. The matter has been brought into court by the persecuted congregation.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate sufferers like that have never after introduced them, called to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrid train of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of diseases, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and of a once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, continues to relief fully all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. Be invariably certain in the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had more experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in the city a few days under his treatment.

Dr. Dow, since 1825, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in his profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864.—eodly.

Removal.

The subscriber has removed his EXPRESS OFFICE from S. A. Avery's store to **No. 4 Congress Block**, where he will be pleased to receive orders for the transmission of packages or the transaction of business in Boston or elsewhere. Thanking his friends and patrons for the liberal patronage he has received in the past, he respectfully solicits a continuance.

WILLIAM H. LAWS.

Portsmouth, April 11, 1864.

DR. TEBBETTS' PHYSIOLOGICAL HAIR REGENERATOR AND UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately banish the scalp there are very small Glands, or more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and restore healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Ammonia, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious to the scalp.

2. It will restore STRONG the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all heat, inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on portions of the scalp where, from old age and where the glands have become disorganized.

5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost BLACK. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria, it stopped it immediately on the application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used it about a month. I think one more will fill our heads up in good shape. J. C. CUTTER.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator will do all you claim, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn very short thirteen years ago, and has been gradually increasing for more than ten years, when at out two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, under it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT.

Price - - - - - 75 Cents a Bottle.

A LIBERAL DISCOUNT TO THE TRADE.

Tebbetts Brothers, Proprietors,

PRESTON and THACHER, Agents for Portsmouth.

Boston, Dec 30, 1863.—1yTuThSu

Please Look at This.

RYE, N. H., Feb. 20, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her from her school duties for months. It was very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, Pills, and other medicines, but did not relief. I procured some ten or twelve bottles of DR. SWEET'S PANACEA, and several bottles of his Humor, and with marvelous success. The cure can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Sweet's in removing the scaly blotches of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1852.

I have for several years been afflicted with dizziness and headache, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May 31, 1841*

DR. SWEET: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our neighborhood in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker and more distressed, until your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

N. B. One bottle curing the remainder of a Bottle or box of Dr. Sweet's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

American and Foreign Patents.
H. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continued to receive Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers connected with Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting Five Dollars. Assignments recorded at Washington.
The Agency is not only the largest in New England, but enough it increases its advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE THAN THE SUBSCRIBER; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
He has also access to an extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him also beyond competition, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure patents, or any other business, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in the form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. H. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such uninterrupted proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of receiving the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made out twenty-rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **H. H. EDDY.**

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, APRIL 19, 1864.

THE REBELLION.

Gen. Kilpatrick has been relieved of his command in the Army of the Potomac, to take command of the cavalry in Gen. Sherman's department.

On Thursday Col. Gallup, while falling back to get an advantageous position, attacked 1000 rebels near Shelbyville, Ky., killing and wounding 25, including a rebel Colonel, and capturing 50 prisoners and 100 horses and 200 saddles.

The rebels destroyed Fort Pillow before they abandoned it. An affidavit taken at Cairo declares that the Quartermaster of the 13th Tennessee cavalry was while living nailed to a board by the rebels and thrown into the flames of a burning building at the Fort.

Gen. "Baldy" Smith left Washington for Fortress Monroe on Sunday afternoon.

A large number of colored troops from Annapolis have arrived at Hilton Head, and more are expected there.

According to the Raleigh Progress the people in Western North Carolina have recently hung several Confederate officers and soldiers for attempting to enforce the conscription. The Raleigh Confederate says the election in the State depends upon the success of the rebel armies. If they are successful, Holden will be defeated; if they meet with a repulse, his election as Governor by a large majority is certain. Frequent arrivals of steamers at Wilmington with valuable cargoes are still announced. Railroads in North Carolina are busy transporting rebel troops and supplies. Recruiting for colored troops is going on briskly in Newbern.

FOREIGN.—Advices from Rome confirm the report that apprehensions had been felt for the Pope's life, but he has now recovered.

The Paris Pays speaks of a serious conflict said to have taken place in Jutland between an Austrian and a Prussian regiment.

Vienna papers give positive official denial to the statement that a revolt had been planned among the Hungarian troops in the Austrian army, and that in consequence wholesale executions had taken place.

The transfer of the Ionian Islands to Greece takes place April 28.

Garibaldi arrived at Southampton on the 3d, and was enthusiastically received.

☞ A steamer has arrived at Cairo from Alexandria, on the Red river, with four more guns from Fort De Russy; also two barges, containing 800 bales of cotton are reported to be up the Black and Yazoo rivers. Four U. S. gunboats have gone up these rivers to secure this cotton, and two other gunboats have been ordered to assist them, and ten gunboats are up the Red river. This accounts for but one gunboat being at Fort Pillow at the time the rebels attacked it. The Red river is rising.

LIVING ON HIS LIFE INSURANCE.—The Lewiston Journal says a gentleman in that city some time since got his life insured for $2000. Not long after he went into a decline, and his physicians gave him up. He wished to go to California to die, and proposed to the company that insured his life, to discount $400 on his policy if they would advance. They agreed to the arrangement and paid over to the sick man $1600. The invalid left for California, the change proved beneficial, and if he is not living now, he lived long enough to enjoy the benefits of his own life insurance.

A FRUITLESS EFFORT.—The Washington correspondent of the Boston Advertiser says:

Mr. Garrett Davis's resolution inquiring whether the Secretary of War is unlawfully holding in confinement one William Yokum, a citizen of Kentucky, is based upon the following facts: Yokum, a Government employee in charge of the contrabands at Cairo, Illinois, was tried by a court-martial for selling a freeman into Slavery, convicted and sentenced to five years' imprisonment in the Albany Penitentiary, whither he was sent about two months ago. Since then the whole Kentucky delegation, aided by the prayers and tears of Yokum's wife, have been laboring to secure his pardon, which has not been and will not be granted.

— U. S. Treasurer Spinner is seriously ill.

— President Lincoln has been ill, but was better on Sunday.

— Gold sold for 169 1-4 in New York on Monday afternoon.

— Sutlers and citizens have all left the army of the Potomac, and will not be allowed to return before next autumn.

— Gen. Sherman has been directed to make an immediate and thorough investigation of the Fort Pillow massacre with a view to exact retaliation. Public feeling in Washington as elsewhere is deeply and painfully excited by the butchery. The investigation by the Committee on the Conduct of the War will be made simultaneously with Gen. Sherman's.

NEW HAMPSHIRE ITEMS.

—— Peterborough pays $300 bounty to all its volunteers under the last two calls.

—— They had 18 inches of snow on the ground in Peterborough last week.—more than at any one time during the past winter.

——"Three spears for the cheeker" were called for after one C. C. Burr had wound up at the Town Hall in Rochester during the late canvass.

—— The N. H. Telegraph (Nashua) comes to us much improved in typographical appearance and general make-up. It gives promise of a healthy rejuvenation under the able editorial management of Mr. Moore.

—— The nomination by the President, of Lieut. John K. Cilley, of Exeter, 11th N. H. regiment, to be Assistant Quartermaster, with the rank of Captain, has been confirmed by the U. S. Senate.

—— The News Letter learn that the wife of Jarvis W. Wilson of Exeter committed suicide by drowning on Friday last at Waterville, Me. She had been low spirited for some time.

—— Lebanon, although its quota upon all calls is full, has voted to pay volunteers, veterans, or new recruits $200,—the number being limited to 38. The object is, to be prepared for any future call which may be made.

—— We learn from the Peterborough Transcript that Geo. G. Law's apothecary store at East Jaffrey was broken into one day last week by two rogues named Joslin and Nash. They were seen to enter, and one was caught while in the store; the other jumped through a window and escaped, but was afterwards captured. They were committed to jail.

—— Among the prisoners held by the rebels in Florida are the following members of the 7th N. H. regiment:—

John Lankuen, Patrick Farrar, Isaac James, H. S. Colwell, R. Gaston, Samuel Clenancy, John W. West, Jos. Walsh, Geo. Roberts, John Noden, T. Batle, G. N. Saltelle, Jas. H. Foss, Aaron Elliott, E. A. Downs, L. Woodward, Patrick Mullen, Thos. Carwin.

— A Frenchman named Louis Martin has been arrested in Burlington, Vt., for robbing the contribution box in St. Mary's Church.

— A depraved wretch in Scotland sued his mother, 91 years of age, to recover the amount of her board for a number of years. The case was not entertained by the Courts.

— A fire broke out on Folly Island, S. C., on the 8th inst., destroying a large amount of Quartermaster's stores. The Government loss is $20,000.

— The French now make bonnets out of India rubber, painted to imitate Leghorn braid. India rubber bonnets ought to fit any head.

— When Mr. Chase walked down Wall street on Thursday, gold fell from 89 to 75. The N. Y. Times wishes he would perambulate the street frequently.

— Three gentlemen of Havana have solicited permission to set up an ice manufactory in that city, to be propelled by a steam engine of three horse power.

— Rev. Dr. Dwight has resigned his pastoral charge of the Third Parish Church in Portland, in consequence of ill health. He has been their pastor for thirty-three years.

— The great elm in Springfield, Mass., has been cut down. According to Dr Holmes's measurement in 1837, it was 29 feet and 4 inches in circumference, one foot above the ground.

— The draft has not, as was reported, been postponed, but is to be enforced as soon as the accounts, giving credit on the various quotas for all enlistments up to the 15th inst., can be settled.

— Nassau papers of the 5th inst. state that Mobile, Savannah, Charleston and Wilmington are less rigidly blockaded than ever. They also say that fast steamers are coming in with supplies to the rebels, which promise large profits.

— The testimony before Congress in the Goodyear Patent extension case shows that the Goodyear heirs have nine patents in the United States, forty-seven in Great Britain, sixteen in France, four in Belgium, three in Austria, and two in Holland; making a total of eighty-one patents.

— The new two cent piece looks like gold; a wreath of wheat, surrounding "2 cents," and around which are the words "United States of America," is on one side. The shield of Liberty, and the words "God our Trust," make up the converse side.

— A officer in the army who has paid much attention to the matter, states it as a well ascertained fact, that three-fourths of all the dismissals of officers from the army were caused, directly or indirectly, by the use of whiskey. Many of the resignations of officers have the same origin.

— The Portland Argus states that it is estimated that goods to the value of $100,000 have been taken from the wreck of the Bohemian and the shore in a surreptitious manner, upon which the government loses $20,000 in duties, and the unfortunate owners of the property a still larger amount.

☞ Orion P. Howe, a little drummer boy in the 55th Illinois Vols. has been placed in the Naval School at Newport by the President. Gen. Sherman wrote to the Secretary of War of him saying that at the assault on Vicksburg he came to him at the front, crying out: "Gen. Sherman, send some cartridges to Col. Malmbrog, the men are nearly all out." "What is the matter, my boy?" "They shot me in the leg, Sir; but I can go to the hospital. Send the cartridges right away." Even where we stood the shot fell thick, and I told him to go to the rear at once, I would attend to the cartridges, and off he limped. Just before he disappeared on the hill, he turned and called as loud as he could, "Caliber 54." "I have not seen the lad since, and his colonel (Malmborg), on inquiry, gives me his address as above, and says he is a bright intelligent boy, with a fair preliminary education. What, continues the General, arrested my attention then was—and what renewed my memory of the fact now—is that one so young, carrying a musket ball through his leg, should have found his way to me on that fatal spot, and delivered his message, not forgetting the very important part, even, of the caliber of his musket 54, which you know is an unusual one."

LADY WOODRUFF SOLD.—Lady Woodruff, the fast trotting horse, contributed by Robert Bonner, of the Ledger, to the N. Y. Sanitary Fair, was sold on Thursday afternoon. Mr. Schenck, the auctioneer, stated that the horse was to be sold to the highest bidder, and that inasmuch as the whole proceeds were to go into the Sanitary Fair fund, the committee expected lively bids. He stated that Lady Woodruff is a blood-bay, sixteen and a half hands high, and weighs, in trotting condition, about eleven hundred pounds. She is twelve years old. The first bid was $1500; a quick offer of $1600 followed; finally the mare was knocked down to Mr. R. B. Howard, of Williamsburg, for $1800, who, before he left the stand, sold her to James Irving for $2000. The money was paid down, and the bill of sale made to Mr. Howard.

☞ A Washington dispatch states that the history of the rebel rams building in France is contained in the public diplomatic correspondence, and more accurately than in recent newspaper publications emanating from Paris. Since the President announced in his annual message to Congress that these rams were not allowed to come out, nothing has occurred to induce a belief that the French government will permit them to go into rebel hands for a war against the United States.

IN THE U. S. SENATE, on Saturday, the following resolution was adopted:—

Resolved, That the Committee on the Conduct of the War be instructed to inquire into the truth of the slaughter of the troops at Fort Pillow, and whether Fort Pillow could have been reinforced or evacuated: said Committee to report at as early a day as possible.

Messrs. Howard, Wilson, Johnson, Conness and Grimes spoke in favor of retaliation, man for man or two for one.

The gold bill was passed, by a vote of 23 to 13.

— A Port Royal paper of the 14th reports the capture of the sidewheel blockade runner Alliance on the 12th, near Dafuskie Island in the Savannah river, where she ran aground. All but six of the crew were taken prisoners. She was from Nassau with a cargo of assorted stores for the rebel government, valued at $85.000. She was built on the Clyde and has three smoke stacks.

Coughs and Colds.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily when taken in the early stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, for the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires. mh21—1mdaw

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it. *Free of Charge.*

GYMNASTICS.—*Mr. Chronicle*:—Nothing, for years, has so stirred up our community, both in mind and body, as have Gymnastics for the past three months; and as it is usual, in some places, to inquire for the antecedents of persons and things before *accepting* them, it may not be ill-timed to try to ascertain if these are new, and if, as some say, those who are introducing them are breaking down the *old* barriers, and wasting time on what has never been, and is wholly useless. Why, no, friends, the most conservative must allow that they have all the sanction of antiquity, that long before the year one, in the early days of Greece, in the Homeric period, even, they were sung, and, we doubt not, practised; and later, the divine Plato and Aristotle taught in the Gymnasia of classic Greece. The armor worn by the warriors of those days rendered it necessary that the greatest amount of physical strength should be cultivated; and as it was both useful and desirable it came to be Deified, and every effort was used to perfect it. The youth of both sexes were trained to it from their very early years. The State officers were obliged to see that all the young were trained to them, commencing with the light and easy, and going on to the most severe and trying; such as in these days we do not even dream of. We were told this winter that the name of Greece was a synonym for grace: if that be true, we need not look for older or higher authority on which to rest our humble efforts.

In these days, in Germany—the pioneer in all educational movements—and, in fact, in all Europe they are considered as one of the necessaries of life. There is an effort now making to raise them on a par with Medical Science. Any one who will consider how much the suffering and well being of mind and body depend on each other, must allow that we shall be better men and women, other things being equal, if we do not cultivate the one, at the expense of the other. History tell us, that the queens and ladies of courts are put through even a military drill, in order to acquire firmness and dignity of carriage.

The system of Gymnastics meets often with rebuffs from mothers, who say their daughters can take exercise enough with the broom and other implements in their service, and that they do not need more.—This is not quite true, for this system exercises *every* muscle; whereas if a girl works hard at home, she uses some unduely and others not enough, and so is likely to induce a lack of symmetry; but if they are trained in Gymnastics, they are equal to almost any amount of labor they may be required to perform at home. Physicians say that they are an antidote to indolence and luxurious living. God be praised for them in our Schools.

The cry has been that our girls are not fit for anything but books when they come out of school, and even our own Grace Greenwood flung it at us, that the women of this day had no *back-bones*. She told of a besieged city where the women were allowed to go out and take all they could on their backs, but the men must take the chances of war. But, lo! at the appointed time, the women were seen going out with their husbands, fathers and brothers on their backs. She thought that, were those terms granted to our cities, the men must all perish alone, or else the women must stay and die with them. We know not what the chances of war may be, but let us be prepared for them. There is no greater term of reproach than to say of a person he is mean or small in disposition or intellect, and I think it is not too much to say, that we never expect to find either deficiency in a fine, well-developed body; and the timeis at hand when a puny, contracted body will at least excite our pity. There is another application to those words, to which so many of our exercises apply. "We are marching along." Yes, we *are* marching along with giant strides. Let us go on till we perfect ourselves into the fulness of the stature of perfect men and women.

☞ Acting Ensign Alfred S. Laighton, U. S. N., is stationed on board the new U. S. steam gunboat Chenango, at New York, which on Friday afternoon, while proceeding to sea burst her port boiler, killing one man, and horribly scalding 32 others, among them three officers of the Engineer Department. The Chenango was sadly shattered, and was towed to the Navy Yard for repairs. The unfortunate sufferers were transferred to the U. S. Naval Hospital, where everything possible was done for their relief; but seventeen of the sufferers have already died of their injuries, and twelve others are not expected to live. A dispatch from Mr. Laighton received on Friday announced that he was uninjured.

☞ The new U. S. steamer Agawam sailed from the Portsmouth Navy Yard on Wednesday morning, for Portland, Me., where it is hoped she will be able to fill up her crew.

☞ Ship Morning Glory, of 1114 tons, built at this port in 1855, has been sold in London for £7800, cash.

RUNAWAY BOY.—A young gentleman on Monday applied to Capt. Wiggin to be enlisted in the 7th N. H. Regiment. His youthful appearance caused the Captain to suspect something wrong, and he was turned over to Detective Kent, who ascertained that the boy was only 14 years of age and had absconded from his parents' house in one of the northern towns of the district.—His parents were telegraphed to, and officer Joy sent the lad home the same night.

DESERTERS.—Four deserters were taken on Monday by the Provost Marshal's Deputies and were last evening forwarded in charge of a guard to the Head Quarters at Concord. Another is waiting further identification having already proved to have belonged to two different regiments.

☞ Subscribers to the stock of the Second National Bank in this city will remember that their subscriptions are payable today,—Tuesday, at the store of Mr. George L. Treadwell. See advertisement.

S. J. COURT, Exeter.—The Grand Jury reported 13 indictments. The following arraignments were made on Friday:

John Kilroy, aggravated assault upon John Norton at Portsmouth—plea not guilty.

John E. Johnson, stealing one pair of boots from J. C. Carr, Portsmouth—plea not guilty—retracted and pleaded nol. con. Sentence to five days in County Jail, fined $5 and costs, and ordered to pay $10 to J C. Carr.

Peltiah Moulton for stealing one bushel of beans and one bushel of rye, from Robert Manson of Newington. Plea not guilty—retracted and pleaded nol. con. Sentenced to seven days in County Jail, fined $4 and costs, and to pay $13.50 to Robert Manson.

Julia A. Weeks for keeping house of ill fame,—Plea not guilty.

On Friday the Court adjourned to Monday. The indications are that the term will close this week.

RAILROAD DAMAGED.—The Mirror states that about twenty feet of the track of the Portsmouth Railroad washed out Friday afternoon, near Manchester. It was caused by a water course getting filled by the earth falling in, causing the water to take another course through a cattle guard, which was washed out. A temporary bridge was thrown across the break, and the train arrived at Manchester about nine o'clock in the evening, two hours late.

— The issue of gold certificates has been discontinued by order of Secretary Chase, and duties are collected in coin as heretofore.

— In some of the interior counties of Missouri notice has been served on returned rebels who have taken the oath of amnesty to quit the country within five days, on pain of death.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence which will be stored, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING COUGH, all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

For sale by all Wholesale and Retail Dealers.

JOHN L. HUNNEWELL, Proprietor,
Practical Chemist, Boston, Mass.

LOST—On Friday morning April 15th, a LEATHER BAG, containing a pocket book with a small sum of money, Lady's head-dress, and package of dress trimming. The finder will be suitably rewarded on leaving the same at the Chronicle Office.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared. Much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

For sale at the
House Furnishing Establishment,
46 Market street. E. A. STEVENS.

Special Notice.

The subscriber respectfully gives notice to his patrons that all accounts, however small, will be presented for payment on the first of July next; and interest will be charged on all demands remaining unpaid after that time.

Terms Cash, hereafter, unless special agreement be made to the contrary.

This course is rendered necessary by the enormous rise in prices, and the general abandonment of the credit system by manufacturers of goods in his line.

A VERY LARGE STOCK OF

HOUSE FURNISHING GOODS,

Bought wholly for cash, is offered to the public at a slight advance above present wholesale prices.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house; his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We said blow a stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

MOULTON & BLAISDELL.

ASSESSMENT OF TAXES.

The present year blanks have been prepared and generally distributed in the city, that every one who wishes may return his property taxable. This has been done, that there may be less occasion to make alterations after tax bills are issued. Those who do not make return of their inventories in April, can claim no abatement, however large the sum they may have been doomed. The law is plain and explicit.

SEC. 4. All persons liable to be taxed in such town shall exhibit to the selectmen, at the time & place appointed by them, or upon such personal application, a true account of the polls and estate for which they are there taxable, either in their own right or otherwise, on oath if required by either of the selectmen, which oath either of the selectmen may administer.

SEC. 5. If any person shall neglect or refuse after due notice given as aforesaid, or when called upon by any selectman, to give such account, the selectmen shall set down to such person, by way of doomage, as much as they judge equitable, which shall be conclusive in all cases, unless the party shall show by his statement under oath, that it was not in his power to exhibit such statement.

Inventory.

There is a particular necessity for having not a dollar more assessed this year than is properly taxable, as, on the return of the assessment which the city must make to the Secretary of State by the 15th of May, together with the inventory of last year, will be based, for the next four years, the proportion which our city must bear of the State tax.

If those who have invested their funds in National Stocks, do not report the same to the Assessors, they must not complain for being taxed for cash on hand.

No appeal to a County Court can be made for any grievance of being over taxed, unless an attested inventory has been seasonably returned in April.—*Journal.*

The new Territory of *Montana*, (a part of Idaho, which was a part of the immense North Western country included in Nebraska,) is established 29 against 6 in the Senate. The word "white" (inhabitants) was stricken out. Present population 24,000 and increasing. Two hundred wagons a day, loaded with adventurers to the rich Idaho mines, are said to pass a given point West. We are to have one or two new States this session, and a progeny of Territories. The noted Saulsbury, the Senator from Delaware, (who was not expelled, pleading that he must have been drunk when his offensive conduct occurred,) spoke on the 31st against the joint resolution prohibiting slavery; and Davis of Kentucky, (another of the not expelled) moved to amend that "no negro or person whose mother or grandmother is or was a negro, shall be eligible to any office, civil or military. No vote, but the amendment will be of course rejected. The "E. S." feel bad.

AMENDMENT OF THE CONSTITUTION, ABOLISHING SLAVERY.—On Friday last, the proposed Constitutional amendment, abolishing slavery, forever, in all the States and Territories of the Union, passed the Senate by a vote of 38 against 6, in the following words:

Be it resolved, by the Senate and House of Representatives of the United States of America, in Congress assembled, two-thirds of both Houses concurring, that the following article be proposed to the Legislatures of the several States, which, when ratified by three-fourths of said Legislatures, shall be valid to all intents and purposes, as a part of the said Constitution, namely:

ARTICLE XIII, SECTION 1. Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.

SECTION 2. Congress shall have power to enforce this article by appropriate legislation.

It now remains to be seen whether the House of Representatives will ratify the action of the Senate. Then the Legislatures of the different States, or State Conventions, as Congress may decide, will be called upon to pronounce as to the amendment of the Constitution. This they must do by a vote of three-fourths of their number in order to make the action valid.—*Salem Gazette.*

THE MATERIAL FOR SOLDIERS.

The following we extract from a letter received in this city from an attendant in one of the hospitals near Washington.

Are all the men at the north dead, that you are sending down the boys to fight the battles of the country? The new regiments which are coming into the field, or the new recruits for old regiments contain a percentage of boys which ought to startle the people, and lead them to pay more attention to what is being done in the recruiting offices. What are men thinking of, when they let boys of 15 and 16 years enlist as soldiers? How can a little fellow of fifteen or under, carry the gun and knapsack, and march the 15 to 20 miles a day, which will break down the strongest men faster and more hopelessly than the guns of the battle field?

Where is the conscience or the humanity, of the officer who enlists, or the surgeon who passes such children? But pending over the heads of those who impose upon the country, what an insult to the flag! Those boys are not fit for soldiers: only in rare exceptions can they do a soldier's duty. The country calls for 200,000 men: we send her boys, who after the first few weeks go straight to the hospital, and they there till discharged, as they all must be, sooner or later. In this one hospital there are at present between 70 and 80 boys under 18, many of them under 15: making at least ten per cent. of all the patients here. Most of them are new recruits: of all the regiments ever sent here the 30th Maine bears the palm for youthfulness. One would think that the recruiting officers of that regiment had visited the public schools, and filled their quota from the classes there. It is not probable these boys will ever go into the field: all who live will be discharged as unfit for service; one has already been so, by especial order from Mrs. Lincoln. Is our sister state well repaid for the bounty of between $400 and $500 which most or all of these valuable recruits received before leaving the state?

Some of these little fellows show good spirit, and would willingly remain in their regiments and tough it out if possible. "Pan not homesick a bit" said one little white haired boy 14 years old, while the tears ran down his cheeks in spite of all his efforts. "Are the men in your state all dead?" asked the doctor indignantly, of another, 16 years old, just recovering from an attack of pneumonia. "No," was the answer, with a flash of the eye—"but they won't come. But just let me get over this, and I shall be able to do my duty." As a general thing however, two or three months of army life, has made them long to be at home again. "I never should be good for much at a charge, even if I get well"—said one, 14 years old. Poor thing! a charge at football or at "tag" would be much more suitable to his years than the battle cry, and the clash of steel.

No! let this rebellion be put down—let it be fought out to the bitter end—but let it be done by the men and not by the *children.*

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D.,

Graduate College Physicians and Surgeons, N. Y.

formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York state Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel in the history of Medicine.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered from long, painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as bitter as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others think that permanency, must think that diseases can only be cured by the slow recuperative process of Nature.? This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired) filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritic], Neuralgia, Gout, Lumbago, Sciatica, The Dolorous

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly allayed—numbness and stiffness are relieved, and cures effected, in 10 or 20 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thought, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they heard of CONSTITUTION LIFE SYRUP, and cheerfully add their testimony to the wonderful cures effected by it. Particularly to weak, suffering women will this medicine prove an inestimable blessing—directing their sickness to a Hope which fails not to them it promises.

Mercurial Diseases

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Dependence on Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the foul breath, and curing the Weak Limbs and Shattered Nerves, which only the Iodide of Potassium is curse to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases from the Skin, for instance

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing suppuration, and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution, these cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia Debility, or Chlorosis (or Green Sickness) and the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be used when first the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Liver Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Liver Complaint, Sympathetic or Organic Diseases of the Heart (as palpitation, Disease of Valves—producing a grating or other unnatural sound of the heart) Dropsy, all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be speedily relieved. Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Sleeplessness, Horror of Company, Fear of Disease, Melancholy Frames, Dry Hot Skin, Languid Countenance, Want of Sleep, Nervous Fear, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of Ulcerative Diseases, either of the Nose, Throat, Tongue, Spine, Forehead or mouth, Constitution Life Syrup is a specific.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very adjacent to the Uterine Organs. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an impaired or unsecreting condition of that organ, accompanied by Costiveness, or a variety of other symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, so usually developed in the young, Hip Disease, Curvature, Weak Nervous Dames, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup the Great Remedy for all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and premature decay are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering incident to childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Friend of Man, Woman, Friend and the Rich, Mind Relaxing!—Buy it, take it, and be cured—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Gleet, Strictures, &c. &c. and is especially recommended in those cases of Fluor Albus (or Whites to females) where all the old numerous nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an auxiliary assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and detersive; removing all scalding, heat, chordee and pain, leaving the urinary and sexual organs in a tender pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

DR. W. R. MERWIN & CO., Sole Proprietors,

No. 59 Liberty street, New York.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An enfeebling cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Dyspepsia on the Face, Pale Countenance, Insanity, Consumption, and all diseases that generally lead to an premature grave by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used for many years, and with thousands it has not failed in a single instance. Its curative powers have been sufficient to gain every one of the cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we say, *Despair not*. The CHEROKEE CURE will restore you to health and vigor, and while all quack doctors have failed.

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. W. R. MERWIN & CO., Sole Proprietors,

No. 59 Liberty street, New York.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of modern times.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

A few doses restore the nervous system.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing, devoted victim of excess.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heariness, Fatigue on slight exertion, Palpitation of the Heart, Tremblings, Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute a healthy for a morbid one, when properly used, they never fail to do.

They may be safely used at any age and at any period, except during the first three months, during which the unfailing nature of their action would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

Sent by mail, postage free, on receipt of price.

Sold by all respectable druggists.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the shovelling of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

MAGEE COOK.

Also on hand an assortment of the different sizes of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, that is not disagreeable and is more of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce choking and suffocation, so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former inventions, while many proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of the air which is required for fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney pipe red hot, and wasting the heat.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire will be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert E. Hatch, Esq.,
Aaron H. Mills,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

ESTABLISHED 1852. PORTSMOUTH, N. H. WEDNESDAY, APRIL 20, 1864. VOL. XXIV. No. 93.

The Chronicle.

MALIGNITY OF SOUTHERN TREASON.—There are some people who still affect to believe that the rebels are "willing, if they have done wrong, to be forgiven." The Copperheads are always asserting that "the fratricidal war" can be stopped by negotiation with the leaders. We extract from the Richmond Dispatch of the 19th inst. the following difficulties in the way of reconstruction, on any basis that peace Democrats might propose:

No one, however, knows better than Abraham Lincoln that any terms he might offer the Southern people which contemplate their restoration to his bloody and brutal government would be rejected with scorn and execration. If, instead of devoting to death our President and military and civil officers he had proposed to make Jeff. Davis his successor, Lee Commander-in-Chief of the Yankee armies, and our domestic institutions not only recognized at home, but readopted in the Free States, provided the South would once more enter the Yankee Union, there is not a man, woman, or child in the Confederacy who would not spit upon any terms, with a nation of robbers and murderers. The miscreants, whose atrocities in this war have caused the whole civilized world to shudder, must keep henceforth their distance. They shall not be our masters, and we would not have them for our slaves.

Prof. Johnston was one day lecturing before the students on mineralogy. He had before him a number of specimens of various sorts to illustrate the subject, when a roguish student, for sport, slily slipped a piece of brick among the stones. The professor was taking up the stones, one after the other, and naming them. "This," he said, "is a piece of granite; this is felspar," &c. Presently he came to the brick-bat. Without betraying any surprise, or even changing the tone of his voice, "This," he said, holding it up, "is a piece of impudence."

MARRIED AND DIVORCED.—Jo Silver and Mary Courtland, of Gorham's Corner, got married four days since; both got drunk and quarreled so bad Sunday that police officer Burnham was called, who immediately granted a divorce, upon which Jo took his duds, declaring he had enough of Married life, and shipped in a vessel for a foreign port.—*Portland Argus.*

FROM THE
LONDON DOCKS.
Having been appointed by **John & Robert Dunster**, the great Wine Merchants of LONDON, as their Agent in the **United States and British Provinces**, for the bottling and sale of their celebrated
LONDON DOCK GIN,
LONDON DOCK BRANDY,
LONDON DOCK PORT WINE,
LONDON DOCK SHERRY WINE,
the subscriber would now offer to
TOWN AGENTS, DRUGGISTS, GROCERS and FAMILIES,
THESE justly celebrated SPIRITS and WINES.
☞ They are put up in cases of one dozen bottles each, and will be sold at very low prices, to enable all who are desirous of obtaining
Genuine Liquors and Wines
to purchase a good article at a reasonable price.
☞ They are sold here in Bond to the trade, in bottles only, with the Agent's name on each bottle, to prevent counterfeiting.
Sample Bottles will be sent by Express, so that parties may test the quality, if desired.

PRESTON and THACHER, Agents for Portsmouth.
Boston, Dec. 10, 1863.—1yTuThS

THE IMMENSE POPULARITY OF THE
California Wines
Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage
American Industry.
The Surgeon General of the United States, after an analysis of our Wines, reports them to be PURE.
Dr. Charles T. Jackson, State Assayer, who is the most unbiased authority, after an analysis of our Port Wine, says:—"The fluid ounce leaves fifty-four grains of solid matter, consisting WHOLLY of fixed alkaline principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."
The Boston Traveller says:—"The California White or Hock Wine rivals in flavor the best of Hock Wines, and costs much less."
The Saturday Evening Gazette says:—"The White Wine is equal to the Stein or light wines which we import, with a fine and rich flavor, and we believe its purity unquestionable."
Hon. John G. Downey, Lieut. Governor of California, says:—"I most cheerfully recommend your Wines to all who desire a pure juice of the grape."
The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."
The Boston Transcript says:—"The White Wine is equal to the best Hock."
The New Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."
CALIFORNIA WINES,
BEARING THE LABEL OF
PERKINS, STERN & CO.,
WILL BE FOUND
FOR THE SICK CHAMBER,
COMMUNION PURPOSES,
OR FAMILY USE,
THE PUREST, THE CHEAPEST, THE BEST
WINE IN THE MARKET.
Let Americans Support American Industry.
For sale at THACHER'S. mh30—WS2m

Teacher of Piano Forte, Organ, Thorough Bass and Singing.
Having made arrangements to be in this city one day each week—SATURDAY—is prepared to receive a limited number of pupils in any of the above named branches. Any information may be had by calling upon W. N. ISELEY, Exp., Market street. Portsmouth, March 1, 1864.

FERTILIZERS,
Trees, Vines,
Shrubs,
Vegetable and Flower Seeds.
J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.
The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an immediate start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.
On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grain and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.
For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.
We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.
Price $1.50 per Barrel.
Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—
Thomas Wentworth & Co., Dover.
Jeremy Perkins, "
Colbath & Danford, "
John Martin, Great Falls.
George L. Whitehouse, Farmington.
O. F. Globe & Co., Oxford.
Moses Merrill, East Ossipee.
Joseph E. Gilman, Union.
John Trefethen, "
Zebediah Sargent, Rochester.
J. S. & E. Bennett, Newmarket.

J. L. Rundlett, Epping.
W. N. Dow, West Epping.
C. W. Greenleaf & Co., North Berwick.
G. W. Snow & Co., " "
Lloyd's Nitrogenized
Superphosphate of Lime.
The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " (6 ca O P O 5)	11.5
Organic matter	31.
Sulphate of lime	38.
Alkaline of salts	8.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia.
The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.
A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.
It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 4, 9, 15. In other words, the Soluble Phosphates are worth 4½ times and Ammonia 3 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.
Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is equal to any Superphosphate.
The sample for analysis, I selected from the entire stock which was prepared for the market.
N. P. HILL.
BROWN UNIVERSITY, Jan. 23, 1864.
This lime is sold in barrels containing about 275 lbs. Price Three Cents per lb., by the barrel, or Twenty-five Pounds for One Dollar.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in constant intercourse with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of speedy and rapid cure, to be obtained at no other office in America.
In Stricture, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Venereal Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their manhood, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured hundreds, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable, and are happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under sealed by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vedder's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsuspected, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid these pills. For directions see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, APRIL 20, 1864.

THE REBELLION.

All the women nurses have been sent away from the Army of the Potomac, the sutlers are clearing out on the run, and the sick are coming up hourly. The army seems to be stripping for the great fight of the war.

Gen. C. C. Washburn, of Wisconsin, relives Gen. Hurlburt, in command of the Department of West Tennessee, and the latter is ordered to report a Washington.

The N. Y. Times' Washington dispatch has a report that Gen. Gilmore will be recalled from Charleston and ordered to service elsewhere. Gen. Hatch is mentioned as successor to Gen. Gilmore.

The N. Y. Herald's, Alexandria and Washington dispatches state that Gen. Grant will appoint Gen. McClellan to a command in the army of the Potomac.

Messrs. Wade and Gooch, of the Committee on the Conduct of the War, have left for Cairo to take evidence in relation to the massacre at Fort Pillow.

The report of the loss of the rebel torpedo boat David, when it sunk the Housatonic at Charleston, is confirmed.

A new rumor is, that Gen. Butler will supersede Gen. Dix at New York, and that Gen. Fremont will have the Department of the South, including all the colored troops.

☞ Green, the Malden murderer, was taken to Lowell, for trial, on Tuesday. He maintained his usual indifference on departure, remarking that he was "going to change his boarding place," and was going "to find out whether he'd got to have his neck stretched or not." He was arraigned and pleaded guilty of murder in the first degree, a plea of guilty in the second degree not being accepted by the government. The Attorney General gave notice that he should move for sentence on Monday next, and the prisoner was remanded to jail until that time.

— Californians say Gen. Halleck has or will resign and return to San Francisco.

— The oldest member of Congress is Thaddens Stevens, aged 72. The youngest is James A Garfield, who is 32.

— Two boys, one 10 and the other 6 years of age, were fined in Portland on Saturday for stealing two padlocks.

— The U. S. House of Representatives, on Monday, voted to hold evening sessions hereafter. The National Bank or currency bill was passed—88 to 63.

— The illness of U. S. Treasurer Spinner compelled him to be absent from his post on Saturday,—the first day since the war commenced.

— Queen Victoria is economical from principle. It is said that she even has her bonnets cleaned when they get "shabby," instead of buying new ones.

— The Newburyport Herald wonders how it would do for Congress to compel the old bachelors to support the orphan children of the men who die in defence of the country!

—Two boys attempted on Monday morning to set fire to a building in Newburyport, but were detected and arrested. The building was situated near numerous barns and wooden structures.

— Lord Lifford, in a letter to the London Times, says he knows of an able-bodied man in Ireland, the father of a family, who receives but £3 10s and his oatmeal food as his wages for six months.

— The church in De Reyter, New York, has recently decided, by solemn vote, that the raising of hops is "detrimental to the welfare of man, and prejudicial to the cause of Christ."

— On Friday and Saturday, the 8th and 9th, and Monday the 11th, three vessels of 140 tons each, and one of 100 tons, were launched at Essex, Mass., two of them for Provincetown and two for Gloucester.

— The Lindell Hotel, in St. Louis, is the largest hotel in the United States. It is seven stories high, exclusive of basement; its height from sidewalk to cornice is 112 feet. There are 32 miles of bell-wire in the house.

— It was admitted in a recent debate in the House of Commons that during the last ten years Ireland has lost two and a half millions of its population, and that the exodus is still going on at the rate of one hundred and twenty thousand per annum.

— A proposal was recently made by a lady of Turin to present Garibaldi with a gold ring on his saint's day. This was to be done in church before a congregation of ladies, when the Host was elevated. But Garibaldi, on hearing of the singular and rather sacrilegious ovation, declined it.

— The Maryland Sanitary Fair, at Baltimore, opened on Monday night, the inauguration ceremonies being very imposing.—President Lincoln made a brief address, and was warmly applauded, especially when he declared the Government's determination to visit retribution for the barbarous deeds of the rebels.

NEW HAMPSHIRE ITEMS.

—— The voice of the frog was heard in Manchester on Friday evening for the first time this season, and the swallows made their appearance on Saturday.

—— Mr. Enoch Hurd, of Newport, while returning from his wood lot with a loaded team, dropped dead on Tuesday, April 12. He was 46 years of age.

—— Mrs. Mary Hanson, of Farmington, has reached the advanced age of ninety-six years, but reads without spectacles and is as busy with her knitting-needles as in former days.

—— The item that there was a lack of operatives in the Manchester mills has caused so many to go there, from Maine, the Canadas, Vermont and western New York, that now there is a surplus.

—— At the dedication of a new public hall in a town in this State a few years ago considerable amusement was excited among the audience by the fact that just when a speaker was becoming most eloquent in his praises of the "admirable method of ventilation" which had been adopted by the building committee, a lady fainted from the effects of the "closeness" of the air, and was carried from the room.

—— Jacob Hoyt, Esq., the oldest native born citizen of Concord, died at his residence in that city on Sunday morning last, at the ripe old age of ninety-two years and one month. He had always resided in Concord, where he was universally esteemed for his integrity and uprightness. Under the town organization of Concord he held many positions of trust and responsibility.—In 1842 he was a member of the State Legislature. An older brother of the deceased was one of the first citizens of Concord who volunteered under Stark in the Revolution and fought with him at Bennington.

—— The Manchester Mirror gives the following account of the present "military situation" at Concord:

Capt. William Silver, U. S. A., is Provost Marshal General of the State and Superintendent of Volunteer Recruiting Service. Col. D. K. Wardwell, of the Veteran Reserve Corps, commands the Draft Rendezvous. Maj. J. H. Whittlesey, U. S. A., in addition to his duties as Chief Mustering and Disbursing Officer, resumes the duties of Military Commander. Capt. Charles Holmes, U. S. A., who has been on duty at this station since August, 1862, and during the past year performed the duties of Disbursing Officer, continues in the same position. Capt. Samuel Dana, 17th U. S. Infantry, is Acting Assistant Quartermaster. Capt. Alfred Norton, U. S. Vols., is Commissary. First Lieut. J. F. McQuesten, 2d U. S. Cavalry, is Mustering Officer at General Recruiting Rendezvous for the State and for the Cavalry.

The Officers and men belonging to Regiments in the field, who have been on duty in Concord, are being returned to their Regiments and Companies as fast as their places are filled from the Veteran Reserve Corps.

How to Keep Prices Down.—Until our enormous importations are checked, gold must continue to go up, and incalculable distress will thereby be inflicted upon those to whom a rise of ten or twenty per cent. in articles of prime necessity is a matter of most serious moment. The *ladies* have it in their power to check this tendency and to strengthen the hands of the Government. Instead of spending their money on articles for which gold has to be sent out of the country, let them loan every surplus fifty dollars to the public treasury, that treason may have new cause to despair, and patriotism new reason to hope.

Upon all loyal men and women our government calls to subscribe to the National loan of two hundred millions of dollars, now pressingly needed to pay our armies. This new loan is called a "Ten-Forty"—that is, it is payable after ten and within forty years, at the pleasure of the government. You pay your subscription in greenbacks, and receive your principal and five per cent. interest in coin. If any of our securities against the destruction of property and the disorganization of society are good, then is the security for this loan ample. Unless everything goes by the board, your money thus invested will be safe.

Let our ladies, instead of vieing with one another in dress, commence a generous emulation as to who shall do most to have the new loan taken. You can take as little as fifty dollars, if you can spare no more. We have recommended, and still recommend, a league against extravagance in dress, because combined efforts in a work of this kind are always the most effectual. There must be organization and concerted action if the ladies would do their part in this hour of their country's need.

The women have exerted themselves nobly to alleviate suffering and to minister to the needs of the wounded. Let them now show that they can even sacrifice their taste for the beautiful—the aggrandizement of their own personal attractions by dress—the charms of fashionable display—for the sake of averting the imminent dangers of their country, alleviating the alarm and distress among the poor, and contributing, even more liberally than heretofore, to the general welfare.—*Boston Transcript.*

☞ The Herald's Havana letter contains a report that the pirate Florida is at Remedios. Several Union vessels are said to have gone in pursuit. The steamer Belle, from Mobile, was summoned to surrender and fired into by the U. S. steamer Marigold, when within four hundred or five hundred yards of the Moro Castle. A claim for damages will be sent on to Washington by the Cuban Government.

— A new Union paper has been started in Louisville, Ky.

The Fort Pillow Massacre.—President Lincoln on Monday evening made an address at the opening of the Maryland Sanitary Fair, in Baltimore in which he referred at some length to the recent barbarous massacre of wounded negro soldiers by the rebels after the surrender of Fort Pillow, which is now so deeply agitating the minds of the people all over the country.—The dispatches furnish a summary of his remarks, as follows:

Many supposed the Government did not intend to do its duty in regard to the protection of these colored soldiers. He desired to say that all such were mistaken. When the question of employing colored men as soldiers was left to the Government, it rested very much with himself whether he should make soldiers of them or not. He pondered the matter carefully, and when he became convinced that it was a duty to employ them, he did not hesitate. He stood before the American people responsible for the act—responsible before the Christian world—responsible for it he should stand in the eye of the historian—responsible for it he stood before God—and he did not shrink from the decision he had made, for he believed it was right.—But when Government determined to make soldiers of these colored people he thought it only just that they should have the same protection as the white soldiers, and he hesitated not to declare that the Government would so protect them to the utmost of its power.

Whenever a clear, authenticated case should be made out retribution would follow. It had hitherto been difficult to ascertain with that certainty which should govern a decision in a matter so serious. But in the affair at Fort Pillow he thought they were likely to find a clear case. The Government had no direct evidence to confirm the reports in existence relative to the massacre, but he feared that the facts as related were true. When the Government does know the facts from official sources, and they substantiate the reports, retribution will be surely given.

But how retribution should be administered was a question still to be settled. Would it be right to take the life of prisoners in Washington, in Fort Delaware or elsewhere in retaliation for acts in which they had not shared? Would it be right to take a prisoner captured, say at Vicksburg, and shoot him for acts of which he was not guilty, and which, it probably will be found, were the ordering of only a few individuals, or possibly of only one man?

The President reiterated the declaration that the Government would not fail to visit retribution when the acts were clearly proven.

Gold Gambling.—The Wall street sharks are sporting with the life-blood of the people of the whole country, by inflating prices, and making the necessaries of living rise day after day, until the cost of every thing has become frightful, and no one can tell where this nefarious game is to end.

If those people who sneer at the plans of Secretary Chase, would do something themselves to diminish the great difference which now exists between gold and paper money, let them turn their attention to the concoction of some measure for putting a stop to the gambling and speculation in gold which now rages among the Wall street brokers. In about all civilized countries of any importance, it is forbidden by law to trade in the coin of the realm, and that should be the case in the United States. Such restrictive enactments have been found healthful and necessary, and there is no reason why they should not be established here, and it is a wonder that the subject has not been introduced into Congress before now. Why should these gold gamblers, many of whom have no capital at all, except their own native brass, be permitted to play such antics in their "coal-hole," as the den of this band of sharpers is called? The gold even, which they pretend to buy and sell daily, never changes hands. They "settle up the differences" — the amount of fluctuation to which they can subject the market every twenty-four hours, and the transaction is at an end.

The trade in lottery tickets, and even advertising the sale of them, is forbidden by law, under stringent provisions. But the buying and selling of lottery chances is a trivial vice in comparison with gambling in coin at such a time as the present. Adventuring in lotteries in a monomania which has been, without doubt, a source of some evil, but the evil has been individual and not general. A clerk may be infected with the mania, and to satisfy it may make free with the contents of his employer's till,—a trader may spend the money which belongs to his creditors in this unprofitable and hazardous folly, or the family man may lay out his income in these bubbles, when he should carry his earnings home. All these are affairs of limited extent, and their evil influences spread over but a small space of ground.

But the gambler in gold is the enemy of the whole country. He stakes nothing himself, while his game is ruinous to thousands and hundreds of thousands of the people, who should be protected in some way from the effects of his nefarious pursuit.—It is a pity that those who are are so ready to cry out against every relief measure which may be suggested by the Government, and to predict its failure, could not turn their minds to some plan for crushing this monstrous evil. So long as these coal-hole gentlemen play their cards so as to ruin each other by "bulling" or "bearing" worthless stocks, they are emphatically harmless. No one minds how many "lame ducks" are obliged to waddle off 'change.—But when their operations have the effect which is now experienced in the entire community, they become Ishmaelites indeed, with their hand against every man, and every man's hand should be against them, until they or their business is extirpated.—"*F.*" *in Boston Transcript.*

— Quite a number of the 30th Massachusetts regiment have had the small pox since their return North, and some have died—seven from one company.

Politics in Rhode Island. — The Providence Journal is jubilant over the result of the special election in that city, last week, for one Senator and twelve Representatives to the General Assembly. The Hart ticket, that was supported by the Journal, made a handsome gain from the preceding trial, and succeeded by about 60 majority. This probably secures the return of Mr. Anthony to the U. S. Senate. Extraordinary bitterness has characterized the canvass for these members of the Rhode Island Legislature, as its personal complexion (Gov. Smith or Senator Anthony) depended upon the men chosen in Providence. The Press was the Republican organ of the opposition to the ticket headed by Mr. Hart. That paper told the Journal, before the election, to "whistle away, to keep up your courage, for you are certainly going through a grave yard." The Journal after the election retorts, that it "did pass that way and took note of the names on the tombstones. There were thirteen of them, and singularly enough they were the same names which had been conspicuously displayed at the figure head of the Press."

[From the New York Tribune, April 16th, 1864.]

Special Notice to Wounded Soldiers.

The County of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective War Claim Association, No. 55 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented to this office.

Prize Money.

Officers and Seamen of the Navy, who are entitled to prize money, can have their claims allowed promptly on application to WILLIAM H. HACKETT, d14 Market Square.

Special Notice.

The subscriber respectfully gives notice to his patrons that all accounts, however small, will be presented for payment on the first of July next; and interest will be charged on all demands remaining unpaid after that time.

Terms Cash, hereafter, unless special agreement be made to the contrary.

This course is rendered necessary by the enormous rise in prices, and the general abandonment of the credit system by manufacturers of goods in his line.

A VERY LARGE STOCK OF

HOUSE FURNISHING GOODS,

Bought wholly for cash, is offered to the public at a slight advance above present wholesale prices.

E. A. STEVENS,
46 Market Street.

Portsmouth, April 12, 1864.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said "something was wrong at their house;" his father and himself had wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Coughs and Colds.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often set speedily when taken in the early stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires. mh21—1mdaw

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

Y. **Batchelor's New Tetint Cream** for Dressing the Hair. jan23eplydaw

THE CONFESSIONS AND EXPERIENCE OF AN INVALID.

Published for the benefit, and as a warning and A CAUTION TO YOUNG MEN who suffer from Nervous Debility, Premature Decay of Manhood, etc., supplying at the same time THE MEANS OF SELF CURE. By one who has cured himself after being put to great expense and injury through medical humbug and quackery.

By enclosing a post paid addressed envelope, single copies may be had of the author.

Address NATHANIEL MAYNARD, Esq.,
lawly mar20 Bedford Kings County, N.Y.

Local.

☞ Col. J. W. Robinson, of Concord, the New Hampshire Telegraph King, was in town on Tuesday, on business connected with the proposed new line between this city and Manchester. The line, which will connect with that from Manchester to Concord, will undoubtedly prove of great advantage to the business men of all three cities—to our own city especially during the sessions of the legislature. Col. Robinson proposes to extend the line from this city to the Navy Yard.

☞ The U. S. gunboat Agawam, from the Portsmouth Navy Yard, arrived at Portland on Monday afternoon. The Advertiser states that her officers speak in high terms of her good qualities. They pronounce her a good sea-boat, easily handled, and quite fast, making 12 knots an hour with ease. She carries a battery of guns—two 100-pounders, four 9-inch Dahlgrens, and four long range howitzers, besides a plentiful supply of small arms.

☞ Mr. Edward Chase, recently keeper of a public house in Alfred, Me., has leased and is about to become landlord of the Union House at Kittery,— Navy Yard village. So says the Saco Democrat.

☞ The Carter Zouave Troupe and Young Female Brass Band appear at the Temple to-night. Their exhibition is somewhat novel and peculiar; and they have been well spoken of by the press in the cities which they have visited. See advertisement.

☞ The Boston Advertiser's reflective man has been cogitating in an interested manner upon the two *P's*, and finally has come to a decision which is much more creditable to him as a man of discernment and penetration, than is that which several of the boys have settled upon here.

S. J. COURT, April Term—Monday, April 18.—No. 106. Charles Young v. Geo. Thompson et al., was opened to the Jury, but before the Deft. closed, the case was taken from the jury and transferred on a question of Law. Hackett for plf.; Goodall for deft.

State v. John Kilroy, for an assault on John Norton, was then tried: the jury had not agreed when the Court adjourned.

EASTERN RAILROAD.—The success that has attended the recent enterprise of running four through trains a day from Portsmouth, fully demonstrates how much the public desire such extra early accommodation. By first train from Portsmouth passengers from Rye and Hampton Beaches arrive at State street before nine o'clock.

The Ocean House at Rye Beach, destroyed by fire some two years since, has been rebuilt on an enlarged scale—facing the sea. Most of the cottages and boarding-house apartments are engaged for the season. The good roads and fine drives through the rich farming country around Rye, render it one of the most desirable locations of sea-side and country resort.

A steamer is being built at Portsmouth to run regularly to the Shoals, thereby avoiding the former dependence upon wind and weather. The Railroad Company furnish all the accommodation that could be desired for family and pleasure travel along the shore; but for the benefit of those families sojourning along the line of the road who desire to make frequent trips, an extra inducement should be offered of a further reduction on package tickets, which, of course, would improve the receipts of the company, as well as favor its patrons.—*Boston Transcript.*

☞ The extraordinary rise in gold on Thursday is now said to have been a scheme of some Philadelphia brokers, who telegraphed simultaneously to their correspondents in New York, to purchase fifty thousand dollars of gold without limit as to price, but limiting the time to ten minutes after receiving instructions. The effect was instantaneous. The gamblers pocketed $100,000 apiece.

☞ Daniel M. Cotton, of Biddeford, was brought before a U. S. Commissioner in Portland, on Monday, on a charge of uttering a United States Treasury note, (greenback) altered from a two to fifty-dollars, waived an examination, and was ordered to recognize, with sureties, in the sum of $3500 for his appearance at the U. S. Circuit Court. Failing in bail, he was committed.

—Strawberries, raised under glass, were sold in Boston on Tuesday for six cents apiece.

—The stock market in New York was still unsettled on Tuesday, and there has been a great decline in the leading stocks. Gold went as low as 165, but rose to 168 1-4 a 169.

—The insurgents in St. Domingo attempted to capture the temporary fieldworks at Puerto Plata, recently, but were repulsed with heavy loss, leaving two hundred dead on the field. The Spanish loss, was three killed and twenty-five wounded.

—A Chattanooga letter says that while the rebels held Lookout Mountain they made sleeping places of flat stones in sheltered places. Some would hold fifteen or twenty persons. In these paved couches huge fires were built. The wood consumed, the coals and ashes were raked out, and on warm stoney beds the shivering soldiers disposed themselves for sleep.

☞ See the great Sale of damaged dry goods, at Portland.

A "CITY" AFLOAT!—The steamship "City of Cork," from Liverpool, 19th, and Queenstown, 21st, arrived here this morning, (April 2.)—*N. Y. Home Journal.*

Did the announcement require an exclamation point? Why shouldn't a City of Cork float?

—Edward Jeffries, convicted of fraud, was sentenced in Boston on Tuesday to two years' imprisonment.

—Although in one of the school districts of Newbury, Mass., there is but one child within the ages prescribed by law, still, as in duty bound, the Committee hire a teacher who makes her school room and boarding place in the house of the grandparents of the child.

It was a negro who once gave this toast: "De late Gubernor ob de State—him come in wid berry little opposition, him go out wid none at all."

PARADOXICAL.—Many expedients are very inexpedient.

Facts are often ugly things, but falsehoods are always uglier.

A fellow that doesn't benefit the world by his life, does it by his death.

NEW TRIUMPH FOR THE NITROUS OXYD.

Another test has been successfully applied that further establishes the benefit of the Nitrous Oxyd as an aid to science. On Monday, Drs. Flagg & Osgood, at 25 Tremont street, Boston, administered the oxyd to a lady of Boston, who was afflicted with a large tumor in the back part of the head, and while under its influence the tumor was taken out by Dr. O. S. Saunders, in the most successful manner, the sufferer feeling no pain whatever, and experiencing no inconvenience from the operation. She was kept under the influence of the gas for about five minutes, was entirely unconscious, and awakened from her trance as readily as though she had merely inhaled the gas for extracting a tooth. There were several present as spectators who expressed the greatest satisfaction at the result. This new experiment is a valuable one, fixing as it does the fact of the availability of the oxyd for surgical uses. We are informed that it has been used by Drs. Flagg & Osgood in dentistry over 2700 times, without a failure; a proof of the purity of their gas and their skill in its employment.—*Boston Journal.*

In giving the above article publicity, we are pleased to add that our own city of Portsmouth is not a whit behind the times in this, at least one good thing. Dr. A. P. STEVENS, No. 5 Daniel street, informs us that several weeks ago he administered Nitrous Oxyd to a patient of Dr. N. L. Folsom, for the removal of a large and very firmly seated piece of steel from the eye. The whole operation was a complete success, the patient not experiencing the least pain. What adds to the merit of the case is the fact that ether had been tried, before attempting the gas, without the least success. Dr. STEVENS desires us to say that—having a most complete apparatus for manufacturing chemically pure Nitrous Oxyd, and having had six months' practical experience in its use (he being the first to introduce the gas to the citizens of Portsmouth)—he would offer it to the public as a safe and desirable anæsthetic for all minor operations in surgery and for the painless extraction of teeth. SPEER'S SAMBUCI WINE.

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT.

For Physicians' Use.

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS FREE OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by entire physicians, used in Europe and America in dropsies, and by some of the first families in Europe and America.

As a DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Physicians and Physicists as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, imparting the appetite, and benefitting ladies and children.

A LADIES' WINE, because it without mixtures with other wines, is free from the use of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians who have tried the Wine.

Gen. W. Scott, U. S. A. Dr. ..., Newark.
Gov. Morgan, N. Y. State Dr. Wilson, 11th St., N. Y.
Dr. Parker, N. Y. City Dr. Dougherty, Newark
Dr. J. R. Chilton, " Dr. Parish, Phila.
Drs. Darcy and Nicholl, Newark, N. J.

☞ None genuine without the signature of "ALFRED SPEER" Passaic, N. J. on over the cork of each bottle.

GOLDEN SHEAF WHISKEY.

THE DISTINCTIVE FEATURES OF GOLDEN SHEAF WHISKEY ARE—

Pure Ingredients,
Careful Distillation,
Delicate Flavor,
Uniform Character.

IT CONTAINS IN A CONCENTRATED FORM THE DISTILLED JUICES OF

WHEAT, RYE AND CORN.

Free from all deleterious substances.

Possessing these qualities, it has become a standard article, and is highly recommended by Chemists, Physicians and Consumers.

Golden Sheaf Whiskey

is the refined distillation of the most carefully selected WHEAT, RYE and CORN, and combines NUTRITIVE, MEDICINAL AND RECUPERATIVE properties which render it deservedly popular as a perfectly Pure Spirituous Liquor.

This celebrated Whiskey is put up by the subscriber in cases, containing one dozen bottles each, and offered to the Trade by his Travelling Agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or send their orders for any quantity required to the General Depot for its sale,

91 Washington Street, Boston.

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

Removal.

The subscriber has removed his EXPRESS OFFICE from No. 5 Avery's store to No. 4 Congress Block, where he will be happy to receive orders for the transmission of packages or the transaction of business in Boston or elsewhere. Thanking his friends and patrons for the liberal patronage he has received in the past, he respectfully solicits a continuance.

WILLIAM H. LAWS.

Portsmouth, April 11, 1864.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may them almost incredible, is that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cases which have so practiced at the present day.

Our medicine is peculiar, but in the cure of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as lamentable as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanency and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

Disease is a violent or lingering process, which is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the disease. The object of our remedy is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all Chronic and Long DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life syrup is the only effective means of restoration to health of persons with Paralysis, that we need not reiterate that it is emphatically the Great Life-giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced, and cases, chronic for years, of 10 or 20 years standing, have been cured by it.

Nervousness.

Nervous Debility, Convulsion of Childhood, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands have suffered from Nervous Debility, which has dragged them down to premature graves. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weakness, Rotting of Bones, Pain in Bones, Rheumatic Pains, Decrepitude Spots, &c.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the bad breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both male and female, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken on the swelling to be reduced, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the prettiest features of the human face, from six to twenty years of age. Young children are very subject to Discharges from the ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of this Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, of the Head or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will effectually reduce. It should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Uterus, Tumors on the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operation of the surgeon.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart, Palpitation, Disease of Valves—producing Dropsy, Shortness of Breath, Pain in the Heart Case and all the affections of this important organ, or persons suffering from any acute pain in any part of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indigestion or Exertion, Pain in the Back, Loss of Memory, Forebodings, Horror of Darkness, Dizziness, Weakness of the Limbs, Pain in Side and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Languishing of the Muscular System, are the best cases for the use of the CONSTITUTION LIFE SYRUP.

For all forms of Ulcerative Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Neck, Scrofula, Ulcerated Sore Legs, &c.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unsightly, and should be removed. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is disagreeable to the sight.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an uneasy sensation of fullness after eating, which are accompanied with burning or other uneasy sensations, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *It is a powerful Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the Hip, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Both should resort to and use the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women, and if the constitution is neglected in youth, disease and early death are the result. Do not delay when the means are so near at hand, and within reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the constipated habit so common to females. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the blood, so that they have need to think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured—It is Universal in its effects.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, all diseases of the urinary organs, such as Inflammations of the Urine, Inflammations of the Bladder, Inflammations of the Kidneys, Stone in the Bladder, Gravel, Brick Dust, Gonorrhea, and is deservedly recommended in those cases of Fluor Albus or Whites in females where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhoea, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and diuretic*; removing all scalding, heat, chordee and pain, formed of the burning and almost intolerable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION, the various medicines at the same time all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

DR. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Pimples on the Face, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the painful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

No. 59 Liberty street, New York.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of impotency.
A few doses cure the low spirited.
One bottle restores a sickly person.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and languishing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or those who require a stimulant, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and will in all cases be the effect resulting from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate. Their function being to establish strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly *prevent* pregnancy.

All letters for information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

Sent by mail, postage free, on receipt of price.

Sold by all respectable druggists.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the shovelling in of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense or re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

J. Woodman Moses, John R. Holbrook, George Billbrook, Frank Jones, George L. Treadwell, Henry L. Richards, John H. Piper, John Warburton, Asel Quimby, Louis Green, Robert King, George B. French, John W. White, Phillip Woods, James Shaw, Mrs. Mary Jones, James Pender, J. B. Upham, G. C. Dodge, Kittredge Sheldon, Albert F. Merrill, John Teague, William R. Martin, William Carriage, Mrs. John Lake, Michael Walch, B. F. Martin, James Bowles, Samuel Hall, Tobias Ham, Ira Dixon, Thomas Houes, William Laws, Charles A. Hodgdon, John Moulton, William Critchley, Charles H. Rollins, Samuel Gookin, Oren Braggdon, Marcellus Eldredge, Martin L. Trumbly, Peter Page, Alfred C. Trafton, C. C. Jackson, Nathan Jones, Samuel W. French, Alt. ut Chamberlain, John H. Wells, Oliver C. Ferguson, Jeremiah Sanborn, Charles H. Mendum, Aaron Akerman, William D. Jenkins, Moses Goodrich, George Sheldon, Charlie Walker, Thomas Littlefield, Washington Freeman, Charles H. Downs, William Alton, Mrs. Samuel Frye, John Sutter, Daniel H. Green, Robert H. Green, William C. Merrill, Thomas S. Nowell, Nathan Dame, William P. Walker, Michael Cunningham.

Kittery.

York.

Capt. Solomon Brooks, Alonzo Lane.

Newcastle.

Howard Curtis, Thomas J. Mervin, Capt. James Davidson, Capt. T. B. Oliver, Thomas J. Tarlton.

Portland, Me.

F. H. Sawyer, Moses Morell.

Albert Blaisdell, *Greenland.*
J. H. Robinson, *Epping.*
Isaac Joy, *South Berwick.*
Capt. Ira Andrews, *Biddeford, Me.*

And the hosts of others who are using them.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of heat generated, through the chimney, the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

THE SONG OF THE PRINTER.

Pick and click
Goes the type in the stick,
As the printer stands at his case;
His eye glance quick, and his fingers pick
The type at a rapid pace;
And one by one on the letters go,
Words are piled up steady and slow—
Steady and slow,
But still they grow,
And words of fire they soon will glow;

Wonderful words, that without a sound
Traverse the earth to its utmost bound;
Words that shall make
The tyrant quake,
And the fetters of the enslaved shall break;
Words that can crumble an army's might,
Or treble its strength in a righteous fight.—
Yet the writer who lays his leaden rod dumb,
As he puts them in place with finger and thumb;
But the printer smiles,
And his work beguiles
By chanting a song as the letters he piles,
With pick and click
Like the world's chronometer, tick! tick! tick!

O, where is the man with such simple tools
Can govern the world like I?
With a leaden rod and a leaden stick,
And a little leaden die;
With paper of white and ink of black,
I support the Right and the Wrong attack.

Say, where is he, or who may he be,
That can rival this printer's power?
To no monarchs that lift to the wall doth he give—
Their sway lasts only an hour;
While the printer still grows, and God only knows
When his might shall cease to lower!

— Hunters are said to have met with an animal shaped as a lion, but spotted like the Bengal tiger, in the Boise River Region, I. T. Old Adams describes such a creature as having been seen by him in the region north of Salt Lake City.

DR. TEBBETTS' PHYSIOLOGICAL HAIR REGENERATOR
—AND—
UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and nourished. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off and in many cases, it not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will certainly restore the hair from a gray to a beautiful Brown, Auburn, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Dandruff and Humor and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate Itching and neuralgia of the scalp, and being highly perfumed, it effuses a most delicious fragrance to the hair.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was almost white and now it is almost *black*. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and a brilliant new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good style. J. P. COLBY.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution in the hitherto Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most agreeable Hair Dressing I have prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when at out two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT

Price — 75 Cents a Bottle.
A LIBERAL DISCOUNT TO THE TRADE.

TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ;
LODI CO.'S
IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The economy and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it with small cheap tools or weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of disease. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.50 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

G. W. Snow & Co.,

Lloyd's Nitrogenized Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O5)	17.2
Soluble " " (ca O P O5)	11.5
Organic matter	51.
Sulphate of lime	28.
Alkaline salts	3.
Insoluble matter	3.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia. The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, Insoluble Phosphate are worth 2 times and Ammonia 8 times as much as Soluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative value of these three ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The sample for analysis was taken from the entire stock which was prepared for the market.

N. P. HILL.
BROWN UNIVERSITY, Jan. 28, 1864.

This lime is sold in barrels containing about 275 lbs. Price Three Cents per lb., by the barrel, or Twenty-Five Pounds for One Dollar.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to the treatment of a particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the World) of obtaining Medicines as well as the latest remedies for those diseases, offer inducements to the unfortunate of a quick and permanent cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement and Secretions, Nocturnal Emissions, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Affections of the Kidneys and Bladder, Impotence, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN!

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their manhood, thus depriving themselves of the pleasure of the Married Life, are warned that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader of correspondence, where the delicacy of the subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price $1.25. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in Postage or postage stamps, inclosed, will secure a copy, by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Lahoi's Italian Female Monthly Pills. The sale of more than 50,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid these pills. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, the price per box, these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 9 P. M. and on Sundays from 9 to 2 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, APRIL 21, 1864.

THE REBELLION.

On the 4th inst. our forces captured a rebel mail carrier near Cockrell's Bluff, Ark., with 500 letters from Richmond and other points, and 60,000 percussion caps for Price's army. The letters contained official communications for Shreveport and a considerable sum of Federal money.

Richmond papers report that 200 members of a Georgia rebel brigade at Bristol, Tenn., being dissatisfied with their rations, made an attack with stones on the store of the commissary and plundered it. The provost guard fired on them, killing one and wounding five or six. The rest escaped with their plunder, but a number have since been arrested.

The Red river expedition was repulsed on the 8th, by a largely superior force of rebels, near Shreveport, losing it is said 2000, and all the guns of the Chicago Mercantile Battery. The advance portion of our troops were so far demoralized by a panic of the cavalry that the retreat became a rout, but the 19th Army corps, with 7000 men, came up, checked the enemy, and held them at bay until we got off all our trains except that of the cavalry. The whole army, on the 10th, was falling back to Grand Ecore, where it must wait to reorganize before proceeding further towards Shreveport. Gen. Stone, of Bull's Bluff fame, Chief of Gen. Banks' staff, was on the field and took direction of movements.—Gen. Ransom was wounded in the leg.

Adm. Farragut is reported by the rebels to be preparing to attack Mobile with six monitors.

A dispatch from Cottlesburg, Ky., dated 19th, says Hodge's rebel brigade attacked Col. Gillespie's force at Pointsville on Tuesday, 12th, but was repulsed. Gillespie pursued the retreating rebels with 800 men, and surprised them on the 14th inst., in camp at Wolf Mountain, capturing 80 prisoners, 200 horses, 400 saddles, 800 stand of small arms and all their camp equipage.—Eighty-five rebels were killed and wounded. A large amount of stolen property was recovered and returned to the citizens. A rebel wagon train was also captured and burnt. Our loss was one killed and four wounded. The rebels were commanded by Cols. Clay, Prentice, May and Johnson. Col. Clay is among the prisoners.

Later accounts from Red river state: the day after the repulse of our troops the rebels attacked them and were handsomely whipped. Loss heavy on both sides. Private letters say that we captured 2000 prisoners and 20 cannon.

Information has been received of the presence of a considerable rebel cavalry force near Leesburg, and measures have been taken to check their advance should they attempt it.

It is reported that Gen. Grant has decided to send to the front such men of the Invalid Corps as are able to bear arms, and return to their homes those disabled from active service in the field. Doubtful

Gen. Grant reviewed the 6th corps on Monday, and also the reserve artillery, 2d army corps and the 3d division of cavalry on Tuesday.

A rebel dispatch from Mobile 13th, reports great battles between Kirby Smith and Gen. Banks, in which Banks was defeated with a loss of 14,000 (?) men killed, wounded and captured.

— Gold 167. 1-4 in New York, at 2 o'clock, Wednesday P. M.

— A coal mine—first-class cannel—has been discovered near San Francisco.

— The N. Y. Tribune learns that a visit by Garibaldi to our country is highly probable.

— Sheep in the vicinity of Brandon, Vt., are dying by scores of the disease known as grub in the head.

— The cradle in which Rufus Choate was rocked has been given to the Baltimore Fair.

— The bounties stolen from recruits at a single office in New York city are said to exceed $400,000.

— The iron-clad Galena has been stripped of her plating and she is now nothing more than a common wooden gunboat.

— Fears are expressed that the Senate Postal Committee will defeat the Money Order bill passed by the House.

— The Japanese Ambassadors thought it was very disgusting for butchers to expose raw meat in the shops in England.

— The Philadelphia North American says the demand for diamonds has increased until it assumes nearly the dimensions of a mania.

— A special election is to be held in the fifth Congressional district of Illinois, on the seventh of May next, to fill the vacancy occasioned by the death of Mr. Lovejoy.

— The President has approved the act extending for two years the time within which the States and Territories may accept the grants of land donated for the establishment of Colleges for the benefit of Agriculture and the Mechanic Arts.

NEW HAMPSHIRE ITEMS.

—— The Lebanon Free Press, after the first of May, is to be sent to no person unless advance payment is made.

—— Rev. Mr. Earle, the celebrated revival preacher, is holding large and interesting meetings in Concord.

—— Bartlett Hill, Esq., proposes to give the town of Laconia, two acres of valuable land, being formerly a part of the Lyford estate, and very pleasantly located, provided the town will erect upon the same a suitable building for a High School or Academy.

—— The city of Concord is considering the feasibility of buying all the land and buildings between Park and Central Streets, for the purpose of extending the State House lot, and erecting thereon a new Capitol.

—— The First New Hampshire Cavalry, now organizing in Concord, six hundred and fifty men, without arms or horses, has received a second and imperative order to proceed to Washington. They will probably leave on Saturday morning.

—— The Grand Jury, at the present term of the S. J. Court at Concord, found 21 indictments, viz: two against the selectmen of Henniker, and one against those of Northfield, for erasing names from the check list; one for fornication; three for adultery; two for assault with intend to kill; one for assault; and twenty-one for liquor selling.

—— Rev. H. H. Hartwell will go to California in about two months. He has been besieged by friends wishing his photograph, and finds it expensive. At Claremont he furnished 356, and now says he will be very happy to send a copy to any friend who will send him twenty-five cents in a letter.

☞ We learn from the Mirror that Mr. S. S. Hubbard, who is engaged in purchasing timber for the Portsmouth Navy Yard, on Friday afternoon last met with quite an adventure, on Canal Street, at the upper part of Manchester. He had been having some timber loaded on the cars on the side track, and while sitting in his carriage a passenger train came along, frightening his horse, which immediately turned to the side of the street and sprang with the carriage and all plump into a small pond of water, a dozen feet deep and with no protection around it. The horse sank from sight, but soon arose with the forward wheels attached and with Mr. Hubbard, who had been thrown on the animal's back, clinging to the saddle of the harness. The horse swam ashore, but finding the bank steep he turned, swam across to the other side and regained the shore. Mr. Hubbard was somewhat bruised and does not care to go through the same operation again.

☞ The Public Library of Newburyport is one of the most cherished institutions of that city. It has outgrown its limited accommodations at the City Hall, and efforts to obtain funds for a Library Building have met with such success that the edifice will soon be erected. The sum of sixteen thousand dollars has already been obtained for this object, about one half of which amount has been subscribed by natives of Newburyport resident in Boston. The Newburyport Herald says: "The Tracy House on State street has been purchased by E. S. Mosely, Esq., of Colonel Jeremiah Colman and Mr. William Ashby, for six thousand dollars, for the site of the Public Library Building. It is the best location in town and very cheap. Colonel Colman has been a proprietor of the house thirty-four years."

BRUTAL ASSAULT.—The Lewiston Journal reports a probably fatal assault upon a young man, a student in Norway Academy, by Joseph Yeaton of Norway, Me., on Friday last. Yeaton with his brother and father attempted to crowd into the Academy Lyceum meeting without tickets of admission, and being resisted by the door-keeper and a fellow student, Yeaton dealt a blow at the latter with a slung shot, crushing the skull, and it is feared inflicting mortal injury. The slung shot used was a piece of iron 2 1-2 pounds in weight, in a woman's stocking. Yeaton, after committing the deed, immediately decamped and has not since been heard from. The selectmen of Norway offer a reward of $200 for his apprehension. The father and other son have been arrested and committed to jail.

☞ Early on Wednesday morning a building in Lowell, Mass., occupied by carpenters, door, sash and makers, &c., and known as the Wamesit Steam Mill, was burned. The mills were erected ten years ago, and were owned by the mechanics who occupied them. They cost about $30,000; but the loss must largely exceed that amount, and is probably not less than $40,000 or $50,000. There was very little insurance. A large number of mechanics are thrown out of employment by this disaster.

— The Naval Investigating Committee have nearly concluded their labors. The report of the majority will, it is said, exonerate the department, while Senator Hale will probably make a minority report on the corruption in making contracts.

OUR N. Y. CORRESPONDENT OUT WEST.

NIAGARA FALLS, Apr. 11, 1864.

Dear Chronicle:—

Many of my readers have no doubt been before me, in my rambles around the Falls to day,—many have not. To the former, a sketch of them will recall the incidents of their own experience in the hours pleasantly passed here;—to the latter it will bring some fresh items of interest.

I cannot recall a day of more complete enjoyment and enthusiastic admiration than that which I have just spent in going over, round, through, and almost into Niagara Falls.

It was considerably after eight o'clock when two solitary travellers,—one driving the horse, and the other seated in the carriage as comfortably as his natural love of ease (when made allowable by a temporary relief from business) could suggest, might have been seen, slowly wending their way toward the "Suspension Bridge." (I notice that I write—slowly—for that is a part of the movement. You pay so much per hour, and one sees a little the slowest horse harnessed to a little the hardest running buggy that he ever gets opportunity to look at in this world.)

I started to see the Falls, first, by regular routine—afterward, to examine them in detail, according to my fancy.

The Suspension Bridge is two and a half miles below the Falls. It is a magnificent structure, an immense and wonderful affair, but it looks better,—more grand—in the school geographies, than it does over Niagara River. It is two stories, that is, has two compact floors; the cars run over the upper, and the carriage way is over the lower. It is 800 feet long, and cost half a million.

Just below the bridge are the rapids, which run at a fearful rate. Over there the steamer "Maid of the Mist", which used to ply below the Falls, was carried by three men, for service in the lake. They went three miles in about five minutes. For the privilege of going into Canada and back, (or, as they call it here, Europe) over the bridge, the fare is, for carriages 63 cts., for foot passengers two shillings.

During the ride up, on the Canada side, many fine views unfold. The precipitous banks of the river, the miniature cataracts contributing to its stream, with an occasional glimpse of the main Falls in the distance. Not the least remarkable feature of this work of nature is the entire absence of current in the river, from immediately below the Falls to the Suspension Bridge. The surface of the water is nearly motionless, so much so that a chip will hardly float along, while twenty feet below the surface there is a tremendous under-current, by which the ponderous body of water passes of. A visitor to the Falls, in bathing near the bridge, sank deep enough to be caught by this current, and was never seen—swept away 20 feet below the surface.

About two thirds the way to the Falls is the "Clifton House", the late residence of the peace-advocate, Vallandigham,—now closed till the summer season. A fine hotel, with extensive grounds and attachments.

A short distance beyond is Table Rock, from which the best view of the entire fall is obtained.

Here I donned a tarpaulin suit, and with a guide—a citizen of African descent—passed under the "Horse-Shoe Fall", between the water and the rock—the whole avalanche of water pouring over me, with fearful power and grandeur. Here I also obtained some fine specimens of rock. Retiring a few steps you come to the Museum, register your name, liquidate a slight claim the proprietor has against you, and look over the Museum, and write some thoughts in a volume devoted to that purpose. I was much interested in these contributions from thousands of visitors of different tastes, ideas, education and propensities.

It is in itself a museum. As good a thing as I ever saw is the following pencilling, which I found on one of its pages:—

Not such a very great affair after all;
For what more natural than for water to fall?
'Twould be really quite wonderful and worthy of fame,
If some one would make it run up again!

My immediate predecessor had written:

Some fell—Adam fell; nor is this all—
A few steps onward, Nature has her *fall!*

And seeing that I was expected to set a good example to the next comer, I modestly wrote my illegible signature under the following quotation, slightly mispelled, "Oh! my countrymen! *Wat-er-Fall* was there."

In the afternoon, I started to pedestrianize the Falls, on the American side. Crossing the bridge to Goat Island, a fine view is obtained of the rapids above the Fall; the foaming and boiling of the water before it takes its final leap. The Spring-melting and rains made the river unusually full, and the rapids were particularly beautiful. Into these a man was swept some years ago in his boat, thrown out, and lodged on a rock not a hundred feet from the main fall. Here he remained a night and nearly the whole of the next day, and at last when a boat was let down to him successfully, in striving to get into it, weak and exhausted, he missed his grasp and was swept away.

Crossing Goat Island, and then the plank walk leading to Terrapin Tower, standing in a part of the Fall, I obtained a fine view of the "Horse-Shoe," with a beautiful rainbow in the mist at its base.

I could have sat indefinitely and watched the river above and below, and the water rushing over with inconceivable grandeur and sublimity, and thundering on the rocks beneath. After quite a stay on the top of the tower, I retraced my steps to the straight or "American" Fall, (which, though not as fine as the "Horse-Shoe" claims a good share of admiration) and to Lunar Island, between the American and Centre Fall,—so called from being the only spot from which is obtainable a view of the rainbow in the moonlight nights of summer. Between Lunar and Goat islands, and between the two main falls, is the Centre Fall, much more diminutive, less grand, but to my eye the most beautiful. A large body of water sweeping over a narrow precipice, and falling in a heavy volume in a symmetric curve, and unbroken, to the bed of the river. From the little bridge just above the Fall, a gentleman and little girl were lost, some years ago. The gentleman, in sport, held the child out from the bridge, over the water; it became frightened, struggled and sprang from his grasp. He instantly, rashly but heroically, jumped after her, and both were swept over the Fall.

A short distance below is a rail track on which slides a car containing a half-dozen, and steps leading down the bank of the river. There are 300 steps.

At the foot I took the skiff across to the Canada side and back, rowing in the very foam of the Falls. Returning, two of us climbed up on the snow and ice to the foot of the American Fall. We found we could look upward only a second or two, without becoming dizzy;—the immense body of water sweeping over threatened to engulph us, and as our position was somewhat hazardous, being merely the ice and snow formed during the winter by the spray from the fall, we retreated to the car, and in a moment were whirled up to the level.

I have given you quite a *paragraph* already, and could quite fill your sheet by dipping into detail, but 'twould only be a repetition of other descriptions. One resolution I formed—to duplicate the ramble as speedily and frequently as circumstances will permit. I am bound West, 2000 miles or so, and will send you cartes de visite in pencil of anything of interest on the way.

WILLIAM H. HACKETT,
Market Square.

d14

[From the New York Tribune, April 16th, 1864.]

Special Notice to Wounded Soldiers.

The Bounty of $100 due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so-called Protective War Claim Association, No. 95 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented to this office.

"A Slight Cold," Coughs.

Few are aware of the importance of checking a Cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. *Brown's Bronchial Troches,*" give sure and almost immediate relief. Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires. ap21—1mdaw

Moustache Cups.

A large assortment, this day received and for sale cheap by

ap16 JOHN SISE, 5 Market square.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

lawly, may30 Bedford Kings County, N.Y.

Graham Flour.

For sale by A. A. PAYNE.

Local.

☞ On Wednesday, Patrick Dwyer, a laborer, employed at the Portsmouth Navy Yard, while at work scraping the hatchcombings on board the U. S. steamer Colorado, was suddenly seized with a fainting fit, and fell from the berth-deck to the fire-room below, a distance of twelve or fifteen feet, striking upon his head, killing him instantly. We learn that he leaves a widow and two children, residing in this city.

☞ A portion of the 32d Maine regiment, Col. Mark F. Wentworth, passed through this city by special train about two o'clock on Wednesday afternoon, on route for the seat of war. The 32d is a new regiment of volunteers, recently enlisted, and has been encamped at Augusta. The remainder of the regiment will leave next week.

☞ Our old public-spirited correspondent "S. B." desires again to recommend and urge on all who can, the importance of planting trees; and especially the desirability of setting and growing *fruit* trees, rather than sterile shade varieties, everywhere and always.

☞ "A recent traveller complains of the poor fare at the best hotels in Concord,"—says a correspondent of the Ballot. Perhaps so—but some folks are bound to "complain," at any rate; and for our part, we hope we shall never "fare" any worse than they do at the Phenix or Eagle Hotels, not to mention the minor hostelries, whose spread we dare say is sweet to any hungry soul, at any rate, and better than any of the growler family deserve.

☞ The following appointments have been made at the Maine annual conference of the M. E. Church, for towns in this vicinity:

York, John Collins.
Kittery, James Armstrong.
Eliot, A. R. Sylvester.
Scotland, O. M. Cousens.
South Berwick, Uriel Rideout.
Berwick, to be supplied.

☞ Our thanks are due Mr. William H. Laws for copies of the noon editions of Boston papers, which he has furnished us several times recently on the arrival of the early afternoon train.

☞ Carter's Zouave Troupe had a very full house at the Temple last evening, and their exhibition had many attractive features. They perform this evening for the last time. Go and see them.

WE TOO.— The following remarks from the Herald, relative to extending manufactures in Newburyport, are equally applicable to Portsmouth. Our manufactures ought to be increased and diversified ten fold:

We trust that the success of the north-end in starting manufactures which ensure their prosperity, will awaken the south-end to their privileges and duties. They have all the advantages that could be desired, only the men are needed to move. We have long desired to see a revival of rope making, and we believe that arrangements could be made for a cordage factory within one week, if the people in that section would bestir themselves. There is money enough to invest—a greater abundance than ever before, or than there will be again in the life time of this generation; and there is work enough to do. There is not a cordage factory now in the county of Essex, though ship building is constantly increasing, and the markets out of the county are as open to us as to manufacturers elsewhere. All that is needed for the successful inauguration of the matter is to find the man capable of conducting the business, and such a one can be found among the sons of our former ropemakers, whose name and experience would be better than gold, worth as much as that is, and command currency to any amount. Is it not time to act? When can there possibly be a day more favorable than this?

SALISBURY BEACH.—The ocean, which has been lashed into fury by the recent high winds, has strangely altered the sand and banks at Salisbury Beach. High and gradually sloping sand banks have been cut down to a perpendicular ascent nearly the whole length of the beach. In front of the "Ocean Retreat" the bank has been cut down in this manner to the depth of six feet. This seriously injures the beach, but those acquainted with the movements of the shifting sands, think that a strong southeast or southwest wind will entirely remedy the defect, by changing the current of waves so as to replace the sand.

A FOREIGN LOAN.—The New York Times intimates that should the further curtailment of the greenback currency and the continued high rates of gold and exchange seem to demand it, Government will negotiate a loan of $50,000,000 in Europe. A member of the house of Jay Cooke & Co. will leave for Europe next week.

☞ The New Orleans Picayune thinks some good will result from the devastations of this war, believing that every cavalry raid will introduce the firm sweet grasses of the North into "Dixie," superseding the rank creole varieties, and thereby improving the quality of the creole beef.

— The President has signed the bill for a state government for Nebraska.

— They have gingerpread sixty years old, but moist and fresh as though baked yesterday, on exhibition at Chicago. Its manufacture is a German secret.

— Advices from Turks Island state that heavy rains had retarded the production of salt. The quantity on hand, however, was sufficient for immediate wants.

— An order has been issued to the various volunteer militia companies and regiments of Ohio to prepare to take the field upon short notice.

— Representatives declare that they intend to get through all business before the 1st of June, but that does not render it at all certain that they will do so.

— A Paris letter says it is noticeable that the rebel diplomatists are far more successful as speculators than they were as plenipotentiaries, and that they never touch Confederate securities.

— Compressed wool, in place of iron plates, as a covering for naval vessels (rams particularly, we suppose,) has been suggested by a Mr. Naysmith and tried by the English Admiralty.

— A New York dispatch states that the Naval inquiry into the disaster to the gunboat Chenango, has shown that it was caused by a defective rim of iron in the boiler, and no blame can be attached to her officers.

— There is to be a celebration of the 25th anniversary of the establishment of Normal Schools in this country, at Framingham, Mass., July 1. The biennial convention of graduates and members of the Framingham State Normal School will be held there at the same time.

— The House of Representatives on Tuesday evening, voted to expend $25,000 in fitting up the old Hall of the House of Representatives as a gallery for statuary. Each State is to be invited to contribute two statues of distinguished men. It is a good idea, but the present is hardly the time to carry it out.

☞ Sabre cuts, gunshot wounds, and all other kinds of wounds, also sores, ulcers and scurvy, heal safely and quickly under the soothing influence of Holloway's Ointment. It heals to the bone, so that the wound never opens again. Soldiers supply yourselves. Only 30 cents per pot. 233

THE COMING MAN.—Not McClellan, not Burnside, not Halleck, not Hooker, but Grace, the salve man. And he has come with his Celebrated Salve, just in time to aid the maimed and suffering soldiers, and not only them, for the benefits of the salve are extended throughout the whole circle of suffering humanity. It cures flesh wounds, cuts, burns, scalds, bruises, eruptions of all kinds, felons, and almost every external malady.—Such men as Dr. William Grace, who, in the 17th century, invented this salve, deserve the gratitude of posterity. No home, workshop, ship or camp should be without a box. Price 25 cents.

It is supposed by some that the Prince of Wales visited this country in part to obtain a package of Herrick Allen's Gold Medal Saleratus. Whether he did or not, it would do honor to the Queen's table to have as nice light Biscuit as that article always makes. If any one has any doubts on the subject, go to your Grocer and get a paper immediately, and find of a truth that there is nothing like it. Everybody sells it.

MARRIAGES.

April 4, 1864.—ap15.

Mr. H. C. Emery has left in the office of the Clarion two pieces of slatestone from the Brownville Slate Quarries, on each of which is a landscape scene; on one is simply a representation of trees, on the other is delineated a river with a bluff or point of land making down to the water, covered with a dense growth of trees; and what is more remarkable still, the reverse position, as if reflected from the water, is given in the picture. These specimens were taken one hundred feet below the surface.—*Portland Courier.*

Important to the Afflicted.

DR. DOW continues to be consulted at his office, 5 and 7 ENDICOTT STREET, Boston, of all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate sufferers, who have never, since he has introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammations of the Bladder and Kidneys, Hydrocele, Abscesses, Bubons, Urethral Swellings, and the long train of horrible symptoms attending this disease, which render it to become as happiness as the simplest things of a child.

SEMINAL WEAKNESS

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and sullying habit, which ruins the hopes and manhood, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dimness of the head, Dizziness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are such to be dreaded; loss of memory, confusion of ideas, weakness of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days can be accommodated with pleasant rooms, and charges by board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotiles, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females.

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No. 5 Endicott Street, Boston, is consulted daily for those diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppressions, and other irregular distresses, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate cases yield under it, and the afflicted persons soon rejoice in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of the women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Delicate Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M., as above, upon all different and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which has attracted patients from all parts of the country to obtain advice.

Among the physicians in Boston, such standing higher in the profession, and deservedly so, Dr. DOW, No. 5 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Twelve $1 and a red stamp.

Boston, April 7, 1854.—eodly.

Gray's Patent Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the ragged unsightly edge of other collars.

The cravat causes no puckers on the folds of the turn-down collar—they are SMOOTH IN SIDE, AND ON TOP, and therefore perfectly free and easy to the neck.

The Gerette Collar has a smooth and evenly finished edge on both sides.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED to suit the form.

They are made in "Novelty" for turn-down; in "Gerette" (Gerette), from 13 to 17 inches, and in "Eureka" (Eureka), from 13 to 17 inches, and packed in "Small sizes" to seat three cartons, containing 200 each; also in smaller cases of 10 each, the latter a very handy package for Travellers, Army and Navy officers.

☞ EVERY COLLAR is stamped "Gray's Patent Molded Collar."

Sold by all dealers in Men's Furnishing Goods. The Trade supplied by

BAXTER, JOHNSON & CO.,

Importers and Wholesale Dealers in Men's Furnishing Goods and Umbrellas, 81 Devonshire street, Boston. mh17—3mwfw

mh14 51 Islington street.

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y. Formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured by a few days use, and we cheerfully invite the investigation of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians, are **invited to use Constitution Life Syrup.**

During the past five years we have contended with obstacles of no common character, to obtain for it a place in the confidence of the people, we have overcome all opposition, and now it is universally acknowledged to be the most valuable and successful remedy ever introduced to the notice of the public.

Rapidity of Cure.

Cures in a few days, cures in half the time of other remedies, their permanency we think that diseases can only be cured by the "slow remedy, nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium, but let there be any cause down goes one side of the scale, we have the effects of disease. When equilibrium is restored the normal health will be restored.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from FATHER TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need but reiterate the fact, it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Sick Headache, Want of Appetite, Flatulence, Bad Breath.

Scrotula.

Strume, Glandular Swellings, Ulcerations, King's Evil, Dropsy, Tumors, Salt Rheum.

This taint (hereditary or acquired), filling its with untold misery, is by all dental medicine remedies incurable.

Rheumatism.

(Arthritis), Neuralgia, Gout, Lumbago, Sciatica, The Debonrem.

If there is any disease in which the Constitution Life Syrup will prove its power, it is Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 10 or 20 years standing are thus cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bear testimony to the efficacy of our remedy. Tenderly to weak, suffering women will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fains more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Resting of Bones, Red Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely free of the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases from the system, in a few days.

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken at once as the swelling is detected, thus preventing the formation of a Scrofulous Tumor. Discharging Sores, which disfigure so many of the younger portion of the community, from HER 1st to 20th years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. For such complaints, receive by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy, of the uterine and womb, generally accompanied with inflammation and ulceration of the uterus; are promoted to health and happiness by the use of the Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken in the commencement of the

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. FRIDAY, APRIL 22, 1864. VOL. XXIV. No. 95

The Chronicle.

SHERMAN'S RAID.—A rebel mail was recently captured on the Mississippi while crossing for Texas. One of the letters, from a gentleman in Mobile to his wife, gives quite a different account of the effects of Sherman's raid from that which appeared in the rebel papers. The writer says:

"The campaign in Mississippi has ended surely with no glory to us. The movement was one of the boldest which the Yankees have essayed in this war. With a force little, if any, superior to the force which Gen. Polk had under his command, they marched without opposition across the whole State, and destroyed an immense deal of valuable railroad, breaking our communications with the country from which the larger portion of our supplies for the Army of the West is drawn.

The whole country was panic-stricken, and General Polk more frightened than any one else. No stand was made at any point, and not a man killed except among the cavalry. Altogether the campaign has shown such incompetency on the part of Gen. Polk that the whole country is openmouthed against him."

INCIDENT AT A LAUNCH.—A Cincinnati paper thus reports an incident at the launch of the iron-clad Catawba in that city on Wednesday:—

At the foot of Butler street a great crowd was gathered, and though those standing near the water's edge were repeatedly ordered away, they returned whenever the policemen were called elsewhere. At the moment the vessel was fully in the water an immense wave rolled shoreward, instantly submerging one or two hundred people, and carrying many of them off their feet. As it retreated, a sight at once ludicrous and terrifying was presented,—women and children were crawling up the muddy bank, wildly clutching at each other's heels; men were floundering on their backs, and one individual, his hat carried off by the undertow, was frantically hugging a log, alternately floating and burrowing in the mud, as the surf advanced and receded. Fortunately the first wave was the largest and most sudden, and all the bathers against their will scrambled out of danger.

☞ The N. Y. Post editorially says the men who fought at James Island and Fort Wagner and Olustee have had no pay for about a year. Some little proof of the sad effect of this delay may be found in the melancholy story of poor Sergeant Walker, who was shot to death for refusing to serve longer without the pay that Gen. Saxton had promised him and his men. Out of the eleven shots fired at him but one struck him, showing which way the sympathies of the white soldiers themselves inclined. It was probably a military necessity to sacrifice him.

— The "biggest thing" of the season in the way of a petition was presented in the Senate by Mr. Sumner. It was in favor of the entire abolition of slavery, and was signed by 47,718 men and women in all parts of the Union. The roll of names made a package that would just fill a bushel basket.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1857.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, Claims, Models or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more *competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.
Boston, Dec. 19, 1853.—3tawly

FERTILIZERS,

Trees, Vines,

Shrubs,

Vegetable and Flower Seeds.

J. F. SHORES, Jr.,

No. 1 Congress Block,

WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when *every* spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grain and hay harvest—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkable. Set out a rose, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.50 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Thomas Wentworth & Co., Dover.
Jeremy Perkins, "
Colbath & Danford, "
John Martin, Great Falls.
George L. Whitehouse, Farmington.
O. F. Hobbs & Co., Ossipee.
Moses Merrill, East Ossipee.
Joseph P. Gilman, Union.
John Tredick, "
Zebediah Sargent, Rochester.
J. S. & E. Bennett, Northwest.
Ladd & Barker, Candia.
J. L. Rundlett, Epping.
W. N. Dow, West Epping.
C. W. Greenleaf & Co., North Berwick.
G. W. Snow & Co., " "

Lloyd's Nitrogenized
Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " " (ca O P O 5)	11.5
Organic matter	8.
Sulphate of lime	38.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.8

The organic matter yields 3.5 p. c. of Ammonia.

The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16 in other words, Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphate. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The sample for analysis, I selected from the entire stock which was prepared for the market.

BROWN UNIVERSITY, Jan. 23, 1864.

This lime is sold in barrels containing about 275 lbs. Price Three Cents per lb., by the barrel, or Twenty-Five Pounds for One Dollar.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate, safe and rapid cure, to be obtained at no other office in America.
In Gleet, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Blotches on the Face, Blood Stains, Gleetness, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, which have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured more cases in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more elaborate description of these diseases.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Nichols's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price of a box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, APRIL 22, 1864.

THE REBELLION.

15,000 or 20,000 rebels, with a ram and four gunboats, made an attack on Plymouth N. C., on Sunday, 19th, by land and water, and, it is said, sunk the Union gunboat Whitehead at the beginning of the fight.—Gen. Wessel, who is in command, had been informed of the probable attack for some days, and with Gen. Peck, the commander of that department, had taken measures to resist it. We have five gunboats there (including the Whitehead.) The rebels are said to have 30 pieces of artillery, including a battery of 32-pounders from Lee's army. Their land force made three attacks on Fort Grey, one mile above the town, at the same time that their gunboats attacked Plymouth, but were repelled with loss each time.

The Philadelphia Inquirer has a letter which says that the rebels have been repulsed with fearful slaughter in their attack on Plymouth and Fort Grey.

A slight hint is thrown out in the statement from Washington that "the report that Gen. Gilmore is to be relieved from the command of the army before Charleston is true, and not true. He will retain command of the bulk of the troops now serving under him, but in what field they will operate is a problem for the rebels to solve."

Deserters state that Lee's army, 60,000 strong, on the Rapidan, has received 7 days' rations for a forward movement, and that Longstreet is at Charlottesville, marching towards Staunton for the purpose of advancing down the Shenandoah Valley. Longstreet, it is said, has certainly joined Lee, having returned from Tennessee with less than 12,000 of the 18,000 men he took there with him.

Guerrillas have burned a large portion of the town of Hickman, Ky.

The 5th and 19th Miss., the 2d and 13th Missouri, the 2d Tenn., and a regiment of Texan rangers are known to have been a part of the force engaged in the Fort Pillow massacre.

Gen. Shepley has arrived at Washington, with important dispatches from Gen. Banks relating to army operations. Gen. Dana has also arrived and will probably have a command in the East.

Gen. Grant went to the front on Thursday morning. Mail communication northward with the Army of the Potomac is suspended, which looks like preparations for immediate work.

The accounts from the Red river expedition are still unsatisfactory. Even on the second day of the fight, when the rebels were whipped and driven with heavy loss from the field, our troops also lost heavily, and apparently were not in a condition to follow up their advantages. The 13th corps especially has lost very heavily, and it seems probable, although the accounts are indefinite, that our troops are still falling back.

SOUTHERN ILLINOIS.—A Cairo dispatch says the excitement at Metropolis, Ill., and along the river, for the last week, in regard to guerrillas that swarm along the Kentucky shore, has been intense. Gunboats are constantly patrolling the river, and have taken every possible precaution to prevent guerrillas from crossing. They have smashed up all the skiffs and canoes along the banks of the river, and sunk all other floating crafts that they might seize upon.—The citizens have been sleeping in their clothes, ready to either defend themselves or decamp at a moment's notice.

☞ A dispatch states that Gen. Butler has written a very spirited letter to a high public officer in Washington, of which the concluding paragraph reads as follows:

"If the arrangement proposed be carried out it would have the effect of making me a mere recording secretary for the will of Major General W. F. Smith, who would be the real commander. To this I cannot submit. The office of civil mayor of Old Point Comfort is not the sort of service for which I was mustered in. I therefore most respectfully demand either to be relieved altogether from my present position, or to have under the General-in-Chief supreme control and direction of any military movements, having their base within the limits of my department."

☞ Capt. Phillip Cashmeyer, Gen. Winder's right hand man, has been arrested and thrown into Castle Thunder at Richmond, on suspicion of treason to the rebel authorities. He was detected in giving letters containing important information to Federal prisoners released for exchange while on the flag of truce boat going down the river. Cashmeyer is a Baltimorean, and held a position of great trust under Winder.

— Governor Connolly, of New Mexico, in his proclamation appointing a day of thanksgiving in view of the termination of the war with the Navajo Indians, stated that, with but slight intermissions, the wars with that people have existed one hundred and eighty years.

NEW HAMPSHIRE ITEMS.

—— The jury in the case of Thos. Wier, arraigned for the murder of Caleb. W. Dyer, at Enfield, have retuaned a verdict of murder in the first degree; and he has been sentenced to be hung on the 28th of April, 1865.

—— Mr. Elbridge G. Chase, for more than 30 years a printer in Concord, has gone with his family to California. Before his departure the Concord Printers' Union Association presented him with an elegant silver-headed cane.

—— The Manchester Union states that at Franklin on Monday, a little boy, four years of age, threw a pebble at a rooster, upon which the rooster flew up, and attacked him with both bill and spurs. A lady, who was near by, after considerable difficulty drove the rooster away, but not until the boy was badly wounded in the head and face, so as to cause the blood to flow freely.

— The Maryland Sanitary Fair at Baltimore is a great success.

— A camp of instruction and discipline has been formed at Yorktown.

— The Senate bill for the coinage of one cent and two cent pieces, of copper and zinc or iron, has passed the House.

— Forty estates in Alexandria have been seized during the last few days, and are offered for sale by the government.

— A resident of Richmond advertises his furniture for sale because his rent was raised from six hundred to five thousand dollars.

— There is a church spire in Hartford, Conn., which for its symmetry is regarded as "the most perfect spire in Christendom."

— It costs sixty dollars to go through an English court of bankruptcy. If the debt exceeds $1,500 the expense is about $125.

— The productive capital in British railways is estimated at two thousand millions of dollars.

— The sick of the Army of the Potomac have all been sent to Washington and placed in hospitals. Nearly a thousand arrived a few nights ago.

— Nearly 1000 negro recruits from the eastern shore of Maryland, many of them familiar with the navigation of Chesapeake Bay, have been transferred to the Navy.

— Capts. Thomas G. Craven and William Redford, of the Navy, have been confirmed by the Senate as commodores on the active list.

— A whole family, consisting of father, mother, and four children, were burnt to death in Taxport, Pa., on the night of the 8th inst., by the destruction of their house.

— It is reported that Admiral Dupont's friends are preparing a reply to the report of the Secretary of the Navy concerning the attack on Charleston.

— The captain of the U. S. steamer Kearsarge, in a letter to the Marquis of Clanricarde, denies that he enlisted men in an English port.

— The office of the Lewiston, Me., Steam Mill Company was entered Saturday night and an unsuccessful and stupid attempt made to gain entrance to the safe by means of an axe.

— The New York Herald estimates that about one hundred and fifty millions of dollars have been invested, in New York and Boston, in mining companies, mostly bubbles.

— The new steamer Matilda, stated to have been built at Glasgow for rebels, and bound from Cardiff for a rebel port, with iron, steel, &c., has been totally lost off Lundy Island. The crew was saved.

— Gen. Stone was dropped from the roll of brigadiers two or three weeks ago, but orders mustering him out had not reached New Orleans at the time of the recent repulse of the troops under his command.

— The French Journals are growing uneasy under the enthusiasm for the Revolutionist, Garibaldi, which his arrival in England seems to have so universally evoked there.

— The N. Y. Herald's dispatch says the transfer of men from the army to the navy has at last commenced; 400 are already collected at Baltimore from the Army of the Potomac.

— The Lowell Courier says the loss by the burning of the Wamesit Mills, in that city, will not fall much if any below $75,000. About 200 hands have been thrown out of employment.

— The Veteran Reserve Corps contains thirty thousand men, of whom over eight thousand are on duty in and around Washington. The reports that it is to be disbanded are untrue.

— West Point Academy was founded in 1802, since which time the total number of cadets actually admitted to its privileges is 4,526. The actual graduates amounted in all to 2,020.

— An avaricious man "out West," is reported to make a practice of always riding in the last seat of a railway train, to save the interest on his fare until the conductor gets round to him.

ARMY CHAPLAINS.—A bill prepared by Rev. E W. Jackson, Chaplain U. S. A., has just passed Congress and become a law, which provides, "that the rank of Chaplain in the United States and volunteer service is hereby recognized, and that the Chaplain shall be borne on the Field and Staff roll next after the Surgeon, and shall wear such uniform as the department shall prescribe. It allows forage for two horses, fuel and quarters, the same as Surgeon. It provides for pay when on leave of absence as other officers. Also for pension in case of death or disability. The act provides that the Chaplain shall report to the Adjutant General monthly the morals, state and history of the Post or Regiment; he shall hold at least one religious service on each Sabbath when practicable, and a funeral service for every man buried. It further requires the Commander of a Post or a Regiment to afford every facility for the discharge of the Chaplain's duties." It is a great improvement on all former legislation on this subject.

☞ There has been a most extensive opening of eyes among the staff and other officers of the Army of the Potomac since Gen. Grant assumed command of that army. The first thing he did was to intimate that staff officers must spend less time in Washington; the next was that the balls in camp must be given up; then came an indication that transportation would not be furnished for articles of luxury for the camp; then came the order that there must be more scouting and greater vigilance on picket; and so one after another of the deleterious customs and practices of the army are to be done away with, and the primitive simplicity of a camp life introduced. A contemporary exclaims: Go on, General Grant. Bandbox officers will murmur, but brave and earnest men will rejoice at your admirable conception of what a soldier's life should be.

NARROW ESCAPE FROM DEATH.—E. W. Osborne, grocer of Lynn, while attempting to gain a footing on the train for that place, at the Eastern Depot, Boston, Wednesday, during the arrival of the 32d Maine, fell under the cars, and the iron brake rod struck him in the side of the head, slightly fracturing his skull, and knocking him from the track, thus saving him from a horrible death. He was taken into the depot where one of the regimental surgeons attended to his wounds.

HENRY CLAY'S REMAINS.—After an interment of twelve years the remains of Mr. Clay were removed last week, upon the death of his wife, and placed side by side with here, beneath the beautiful monument erected to his memory in the Lexington Cemetery. Connected with this event, the Observer says, the wreath of *immortelles* placed upon his coffin by his friend, the gifted poetess, Mrs. Ann S. Stephens, prior to the removal of the body from Washington, was found to be in an almost perfect state of preservation, being but little faded, while a gold ring, bearing the initials of "J. W.," which rested near the wreath, was as bright as though just from a jeweller's store.

☞ The drains of Paris are declared to be the most wonderful work of the kind ever executed. Hundreds of hollow tubes, each one a marvel of solidity and skill, run from every quarter of the town to one immense receptacle of the filth and waste water thus carried off. Before the mouth of this hideous reservoir is placed grating, through which the mass of infection pours night and day. This grating is meant to prevent the passage of any object beyond a certain size which might otherwise obstruct the tube. The police reports of the past year record the detection of more than ten thousand new-born infants thrown at the moment of birth into the drains, which had carried them to the horrid grating, there to leave them to be gathered as the most damning evidence of neglect and abandonment.

☞ The people of Washington have been informed that a cow is roaming through one of the sewers which drain the national capital. The head of the animal has appeared at the grating of the sewer which opened into a gentleman's back-yard whenever the slops of the kitchen were thrown upon it, which she eagerly devoured. All attempts to drive the creature out have been unavailing.

REBEL TORPEDOES.—The frequent instances of late in which the rebels have succeeded in destroying our vessels by means of torpedoes, show that they are becoming proficient in that species of warfare. It appears that this business is entrusted to a secret service corps. The most effective contrivances used by them, according to some recently captured correspondence, are the invention of one E. C. Singer. One of them destroyed the Housatonic, and the one that was used in the attempt upon the Minnesota was his also. Singer says he is about to commence an enterprise that promises the redemption of New Orleans and the Mississippi river.

— Of a family of eleven children living in Middlesex, Canada, seven are deaf and dumb.

— The bombardment of Duppell was vigorously sustained during the 7th ult. The bombardment of Sunderberg recommenced on the 15th with extraordinary violence. The Prussians had completed their second parallel.

BRIGHTON CATTLE MARKET.

WEDNESDAY, April 20.

At market 1353 beef cattle, — Stores, 5593 Sheep and lambs, and 2200 swine.

PRICES.—Beef Cattle.—Extra, $12 00 a 12 50; first quality, $11 00 a 11 50; second quality, 10 00 a 10 50; 3d quality, $9 25 a 9 75.

WORKING OXEN—$160 a 210.

MILCH COWS—$50 a 100.

HIDES—10½c. per lb.

SHEEP SKINS—$2 50. Lamb Skins—$2 50.

TALLOW—Sales at 9½ lb.

SHEEP AND LAMBS—Lambs, $6 00 a 0 00;—Old Sheep, 7 a 9½ per lb

SWINE—Fat Hogs, 9½ a 9¾ c per lb

Market Beef—Extra are the largest fat Oxen, highly stall-fed. First quality are large Oxen, stall-fed at least three months. Second quality are grass and hay fed Oxen, well fatted Cows, and the best three-year old Steers. Third quality are odds and ends of droves.

Beeves are sold by the head, at prices equal to the value per pound of the estimated weight of beef in the quarter with the fifth quarter, or the hide and tallow, at the same price at a shrinkage from live weight agreed on by the parties—varying from 43 to 54 per cent.

The trade in Beeves was active, the supply larger than for some time past, and, taking quality into consideration, prices have declined 25 cents per cwt. since last week. Trade in Sheep and Lambs not so active, and prices have declined ½c. per pound.

WILLIAM H. HACKETT,
d14 Market Square.

Dissolution of Copartnership.
Notice is hereby given that the copartnership heretofore existing between H. W. BACHMAN and J. WEISKOFF, under the name and style of Portsmouth Vinegar Manufacturing Co., was dissolved March 12, 1864, by giving said Weiskoff due notice.
H. W. BACHMAN.
Portsmouth, April 18, 1864.

LIFE ASSURANCE.
"A POLICY OF LIFE ASSURANCE is always an EVIDENCE OF PRUDENT FORETHOUGHT; no man with a dependent family is FREE FROM REPROACH if not insured."—LORD LYNDHURST, late Lord Chancellor of England.

"A POLICY OF LIFE ASSURANCE is the CHEAPEST AND SAFEST mode of making a CERTAIN PROVISION FOR ONE'S FAMILY. Many a widow and orphan have had great reason to be grateful that the advantage of LIFE ASSURANCE was understood and embraced by the husband and father."—BENJ. FRANKLIN, 1769.

Send at once to J. P. BARTLETT, Agent for the MUTUAL LIFE INS. CO., for the Company's documents, which are furnished gratis. 8m18

"A Slight Cold," Coughs,
Few are aware of the importance of checking a Cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs.
"*Brown's Bronchial Troches*," give sure and almost immediate relief. Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.
ap21—1mdaw

[From the New York Tribune, April 16th, 1864.]
Special Notice to Wounded Soldiers.
The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective War Claim Association, No. 55 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.
All such claims on file in that office, should be at once withdrawn and presented to this office.
U. S. ARMY AGENCY.
No. 64 Bleecker street, opposite Pay Department,
ap23—1m New York City.

Local.

A ROPEWALK WALKING AWAY FROM US.—An act to establish the "Portland Cordage Company" was passed at the recent session of the Maine Legislature, and the gentlemen named in the act of incorporation have determined upon the establishment of a factory. The Portland Press, in referring to this matter, says:—

We understand that Messrs. Johnson & Handy of Portsmouth, well-known to our merchants as manufacturers of cordage, are interested in this movement, and are ready to remove to Portland, and become connected with the proposed factory, provided sufficient encouragement shall be given. Indeed, the junior member of the firm, Mr. Handy, with whom we have had an interview on the subject, is one of the persons named in the act of incorporation.

We understand that parties in Portland (far-seeing and energetic business men who know that they will add materially to the future and permanent prosperity of that city, by increasing its manufacturing interests,) have been holding out inducements for two years or more to Messrs. Johnson & Handy to remove their factory and machinery from this city to Portland. It is the intention of the parties there, who are interested in the matter, largely to increase the concern by introducing additional spinning machinery, &c. From present appearances, Portsmouth is to be deprived entirely of the very article of manufacture which Portland and Newburyport are striving to obtain. Perhaps there may be a lesson learned by our citizens from the energy and perseverance which indeed characterize the merchants of Portland. Why cordage may not be manufactured here as well as in Portland, is a question for our business men to answer. Is it very creditable that, with abundant facilities for its manufacture, of a quality and price as good and cheap, at least, as it can be furnished elsewhere, we should suffer another city to derive the advantages from it which might be retained and enjoyed here? This is true in regard to many other articles of manufacture, and the fact should be remembered, that in such cases there is no need to appeal merely to local pride—our *interest* as individuals, and as a city, lies exactly in this direction.

☞ On Saturday evening last a large number of friends and old associates of Col. John P. Sherburne, of "Scott's 900," and late of Gen. Martindale's staff, assembled at his residence in Washington, and surprised him by presenting him with a handsome gold watch and chain, costing $300. The presentation was made by Capt. Levy, A. Q. M., who said that the gift was a clear token of friendship from parties who had long known Col. Sherburne in personal and public relations, and who regretted exceedingly the necessity which compelled him to sever the ties that had bound them together. The Colonel feelingly responded, and he was then escorted to "Hammack's," where a bountiful supper was spread.

Col. Sherburne is a native of this city, and has been on duty in Washington for two and a half years. He was to leave that city on Wednesday for Texas. The fact that he has performed the duties of his official position for so long a period in such a manner as to entitle him to the esteem and good will of those with whom he has been associated, is well shown by this token of their kindly feeling, and it will be extremely gratifying to his many friends here.

DESERTERS SHOT.—The following is an extract from a letter received on Wednesday evening by a gentleman in this city from a member of the 2d N. H. Regiment, at Yorktown, Va.:

We had a little change yesterday from the regular routine of camp life, in the shape of a military execution. Two men of our regiment were shot for desertion. I send you the order by which they were executed.—The men behaved very well and everything passed off quietly. There were 19 shots fired, every one of which took effect: one received ten, the other nine balls. They died instantly. It made some of the men look pretty blue, particularly some of the new men, a great many of whom had probably made up the minds to go the first opportunity,—but I guess they will not try it now.

☞ Carter's Zouave Troupe had another full house last evening, and apparently gave as good satisfaction throughout as on the night previous. Their success here has been somewhat remarkable,—and the popular applause is a pretty sure indication of the excellence of an exhibition of this character. Unexpectedly, Mr. Carter has been induced to remain here one day longer than was his intention, and his Troupe will appear at the Temple this (Friday) evening for the last time in this city.

FORREST'S MINSTRELS.—Forrest's Minstrels are coming. If the performance is as good as the advertising it is an excellent show. We advise our citizens to give the Bill Boards one look.

— Garibaldi was to enter London on the 11th. It was believed that the demonstration would be without a parallel. The freedom of the city of London had been voted to him, and Lord Palmerston would give him a banquet.

S. J. COURT, Exeter—Tuesday, April 19.—No. 43. Derry Bank v. Davis and Webster, trustees. The question whether the trustees should be charged, and if so, to what amount, was submitted to the jury. The trustees were charged for between $400 and $500. Bartlett for piff., Hatch for trustees.

Wednesday, April 20.—State v. Messrs. Moulton and Nichols, two of the selectmen of Hampstead. They were indicted for refusing to insert the name of Jeremiah Johnson on the check list in Hampstead, on the 8th of March. The defence was that Johnson then resided in Kingston, and that he admitted he had applied to have his name put on the check list in Kingston, and had been told that he had not resided there long enough to qualify him as a voter, and that he had been advised to apply to vote in Hampstead. The selectmen of Hampstead refused to insert his name upon the check list, upon the ground that the plaintiff's admissions in Kingston showed that he did not then regard Hampstead as the town in which he dwelt and had his home. Verdict, not guilty. Bell, solicitor; Frink for the State. Hackett and Stickney for the respondents.

John Kilroy, for stabbing John Norton, was sentenced to five days' imprisonment, (added to previous six months in jail,) and to pay costs.

— The Boston Advertiser's Washington dispatch pronounces all stories about Gen. Halleck's resigning, or of difficulties between Sec. Stanton and Gen. Grant, to be utterly groundless.

— The rebels have conceded the point of treating all white officers alike, in the exchange of prisoners, whether they have had charge of colored troops or not. The negotiation for future exchanges will probably be concluded on a satisfactory basis.

— Among the questions on which the Senate and House differ, now before the Conference Committees, is whether the temporary appointments in the navy shall be made by the President and confirmed by the Senate as the Senate desires, or whether they shall be made by the Secretary of the Navy as the House desires.

— The Secretary of War has ordered that regiments of heavy artillery, that may be organized and filled to the legal standard of 1738 officers and men within twenty days, shall be received and credited. If regiments are not full on or before the 10th day of May, the regruits will be put into other artillery or infantry organizations.

☞ Sabre cuts, gunshot wounds, and all other kinds of wounds, also sores, ulcers and scurvy, heal safely and quickly under the soothing influence of Holloway's Ointment. It heals to the bone, so that the wound never opens again. Soldiers supply yourselves. Only 30 cents per pot. 233

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

It is supposed by some that the Prince of Wales visited this country in part to obtain a package of Herrick Allen's Gold Medal Saleratus. Whether he did or not, it would do honor to the Queen's table to have as nice light Biscuit as that article always makes. If any one has any doubts on the subject, go to your Grocer and get a paper immediately, and find of a truth that there is nothing like it. Everybody sells it.

DEATHS.

NEW TRIUMPH FOR THE NITROUS OXYD.
Another test has been successfully applied that further establishes the benefit of the Nitrous Oxyd as an aid to science. On Monday, Drs. Flagg & Osgood, at 25 Tremont street, Boston, administered the oxyd to a lady of Boston, who was afflicted with a large tumor in the back part of the head, and while under its influence the tumor was taken out by Dr. O. S. Saunders, in the most successful manner, the sufferer feeling no pain whatever, and experiencing no inconvenience from the operation. She was kept under the influence of the gas for about five minutes, was entirely unconscious, and awakened from her trance as readily as though she had merely inhaled the gas for extracting a tooth. There were several present as spectators who expressed the greatest satisfaction at the result. This new experiment is a valuable one, fixing as it does the fact of the availability of the oxyd for surgical uses. We are informed that it has been used by Drs. Flagg & Osgood in dentistry over 2700 times, without a failure; a proof of the purity of their gas and their skill in its employment.—*Boston Journal.*

In giving the above article publicity, we are pleased to add that our own city of Portsmouth is not a whit behind the times in this, at least one good thing. Dr. A. P. STEVENS, No 5 Daniel street, informs us that several weeks ago he administered Nitrous Oxyd to a patient of Dr. N. L. Folsom, for the removal of a large and very firmly seated piece of steel from the eye. The whole operation was a complete success, the patient not experiencing the least pain. What adds to the merit of the case is the fact that ether had been tried, before attempting the gas, without the least success. Dr. STEVENS desires us to say that—having a most complete apparatus for manufacturing chemically pure Nitrous Oxyd, and having had six months' practical experience in its use (he being the first to introduce the gas to the citizens of Portsmouth)—he would offer it to the public as a safe and desirable anesthetic for all minor operations in surgery and for the painless extraction of teeth. W&F

Wanted.
☞ A good HOUSE, for a small family without children. Would be leased for a term of years, if satisfactory. Or any family desiring to leave a house, partially or entirely furnished, for six months or a year, will find this a good opportunity to have it properly cared for. Inquire at this office. ap19—1w*

SPEER'S SAMBUCI WINE
FOR AND FOR YEARS OLD,
OF CHOICE OPORTO FRUIT.
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in Europe and American Hospitals, and by some of the first families in Europe and America.
As a DIURETIC, it imparts a healthy action to the Glands and Kidneys and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and for aged and infirm, improving the appetite, and benefitting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich pendant flavor and nutritive properties, imparting a healthy tone to the delicate organs, giving a blooming, soft and healthy skin and complexion.
WE REFER TO
a few well known gentlemen and physicians who have tried the Wine.
Gen. W. Scott, U. S. A. Dr. [illegible], Newark.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Legion, under Gen. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, is, that many diseases hitherto considered incurable, or incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cure which have no parallel at the present day.
Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are **Invited to use Constitution Life Syrup.**
During the past five years we have contended with obstacles and overcome opposition as heretofore in ever encountered by any Reformers.
Rapidity of Cure.
Some say, "Your cures are too quick," while others say, "Your medicine cannot think that disease can truly be cured by the slow remedial process of Nature. This is curiously!"
In human, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effort of Nature, or the remedial agent, to restore the normal balance of the scale.
CONSTITUTION LIFE SYRUP.
A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all improper HEREDITARY DISEASES transmitted from PARENT TO CHILD.
Paralysis.
Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effective means of reformation in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.
Dyspepsia.
Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.
Scrofula.
Sarcoma, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.
This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.
Rheumatism.
(Arthritis), Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.
If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings reduced. Cases, of some few weeks or months, or 20 or 30 years standing, have been cured by us.
Nervousness.
Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.
Thousands who have suffered for years will bless the day on which they heard these words. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their feelings to a hope which hitherto more than it promises.
Mercurial Diseases.
Salivation, Feeling of Weariness, Rotting of Bones, Bad Ulcerous, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, retrieving the Bad Breath, and curing the Weak, Aching and Rheumatic Pains which this mode of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.
Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, such as
ULCERS, PIMPLES, BLOTCHES.
And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.
CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing the painful breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.
All scrofulous persons suffering from Debility, Emaciation, Diseases of the Spine, Joints or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus, are permanently cured by Constitution Life syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be used in the early stage. This disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of physicians.
Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a gratuitous or false Heart), Dropsy of the Heart, Pains and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.
Broken Down and Delicate Constitutions, Suffering from Indisposition to Exertion, Pain in the Back, Loss of Memory, Lowbeatings, Horror of Disease, Dizziness, Want of Energy, Want of Nerve, Dry Hot Skin, and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Languishing of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.
For all forms of **Ulcerative Diseases,** either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever been discovered.
MOLE PATCHES upon the female face, depending upon a diseased action of the Liver, are very unsightly, and should be removed by proper means. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.
In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an enlarged or tumorous condition of that organ, the compound Life Syrup, by its Tonic and other medicinal properties, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*
Diseases of the Spine, so fatally developed in the young, Hip Disease, Spinal Affections, Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and limbs, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and science have made the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and many death are the results. Do not delay when the means are so near at hand, and within the reach of all.
TO MOTHERS AND MARRIED LADIES.
It is the safest and most effectual medicine ever discovered for purifying the system and relieving the sufferings attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food.—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.
Constitution Life Syrup
Is the Poor Man's Friend, and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.
CHEROKEE REMEDY, the great Indian Diuretic, cures all symptoms of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Flour Albus (or Whites in females) where all the old nauseous medicines have failed.
It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.
It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which lead to diseased blood.
CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Flour Albus or Whites. Its effects are *healing, soothing and demulcent;* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*
☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all impure secretions are speedily cured and the weakened organs are speedily restored to full vigor and strength.
☞ Be sure and always get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.
Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.
Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.
☞ Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

No. 59 Liberty street, New York.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE CURE.
An unfailing cure for Spermatorrhœa, Seminal Oliver L. Fernald Jeremiah Sanborn
Weakness, Nervous Irritation, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the dreadful complaints caused by departing from the path of nature.
☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.
☞ To those who have suffered with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* The CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!
☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.
☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.
Sold by all respectable druggists everywhere.
DR. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.
The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom, being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.
This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.
One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
The bottles restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few doses bring the rose to the cheek.
This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.
The bottles excavated from the pale, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.
☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.
Sold by all druggists everywhere.

No. 59 Liberty street, New York.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.
They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.
They cure Suppressed, Excessive and Painful Menstruation.
They cure Green Sickness (Chlorosis).
They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.
Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute nature in her proper course, when by improperly used, they never fail to do.
They may be safely used at any age and at any period of pregnancy, without fear of miscarrying which the unfailing nature of their action would infallibly prevent pregnancy.
All letters soliciting information or advice will be promptly, freely and discreetly answered.
Full directions accompany each box.
☞ Price $1 per box, or six boxes for $5.
Sent by mail, postage free, on receipt of price.
Sold by all respectable druggists.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall Stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the self-acting dampers, a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be controlled day and night for weeks together, thus saving the expenses of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as testified of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:
Portsmouth.

And the hosts of others who are using them.
We invite all those in want of this very best Stove in the market to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.
"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—prevent the none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used.
We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. SATURDAY, APRIL 23, 1864. VOL. XXIV. NO. 96

The Chronicle.

☞ The Laconia Democrat has an editorial, in which it says, "the restoration of the old Union will be accomplished, but never with the present policy." In the same article it gives a glowing account of the strength of the rebel armies and resources, nearly the same lately published in a New York copperhead paper,—and then says:

Now in giving these facts to the people we do not want our readers to understand that we mean to intimate or think that the South *cannot* be conquered and the old Union again restored in all its glory, for such is not the fact. The rebellion *can* and must be crushed, but it cannot be done with paper proclamations and "Pope's bulls against the comet." The South is a powerful *military despotism*, and its strength must be recognized and adequate means brought to bear to overthrow its armies.—That, and that *alone*, will do the business.

This does not agree with the Vallandigham platform, nor with the peace democrats' talk generally. The rest of the article does not agree with the Union Republican measures:—and the writer evidently imagines it possible to "restore the old Union" with slavery as its corner stone, and the constitution as expounded by Taney and Buchanan, Floyd and Jeff Davis. He has a faith stronger than a grain of mustard seed: But the logic of events is stronger still, and the border states man Reverdy Johnson tells us for substance in his speech that slavery must *die* that the *Union may live!* U. T.

THE KENTUCKY DIFFICULTY.—Rev. Dr. R. J. Breckinridge made a speech at Lexington, Ky., on the 11th, in which he stated positively that Gov. Bramlette did prepare a proclamation threatening resistance to the drafting of negroes, and that the proclamation was essentially changed during the night of the 15th of March. The doctor says that he is prepared to prove his assertions.

WE INVITE THE PUBLIC

THE IMMENSE POPULARITY OF THE
California Wines
introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage
American Industry.

The Surgeon General of the United States, after an analysis of our Wines, reports them to be pure.

Dr Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says:—"The fluid ounce leaves fifty-four grains of solid matter, consisting WHOLLY of the fixed principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."

The Boston Traveller says:—"The California Winter Hock Wine rivals in flavor the best of Hock Wines, and costs much less."

The Saturday Evening Gazette says:—"The White Wine is equal to the Stein or light wines which we import, with a fine and rich flavor, and we believe its purity unquestionable."

Hon. John G. Downey, late Governor of California, says:—"I most cheerfully recommend our Wines to all who desire a pure juice of the grape."

The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."

The Boston Transcript says:—"The White Wine is equal to the best Hock."

The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

CALIFORNIA WINES,

For sale at THACHER'S. mh30—W82m

FROM THE LONDON DOCKS.
Having been appointed by **John & Robert Dunster**, the great Wine Merchants of LONDON, as their Agent in the **United States and British Provinces**, for the bottling and sale of their celebrated
LONDON DOCK GIN,
LONDON DOCK BRANDY,
LONDON DOCK PORT WINE,
LONDON DOCK SHERRY WINE,
The Subscriber would now offer to
TOWN AGENTS, DRUGGISTS, GROCERS AND FAMILIES,
these justly celebrated SPIRITS and WINES.
☞ They are put up in cases of one dozen bottles each, and will be sold at very low prices, to enable all who are desirous of obtaining
Genuine Liquors and Wines
to purchase a good article at a reasonable price.
☞ They are sold here, as in London, in bottles only, with the Agent's name on each bottle, to prevent counterfeiting.
Sample Bottles will be sent by Express, so that parties may test the quality, if desired.

Boston, Dec. 10, 1863.—1yTuThS

E. A. STEVENS,
NO. 46 MARKET STREET.

AN UNUSUALLY LARGE STOCK
OF EVERY KIND
—OF—
KITCHEN FURNISHING GOODS.

CHILDREN'S CARRIAGES.
The subscriber has purchased for cash, of the largest manufacturers in the country,
200 CHILDREN'S CHAISES,
WAGONS, CABS, GIGS,
TOY GIGS AND WAGONS,
of about 20 different styles—prices from $3 to $21 each.
Some of the above are very elegant silver-plated and gilded Chaises. The assortment is the largest and best ever offered in this city. A part of the above are already in store and ready for sale—the balance is expected daily.
Call and examine the stock, whether intending to purchase or not.
E. A. STEVENS,
46 Market street.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

HALEY, MORSE & BOYDEN'S
SELF-ADJUSTING
CLOTHES WRINGER,
THE BEST IN THE WORLD.
Over 40,000 have been sold by the manufacturer in a little more than two years—nearly 400 of them in Portsmouth and vicinity!
Buy one and try it—if not perfectly satisfactory the money will be refunded.
For sale at
E. A. STEVENS'S
House Furnishing Establishment,
NO. 46 MARKET STREET.

Special Notice.
The subscriber respectfully gives notice to his patrons that all accounts, however small, will be presented for payment on the first of July next; and interest will be charged on all demands remaining unpaid after that time.
Terms Cash, hereafter, unless special agreement be made to the contrary.
This course is rendered necessary by the enormous rise in prices, and the general abandonment of the credit system by manufacturers of goods in the line.
A VERY LARGE STOCK OF
HOUSE FURNISHING GOODS,
Bought wholly for cash, is offered to the public at a slight advance above present wholesale prices.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are performed without the nauseous dose of Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are informed that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Talleir's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
ALL, ALL, ALL,
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Talleir's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 6 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, APRIL 23, 1864.

THE REBELLION.

A dispatch from Memphis, Tenn., 19th, reports that Forrest is retreating into Mississippi, closely pressed by Gen. Grierson. McCullough had passed the Tallahatchie.

Deserters continue to report that Longstreet has returned to Virginia, and is now at Orange Court House: they also state that Lee's entire force numbers not more than 40,000 or 50,000.

The Governors of Pennsylvania, Ohio, Indiana, Illinois, Iowa and Wisconsin are in Washington and are urging the President to call for 200,000 six months' men for special service. Four of these States propose to furnish one-half of that number.

The New York Times' despatch says information at Washingtn coonfirms the suspicions of a widespread conspiracy in the Northwestern States to inaugurate armed resistance to the government.

The North Carolina Governor's Council, convened at Raleigh, declined calling the Legislature together in extra session, fearing it would array the State against the Confederacy.

Official reports from Plymouth, N. C., state that the rebel ram had surprised our fleet, having passed the river obstructions in the night, and sunk one of our vessels—the Southfield. Com. Flusser, of the Miami, fired the bow gun with shell which struck the ram, rebounded and killed him. He was a fine officer. The ram is 120 feet long, has two independent propellers, and carries two 20-pounders.

The Baltimore American, has a report received by a roundabout way and therefore unreliable, that the rebel ram sank the gunboat Bombshell and two others, names unknown, on the 18th; and that it was generally expected Plymouth would have to be evacuated. Gen. Peck would be able to hold Newbern.

Matters connected with the Red river expedition look a little brighter. The rebels lost 1500 on the first day; and on the second, when they were handsomely whipped, lost two to our one. Two of their Generals were killed. Gen. Banks sent for the fleet, and they returned, but were attacked on the way by rebels on both sides of the river. A fight ensued, and the rebels were repulsed with 500 or 600 killed, and a large number wounded, while none on the gunboats were injured. Gen. Green, commanding the rebels, had his head taken off by a shell.

S. J. Court, Exeter—Julia A. Weeks, indicted for keeping a house of ill fame at Portsmouth, retracted her plea of not guilty, pleaded nol. con., and was sentenced to fourteen days in county jail, and costs of prosecution.

Julia A. Chapman—house of ill fame at Portsmouth. Plea nol. con. Sentenced to 7 days in county jail and costs of prosecution.

State v. Hannah Dyer—for letting house to one Carrie A. Swain to keep as a house of ill fame. Plea nol. con. The case was continued.

Indictments have been returned against

Thomas P. Currier, of Raymond, for stealing oxen, property of one Dean Smith.

Martha Towle of Exeter, for composing and writing a certain false, scandalous, malicious and defamatory libel.

J. W. Goodwin, a transient person, for attempting to obtain goods by false pretences.

Otis Hewins and Henry Ham—for highway robbery.

Dolly Emery, of Portsmouth, assaulting and obstructing officer.

State v. John Donovan, appt. This was an appeal from the Police Court in Portsmouth. Donovan (an Irishman) was arrested for an assault upon one Henry Fitchett (a contraband) at Portsmouth, on the 20th of March last—was tried before the Police Court, and fined $10 and costs—and appealed to the S. J. Court. After the case had been opened to the jury by the Solicitor, the appellant consented to a verdict of guilty, exceptions to be filed, or the case reserved.

165—Thomas J. Hoyt v. Levi Green—Assumpsit on promissory note—was commenced Wednesday morning. Witnesses were called to impeach pltf's reputation for truth and veracity, and the case postponed until the afternoon, to allow rebutting testimony.

On Tuesday, Horace S Cummings Esq., of Exeter, was admitted to the Bar of this county. Mr. Cummings had previously been admitted to practice in the Courts of the State of New York.

— Mr. and Mrs. William Atkinson of Newbury, Vt., celebrated the sixtieth anniversary of their wedding a few days ago.

— A grievous famine prevails throughout a large part of Hungary. Thousands of the inhabitants, sick and footworn, are wandering about in search of food.

— The Philadelphia Press makes an announcement, "on very good authority," that a public wedding is soon to take place at the Academy of Music, between a rebel prisoner in Fort Delaware and a lady of Philadelphia, at a dollar admission, for the benefit of the funds of the Sanitary Commission.

NOTES OF FORMER DAYS.

Collected and Collated — By Uncle Tony.

Wild Projects for taking Louisburg in 1745.

In the undertaking and prosecuting of an enterprise so novel to the people of New England, it is amusing to see how many projects were invented; what a variety of advice was given from all quarters, and what romantic expectations were formed by advisers and adventurers. During the enlistment, one of the officers was heard to say with great sobriety, that he intended to carry with him three shirts, one of which should be ruffled, because he expected that the general would give him the command of the city, when it should be taken. An ingenious and benevolent clergyman presented to the general a plan for the encampment of the army, the opening of trenches and the placing of batteries before the city. To prevent danger to the troops from subterraneous mines, he proposed that two confidential persons, attended by a guard, should, during the night, approach the walls; that one should with a beetle strike the ground, while the other should lay his ear to it, and observe whether the sound was hollow, and that a mark should be set on all places suspected. Another gentleman of equal ingenuity, sent the general a model of a flying bridge, to be used in scaling the walls of Louisburg. It was so light, that twenty men could carry it on their shoulders to the wall, and raise it in a minute. The apparatus for raising it consisted of four blocks, and two hundred fathoms of rope. It was to be floored with boards, wide enough for eight men to march abreast; and to prevent danger from the enemy's fire, it might be covered with raw hides. This bridge, it was said, might be erected against any part of the wall, even where no breach had been made; and it was supposed that a thousand men might pass over it in four minutes.

But the most extraordinary project of all was Shirley's scheme for taking the city by surprise, in the first night after the arrival of the troops, and before any British naval force could possibly come to their assistance. It is thus delineated in a confidential letter which he wrote to Wentworth, when he urged him to send the New Hampshire troops to Boston, to proceed thence with the fleet of transports. "The success of our scheme for surprising Louisburg will entirely depend on the execution of the first night after the arrival of our forces. For this purpose it is necessary that the whole fleet should make Chappean-rouge point just at the shutting in of the day, when they cannot easily be discovered, and from thence push into the bay, so as to have all the men landed before midnight; (the landing of whom, it is computed by Capt. Durrell and Mr. Bastide, will take up three hours at least.) After which, the forming of the four several corps, to be employed in attempting to scale the walls of Louisburg, near the east gate, fronting the sea, and the west gate, fronting the harbor; to cover the two before mentioned parties in case of a repulse; and to attack the grand battery, (which attack must be made at the same time with the two other attacks) will take up two hours more at least. After these four bodies are formed, their march to their respective posts from whence they are to make their attacks and serve as a cover to the retreat, will take up another two hours; which, supposing the transports to arrive in Chappean-rouge bay at nine o'clock in the evening, and not before, as it will be necessary for them to do, in order to land and march under cover of the night, will bring them to four in the morning, being day break, before they begin the attack, which will be full late for them to begin.—Your excellency will from hence perceive how critical an affair the time of the fleet's arrival in Chappean-rouge bay is, and how necessary it is to the success of our principal scheme, that the fleet should arrive there, in a body, at that precise hour."

It is easy to perceive that this plan was contrived by a person totally unskilled in the arts of navigation and of war. The coast of Cape Breton was dangerous and inhospitable; the season of the year rough and tempestuous, and the air a continual fog; yet a fleet of an hundred vessels, after sailing nearly two hundred leagues, (for by this plan they were not to stop) must make certain of land 'at a precise hour,' and enter an unknown bay in an evening. The troops were to land in the dark, amidst a violent surf, on a rocky shore; to march through a thicket and bog three miles to the city, and some of them a mile beyond it, to the royal battery. Men who had never been in action were to perform services which the most experienced veteran would think of with dread; to pull down pickets with grappling irons, and scale the walls of a regular fortification with ladders, which were afterwards found to be too short by ten feet; all in the space of twelve hours from their first making the land, and nine hours from their debarkation. This part of the plan was prudently concealed from the troops.

The forces which New Hampshire furnished for this expedition were 350 men, including the crew of an armed sloop, which conveyed the transports, and served as a cruiser. They were formed into a regiment, consisting of eight companies, and were under the command of Col. Samuel Moore. The sloop was commanded by Capt. John Fernald: her crew consisted of thirty men. The regiment, sloop and transports were, by Gov. Wentworth's written instructions to the general, placed under his command. Besides these, a body of 150 was enlisted in New Hampshire and aggregated to the regiment in the pay of Massachusetts. Thus New Hampshire employed 500 men,—about one-eighth part of the whole land force. [In the introductory part of Dr. Ramsay's elegant history of the American Revolution it is said that "this movement was undertaken by the *sole* authority of the legislature of Massachusetts." This is not sufficiently accurate. It originated in Massachusetts,—but the colonies of New Hampshire, Rhode Island and Connecticut, by their legislative authority, furnished troops and stores. New York sent a supply of artillery, and Pennsylvania of provisions; but the troops from Rhode Island and the provisions from Pennsylvania did not arrive till after the surrender of the city.] In these men there was such an ardor for action and such a dread of delay that it was impracticable to put them so far out of their course as to join the fleet at Boston. Shirley therefore altered the plan, and appointed a rendezvous at Canseau, where the forces of New Hampshire arrived, two days before the general and his other troops from Boston.

NEW HAMPSHIRE ITEMS.

—— The Governor and council have voted to extend the bounty of one hundred dollars to all volunteers up to May 1st.

—— They have been but four cases of small pox in Claremont and vicinity. They were all of a very mild type, and no alarm whatever is felt by the citizens. Exaggerated reports have been circulated.

—— Capt. James Durgin and Capt. Granville P. Mason, of the 7th N. H. Volunteers, heretofore dismissed the service, have been restored with pay from the date on which they rejoin their regiments.

—— J. S. Walker, Esq., has sold the Claremont Eagle to Simeon Ide, a veteran typo and publisher, who will soon dress the Eagle in new type; if it maintains its former excellence it will not need the fine feathers to make it a fine bird.

—— Sanborn's Block in Main street, Concord, was burnt on Friday morning, and with its contents will prove a heavy loss. It contained stores, law officers, etc., and the Patriot printing office. The rooms of the N. H. Bible Society were in the building, and the entire stock of Bibles was destroyed.

—— We have already stated that some of the women in Franklin ordered a Mr. Rand to shut up shop and vamose the place, giving him a few days' grace to close up his affairs. He has gone. Last week the 150 ladies who began the enterprise chose a committee of four to carry on the work in their name. These, without fear or favor, have visited all the rumsellers in Franklin, and have extorted from all but one of them a promise not to sell intoxicating liquors any more. The landlord of the "Union House," however, refused to make any compromise, but did not frighten the ladies. They procured counsel and brought a suit against him. The case will come up for trial soon.

— Perley gives a rumor that the West is anxious to furnish 200,000 nine months volunteers, and close up the war.

— The Senate has passed a joint resolution, providing for the publication of reports of Generals received at the War Department since the commencement of the war.

— It appears that every shot fired by the Prussians before Duppel costs one pound sterling. It is estimated that they will require 300 siege cannon to overcome the forts, which are armed with 120 heavy guns.

— The Sultan has appointed two Christians members of the Grand Council, and others have been promoted to high official positions. This liberal tendency on his part is a mark of progress in Turkey.

— Miss Mary E. Walker, Acting Assistant Surgeon in Gen. McCook's brigade, in Georgia was captured by the rebels a day or two ago while visiting some citizens, patients, outside our lines.

— The Government has determined to take military possession of Lynne Point, in San Francisco harbor, for fortifying purposes. The owners, who have demanded exorbitant prices, will now have to look to Congress for remuneration.

— The Bury (England) Times says that such is the demand for passage to the United States that no engagement can now be made in any steamer for New York until near the end of April. The fares are rapidly advancing

—The Third Parish in Portland have requested Rev. Dr. Dwight, their pastor, to withdraw his resignation, and tendered him a vacation of which of six months, in which to recuperate, but he feels compelled to decline, the local papers say.

— Prof. Horsford, of Cambridge, has written another pamphlet upon army rations. His suggestions contemplate the increased comfort and mobility of the troops, with an estimated reduction in the cost of subsistance for the current year of $100,000,000.

— Arrangements are proceeding for conscripting the negro population of Kentucky, notwithstanding the remonstrances of Gov. Bramlette. The Louisville Press, the new anti-slavery paper, says the enrollment of negroes in the Fourth Congressional district has been finished, every county having sent in its reports.

— The opening of a puff paragraph in a Spanish paper may be taken as a fair example by the advertising mercantile community. It runs thus: "Amiable readers, spring is coming, and upon her throne of flowers Fashion is seated—indeed it is impossible to doubt, as the Angel of Hagar says, that the India silk pocket handkerchief will be the fashion."

— At Port Alleghany, Pa., a few days ago, a funeral procession was passing over a bridge to bury a child of Mr. George Moore, when the bridge gave way, and precipitated the mourners into the water; another child belonging to Mr. Moore was drowned, together with three of his brother's children, and one or two other lives were lost.

☞ A circular from the office of the A. A. Provost Marshal General, for this state dated at Concord, April 18, says:

Instructions received from the Provost Marshal General state that when a draft is made, it shall be enforced in those Towns and the Wards of Cities that have not furnished, by volunteering, the quotas assigned to them.

Hereafter, accounts are to be kept with the sub-districts themselves, and not with the State at large, each sub-district being held responsible for deficiencies in its quota, and every sub district receiving credit for any volunteers furnished in excess of its quota.

Credits will be given for every volunteer furnished up to and including the 15th inst., also for all volunteers mustered into the service after that date, and up to the last moment before the draft. W. Silvey,
Capt. 1st U. S. Art'y, A. A. P. M. G.

☞ A New Orleans correspondent says that some of the sailors on our gunboats play very sharp tricks to get cotton. They have orders to seize no cotton not marked "C. S. A." In many instances they go ashore with marking-pots in their hands, and first mark "C. S. A." on a bale, and then cross off the offensive initials and put underneath "U. S. A.," and with this new christening seize it as a lawful prize.

☞ Such has been the loss of cavalry horses by neglect that authority has been given to Generals commanding departments to dismount and transfer to infantry regiments from the same State any mounted man whose horse is, through his neglect, rendered unfit for service, and to take from the infantry regiment a substitute.

☞ The N. Y. Tribune's Washington dispatch says:

The Herald reiterates the rumor that Gen. Grant intends to give a command to Gen. McClellan. The wish is father to the thought. Gen. Grant appreciates the military qualities and achievements of McClellan, and has in his determinations already put him to the best possible military use, which is—inactivity.

Dangerous Advertising.—The Scientific American knows a man who does the principal part of his advertising by writing his name and business on the back of bank bills. Perhaps he is not aware that, in case those banks whose notes he thus indorses were to break, he could be held responsible for the face of the note. Courts have so decided in similar cases.

Sidney Smith speaks of a man so dry that if you were to bore holes in him with a gimlet sawdust would come out.

LOST—Several days since, probably on Middle street, or elsewhere at the westerly part of the city—a lady's purple woolen WAIST. The finder will be rewarded and thanked on leaving the same at the Chronicle Office. ap23

"A POLICY OF LIFE ASSURANCE is the CHEAPEST AND SAFEST mode of making a CERTAIN PROVISION FOR ONE'S FAMILY. Many a widow and orphan have had great reason to be grateful that the advantage of LIFE ASSURANCE was understood and embraced by the husband and father."—BENJ. FRANKLIN, 1769.

Send at once to J. P. BARTLETT, Agent for the MUTUAL LIFE INS. CO., for the Company's documents, which are furnished gratis. 3md18

"A Slight Cold," Coughs.

Few are aware of the importance of checking a cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs.

"*Brown's Bronchial Troches*," give sure and almost immediate relief. Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.
ap21—tuSaw

[From the New York Tribune, April 16th, 1864.]

Special Notice to Wounded Soldiers.

The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective War Claim Association, No. 35 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented to this office.
U. S. ARMY AGENCY.
No. 64 Bleecker street, opposite Pay Department,
ap30—1m New York City.

Local.

REBEL BARBARISM.—We had heard much of the boasted "chivalry" of the South, but the repeated instances that we have had of their worse than barbarism during the present war, convince us that there is not a civilized people on the face of the earth who would be guilty of the atrocious acts perpetrated on those who have fallen into their hands. A recent instance of this character is furnished by the "Army and Naval Journal," in regard to the treatment of the remains of Lt. C. H. Bradford, of the U. S. Marine Corps, formerly stationed at the Portsmouth Navy Yard, a young gentleman universally respected and beloved. If true it should doom "Southern Chivalry" to the execration of all mankind

The Army Journal well says: "With a magnanimous enemy the venom of war ceases at death. No true soldier has revenge to glut on a dying foe. After the last decree of Heaven has fallen, to Heaven is left the rest; and infamous is the animosity which pursues an honorable opponent into the precincts of the grave." It then goes on to say:

"We have been informed that Commander Rowan, in temporary command of the South Atlantic Squadron, learns definitely from a refugee who was until March 1st employed as nurse in the hospital at Charleston, S. C., of the death of 1st Lieut. C. H. Bradford of the U. S. Marine Corps, who was captured at the attack on Fort Sumter in September last. Previous to his death, which occurred during the latter part of September last, he met a former friend, a Dr. Mackie, through whose influence a burial was secured for him in the Magnolia Cemetery, but subsequently at the instance of the citizens of Charleston, he was disinterred and reburied in the Potter's Field. The malignity of the act needs from us no comment,"

☞ The mason's work on the new Fort Constitution at New Castle is being actively carried on, and the granite foundation of a portion of the walls, which has already been laid, gives promise of a most substantial structure when the whole is completed.

A Brass Band has been organized among the soldiers who at present garrison the fort, and although they have been organized but three or four weeks they have attained considerable proficiency in the use of their instruments.

We visited the Fort on Friday afternoon in pursuit of pleasure rather than of items, but so kind and spontaneous were the attentions shown us by Dr. Smart, Surgeon at the Post, that we cannot refrain from making a note of it. They were all the more pleasing, inasmuch as we were not in pursuit of official information.

☞ In the Board of Alderman, on Thursday evening, a petition, signed by a goodly number of our citizens, was presented by Dr. Treadwell, for the raising and draining of Pleasant street in the vicinity of the Post Office. Frequently during the winter, crossing to the Post Office at any point from the eastern side of Pleasant street has been a very serious difficulty, there being a broad and not very shallow pond of water to pass through. The proposition of the petitioners is to begin near the North Church and extend the grading to the proper distance down Pleasant street, making suitable grading and drainage on State street above and below. The new system of draining our streets by raising the centre and throwing the water to the side has worked well, where it has been tried, as in Islington and Middle streets.

☞ The steamer tug-boat "Portfire," built at the Portsmouth Navy Yard, is ready for duty, having her machinery in good working order. She will soon make a trial trip down the harbor.

Her twin-sister, (the "Bluelight") an exact counterpart, is likewise nearly completed. The machinery for these two boats is contracted for by Sylvester & Co., of Boston.

☞ The Bald Headed Eagle, shot by Elder Hoyt in Newington some weeks since, has been admirably stuffed and mounted by Mr. Charles G. Brewster, of Boston, and is now on exhibition in the window of Mr. N. P. Thacher's drug store, Market Square.

☞ Frank Forrest's Minstrels, an Ethiopian troupe new to this section, but whose show-bills present great attractions to the lovers of their style of entertainments, are to perform at the Temple this, Saturday, evening—tickets 25 cents.

DR. BAKER has removed his DENTISTRY to the spacious rooms on the corner of Congress street, over Messrs. Ham and Bodge's watch and jewelry store. Entrance to Dr. Baker's rooms, No. 1 High street, where customers will find him ready, attentive, skilful and accomodating, as usual.

PETERSON'S MAGAZINE, for May, contains thirty-eight articles, with forty-three embellishments, describing minutely a great many useful and as many useless articles, for the ladies' information. The magazine is cheap and good. $2 per year.

"B natural" is called the key-note to good breeding. "B sharp" we take to be the key-note of success in business.

☞ The Portland Argus publishes a statement of the quotas of the towns in the 1st Maine district, and also the number furnished up to Saturday, April 16, as appears by the records at the Adjutant General's office. The figures for the towns in this vicinity are as follows:

	Quota.	Furnished.
Berwick	59	44
Eliot	59	50
Kittery	93	89
North Berwick	51	45
South Berwick	73	55
Wells	90	97
York	68	54

TENDER AND TRUE.

You think the man of tender heart
Unnexed because you hear him sigh?
Unnexed because—unschooled in art—
He may not hide the tearful eye.

Try him—let the alarum roll—
Who is it leads the battle on?
The tender-hearted noble soul,
A Havelock or a Washington!

You think the man who kneels in prayer
Upon the turf, ere strife begin,
Will fail at heart when in the air
The blade and bullet whistle keen.

Try him—"Forward! give battle there!"
Who speaks? Who leads the battle on?
'Tis he who kneels—the man of prayer—
A Cromwell or a Washington.

The men of tears—the men of prayer—
'Tis they who lead, 'tis they who win
The gallant souls who do and dare
Have woman-hearts but hands of men.
—(J. H. McNaughton.

☞ Mr. Thomas Blanchard, one of the greatest of our American inventors, died in Boston, April 16, of apoplexy, aged 75. He was well known as a very ingenious inventor, and was the proprietor of many patents, among which are the tack machine, machine for turning irregular bodies, mortising machine, machine for bending timber, &c., by which he became wealthy.

☞ We hear that the original rocking horse that Little Mac used to ride is about to be presented to the ladies' fair in New York for the benefit of the poor non-committals.

— The House money order bill has been reported to the Senate by the postal committee.

— There is a shop in Paris which supplies a new shirt to any customer who leaves his dirty one and pays ten sous.

— Wyzeman Marshal is to go to Portland early in May with his company now performing at the Boston Theatre.

☞ Sabre cuts, gunshot wounds, and all other kinds of wounds, also sores, ulcers and scurvy, heal safely and quickly under the soothing influence of Holloway's Ointment. It heals to the bone, so that the wound never opens again. Soldiers supply yourselves. Only 30 cents per pot. 233

Calcutta, March 5—The cargo of the ship North Atlantic, Capt. Briard, for Boston, destroyed by fire in the river off the police station, consisted of 210 tons saltpetre, 5491 bales of jute, 43 bales of hemp, and 90 bales of gunny bags. The cause of the fire is not known, but there are grounds for suspicion, and the government have therefore ordered an efficient inquiry into the loss of the ship. She has been sold at auction, and realized 8900rs. The anchors, rigging, &c., brought 685rs.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has won the gratifying of presenting to the afflicted a remedy invaluable for many diseases that never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA, GLEET, SYPHILIS.
Beneath his treatment, all the Secretions of a venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the region of the kidneys, inflammation of the bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the individuals for the duties of business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, misanthropy, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charged for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotine, warranted the best preventive. Order by mail. There for 82 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.
DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female constitution. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and upon a relief guaranteed in a few days. It is particularly certain if the new mode of treatment, that most obstinate complaints yield under it, and the afflicted are restored to perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay a fortnight or few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no competitor in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 9 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every kind and nature, having long and unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to his medical advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow's medicine and box for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1864. eod1y

Gray's Patent Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.
The upper edge describes a perfect curve, free from the angles noticed in all other collars.
The gravel causes no puckers on the inside of the fastenings, collar—they are AS SMOOTH IN SIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.
The Gutter Collar has a smooth and evenly finished edge on BOTH SIDES.
These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.
They are made in "Novelty" (or turn-down style, in every half size from 12 to 17 inches, and in "Paradox" (Narrow), from 10 to 17 inches, and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller cases of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.
☞ EVERY COLLAR is stamped
"Gray's Patent Molded Collar."
Sold by all dealers in Men's Furnishing Goods. The Trade supplied by
HATCH, JOHNSON & CO.,
Importers and Wholesale Dealers in Men's Furnishing Goods and Umbrellas, **51 Devonshire street, Boston.** m8cl—8aw3m

mh14 51 Islington street.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS.
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospital, and Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.
Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long, from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians are
Invited to use Constitution Life Syrup.
During the past five years we have contended with obstacles and overcome opposition as becomes no ever encountered by any Reformer.
Rapidity of Cure.
Some say "Your medicine works quickly," while others doubt their permanency, and think that diseases can only be cured by the "slow recuperative process of nature." We answer by
In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the disease or sickness. What is requisite is, to restore the normal balance of the scale.
CONSTITUTION LIFE SYRUP,
A positive and specific remedy for all diseases originating from an ABSOLUTE STATE OF LIFE BLOOD, and for all the hereditary DISEASES transmitted from PARENT TO CHILD.
Paralysis.
Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effective remedy for prostration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Remedy.
Dyspepsia.
Indigestion, Liver Complaint, Constipation, Weight at Stomach, Blindness, Want of Appetite, Dizziness, Costiveness, Loss of Flesh.
Scrofula.
Strumo, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.
This taint (hereditary or acquired) filling life with unutterable misery; is by all usual medicines irremediable.
Rheumatism.
(Articular), Neuralgia, Gout, Sciatica, Tic Douloureux.
If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly relieved—enormous swellings are reduced. Cases, chronic or various, of 20 or 30 years standing, have been cured by us.
Nervousness
Nervous Debility, Confusion of Thought, Spasms, Want of Power, Sleeplessness, &c. Vital Decay.
Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove a blessing, thousands testifying their fealty to it Hope which raises more than it promises.
Mercurial Diseases.
Salivation, Feeling of Weariness, Aching of Bones, Foul Complexion, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, by involving the last mercurial and uniting the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.
Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES.
And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.
CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be applied to the Tumor, Glands affected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which develop upon a Scrofulous constitution. These cases upon receipt by taking a few doses of Life Syrup.
All scrofulous persons suffering from Debility, Constipation, Costiveness, Dyspepsia, Dropsy, of the abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inconvenience and ulceration of the ovaries are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and wellingtons other glands of the body will be completely reduced without resorting to the knife or operations of any kind.
Epileptic Fits, Sympathetic or Organic Diseases of the Heart (or Palpitation), Disease of Valves—producing Fainting, Pain in the Side, Back and Limbs, Ringing in the Ears, Dizziness of the Head, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Lassitude of the Muscular System, Symptoms of the Heart, will be greatly relieved by Constitution Life syrup.
For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, and Ulcerated Sore Legs, Life Syrup.
MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very troublesome to remove, and require time. A few bottles of Constitution Life syrup will correct the secretion, and remove the deposit which is disfiguring the face.
In Disease of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an uncleansed or costive condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *To a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*
Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and Science have given the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women. Constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.
TO MOTHERS AND MARRIED LADIES.
It is the safest and most effectual medicine ever discovered for purifying the system and relieving the sufferings attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the nourishment of the mother. We think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.
Constitution Life Syrup
Is the "Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.
CHEROKEE REMEDY, the great Indian Diuretic, cures by removing the urinary organs, Gravel, Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Cleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus or Whites in females, where all the old nauseous medicines have failed.
It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.
It is diuretic and alterative in its action; purifying and invigorating the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.
CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and cleansing*; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*
☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all Inflammation, Soreness, Scalding and the weakened organs are speedily restored to full vigor and strength.
For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.
Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.
Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.
Sent by Express to any address on receipt of price. Sold by all druggists everywhere.
Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.
An unfailing cure for Spermatorrhœa, Seminal Weakness, Diurnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Hysteria, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pain Countenance, Insanity, Consumption, and all the dreadful complaints caused by departing from the path of nature.
☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has rendered a valuable instrument in curative powers have been sufficient to gain victory over the most stubborn cases.
☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!
☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.
☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.
Sold by all respectable druggists everywhere.
Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.
The Rejuvenating Elixir is the result of modern discoveries in the vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.
This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.
One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few doses bring the rose to the cheek.
This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.
The young, or even aged youth, the overwhelmed man of business, the victim of nervous depression, the individual suffering from general debility, or from restoration of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.
☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.
Sold by all druggists everywhere.
Dr. W. R. MERWIN & CO., Sole Proprietors,
No. 59 Liberty street, New York.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.
They cure Suppressed, Excessive and Painful Menstruation.
They cure Green Sickness (Chlorosis).
They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Loss of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.
Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.
They may be safely used at any age and at any period of life, without the slightest danger, during which the unfailing nature of their action would intuitively prevent pregnancy.
All letters seeking information or advice will be promptly, freely and discreetly answered.
Full directions accompany each box.
☞ Price $1 per box, or six boxes for $5.
Sent by mail, postage free, on receipt of price.
Sold by all respectable druggists.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than is usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper tea-kettle for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely obviated. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

Portsmouth.
J. Woodman Moses, John R. Holbrook, George Billbrook, Frank Jones, George L. Treadwell, Henry L. Richards, John H. Piper, John Warburton, Axel Quimby, Louis Green, Robert King, George B. French, John W. White, Phillip Woods, James Shaw, Mrs. Mary Jones, James Pender, J. B. Upham, G. C. Dodge, Kittredge Sheldon, Albert F. Merrill, John Teague, William R. —of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and as none of the air which comes in contact with the fire is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from the consumed fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious: the combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This result, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass through the coal, thus saving at least 20 per cent. of the properties of the fuel in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaver, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Shea, and others.

ESTABLISHED 1852. PORTSMOUTH, N. H. MONDAY, APRIL 25, 1864. VOL. XXIV. No. 97

The Chronicle.

SUMNER, TANEY AND HALE.—In a debate a few days ago in the Senate, Mr. Sumner took occasion to animadvert with some freedom upon the decision of the Supreme Court in the Dred Scott case. Reverdy Johnson came to the rescue with an elaborate defence of the Court and of Chief Justice Taney in particular. Mr Sumner's rejoinder was very happy. Here is a part:

The multiplication table tells us that two and two make four. Now, if a tribunal honored like the Supreme Court should undertake to declare that two and two make five, and a Senator as distinguished as the Senator from Maryland should uphold the high tribunal in its decision, I do not think that it would be presumptuous in me to call that decision in question. But the Dred Scott decision was as absurd and irrational as such a reversal of the multiplication table, beside shocking the moral sense of mankind. The Senate will pardon the little scraps with which I now denounce it. I claim nothing for myself. I may be weak. But, according to the measure of my abilities as God has given them to me, I enter a standing protest against that atrocious judgment, which was false in law and also false in the history with which it sought to maintain its false law.

The Senator seems to imply that I am not familiar with that case. Sir, I know it too well. I have read carefully the opinion of the Chief Justice, which the Senator now vaunts, and I have read also the opposing opinions, by the side of which that much-vaunted opinion of the Chief Justice is dwarfed into the pettiness which becomes a production in such a cause; ignoble in character and impotent except in that little brief authority which is incident to the judicial position. The Senator pleads for this judgment in the name of jurisprudence, of justice, and of the nation. Sir, in the same name I denounce it; in the name of jurisprudence, which it disgraces; of justice, which it denies; and of the nation, which it has offended.

Among the influences and agencies which helped forward the present rebellion and set fellow citizens in bloody battle with each other, the Dred Scott decision can never be forgotten. It gave to conspirators new confidence. It filled patriots for a while with despair. It was the platform of slavery, whose behests would have triumphed had this decision been allowed fully to prevail. Hating the rebellion in its origin and the circumstances which nursed it into being, we must hate this decision.

Mr. Hale who enjoys a joke and fling at the Supreme Court equally well, said:

I do not propose to enter into this discussion, but simply to make a single remark, in which I am compelled to differ with my honorable friend from Massachusetts. He says that the Dred Scott decision was a disgrace to the Supreme Court of the United States. I do not believe that I think any better of that decision than he does; I think it was an outrage upon the civilization of the age and a libel upon the law; but I do not think it was a disgrace to the Supreme Court of the United States.

RYE, N.H., Feb. 20, 1860. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even restrain it affected her hands very much. A large sum had been expended by the most celebrated physicians, for Sarsaparilla Syrup, &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicines can equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it.
JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with diseases at my stomach, loss of appetite, and often vomited up all of my food. Could immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health.
M. LOWD.
From ELDER I. CHESLEY, Lee, May 31, 1841
DR. SWEET: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that after your visiting our house in the spring of 1840, she had been confined for a number of months without her natural use of her right side. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I testify to your medicine one and the best that can be found for the disease above named."
ISRAEL CHESLEY
Any one returning the remainder of a bottle or box of Dr. Sweet's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S SWEET, No. 7 High street, Portsmouth, N. H., promptly attended to.
may26

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
AND
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.
Immediately beneath the scalp there are very small glands, or, more commonly known of the Hair. It is from these glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.
To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.
1. Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a soft delusive relief, this will, if properly applied restore the hair to its former appearance and beauty.
The Physiological Hair Regenerator is warranted in all cases to produce the following results:
2. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.
3. It will effectually prevent the hair from falling out, and will, in the most delightful manner, cleanse the head from all dandruff, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.
We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; but it is thought certain that it is very short time it will have a world wide reputation.
HOME TESTIMONY.
BEDFORD, N. H., Dec. 17, 1863.
Messrs. Tebbetts Brothers—The preparation you induced me to try on my bald head, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost black. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria; it stopped it immediately on its application. My wife has also been trying it for dandruff on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape.
A. C. CUTLER.
MANCHESTER, Dec. 20, 1863.
Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than two years when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing.

American and Foreign Patents.
E. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Reverses, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting One Dollar. Assignments recorded at Washington.
This agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by all its immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove the success of the MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of his partner, during the twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relating to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, enable him able, beyond question, to offer superior facilities to inventors.
All accounts of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made over twenty rejected applications SIXTEEN APPEALS, EVERY ONE of whom was decided in his favor, by the Commissioner of Patents.
H. R. EDDY.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures with as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Sore Throat and Pimples on the Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are performed by under the control of the latest Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men and others addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are advised before consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will admit of a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the benefit of those contemplating marriage—300 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as the female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

MONDAY, APRIL 25, 1864.

THE REBELLION.

Private letters from soldiers in Gen. Smith's army fully confirm our victory near Shreveport. Gen. Banks has countermanded his order of retreat to Alexandria, and Gen. Lee's cavalry have been put in pursuit of the enemy. Our army is in good condition yet, and not so disorganized as previously reported. The fleet cannot get up to Shreveport in consequence of low water.—Much is being done, however, by the light-draft boats on the Red, White and Ouachita rivers.

There is great activity among our troops about Chattanooga, and it is thought a general advance will soon be made.

Forrest is said to be moving toward Memphis.

Gen. Peck has relieved Gen. Hinks of the command of Point Lookout, and the latter and Gen. Marston are to command brigades under Gen. Smith.

The rebels are preparing to defend Richmond, and it is thought that Lee may after all fall back when Gen. Grant advances, and make no considerable resistance along the Rapidan. A few days may show.

Our troops have evacuated Platka, Fla., bringing away all the military stores, &c.—The transport steamer Gen. Hunter was destroyed by a torpedo in the St. Johns river, Apr. 1 Rh, 12 miles above Jacksonville. The Quartermaster of the steamer was killed. All others were saved. She had neither cargo nor passengers.

A latter from Newbern states that some of our troops, on the 14th, drove the rebel pickets at Beaver Creek, 15 miles from Kinston, N. C., and destroyed a cotton mill and a large amount of cotton.

Accounts from Plymouth, via Fortress Monroe, gave a more definite account of the recent operations there. The rebels were twice repulsed in their assaults on our works on Sunday. On Monday noon, the U. S. gunboat Bombshell went up the Roanoke river to look after the rebel ram, but was fired into by a rebel battery and sunk. About 3 o'clock the ram came down, ran past our batteries, and then ran into and sunk the gunboat Stoubfield. The Miami, after her commander was killed, was run down the river out of danger. The rebel ram, which so far as heard from has not fired a shot, has possession of the river below Plymouth. Our garrison at Plymouth is cut off from all communication, but has plenty of provisions, ammunition and arms. Advices from Newbern say that Little Washington is also threatened by the rebels. Gen. Butler has sent gunboats to the Sound to open communication with Plymouth and aid the other vessels to destroy the rebel ram. Admiral Lee has also sent a gunboat to replace the Southfield.

— Gold closed at 178 1-4 in New York on Saturday.

— An appropriation of $100,000 has been made for army secret service.

— An earnest movement has commenced to sever the connection of Harvard college with the State government.

— Two soldiers were shot at Fort Warren, Boston, on Friday afternoon for desertion.

— The recent easterly gales have made a clean sweep of all the lobster pots near Cape Ann.

— Authority has been received from the War Department to raise one or more regiments of artillery in Ohio.

— One hundred and fifty watches per day, or one every four minutes, are turned out at the Waltham Watch Factory.

— Chas A. Ropes, Esq., of Salem, has contributed one hundred dollars to the fund of the Fisherman's Widows and Orphans Association, at Gloucester.

— Saturday, Apr. 23, was the 300th anniversary of Shakespeare's Birthday, and was appropriately noticed by public exercises in many places.

— Ezra Chappell, of New London, Conn., has distributed, at his own expense, within six months, 14,000 loaves of bread among the poor of that city.

— The Senate has ordered extra editions of the reports of Grant, Meade and Rosecrans, as there is a great public demand for this official military information.

— It is stated in naval circles that the moment Congress selects the site for a navy-yard, Secretary Welles will have the work commenced upon it.

— The New York Senate has concurred with the Assembly in passing the bill to enable the State banks to organize under the National Banking law.

— Gen. Carrington, under the direction of Gov. Morton, is energetically putting the militia of Indiana in readiness for any emergency.

— An Ohio judge has decided that all divorces which are granted in Indiana to parties not actually residents of that State, are void, and second marriages contracted under such circumstances render the parties liable to an action for bigamy.

NEW HAMPSHIRE ITEMS.

—— The 3d N. H. regiment is at Jacksonville, Fla.

—— Nashua says, if the State Capital is to be removed, she wants it to go there.

—— Rev. Mr. Gorman has asked to be released from his pastoral relations with the Universalist society at Nashua.

—— Deserters are being picked up by the officers very rapidly in this State just at the present time.

—— Franklin Tenny, Esq., recently landlord of the National Hotel in Washington, has returned to Manchester with his family, intending to reside there permanently.

—— Mr. and Mrs. Joel Converse, of Lyme, celebrated their golden wedding on Monday, April 11. There are only two persons living who were present at their wedding.

—— Bartlett Hill, Esq., of Laconia, proposes to convey two acres of valuable and well located land, in that town, if the authorities will erect a high school edifice upon it.

—— Capt. King, 6th N. H. regiment, (probably Dana W. King, of Nashua,) was wounded, it is supposed mortally, in the recent fight at Pleasant Hill, La., and left on the field.

—— The 8th N. H. regiment has recently been changed to cavalry. Recent letters from them report that they were about to leave Alexandria for Shreveport. As the cavalry are represented to have suffered badly in the late fight, considerable anxiety is felt on their account.

—— A steam press, in Mr. Thomas Appleton's Hosiery Establishment, at Lake Village, exploded a few days since. The press was blown into atoms, and the building considerably shattered. Of several hands in the room only one was injured, a boy who was scalded, but is doing well.

—— The Peterborough Transcript mentions that Samuel B. Collins of Francestown, has a pair of twin colts, eleven months old, which are handsome and doing well.—Twin colts are rarely seen. Mr. C. E. Partridge of Peterborough, has a two-years old heifer which gave birth to twin calves about five weeks ago. They are both alive and doing well.

—— The fire in Concord on Friday morning was quite serious. Sanborn's Block, the building destroyed, was immediately south of the State House Yard, and was the second brick building erected in Concord. It was insured for $5000. On the first floor were stores: Benning W. Sanborn, Book and Stationery, stock mostly saved, insured for $4000; Bullock & Harris, Groceries and Dry Goods, stock mostly burned, insured for $4500; Franklin Evans, West India Goods and Groceries, mostly saved and well insured. On second floor: George & Foster, Law Office, Library and most of papers saved; establishment of New Hampshire Patriot—furniture, printing materials, presses, paper stock on hand, &c., all destroyed, loss $6000, insured for $3000. Office of Equitable Mutual Fire Insurance Co., Papers saved, furniture burnt. Marshall and Chase, Law Office, Library mostly saved, insured for $800. N. H. Bible Depository, Bibles all burnt, loss $1800, insured for $600. Studio of Mr. Tenney, an Artist, damage by water, as the room was in the rear addition to the building. On third floor; Printing office of New Hampshire Patriot, materials all destroyed; Museum of Natural History, loss $2000, no insurance. These were the principal occupants. Mr. Butterfield, of the Patriot, is the heaviest loser.

— Superintendent of Indian Affairs Wentworth has telegraphed to the Indian Bureau from San Francisco that the Indians in the Southern District of California are in a state of insurrection, owing to the drought. The Indian Bureau has taken measures to furnish the required relief.

— On Friday and Saturday of last week four persons were brought into Springfield, Ill., in custody, charged with passing counterfeit Treasury notes. Quite a number of such, of the denomination of $100, have been passed in the southern part of the State. They are well executed.

— New York speculators in butter came to grief last Tuesday. The heavy receipts, restricted consumption, mild weather, and tight money market, proved too much for them. Prime State butter was sold as low as 33 cents in the open market, against 48 a 50 cents per lb., a few weeks ago; and other grades declined proportionably.

— The Portland Press learns that Gen. Dow has been confined to his room, the confinement in Libby prison having been too much for his heretofore vigorous constitution; and it is feared that he will not regain his former firm health, if he should ever find himself able to resume his ordinary duties of military or civic life.

— The printers of Atlanta, Georgia, having "struck" for $1.87 per thousand ems, the four journals published at that place have been compelled to suspend publication. As soon as the printers quitted work, however, the conscript officers seized them and marched them off to camp.

IDLE BOYS.—The Herald thus sensibly discourseth respecting boys who have nothing "to do" except what "Satan finds."—Two such, who set fire to an old building, were arraigned before the Police Court and held to answer to the Superior Court:

We hope the punishment of these boys will be a warning for all other truant, idle and vicious boys. They had been several times in the Watch House, and been warned, but their parents permitted them to loaf about the streets, till nothing but their youth will save them from the State Prison. There is any number travelling the same road. Why do not their parents see that they are in school and out of mischief?—They are hoarding up sorrow for themselves and their children by such neglect. It will be but a few days before the city will provide for this class in the Almshouse; and if parents who now allow their boys to idle away their time in the streets do not wish to see them carted off, they must make a very thorough and speedy reform, for they may depend upon it that somebody else will attend to their boys if they can't.—There is to be no mistake about this business; the axe is at the root of the tree and the chips will soon be flying.

A MAMMOTH ENTERPRISE.—A New York letter states that a new coal company has just been formed by E. Cunard, agent of the Cunard steamers, Wm. H. Aspinwall and others. Its operations are to be upon a gigantic scale. The capital is named at six millions of dollars. George's Creek Valley, Alleghany county, Maryland, is to be the field of operation. The scheme includes the purchase of a railroad, and the employment of every facility within the reach of moneyed enterprise. The necessities of the great steamship lines will thus be supplied at a cost comparatively moderate; and beyond this the general market will be freed from the conscription forced upon it by speculators and monopolists, and hence a public and private benefit will accrue.

☞ The Clyde-built steamer Alliance, from Nassau, in endeavoring to ascend the Savannah river, grounded in Calleboque sound, near Dawfuskie island, on Tuesday morning, the 12th instant. Boats were soon sent from the U. S. gunboat South Carolina to take possession, and on boarding the prize, all her crew, 30 in number, including her captain, were found to be asleep. The passengers escaped to the shore. A tug was procured from Port Royal and the Alliance was got off and taken into that port. She is described as having three smoke stacks, and a "turtle" back, or covered decks like the turtle rams, and would be taken for a vessel of that class at a little distance. The Alliance is of 600 tons burden, and with the cargo is estimated to be worth about $100,000.

☞ The Baltimore correspondent of the N. Y. World has a fertile imagination. He is building rams for the rebels very rapidly. Hear him: "the rebels now have 30 ironclads ready for service: 10 at Richmond, 5 at Mobile, 7 at Charleston, 1 at Savannah, 3 on the Neuse River, 2 on Tar river, and 2 on the Roanoke river. It is also said that 20 iron-clads will arrive from Europe before the end of June." If the rams are only half as large as his story, they will do fearful execution among our fleets. "How this (correspondent of the) World is given to lying!"

☞ The Portland Advertiser states that in Harpswell, Me., on Friday morning, two little girls, aged respectively 6 and 8 years, daughters of James Sinnett, crossed over to an island but a short distance from their house. To reach it a small stream must be crossed, which at low tide is easily fordable. The object of the little ones was to gather some shells to put on their mother's grave. While attempting to ford the stream, clasping each other's hand, they fell and were drowned. They were found on the spot where they were seen to fall, dead, their hands clasped.

☞ The New York Express reports a case in which the owner of a vessel actually paid for the privilege of carrying some freight to Europe. A canal boat load of wheat was taken for Liverpool, the ship owner to pay the expense of taking it in, and the shipper received a small bonus.—The grain was probably desired for ballast. There is but little freight offering for Europe at this time, while ship owners are desirous of sending over their vessels, with the expectation of procuring home freight of emigrants.

☞ The St. Louis County Court has given a tract of five hundred acres of highly improved land, twelve miles from the city, known as the Sinzer's Farm, to the Mississippi Valley Sanitary Fair. The farm is valued at between thirty and forty thousand dollars. The city has already given and paid out of the treasury twenty thousand dollars cash for the same object.

☞ We have received, through Mr. James H. Head, a copy of the National Almanac, published by George W. Childs, Philadelphia, and already noticed in our columns. It is an invaluable work to almost every one in the country,—certainly to all business and literary men.

— Dr. Livingstone, the African explorer, supposed to have been murdered by the natives, has been heard from, alive and well.

THE ATLANTIC MONTHLY, for May, among other attractive articles, contains a poem by Robert Browning; the first chapters of a new romance by Miss Harriet Prescott,—and the story of a Foreign Cruise, by Bayard Taylor. There are other papers by Ik. Marvel, Mrs. Stowe, Arthur Gilman, T. W. Parsons, and other well-known writers.

GODEY'S LADY'S BOOK, for May, is full of engravings and articles, all attractive to the ladies, we presume. Godey leads.

LIFE ASSURANCE.
"A POLICY OF LIFE ASSURANCE is always an EVIDENCE OF PRUDENT FORETHOUGHT; no man with a dependent family is FREE FROM REPROACH if not insured."—LORD LYNDHURST, late Lord Chancellor of England.

"A POLICY OF LIFE ASSURANCE is the CHEAPEST AND SAFEST mode of making a CERTAIN PROVISION FOR ONE'S FAMILY. Many a widow and orphan have had great reason to be grateful that the advantage of LIFE ASSURANCE was understood and embraced by the husband and father."—BENJ. FRANKLIN, 1769.

Send at once to J. F. BARTLETT, Agent for the MUTUAL LIFE INS. CO., for the Company's documents, which are furnished gratis. 8mf13

"A Slight Cold," Coughs.
Few are aware of the importance of checking a Cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs.
"*Brown's Bronchial Troches,*" give sure and almost immediate relief. Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.
ap21—1mdaw

[From the New York Tribune, April 16th, 1864.]
Special Notice to Wounded Soldiers.
The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective War Claim Association, No. 32 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.
All such claims on file in that office, should be at once withdrawn and presented to this office.
U. S. ARMY AGENCY,
No. 64 Bleecker street, opposite Pay Department,
ap30—1m New York City.

PURE MAPLE SUGAR.

ap15 JOHN SISE, 5 Market square.

A Card to Invalids.
A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

Graham Flour.
For sale by A. A. PAYNE.

Local.

☞ The Boston Commercial Bulletin mentions among new counterfeits detected last week,—fives on the Bank of New Hampshire, raised from ones. Vig. female and cupid, figure 5 in upper and female in lower right corners. Goddess of Liberty on left end, and also the word "Five" in *green* letters below the name of the bank.

☞ Running away appears to be epidemic among horses just at present. On Friday morning a horse belonging to Mr. Coleman was so startled by the sight of a female brass band passing Market Square, (though we are constrained to remark, by way of parenthesis, that females with brass in their faces are not a strange sight on our streets,) that he disregarded the heavy weight by which he was anchored, dashed away, and seriously damaged the wagon to which he was attached, before his career could be checked. At noon on Saturday, a horse attempted to enter the Stone Stable at a rapid rate, while only one of the doors was open. The horse succeeded in entering, but left a buggy in a shattered condition outside the door, while the driver obtained quite an ugly cut on the forehead as his share of the adventure.

☞ A. A. Paymaster Frank W. Hackett, U. S. N., of this city, is at present acting on board U. S. steamer Miama, which for a time was in such a dangerous position in front of Plymouth, N. C., by reason of the nearness of the rebel ram. Late accounts report the steamer to be out of harm's way.

☞ At the regular annual meeting of the Mercantile Library Association the following named officers were elected for the ensuing year:
President—Charles Robinson, Jr.
Vice President—Wm. E. Hadley.
Secretary—S. B. Childs.
Treasurer and Librarian—E. W. Brown.
Directors—F. A. Fernald, E. A. Stevens, Charles C. Akerman, Mercer Goodrich, E. P. Kimball, James C. Brown.
Trustee—Clement March.

DONATION.—We are happy to learn that Rev. Mr. Humphriss, the talented and devoted pastor of the Methodist Church in Haverhill, Mass., has been made the recipient of a donation of $100 from members of his society. The kind feeling existing between pastor and people we trust may be the means of continued and increased spiritual prosperity to the church and society. *Haverhill Gazette.*

"At a Sanitary Commission Fair in Osterville, Mass., last week, an original tableau, entitled "The Four Generations," was presented, the characters being represented by four actual members of one family—Mrs. Elizabeth Bragg, eighty-four years of age; her daughter, Mrs. David Fuller; her grand-daughter, Mrs. James Annand, and her great grand-daughter, Genevieve Annand, aged five years."
This is well, but we can beat it in our own city. In a mansion up town a "tableau of four generations" can be formed, in which the grand-mother is only seventy-five and the great grand-child is eleven.—*Portland Press.*

— The N. Y. Times' Washington despatch says Gen. Barnard will probably be successor to Gen. Totten, as Chief Engineer of the U. S. Army.

— The United States naval forces now in the Mediterranean are expected to return in the month of June, vessels being now named to relieve most of those now stationed there.

— The Woodbury Steam Mills, the property of N. L. Woodbury, Esq., of Portland, located near Island Pond, were destroyed by fire on Friday morning. This is the second disaster of the kind to this property.—Loss over $20,000: no insurance.

— The accumulation of guns at the Springfield armory, which has been going on for nearly a month, was interrupted last week by a Government order for 4000 to be sent to the arsenal on Governor's Island, New York Harbor.

— During the pork packing season just passed, Illinois packed 1,273,390 hogs, of an average weight of one hundred and ninety pounds. If these were placed in cars, ten tons in each car, each car measuring two rods, it would make a train 75 miles long.

— The Senate has confirmed the nomination of Brig. Gen. Joseph G. Totten, Chief Engineer U. S. A, to be a Major General by brevet from April 21, 1864. He has been sick for some time past, and his nomination by the Presidents is a compliment for his long public service of nearly 62 years.

— The boat racing mania promises to be very high this season. The ball has been fully opened by a challenge from Stevens to Hammill, in which he says he will row Hammill a five mile race for $500 at any time previous to the 1st of July next. It is also said that "Josh" Ward will send Hammill a challenge this week.

— The Senate has provided that the head of the new bureau of Military Justice, or Judge Advocate General, shall have the rank of Brigadier General and an annual salary of $4000 without rations or emoluments, and two assistants are to rank as Colonels and have annual salaries of three thousand dollars each without rations or emolument.

— Mrs. Harriet Davidson Field, wife of David Dudley Field, died in New York on Friday of billious fever produced by exhaustion from excessive labor in behalf of the Sanitary Fair.

— Four parties who are soon to be tried before a court martial on charges of fraud and bribery in furnishing naval supplies, each of whom furnished evidence against the others, are said to be confined in the same casemate in Fort Lafayette.

☞ Sabre cuts, gunshot wounds, and all other kinds of wounds, also sores, ulcers and scurvy, heal safely and quickly under the soothing influence of Holloway's Ointment. It heals to the bone, so that the wound never opens again. Soldiers supply yourselves. Only 30 cents per pot. 233

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

It is supposed by some that the Prince of Wales visited this country in part to obtain a package of Herrick Allen's Gold Medal Saleratus. Whether he did or not, it would do honor to the Queen's table to have as nice light Biscuit as that article always makes. If any one has any doubts on the subject, go to your Grocer and get a paper immediately, and find of a truth that there is nothing like it. Everybody sells it.

MARRIAGES.

Wanted.
A good HOUSE, for a small family without children. Would be leased for a term of years, if satisfactory. Or any family desiring to leave a house, partially or entirely furnished, for six months or a year, will find this a good opportunity to have it properly cared for. Inquire at this office. ap19—1w*

HALEY, MORSE & BOYDEN'S
SELF-ADJUSTING
CLOTHES WRINGER.
THE BEST IN THE WORLD.
Over 40,000 have been sold by the manufacturer in a little more than two years—nearly 400 of them in Portsmouth and vicinity!
Buy one and try it—if not perfectly satisfactory the money will be refunded.
For sale at
E. A. STEVENS'S
House Furnishing Establishment,
NO. 46 MARKET STREET.

French Roll Pans.
A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.
These pans are greatly in demand for baking the New Bread, about which so much stir is being made.
This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.
The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.
Every housekeeper should have one.

SPEER'S SAMBUCI WINE.
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT.
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS
AND
SAMBUCUS TREE, OF PORTUGAL.

[Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and bene ficial qualities as a good Blood Purifier, Tonic, Diuretic and Sedative. Highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Bladder and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture as most Sambucus articles, but is prepared from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm. Improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, is free from the mixture of spirits or other liquors, and is valued for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
the well known gentlemen and physicians of New York and the West:
Gen. W. Scott, U.S.A. Dr. Newark, Gov. Morgan, N.Y. State Dr. Wilson, 11th St. N.Y. Dr. Parker, N.Y. City. Dr. Dougherty, Newark. Dr. J. R. Chilson, " Dr. Pancoast, Phila. Drs. Darcy and Nichol, Newark, N. J.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J." is over the cork of each bottle.

Make One Trial of this Wine.

GOLDEN SHEAF
WHISKEY.
THE DISTINCTIVE FEATURES
OF THE
GOLDEN SHEAF WHISKEY
Are
Pure Ingredients,
Careful Distillation,
Delicate Flavor,
Medicinal Character.
IT CONTAINS IN A CONCENTRATED FORM
THE DISTILLED JUICES
OF
WHEAT, RYE AND CORN,
free from all deleterious substances.
Possessing these qualities, it has become a standard article, and is highly recommended by Chemists, Physicians and Consumers.
Golden Sheaf Whiskey
The refined distillation of the most carefully selected WHEAT, RYE and CORN, and combines NUTRITIVE
MEDICINAL AND RECUPERATIVE
properties which render it deservedly popular as
A Strictly Pure Stimulant.
This celebrated Whiskey is put up by the subscriber in cases, confidentially, and in small cask, and offered to the Trade by his Travelling Agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.
Individual dealers of the country, who wish to be private for OLD PINK WHISKEY, a standard article, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or send their orders for the quantity required to the General Depot for its sale,
99 Washington street, Boston.
Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
Formerly Assistant Physician Blackwell's Island Hospital, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.
Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, to that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.
Our success is peculiar, in the most of the cases it quickly relieves, and then the equilibrium is restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are
Invited to use Constitution Life Syrup.
During the past five years we have contended with obstacles of an overwhelming opposition which has never encountered any reformer.
Rapidity of Cure.
Some say, "Your cures are too quick!" while others doubt their permanence, and think the disease can only be cured by the slow recuperative process of Nature." This is our reply:
"In health, the body, like a well-balanced scale, is in a state of equilibrium. That which may cause down give one side of the scale, we have the effects of disease. What is requisite is, to restore the natural balance of the scale."
CONSTITUTION LIFE SYRUP.
A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from FATHER TO CHILD.
Paralysis.
Hemiplegia, Paresis, Paraplegia, Parabysis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.
Dropsies.
Indigestion, Liver Complaint, Constipation, Weight at Stomach, Bilious Attacks, Want of Appetite, Flatulence, Bad Breath.
Scrofula.
Sirama, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.
This taint (hereditary or acquired) filling life with untold misery, is to all usual medical remedies incurable.
Rheumatism.
Arthritis, Neuralgia, Gout, Lumbago, Sciatica, The Debilitated.
If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and kindred complaints. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicious, of 20 or 30 years standing have been cured by us.
Nervousness.
Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.
Thousands who have suffered for years will bless the day on which they read this notice. To such persons Constitution Life Syrup will this medicine prove an inestimable blessing—directing their footsteps to a Hope which hitherto more than it promised.
Mercurial Diseases.
Salivation, Feeling of Weariness, Burning of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system entirely from all evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It has been discovered that a Mercurial Disease is not to be cured by Mercury.
Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of Skin, Skin
ULCERS, PIMPLES, BLOTCHES,
And all other difficulties of the kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to their companions. Indeed, it is
CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck, or Female Breast, and should be taken at once as the swelling is detected, thus preventing their breaking out into those troublesome and dangerous Sores, which disfigure so many of the younger portion of the community from 10 to twenty years of age. Young children are subject to these troublesome Humors in Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.
All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, of the limbs or abdomen, and in the female, Dropsy of the ovaries and scalp, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. Any disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease depends upon a diseased condition, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.
Functional Derangements or Organic Diseases of the Heart, Palpitation, Disease of Valves—Fluttering, Pain or Dull Sensation, Dropsy of the Heart (see note of Physicians), Pain in Side, Shoulder and Arm, Sudden Stoppage of the Breath, Cough, Difficult Breathing, Fainting Fits, Fluttering, Fainting Spells, Pale Bloodless Complexion, Dropsy, Leucorrhea of the Menstrual Cycle, Spots before the Eyes, Ringing in the Ears, Dyspepsia, Nervous Debility, Sleeplessness, Cold Feet, Forebodings, Horror of Contagion, Fear of Disease, Dimness of Vision, Dry Hot Skin and Emaciation, Nervous Irritability, Restlessness, Pain Between the Shoulders, Leucorrhea of the Menstrual Cycle Spots, all require the aid of the CONSTITUTION LIFE SYRUP.
For all forms of **Secretative Diseases,** either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.
MOST FAVORABLE RESULTS follow, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few doses of the Life Syrup will correct the disorder, and remove the deposit which is directly under the skin.
In Diseases of the Liver, giving rise to languor, disinclination to work, sick stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other symptoms, nothing can be compared to the Great
CONSTITUTION LIFE SYRUP.
☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*
Diseases of the Spine, so usually developed in the young, Hip Disease, Neuralgia, and all Mercurial Diseases, are cured by the Life Syrup. Diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenances, strengthen their weak back and side, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and science have made the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women, and if the constitution is neglected in youth, disease and early death are the results. Do not delay! Remedies are so near at hand, and within the reach of all.
TO MOTHERS AND MARRIED LADIES
It is the aim of the Life Syrup to restore health, discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents miscarriage and premature births, and the terrible diseases, and lessens the pain of the ordeal. Those who have used it think it indispensable. It is highly useful both before and after childbirth, and to prevents disease attendant upon childbirth.
Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be Healthy, for it is Universal in its effects.

CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.
CHEROKEE REMEDY, the great Indian Diuretic, and discovery of the Western Indians, is the Wonder of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Gonorrhœa, Gleet, Leucorrhœa, and chronic gonorrhœa in those cases of Fluor Albus in Whites in females) where all the old nauseous medicines have failed.
It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.
It is diuretic and alterative in its action; purifying and cooling the blood, causing it to flow in all at its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.
CHEROKEE INJECTION is intended as an aid or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and detersive; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.
☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are stopped, and the weakened organs are speedily restored to full vigor and strength.
For full particulars get our pamphlet from any drug store in the country, or write us and we will send it free, to any address, a full treatise.
Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.
Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.
Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

No. 59 Liberty street, New York.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.
The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.
This medicine has been tested by the most eminent men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses remove the appetite for Opium.
Three bottles cure Nervous Debility and Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few bottles restore the rose to the cheek.
This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.
The listless enervated youth, the over-taxed man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find a speedy and permanent relief by the use of this Elixir or Essence of Life.
☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.
Sold by all druggists everywhere.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Recurrence of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.
They cure Suppressed, Excessive and Painful Menstruation.
They cure Green Sickness (Chlorosis).
They cure Nervous and Spinal Affections, pain in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.
Composed of the purest vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.
They may be safely used at any age and at any period, *except during the first three months*, during which the mildness and nature of their action would infallibly prevent pregnancy.
All letters seeking information or advice will be promptly answered, confidentially, gratis.
Full directions accompany each box.
☞ Price $1 per box, or six boxes for $5.
Sent by mail, postage free, on receipt of price
Sold by all respectable druggists.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the whole work of sifting the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

Portsmouth.	
J. Woodman Moses	John K. Holbrook
George Shillbrook	Frank Jones
George L. Treadwell	Henry L. Richards
John H. Piper	John Warburton
Axel Quimby	Louis Green
Robert King	George B. French
John W. White	Philip Woods
James Shaw	Mrs. Mary Jones
James Foster	J. H. Upham
G. C. Dodge	Kittredge Sheldon
Albert F. Merrill	John Teague
William R. Martin	William Cutlage
Mrs. John Lake	Michael Walch
B. F. Martin	James Bowles
Samuel Hall	Tobias Ham
Ira Dixon	Thomas Hodge
William Lawy	Charles A. Hodgdon
John Moore	William Brierley
Charles H. Rollins	Samuel Gookin

And the hosts of others who are using them.
We invite all those in want of the very best Stove in the market to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—OF THE—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.
"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, with the greatest expansive power, and the fire which comes in contact with the air-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass on into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the
MAGEE FURNACE.
